

News of the Week.

NEW BRUNSWICK.

Ballasting is progressing rapidly on the N. B. railway between McAdam and St. Andrews. There are three trains and about 200 men employed.

Lobsters, says the *Transcript*, continue to be unusually plentiful at Buctouche and vicinity and the hands employed in catching and canning them is somewhat in advance of the number last year. Some factories report that their catch, so far this year, has been equal to the entire catch last season.

The express train, from St. John, Thursday morning for Halifax, met with an accident one mile west of Sackville which interrupted traffic for several hours. A broken axle on the tender caused the tender, the baggage car, the second class car and the forward trucks of the postal car to leave the rails. The rails were torn up for quite a distance, as were also the ties. As quickly as possible a gang of men were at work repairing the line. A young lady was badly shaken up and was considerably scared.

There have been several desertions from the Infantry School recently.

Mr. G. A. Barker has been elected Mayor of St. John, defeating Mr. C. A. Everett.

Beaver Harbor is to have telephone connection with St. George.

Mr. Saye, of Pennfield, received the sad intelligence last week that his son George, whilst on a trip from Calais to Boston, had been knocked overboard and drowned. This is the second son Mr. Saye has lost at sea within a short time.

A three-year-old son of Charles Manuel, of Woodstock, was drowned in the Maduxnekeag Thursday afternoon.

Work on the Tobique Valley railway is being pushed vigorously along. About two hundred and fifty men are employed at present. The company expect to have trains running over the line by September 1st.

The proposed new Round House at Moncton will have stalls for 28 engines. It will be of brick with iron roof. The new erecting shop will be 201 by 110 feet and will be between the present shop and the round house. It will also be of brick. A new coal shed is also to be erected between the round houses. It will be 160 by 30 feet. The I. C. R. shops in Moncton, will shortly be lighted with the Electric Light.

The chimney of Cushing's Mill near the Falls at St. John, fell on Thursday.

Election for Mayor of this city takes place next Monday. Mr. John Richards is the only candidate yet announced.

Cornelius Driscoll, who died in St. John last week, had reached the remarkable age of 105 years.

Harry Turnbull of Stanley is the possessor of a young colt having a caribou head, perfectly formed, while its body is that of a finely shaped horse.

Mr. Moses Steeves, of Steeves settlement, about 80 years of age, walked from Elgin to Petricodiac, a distance of 13 miles, before breakfast, the 25th of May. He then walked home, about nine miles further, and did not seem much fatigued either.

There are fifteen lobster factories in the vicinity of Buctouche, which give employment to about 250 hands.

NOVA SCOTIA.

Last fall, Angus Matheson disappeared at North Sydney while drunk. He had considerable money on his person. Every effort was made to discover his whereabouts and fears of foul play were entertained. Last week his body was found floating in one of the docks.

The Nova Scotia sugar refinery has closed down, owing to the present unremunerative prices of refined sugars as compared with raws.

Of a woman lately sentenced to three months in Halifax city prison The *Herald* says:

Some years ago, Lasher was a dashing society belle. She was a regular attendant at well balls and has often tripped the light fantastic on the floors of the Admiralty House. Since her husband's death, which occurred some years ago, Mrs. Lasher has slowly fallen until she became one of the lowest characters in the city, which degraded condition is due solely to the use of opium.

Tuesday morning four desperadoes broke into the post office at Shubenacadie, N. S., blew open the safe and rifled the packages from Sheet Harbor and elsewhere, taking all the registered letters. The noise they made awoke W. H. Gould, who resides next door to the post office, and thinking there was something wrong, he went out, when the robbers fired two shots at him and then made off. The robbers escaped.

The 128th anniversary celebration of the settlement of Yarmouth on Tuesday brought with it the densest fog known in Yarmouth for years. The dampness and fog interfered with the enjoyment of the 6,000 people in town. The mammoth procession at noon was the largest and finest ever witnessed in Yarmouth. At night the town was generally illuminated.

Two cousins named Fraser and Arthur Benedict of Belmont, Hants Co., while going to school went in the Kennetcook river to bathe. Fraser got beyond his depth and was drowned. Arthur was so frightened that he kept the knowledge of the fatality a secret and proceeded to school, but was so troubled that he couldn't work and finally divulged the trouble to the teacher.

The Telegraph says:—It has been discovered that the dry dock now building at Halifax is not long enough to accommodate the new mail steamships now building. It appears that some one has blundered.

Custus Daley, son of Capt. Jno. Daley, and Harry McBride, started for Granville, in a sail-boat. On their return the boat capsized and they were both drowned. Daley's age was 19 and McBride's 14.

William Campbell, of St. John, who had been working in the Nova Scotia Central railway, visited some friends at Kentville and had a hilarious time. The party drank heavily and three of them slept in one bed. Campbell died during the night from the effects and when his drunken companions awoke in the morning they found they had been sleeping with a corpse for some hours.

On Thursday an extraordinary accident happened to the barque British America while in dock at Hantsport. The vessel was being new topped. In tearing off old planks about the top-sides the chain plates were removed, consequently no support was left to the masts, which, with the yards were all in place. The tide had receded one hundred feet from the ship when, without warning, she listed. The fore and main masts, with all attached, went by the deck, carrying the mizzenmast with a tremendous crash. The most astonishing thing is that, while men were working on the ship and on the staging around her, not one was injured. The loss is \$4,000.

Ship building in Hants County, is looking up. At Windsor a big four masted schooner is in frame. At Avondale a large vessel, probably 1,500 tons is under way, and a barquentine is ready for launching. At Hantsport the frame for a large vessel of about 1,700 tons is up, and at Maitland a 600 ton barquentine is in progress of construction.

Three cases of leprosy have been discovered in Cape Breton, one having reached a most revolting stage. Dr. Smith has been instructed to have these unfortunates removed at once to Tracadie lazaretto; also to watch closely any development of the disease among the neighbors and associates of the lepers and immediately remove any who may hereafter show symptoms of the disease.

E. M. Robertson of St. John, and George Boyden of Worcester, Mass., went sailing from Hall's Harbor last Wednesday. Their boat was capsized by a squall about a mile above this place. They got upon the boat and after much difficulty righted her, but as the water was very rough could not clear her of it. After being two hours in the water Mr. Boyden succumbed and died from exposure. The boat was finally picked up by the schooner Sea Bird and Mr. Robertson was rescued from his perilous position after having been four hours in the water. He was landed at French Cross, twenty miles from the scene of the accident.

The yield of gold in April in Nova Scotia reached 1,951 ounces.

Of Port LaTour the Y. Times says: The shore fishermen appear to be doing very well here. Whenever they go out, they find plenty of fish. The chief complaint hitherto has been lack of bait, and prospects in that respect are improving.

Terrence Collins, a Newfoundlanders aged 23, single, attempted suicide Sunday afternoon by cutting his throat with a razor. Drink and trouble with his sweetheart were the causes. He will probably recover.

The fishing schtr. Hattie D, in Halifax from the banks for supplies, reports that last Tuesday she caught a large halibut, in the stomach of which was found a woman's hand on the finger of which was a gold ring bearing the initials G. W. G.

OTHER PROVINCES.

Toronto has voted \$3,000 for Johnstown sufferers.

Captain Welch, sentenced at Charlottetown nearly two years ago for manslaughter, has had his sentence commuted, and will be set free from Dorchester penitentiary on 11th July next.

The Quebec elections for the Local Legislature will take place, it is thought in October.

Friday afternoon a well dressed lady walked out on the raceway at Prospect Park, Niagara Falls, and holding her arm over her head, leaped into the rushing water that took but a few seconds to sweep the body over the American falls.

Friday morning the works of the Canada powder company near Brockville, Ont., blew up with terrific force, the explosion being heard for miles. Fortunately the men had not gone to work and consequently no lives were lost. Several horses and sheep were blown to atoms.

UNITED STATES.

At Bowling Green, O., Frank James was arrested on Tuesday night on the charge of attempting to blow up Mrs. Mertie Williamson's house with dynamite. He was put in the town jail, where he committed suicide by hanging himself with his suspenders. James wanted to marry the woman, who refused.

After nearly six hours' deliberation the coroner's jury in the Cronin case at Chicago Thursday night, brought in a verdict charging Dan Coughlin, P. O'Sullivan, Alexander Sullivan, one Woodruff, alias Black, either principals, or accessories, or that they had a guilty knowledge of the plot to murder Dr. Cronin and conceal his body, and that they should be held to answer before the grand jury. Alexander Sullivan's arrest was effected without trouble and he was locked up in the county jail.

The general opinion, among well posted people, is that the loss of life by the great flood is between 3,000 and 4,000. It is generally given out that Joannstown and the boroughs adjoining had a population of 35,000, although conservative people put the population at between 25,000 and 28,000. It is supposed that the official reports sent in by different people are conflicting. There is no telling how many bodies have been recovered. A number of stores have started up.

One of the canal banks at Holyoke Mass., gave way Tuesday, undermining the foundations of the Cabot mills, which collapsed, causing a loss of \$100,000.

Chippewa Indians in the vicinity of Mille Lac Lake, Minn., are at work butchering inoffensive settlers.

At Indianapolis, Ind., a sensation was made on Thursday night by the announcement that Patrick A. Ward, President of the Irish-American Republican Club, and the most conspicuous Clan-na-Gael man in the city, had committed suicide by taking poison.

The Maine Farmer has received crop reports from its large corps of correspondents in the state. All agree that the prospects for a bountiful harvest were never better and the season is certainly two weeks in advance of last year. The condition of the grass crop is incomparable, the only variation being perhaps in Aroostook and Franklin counties, where the grass was winter killed. While the fruit crop will not be as large as last year it will be more valuable. Stock raising has received a black eye on account of the low prices of beef. Everything shows that the farmers are not discouraged by the ill luck of last year but have gone to work again in earnest, with a good prospect this season of a rich return for their labor.

BRITISH AND FOREIGN.

News comes from Brazil that small-pox and yellow fever are raging in a virulent form through all the country within 200 miles of Rio Janeiro. The death rate for three days at Santos was 70 per cent. The people are leaving in droves.

The roof of the market in the City of Mexico, fell in Saturday, while the building was crowded with dealers and customers. Hundreds were caught in the ruins. Many were instantly crushed to death. So far eight corpses have been taken from the ruins and 45 wounded persons have been recovered. Many more are missing.

It is understood in Vienna that Russia is at this moment making extensive preparations for war at an early date. It is reported immense quantities of fodder are being stored all along the western railway system, which can mean nothing but military activity. 4,000,000 pairs of boots have been ordered to be delivered within two months' date. A large increase in Russian artillery is contemplated. Gen. Gourko's proposition to erect a new series of fortifications in Portland has been adopted. This will cost from twenty to thirty million roubles. The construction of work will begin immediately in the Warsaw district.

On Thursday an excursion, consisting of 1,200 Methodist Sunday school children and friends, left Armagh in two trains. An accident occurred at a grade on a bank fifty feet high. The first train ascended the grade without trouble and the second section attempted the ascent, but the weight of the train proved too great for the engine and several cars were detached and allowed to run back toward the level track. Before they reached it they came in collision with an ordinary train from Armagh, proceeding at a good rate. The excursion cars were completely wrecked. Fully 70 dead and over 100 wounded have been taken from the wreck and others are buried under the debris. The disaster is unparalleled in the railroad history of Ireland.

George Westinghouse, proprietor of the air-brake patent, which made him wealthy and famous, proposes to build a town for his employees at Wilmerding, near Allegheny, Pa. He has bought six hundred acres, and will spend \$3,000,000 in improving it. A new machine-shop, costing \$1,000,000, will give employment to five thousand hands, and turn out five times the work done at the present mill in Allegheny. The place is to be modelled after Pullman, Ill.

The person who invented the most recent popular toy, "Pigs in Clover," will be rich before the leaves turn this Autumn, for there is an unprecedented demand for it, and the stationers cannot supply the demand. A half dozen factories in the East are turning them out by the tens of thousands, but the public wants more than the factories can make, and the American News Company, which handles the toy, is about a month behind in its orders. The toy is simple. Any one might have hit upon the idea; but none did save the inventor, who was a poor farmer last November and invented the toy to please his sick child. It isn't genius in invention that pays. It is the practical application of a practical idea to practical uses and every day wants.

FARMERS will find "Maud S." Condition Powders invaluable for use in the stable or hen coop.

James Pyle's Pearline is highly indorsed by housekeepers and others who have tried it. No soap is required, and cleaning is done with a saving of much time and labor. All housekeepers should use it.

Baird's Balsam of Horehound promptly relieves and cures obstinate coughs, croup, hoarseness, and all affections of the throat and lungs. It gives immediate relief.

GOOD FLAVORING EXTRACTS are cheaper than poor ones, because they go further. Try the "Royal" and be convinced.

C. C. RICHARDS & Co.

Sirs.—I was formerly a resident of Port La Tour, and have always used MINARD'S LINIMENT in my household, and know it to be the best remedy for emergencies of ordinary character.

JOSEPH A. SNOW.

Norway, Me.

HAVE YOU SEEN the new Perfume "Lotus of the Nile"? It is perfectly lovely.

Minard's Liniment is the best.

The Difficulty Experienced

In taking Cod Liver Oil is entirely overcome in Scott's Emulsion of Cod Liver Oil and Hypophosphites. It is as palatable as Milk, and the most valuable remedy that has ever been produced for the cure of Consumption, Scrofula and Wasting Diseases. Do not fail to try it. Put up in 50c. and \$1 size.

Mr. R. A. Harrison, Chemist and Druggist, Dunville, Ont., writes: "I can with a confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Any child will take McLean's Vegetable Worm Syrup; it is not only exceedingly pleasant but it is a sure remedy for all kinds of these pests. Look out for imitations. Get McLean's, the original and only genuine.

Must not be confounded with common cathartic or purgative pills. Carter's Little Liver Pills, are entirely unlike them in every respect. One trial will prove their superiority.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor, the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

The benefits of vacation season may be greatly enhanced, if, at the same time, the blood is being cleansed and vitilized by the use of Ayer's Sarsaparilla. A good appetite, fresh vigor, and buoyant spirits attend the use of this wonderful medicine.

D. Sullivan, Malcolm, Ontario, writes: "I have been selling Dr. Thomas' Electric Oil for some years, and have no hesitation in saying that it has given better satisfaction than any other medicine I have ever sold. I consider it the only patent medicine that cures more than it is recommended to cure."

The people of this country have spoken. They declare by their patronage of Dr. Thomas' Electric Oil, that they believe it to be an article of genuine merit, adapted to the cure of rheumatism, as well as relieves the pains of fractures and dislocations, external injuries, corns, bunions, piles, and other maladies.

So rapidly does lung irritation spread and deepen, that often in a few weeks a simple cough culminates in tubercular consumption. Give heed to a cough, there is always danger in delay, get a bottle of Bickel's Anti-Consumptive Syrup, and cure yourself. It is a medicine unsurpassed for all throat and lung troubles. It is compounded from several herbs, each one of which stands at the head of the list as exerting a wonderful influence in curing consumption and all lung diseases.

Chronic Derangements of the Stomach, Liver and Blood, are speedily removed by the active principle of the ingredients entering into the composition of Parmelee's Vegetable Pills. These Pills act specifically on the deranged organs, stimulating to action the dormant energies of the system, thereby removing disease and renewing life and vitality to the afflicted. In this lies the great secret of the popularity of Parmelee's Vegetable Pills.

THE WASHINGTON TREATY

is one of the important topics of the day, but more important still to a sufferer from catarrh is the question what remedy shall I use? Try Nasal Balm. It never fails. Mr. John Kelly, Combermere, says:—Nasal Balm has helped me more than I expected it would. I have not felt so well in nine years. I am sure it will make a permanent cure.
