

News of the Week.

NEW BRUNSWICK.

The engine drivers of the N. B. Railroad had their annual excursion to Grand Falls on Saturday last. The special car provided for them by Manager Cram was well filled by the drivers, their ladies and friends. They enjoyed a real good time at the falls and returned on Monday morning.

Work is being still continued at McAdam in the way of completing the new buildings erected in the place of those destroyed by fire, as well as in improving the old buildings which escaped. The machine shop is lively with the hum of industry and the music of machinery. Mr. Haggerty has the interior arrangements made more satisfactorily than was the case in the old one, and it was hard to find a shop more complete, for its size, or more convenient as to the disposition of the machines, and for appliances provided to do work and save work.—*Carleton Sentinel.*

While on his way to his store, this morning Mr. T. H. Hall noticed a partridge in one of the trees on King street, he frightened the bird from the tree, pursued it round the square and finally succeeded in capturing it. Mr. Hall now has the bird at his house, a living specimen of the game of St. John.—(Globe, 4th).

At the annual meeting of the share and stockholders of the New Brunswick Railway, held in the company's offices St. John, Thursday afternoon, the following gentlemen were present: Sir Donald Smith, C. W. Weldon, M. P., Messrs. E. R. Burpee, John McMillan and Robert Meighen. The directors elected for the ensuing year were: Sir George Stephen, Sir Donald Smith, Messrs. Samuel Thorne, J. Kennedy Tod, John S. Kennedy, C. W. Weldon, M. P., E. R. Burpee, John McMillan and Robert Meighen. At a meeting of the directors held afterwards the following officers were elected: Sir George Stephen, president; J. Kennedy Tod, vice-president; Mr. Alfred Seely, secretary-treasurer; Mr. F. W. Cram, general manager, and Mr. W. T. Whitehead, land agent.

The result of the university matriculation examination was made known on Friday. Harry Porter, of Fredericton tops the list, closely followed by Miss Frances Everett. The former has been awarded the Wilnot scholarship. Following are the names of the successful candidates for the full course arranged alphabetically in the different divisions:—

First division—Miss Frances Everett, H. A. Porter.

Second division—H. D. Lottimer, Robert Rosborough, Thos. Simmons, J. W. Sprague, F. C. Walker.

Third division—Miss Christina Cameron, A. S. McFarlane, Miss Sarah H. McKee, Miss Maud McLean, Ernest Ruel, Geoffrey Steady, Robert Watson.

Mr. Wm. Logan, a well-known resident of Stanley, is lying in a very precarious condition at his home just now as the result of an accident, which he met with the other day. He was driving down the hill above B. McMenamin's hotel on top of a load of wood, when the neck yoke of the harness broke causing him to fall to the ground. One of the wheels passed over his shoulder and jaw, leaving very dangerous injuries. Mr. Logan is over 70 years of age, and it is not thought he will recover.

The university students opened the term Friday night with a prayer meeting in the Y. M. C. A. room. All the members of the matriculating class were extended invitations and several of them were present. The leaders of the association sang hymns, and several of them related their christian experience. After the service, cake and refreshments, kindly provided by the president, were served to those in attendance.

At the annual meeting of the New Brunswick Telephone Co., on Saturday, the old officers were re-elected, and arrangements were made for the opening of communication between St. John and Fredericton, and St. John and Moncton.

Saturday morning a collision occurred at Rockland station, on the line of the L. C. R. It appears a special freight took the siding at that point to allow the Quebec express, bound for Halifax, to pass. The special was too long for the siding and the conductor's van extended on to the main line. A brakeman was sent back to flag the express, but for some reason the latter dashed along and the engine crashed into the van at a high speed, wrecking it and considerably damaging the engine and track.

Condon, who is in jail awaiting his trial for the Sutherland burglary, made certain confessions on Friday last implicating James Holland. This morning Holland was arrested on the Quebec express by Sheriff Doucet and posse. Holland had been in Campbellton for the past two or three days and it was thought by some that he had skipped out and accordingly when Condon confessed steps were at once taken to have Holland's movements watched in Campbellton, and Wm. J. Williams, formerly I. C. R. policeman, shadowed him on the train to Charlottetown, where the north and south express trains crossed. The arrest was made very quickly and quietly. Holland entered into no conversation about the matter. He is now in jail.

NOVA SCOTIA.

Thomas A. Lepage, professor in Prince of Wales college, Charlottetown, is dead.

James Poyntz, retired Lieut. Col. of 39th regiment, Imperial troops, died at Windsor, aged 95. He was a Waterloo veteran, his first commission being dated 1814.

The funeral of the Rev. Dr. Rand, the veteran Micmac missionary, took place at Hantsport on Monday.

The British schooner Wandrian, from Parrsboro, N. S., Capt. Wood, was libelled and seized at Bangor on the 4th by Deputy U. S. Marshal Hatheway and placed in charge of a keeper. The seizure was made on complaint of Thomas P. Kennedy of Liverpool, seaman who alleges cruel treatment by the captain, lack of suitable provisions and arrears of wages due. The schooner arrived here Sept. 22d, from Bonaventure, with salt. Kennedy says during a gale off the West Indies he fell from the rig and was severely injured on the leg. The captain refused medicine, made him stand at the wheel all that night and 20 out of 24 hours. During the passage he had no provisions suitable to eat. On arriving here he and three others refused their pay. Kennedy walked all the way from this city to Portland, where he arrived on Wednesday night. The case was taken up by British Vice-Consul Starr and the law firm of Woodwar & Thompson. A hearing will be held Oct. 9, at Portland. Steward Patterson, of the Wandrian, denied Kennedy's story. The schooner was about to depart for Parrsboro.

The new schooner Evolution has just finished loading at Port Williams, N. S., for Havana. Her cargo consists of 2,500 bbls of potatoes. She was built at Spencer's Island, N. S., by the Spencer Island company and is one of the finest schooners in the dominion. Her model was designed by her managing owner, W. H. Baxter of Canning, N. S., who has gained some of the fastest sailing vessels in Canada. He expects to build two or three vessels in the near future, as his vessels are in constant demand.

The Newfoundland steamer Nimrod, at North Sydney, reports that on the 4th inst., lat. 46.18 north, lon. 58.48 west, passed the bark Minnie Swift of Maitland, Nova Scotia, from Greenock for Miramichi, abandoned after collision with the Geographical. Thirty feet of the Minnie Swift's stern stood out of water and the wreck was directly in the track of the shipping. The day previous, seventy miles eastward, passed a lot of debris supposed to be the deck load of the Geographical.

UNITED STATES.

The British steamer Earamore, from Baltimore to Rio Janeiro, foundered at sea in a gale September 5th. All hands are lost except seven, who were landed at Nassau. The total loss is about 28.

The steamer Corona, of the Ouachita Consolidated Line, left at 7 p. m. Wednesday evening for Ouachita river with a full cargo of freight and a good list of passengers. She exploded her boilers at False river, nearly opposite Port Hudson, at 11:45 Thursday morning, causing the loss of the steamer and about 40 lives. The Anchor line steamer City of St. Louis, Capt. Jas. O'Neil, was near and the crew saved many lives. The surviving passengers and crew were taken on board by Capt. O'Neil and very kindly cared for. Among the lost are S. W. Blanks, captain, the first, second and third clerks, the steward fireman, engineer, Billy Young, the second mate, both captains of the deck watch, and eleven passengers. The Corona was on her first trip of the season.

The barn of Josiah Ricker, at Webster was burned Thursday morning. Ricker, while attempting to save a horse, was caught in the flames and burned to death. He was 48 years old; loss \$4,000.

Two miners were killed and 20 injured by an explosion in Calumet and Hecla mines, Michigan, on Friday.

Chicago, Oct. 4.—An inquest has been held in the case of Michael O'Connor, the seventh victim of the accident on the Chicago, Rock Island and Pacific road near South Eaglewood. The jury found Seth Twombly, the engineer, and LaCloche, the firemen, responsible for the man's death, and they returned to jail, being unable to furnish bonds for the sum of \$150,000 each.

Judge Sawyer rendered a decision in the circuit court San Francisco on Wednesday last which will cover the cases of all sealers which have been seized in Behring Sea at any time and have run away to Puget Sound or this port. The case decided is that of L. N. Handy & Co. against Barton Atkins, United States marshal of Alaska. In the summer of 1887 the sealing schooner San Diego, owned by Handy & Co., was seized by the Rush and ordered to Sitka. She went and 577 sealskins were taken from her there. The skins were condemned by the court and Atkins brought them here for sale. Handy & Co. enjoined the sale on the ground that the order of the Alaskan court did not hold here. Judge Sawyer overthrew this plea, and Atkins' proceedings will not be interfered with. The principle of the decision applies also to the schooners San Jose and Ellen, which were seized in Behring sea last year and ordered to Sitka, but came instead to Drake's Bay and afterwards into this port. It also applies to the schooners seized this year which have run away with their prize crews, as it establishes the doctrine that the orders of the revenue officers hold good anywhere in American waters.

General L. B. Faulkner, of Buffalo, N. Y. who has been on trial several days on a charge of having wrecked the Danville National Bank, was on Thursday found guilty.

Great pest fires near Geneva, Minn. It is estimated that 5,000 acres of land have been burned over and 6,000 tons of hay destroyed. There was no means of saving the hay. The fire is in the past, under the surface, and it is unsafe to drive a team near it. Experts estimate the value of despoiled land at \$1,000,000. The damage by burning hay is \$30,000.

BRITISH AND FOREIGN.

Three persons were killed and twenty-seven injured by the railway collision between Foggia and Naples Wednesday. The accident was caused by the negligence of the signal man.

In the railroad accident near Stuttgart Wednesday three carriages were smashed, seven passengers were killed, and forty-three were injured, many fatally.

Two of the principal members of the Cranbourn club, London, were found guilty of gambling and sentenced to pay a fine of £50 or be imprisoned three months. Twenty-one other members were fined £10, others agreed to give sureties in £20 each not to gamble for six months.

A despatch from Crete says the insurgents attacked Turkish troops committing outrages at Cana.

The dockmen of Rotterdam held a meeting recently for the purpose of arranging a strike policy.

OTHER PROVINCES.

Count de Vermont went to Ottawa recently with an introduction from the Montreal Gazette, and got into good society. At the Russell House he ran up a large bill for wine and board which he settled with a bogus cheque on the Garfield Bank of New York. He then borrowed all he could and decamped. He has been arrested in New York.

Morrison's trial is approaching an unexpected early close. Donald Graham gave testimony against the outlaw which will go far towards convicting him. The crown asked that Warren's revolver, which was loaded when picked up, be unloaded to prevent accidents. But it was found that the revolver was already unloaded, and a sensation was created.

The counsel for the crown after the examination of 14 witnesses, declared its case closed. From the evidence submitted by the crown, a pretty strong case has been made out against the prisoner, but the great drawback on its side is the numberless contradictions of important points which have been made by witnesses.

City Engineer Baillarge, of Quebec denies that his report of the department of public works was of the character stated from Ottawa.

The governor general reached Grenfell, N. W. T., Wednesday. His excellency is much pleased with his trip thus far.

A despatch received at Montreal conveys the intelligence of the loss of the steamship Geographical, of the French Bossiere line, 1,608 tons burden, which cleared from this port on Sept. 21, under command of Capt. Paussett. She was loaded with cattle and general cargo and was bound for Antwerp and Havre. The crew numbered 35 souls and there were also 14 cattle men on board. When off St. Pierre, Miquelon, Friday morning, she was run into by the barque Swift, and sunk within a few minutes. Thirty-five of those on board were landed at St. Pierre, but nothing has so far been heard of the others. The vessel was fully insured.

Three children named Walton obtained access to the powder house of the Gypsum mine Cayuga, Friday afternoon. One lighted a match and ignited a quantity of powder. One child was blown to pieces. The other cannot recover.

IN MANY FORMS.

DYSPEPSIA assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B. B. B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite and renovates the entire system.

If the Sufferers from Consumption,

Scrofula and General Debility, will try Scott's Emulsion of Cod Liver Oil, with hypophosphites, they will find immediate relief and a permanent benefit. Dr. H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Phthisis, Scrofula and Wasting Diseases. It is very palatable. Put up in 60c. and \$1 size."

CANNOT FAIL.

MRS. JOHN E. THOMPSON, of Shelburne, P. O., writes: My two children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhoea and summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine.

PARMELEE'S PILLS possess the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system thereby removing disease. In fact so great is the power of this medicine to cleanse and purify, that diseases of almost every name and nature are driven from the body. Mr. D. CARSWELL, CARSWELL P. O. Ont., writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well."

FROM BAD TO WORSE.

SCROFULA leads to consumption. From three to six bottles of Burdock Blood Bitters will cure scrofula, salt rheum, erysipelas, boils, pimples, blotches, tetters, shingles, scald head, sore eyes, and all skin affections, by cleansing the system and removing all impure matter that causes bad blood.

John Hayes, Credit P. O., says: "His shoulder was so lame for nine months that he could not raise his hand to his head, but by the use of Dr. Thomas' Electric Oil the pain and lameness disappeared, and although three months has elapsed, he has not had an attack of it since."

Pullets Should Be Laying.

Young pullets hatched in March and April ought all to be laying this month. Later hatched ones if not laying by November, will probably if left to themselves not lay before spring when eggs are down to fifteen cents per dozen. A well known poultry farmer showed us recently his account for last Dec. with 125 pullets. The net profit for that month from eggs alone was \$39.39; from the same pullets in April following, the profit was \$14.06, and he got 50 dozen more eggs in April than in December. Now this is a striking lesson to all who keep hens for profit. Get all the eggs you can this dull year when other crops are short, as eggs always bring cash. Probably 45 cents per dozen by Christmas. Therefore get the pullets laying early when prices are highest. Rev. S. W. Squires, of Franklin, Mass., says: "For the purpose of seeing how many eggs I could obtain last winter from twelve hens, I used four large cans of Sheridan's Condition Powder. I believe it is the best preparation known to increase egg production. I saved part of the eggs for hatching after forcing the hens four months; all they were worth with the Sheridan's powder, and I never had a greater per cent of fertile eggs or more vigorous chickens. In brief, I do not believe I can afford to be without the Powder to give health and vigor to young hens." Six cans of Sheridan's Powder will pay a good dividend in eggs if you commence early. If you cannot get any near home, I. S. Johnson & Co., 22 Custom House St., Boston, Mass. (the only makers of Sheridan's Condition Powder) will send you for fifty cents, two 25 cent packs of Powder, for \$1, five packs: for \$1.20, a large 24-1 pound can, all post paid: six cans for \$5, express; one large can of Powder, also one year's subscription to the Farm-Poultry monthly both sent post paid for \$1.50. Sample copy of paper 5 cts. Send stamps or cash. Testimonials sent free.

TRIED! TESTED! PROVED!

A YEAR ago last summer I was troubled with dysentery. I procured Dr. Fowler's Extract of Wild Strawberry and took according to directions, which completely cured me. ROBERT E. GREEN, Lyndhurst, Ont. This medicine cures all looseness of the bowels.

C. C. RICHARDS & Co.

Gents.—I took a severe cold, which settled in my throat and lungs and caused me to entirely lose my voice. For six weeks I suffered great pain. My wife advised me to try MINARD'S LINIMENT and the effect was magical, for, after only three doses and an outward application, my voice returned, and I was able to speak in the Army that night, a privilege I had been unable to enjoy for six weeks. CHARLES PLUMMER.

Yarmouth.

Minard's Liniment Cures Garget in Cows.

Pimples, pustules, rash, eczema, all humors and all diseases of the skin, piles, ulcers, sores and wounds, chapped hands, roughness of the skin, are quickly healed and cured by the use of Baird's French Ointment. Sold by all dealers.

A STRONG FOLLOWING.

MANY diseases result from neglected constipation, such as sick headache, bad blood and fowl humors, heartburn, dizziness and general ill health. From one to three bottles of Burdock Blood Bitters is guaranteed to cure constipation and all diseases caused by irregularity of the bowels.

For Cholera, Cholera Infantum, Summer Complaint, Cramps and Pains in the Bowels, there is no remedy that can be more relied upon than Kendrick's Mixture, for children or adults.

You need not cough all night and disturb your friends; there is no occasion for you running the risk of contracting inflammation of the lungs or consumption, while you can get Bickle's Anti-Consumptive Syrup. This medicine cures coughs, colds, inflammation of the lungs and all throat and chest troubles. It promotes a free and easy expectoration, which immediately relieves the throat and lungs from viscid phlegm.

SEVERELY ATTACKED.

I WAS severely attacked with diarrhoea and vomiting, the pain was intense and I thought I could not live till morning. Six doses of Dr. Fowler's Wild Strawberry cured me and I have not had the least symptom of it since. MRS. ALICE HOPKINS, Hamilton, Ont.

"THE ROYAL FLAVOURING EXTRACTS" are made of great purity and strength. Take no other.

A BOTTLE of the "Lotus of the Nile" is a most acceptable present to a lady.
