

News of the Week.

NEW BRUNSWICK.

Diphtheria has broken out at St. Stephen.

A Halibut, weighing 150lb., was recently taken in Miramichi bay on a cod line.

Two Chinamen are about to start a laundry in St. Stephen.

St. Andrews is waking up in a business sense. Its latest effort is to compete in the upper province markets with Maine sardines. Success to the St. Andrews sardine.

Hugh McKay, carpenter, and James Smith, builder, were in a bar-room in St. John, when a quarrel arose between them over some money matter, during which McKay threw Smith to the ground, the fall resulting in the latter's death. McKay as soon as he saw what he had done gave himself up. Rum again.

The residence and a great deal of the furniture, including the piano, of Mr. D. S. Gibson, Northampton, Carleton Co., was destroyed by fire.

The meeting of the Baptist Foreign Mission Board on Wednesday was one of unusual interest and importance. Soon after opening a delegation of the executive committee of W. B. M. U., accompanied by Miss Nettie Fitch, their missionary-elect, came to the board meeting. Miss Fitch was introduced to the members of the board, and it was stated by the secretary of executive board that she had been chosen by them to go out to India, and asked the board to make the appointment. The board unanimously resolved to appoint Miss Fitch on the missionary staff, with the request that she go out this autumn. Letters were read from the missionaries urging the purchase of the London Mission Society's property at Vazianagram. A resolution was passed instructing the missionaries to purchase at a cost of \$4,000.—*Messenger and Visitor.*

At the annual meeting of the St. John and Northeastern Railway the following directors were elected: E. McLeod, G. R. Fugle, A. A. Stockton, A. E. Killiam and L. G. deSotram. E. McLeod was elected president, R. G. Stockton solicitor and W. E. Skillen Secretary-treasurer.

The American boat brought about 286 passengers, about 200 of whom made connections with the Short Line train and proceeded on their way to different points in the provinces.

There was a thrilling scene in the court in Winnipeg in the Burke case when Charles Carlson, standing in the witness box, pointed to Burke, in the felon's dock and said: "There sits the man, Frank Williams, who rented the cottage from my father, in which the murder was committed, I fully identify him as I know him perfectly." Burke turned all colors and showed much emotion. Arguments will be given to-day and a decision reached. There is little doubt that he will be extradited.

A correspondent writes to The Sun from Tynemouth that large catches of herring are being made there and that cod fishermen can be supplied with unlimited bait.

Appraisers have awarded the full amount of the insurance, \$6,000 in the Phenix, for damage to Forsyth & Co's stock by fire on Friday morning last.

Glassville, Carleton Co., has, according to the Woodstock Press, "lately come under a scarlet fever visitation, almost epidemic in its character. Its attacks have been confined to the young, those of the most tender years especially being cut off by its ravages. There is scarcely a house in the village and its environs but has been to some extent a place of suffering; while vacant little rocking chairs in not a few homes, and little graves in the 'city of the dead,' and the tears and sorrows of the bereaved—all tell of broken family circles and blighted yearnings of love. So great was the alarm and so bewildering the realization of danger, that schools and churches were closed, business partially paralyzed, places of public gathering shunned, and private intercourse interrupted in 'the worship of fear' that everywhere prevails." The Press notes the valuable services of Drs. Bearisto and Atkinson in fighting the disease, and says that the restraints now laid upon it are largely due to their skill and intelligence.

Tracklaying on the Central railway has been finished. The connecting link was adjusted on Monday last. The work of ballasting is being vigorously pushed forward. The company expect to have the road ready for traffic early next month.

The number of marriages, death and births the last six months beginning the 1st of January and ending the 1st July, as reported by Mr. H. Baxter, division registrar, Norton, are: Marriages 68, deaths 73, births 212, a total of 353.

The construction agents of the Canada Pacific telegraph service, Messrs. E. S. Williams and J. F. Richardson, are making arrangements for the extension of the C. P. R. telegraph system through to Halifax, and expect to begin work before the end of the month. As soon as the wires are stretched connexion will be made with the Commercial and French cable companies' wire, and the C. P. R. will have direct communication with Europe.

NOVA SCOTIA.

The Ouderdonk arbitration board have finished their sitting at Dalhousie and will proceed to Halifax.

Two of the finest head of cattle ever brought to Halifax were purchased by Samuel Caldwell to be turned into beef. The animals were raised by G. Gordon, of Antigonish, and will weigh when dressed about 2800 pounds.

The steam boiler in Stephen Harlow's shipyard at Lockport, N.S., exploded with great violence, completely wrecking the boiler house. The workmen had an almost miraculous escape.

Joseph Myett and his son were proceeding down Porter's Lake, Dartmouth, Saturday afternoon last, in a boat loaded with wood, when the craft suddenly capsized. The man was drowned, but the boy clung to the boat and was saved.

Samuel B. Chute, of Berwick, marketed about 6,000 quarts of strawberries this season. L. D. Robinson comes next with about 5,000 quarts. J. L. Shaw, besides shipping 2,000 quarts of strawberries, expects to gather from his garden this season 100 bushels of gooseberries, 1,000 quarts currants and 3,000 raspberries.

The carriage occupied by Rev. Simon Sykes, formerly of Keswick Ridge, N. B., now of Economy, N. S., went over an embankment at Mahone Bay. Mr. and Mrs. Sykes were on their way at the time to the meetings of the Congregational Union at Brooklyn, N. S. Mr. Sykes was slightly injured, Mrs. Sykes more seriously. They were able, however, to continue their journey, and Mr. Sykes attended the session of the body.

OTHER PROVINCES.

Crop reports from all sections of Ontario indicate that the prospects have greatly brightened since the last reports, and should the present warm weather continue the yield of wheat will be so large in favored sections as to bring the general yield above the average, notwithstanding the losses in low lying grounds. The barley and oats yield will be very large. Corn is backward and will be a poor crop. Potatoes in some sections are a total failure. The root crops are very uneven, depending largely on the nature of the soil. Fruit will not be up to the average, small fruit having suffered greatly by recent frosts.

There will be a pretty full yield of wheat in Manitoba and the Territories this season, but other crops will be light. The harvest on the whole will largely exceed what was anticipated two weeks ago, when lack of rain threatened to minimize the yield to a considerable extent in Manitoba.

A Frenchman arrived at Montreal not long since attired in the garb of a Trappist monk and obtained admittance to the Seminary. He stole \$400 from a rev. gentleman of the institution and departed for parts unknown. Of course he was a fraud.

The ecclesiastical authorities at Montreal have decided that the body of the late Peter McDonnell, City Translator, cannot be interred in the consecrated portion of the cemetery. Why?

UNITED STATES.

The introduction of the electric light has caused a marked diminution of crime in Pittsburg, Pa.

A freight train on the Pennsylvania road was wrecked late last night near Wall station, fourteen miles east of here, by the breaking of an axle of the middle of the car. Fourteen cars were piled up in a heap. One was loaded with whiskey which caught on fire, the flames spreading through the entire wreckage. The train crew all escaped but fifteen or more tramps stealing a ride were pinned in the wreck and eight of them are known to have been burned to death. One dead body was taken from the wreck and two more died while being taken to the hospital. Two newsboys were badly injured.

LATER.—Two bodies were taken from the wreck and it is thought six or eight more at least were killed. The train men estimate the list of dead and injured at 15. A tramp who escaped, said there were at least 25 people on the train; of these 8 or 10 escaped.

At East Saginaw Mich., Charles Blackmar while drunk shot his mother. A grandson of the woman seized a gun and discharged its contents into Charles. The mother and son are fatally injured.

A disastrous fire in the town of Bakersfield, Cal., destroyed every business house in town, besides forty dwellings, involving a loss of perhaps a million and a quarter dollars. Insurance \$300,000.

The north bound sleeping train from Boston for Montreal on the Central Vermont railroad was ditched by a washout early this morning. About a dozen passengers are injured; none seriously. The train hands all escaped. The engine and five cars are badly wrecked. Travel will be delayed 24 hours.

BRITISH AND FOREIGN.

It is reported Mr. Parnell has instructed Sir Charles Russell to withdraw his case of libel against the Times owing to Judge Hannett's refusal to authorize the production of the books of the Loyal Patriotic Union, of which Mr. Houston was secretary.

The Australian mail at San Francisco brings advice that the steamer "Maitai," from Melbourne to Auckland, struck on the rocks June 1 and sank. The purser and cook were drowned.

England will adopt the German method of having the price of the journey printed on every railway ticket. It is a convenient facility for travelling.

Emperor William's Norwegian trip nearly had a fatal termination. While the Emperor and party were viewing Bura glacier, a great mass of ice became displaced and a fragment struck the Emperor on the shoulder, dashing him violently to the ground. Full particulars of the accident have not been received, but it is known the Emperor's injuries are not at all serious.

A number of bishops and others have petitioned the Vatican to canonize Christopher Columbus, on the anniversary of the discovery of America.

The sch. Alta sailed from Bangor a few days ago for Newfoundland with 130,000 brick for St. Johns, Newfoundland. Are our brick makers asleep?

Sir Andrew Clarke, the well-known physician, paid a visit to Lord Tennyson and found him much improved in health and mental activity.

It is reported Gladstone and Morley have approved of the tenants' defence league. Parnell will be president of the league. The main object is to raise a fund for the purpose of giving legal assistance to tenants against combining landlords and not to divert the rent from the proper channels. The Parnellites will meet on Monday to consider Sexton's draft of the new league. A convention, at which the new league will be formally floated, will be held in Dublin, Parnell presiding.

O'Brien, in an interview yesterday, said the chief feature of the new league was a vast national fund to save evicted tenants from the workhouse. The trial of O'Brien has been adjourned until August 29 at the instance of the government.

Bernard Werner, a confirmed drunkard in New York took a dose of paric green in a pint of water. The poison made him sick, but had no deadly effect. In the evening he had his 5-year old child buy him two more ounces of paric green, which he dissolved in a glass of beer. As he was raising the glass to his lips, his wife knocked it from his hand. He regained it, and crowded down his throat the thick green paste at the bottom of it. Then he stretched himself on the floor to die. It took him from 4 in the afternoon till 2 in the morning. His wife and children witnessed his struggle with death, but he forbade them with vile threats to fetch a doctor. When it was all over they told a policeman. Werner left six young children and his sick wife penniless. Who would license it.

Sir Charles Tupper's suggestion for an Imperial convention has received the formal approval of the executive committee of the Imperial Federation league. The committee has decided to appoint a deputation to wait upon and urge the Prime Minister to convene the convention at an early date. Sir Charles informed the committee that his statements at the league banquet were simply expressions of his own opinion, and that they did not commit the Dominion government to any course of action. He also urged that Lord Salisbury be asked to secure the general approval of the House of Lords and the House of Commons to the invitation in order to give it a national character and encourage national and colonial responses.

Scott's Emulsion of Pure COD LIVER OIL, WITH HYPOPHOSPHITES. For Children and Pulmonary Troubles.

Dr. W. S. Hoy, Point Pleasant, W. Va., says: "I have made a thorough test with Scott's Emulsion in Pulmonary Troubles and General Debility, and have been astonished at the good results; for children with Rickets or Marasmus it is unequalled." Put up in 50c. and \$1 size.

THE SUPERIORITY of the "Royal Flavouring Extracts" is purity and strength.

FOR IMPROVING and preserving the health of your Horses and Cattle, use "Maud S." Condition Powders.

A BIG SUCCESS.

FOR summer complaints and diarrhoea I can truly recommend Dr. Fowler's Extract of Wild Strawberry, as I have used it in my family with great success and would not be without it. John B. Havens, Grimsby, Ont. Never travel without it.

LADIES go into ecstasies over the new perfume, "Lotus of the Nile."

Minard's Liniment Cures Colds, etc.

C. C. RICHARDS & Co. Gents.—I sprained my leg so badly that I had to be driven home in a carriage. I immediately applied MINARD'S LINIMENT freely and in 48 hours could use my leg again as well as ever.

JOSHUA WYNAUGHT, Bridgewater, N. S.

THE HIGHEST PRAISE.

I USED a bottle of Burdock Blood Bitters for my Dyspepsia and it proved a perfect cure, and I was blessed the day I got it. I would not be without it now for a good lot. It is worth its weight in gold. Mrs. W. J. Smith, Haley Station, Ont.

Mrs. Celeste Coon, Syracuse, N. Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Parnelle's Pills according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose, without distressing me in the least." These Pills do not cause pain or griping, and should be used when a cathartic is required.

Harsh purgative remedies are fast giving way to the gentle action and mild effects of Carter's Little Liver Pills. If you try them, they will certainly please you.

A PLAIN STATEMENT.

ALL poisonous waste, and worn out matter ought to escape from the system through the secretions of the bowels, kidneys and skin. B. B. B. cleanses, opens and regulates these natural outlets, for the removal of disease.

A distressing cough or cold not only deprives one of rest and sleep, but, if allowed to continue, is liable to develop more serious trouble in the way of Congestions or Laryngitis, or perhaps Consumption. Use Baird's Balsam of Horehound.

Among the many remedies for Worms, McLean's Vegetable Worm Syrup takes the lead; it is the original and only genuine.—Pleasant to take and sure in effect. Purely vegetable.

GET THE BEST.

DR. Fowler's Extract of Wild Strawberry is the best, most prompt and safest cure for cholera morbus, dysentery, sick stomach, cramps, colic, diarrhoea and cholera infantum, that has yet been discovered. Its popularity increases each year. All medicine dealers sell it.

Prompt relief in sick headache, dizziness, nausea, constipation, pain in the side, guaranteed to those using Carter's Little Liver Pills. One a dose. Small price. Small dose. Small pill.

Women with pale, colorless faces, who feel discouraged will receive both mental and bodily vigor by using Iron Pills, which are made for the blood, nerves and complexion.

Words cannot express the gratitude which people feel for the benefit done them by the use of Ayer's Sarsaparilla. Long-standing cases of rheumatism yield to this remedy, when all others fail to give relief. This medicine thoroughly expels the poison from the blood.

Ayer's Hair Vigor has long held the first place as a hair-dressing, in the estimation of the public. Ladies find that this preparation gives a beautiful gloss to the hair, and gentlemen use it to prevent baldness and cure humors in the head.

Mrs. Barnhart, cor. Pratt and Broadway, has been a sufferer for twelve years through rheumatism, and has tried every remedy she could think of, but received no benefit, until she tried Dr. Thomas' Electric Oil: she says she cannot express the satisfaction she feels at having her pain entirely removed and her rheumatism cured.

TORACCO CHEWERS AMONG WOMEN.

A well known physician, while walking down the street with a friend, remarked, a patient of mine lives in that house who is dying—an idolized wife—beyond all help, and tobacco chewing has killed her. Why, doctor! what do you mean? I mean this: her husband is literally steeped in tobacco juice, and the insensible perspiration from his body has become so saturated with nicotine as to be a deadly poison. His wife, before I was called had absorbed enough of the poison so that no human power can save her; and even he will, I believe, end his days in torture from some form of skin disease. The skin is really the most wonderful and important organ of the human body. Night and day, every hour of our lives, it is filtering out from the blood useless and poisonous debris. If it stopped work even for twenty-four hours in this or any case, death would ensue. You can imagine then what it means for a delicate sensitive skinned woman to sleep in a warm bed with an inveterate tobacco-chewer. The skin and mucous membrane of some persons is much more sensitive than others. A person who in summer is subject to hay fever, tanned or burned skin, or in winter to colds, bronchitis, chapped hands, or chilblains, ought always (whether at home or travelling) to keep a bottle of Johnson's Anodyne Liniment near at hand. Dilute the liniment with water and gently bathe, or moisten a cloth with it and lay upon the irritated skin if very sensitive: then wash it clean in the morning with Castile soap and water. If a person who takes cold quickly, or is predisposed to bronchitis or catarrh, or exposed to any poison, irritating to the skin or mucous surface, which might tend to cause consumption will every night, before retiring, bathe the chest and throat with Johnson's Anodyne Liniment and, before dressing in the morning, rub the whole body smartly with a coarse towel, slightly dampened, and then wipe dry, we believe they never would have pulmonary troubles, or disease from defective working of the skin. I. S. Johnson & Co., Boston, Mass., will send a pamphlet, free, describing other uses for this old household remedy, now eighty years old.

A FAMILY AFFAIR.

WE have used Fowler's Extract of Wild Strawberry in our family of six persons during twelve years, and in all cases of diarrhoea, summer complaint, etc., it never fails to cure. This valuable medicine should be on hand in every family.

MRS. ANNA ALLEN, Harley, Ont.
