

News of the Week.

NEW BRUNSWICK.

Messrs. Blair, Wilson, Bellamy and Anderson York County's M. P. P.s, have resigned. Mr. Bellamy has announced that he will not be a candidate again. The other three, with Mr. T. H. Colter, have issued a card as the Government ticket.

A few days ago, Wm. Whelpley, a lad employed in Bryden Bros.' biscuit works, had the fingers of his right hand cut off while feeding the breaking machine.

Tuesday of last week about one-quarter of an acre of land fell in towards the sea, a short distance from Negrotown point breakwater and along the coast line of the Shore Line railway. It is now probable that some extensive improvements will have to be made to the Shore Line railway at this point.

A few months ago, John Desrochers at St. Leonard, Madawaska Co., was murdered. David Jervais was arrested for the crime, but the evidence against him was so slight that the grand jury returned no bill, and he was discharged.

The Moncton Cotton Mill is to pass into the hands of a syndicate.

There will be a large class of matriculants this fall at the University of New Brunswick. The entrance examinations began Wednesday and closed Friday.

John Currier of Oromocto, received a telegram last week stating that his son Daniel Currier had been accidentally killed while working in the lumber woods in California.

Over five hundred dollars in Scott Act fines were collected in September at St. Stephen. One establishment paid three fines during the month. A continuation of this ought to make the business rather unprofitable.

On Tuesday morning, while William Logue, a brakeman, was uncoupling cars at McAdam Junction, the usual disastrous crushing business occurred. Mr. Logue, was caught between the cars, and had the three fingers of his right hand and the upper part of his thumb crushed completely to a jelly. Mr. Logue, who lives at South Bay, was brought on by the train to Fairville, where his wounds were attended to by Dr. McFarlane, of that place. It will be some time before he will be able to resume work.

The opening exercises of the University took place Saturday afternoon at 3.30 o'clock. The Lieut. Governor presiding, the Governor General and party also being present. The subject of Prof. Duff's address was, "Physics in Modern Life and in the University."

The Prohibition Convention Wednesday decided to have its president interview Sir John A. Macdonald in regard to the better enforcement of the prohibitory law in the Northwest Territories.

The body of a man was discovered on the beach at Little River Thursday morning and the police had it removed to the city. The body had been in the water a long time and was terribly decomposed. The flesh was eaten away, and the only possible way by which it could be identified was by the clothing. Numbers of persons viewed the body and at last it was identified as that of John Thomas Foster, who was drowned in the harbor over a year ago. It was identified by Foster's sister who lives in the north end. An inquest was held last night, and after several witnesses had been examined the jury returned a verdict of found drowned.

Fred Moore's shingle mill at Woodstock was burned on Friday, the fire breaking out about three o'clock. The mill was built only three years ago and had five first class shingle machines, with all the best appliances for making shingles for the American market. It had been running full capacity this season, employing 25 men. Mr. Moore had yet a large quantity of cedar logs to saw, so the loss all round is very heavy. There is probably no insurance.

Amos Estabrooks, of the sch. Glengarriff at Sand Cove, went ashore in a boat Thursday night and became intoxicated. Later on he attempted to get back to the vessel and fell overboard, never being seen again. He was 28 years old and, it is thought, lived at Sackville when not at sea.

Marshall Foster, Saturday arrested two suspicious characters on the wharf track near Dunlap's warehouse, Moncton, on suspicion of being train-wreckers. After being arrested they admitted having stolen a ride from Salisbury, and gave their names as George Gardener and James Barrows. The descriptions sent out by the railway do not exactly tally with their appearance, but this may be accounted for.

The list of scholarships and prize winners at the university matriculation has not yet been officially announced but it is understood that A. B. Maggs son of Rev. Mr. Maggs of Gagetown, leads the class and takes the Queens county scholarship, and that Miss Williamson of this city is only a few points behind.

NOVA SCOTIA.

Andrew Young, 42 years old and unmarried, died at Halifax, last week, from the effects of a debauch.

Black & Dickie's immense saw mill at Stewiac, with a large quantity of lumber, was destroyed by fire Saturday night.

OTHER PROVINCES.

F. Waters, of Courtland, N. Y., who deserted his wife there, was identified as George F. Brown, having charge of the Congregational church in Melbourne, Que. The council of the church was called and he was expelled.

A thousand sheep were shipped from Antigonish for St. Johns, Newfoundland, on the 24th ult.

While the wife of Dr. Dostaler, of Maskinonge, Que., was driving home last Thursday from a visit to Louisville, accompanied by Mrs. Piche, Miss Heroux and two children, each aged about five years, and while crossing the Canadian Pacific track a short distance above Louisville, the carriage was struck by a freight train. All three ladies were instantly killed, but the children escaped without a scratch.

Birchall, charged with the murder of Bennell, whose trial took place in Woodstock, Ont., was found guilty, and sentenced to be hanged Nov. 14.

At St. Jean, Island of Orleans, Friday night, a vagabond named Cardinal was fed and given a bed for the night by Benjamin Thivierge, a farmer. During the night Cardinal arose and securing a heavy poker entered Thivierge's sleeping apartment and beat him so brutally that his death may occur at any moment. Cardinal was secured.

UNITED STATES.

Negotiations are progressing for the purchase by an English syndicate of the only lace works in U. S., located at Brooklyn. The price fixed is stated to be a million dollars.

The Prohibition State Convention at Kansas City, Mo., recommends woman suffrage, favors free coinage and arbitration of differences between employers and employees.

Ernest Humphreys, a negro murderer, was taken from jail at Princeton, Ky., by a mob on the 1st inst., and hanged.

Two hundred and two Mormon immigrants who arrived on the steamer Wyoming on the 1st inst., will start for Utah in charge of the elders who accompanied them to New York from Europe. Several male and female missionaries tried to dissuade the young women from going to the Mormon land, but met with no success.

Charles Blackstock, aged 11 years, was attacked by several colored boys on his way home from school Friday. During the scuffle he drew a penknife and stabbed Marshall Cates, colored, about 11 years old, the leader of his assailants, inflicting injuries which caused death in a few minutes. The coroner's jury returned a verdict of justifiable homicide.

All the freight conductors and brakemen on the Illinois Central rail road between Chicago, and Champaign, are out; 500 struck Thursday night, demanding the reinstatement of about 20 of their number which were discharged. At a meeting the strikers decided to ask the cooperation of engineers and firemen. This was refused the strikers. Seeing their case hopeless without the aid of the engineers they decided to return to work.

City Marshal Bird was fatally shot on Friday at Frankfort, Ind., by Arthur Palmer, a sixteen year old horse thief, whom he had arrested. The officer had just reached the entrance to the jail when the prisoner drew a revolver, fired into Bird's left side and ran. He was recaptured.

Leander B. Stoyell, who was run over by a Maine Central train on the trestle near Farmington, Me., Friday night, died Sunday morning after great suffering. The shock of amputation was aggravated, it is thought, by internal injuries caused by his fall to the ground from the trestle, some fifteen feet.

Thomas Quinn, a rotary sawyer in Adams & Co.'s lumber mill, at Orono, Me., caught his right hand in the feed rolls on Saturday morning. The machinery lacerated the flesh in a shocking manner. He never rallied from the primary shock and died Sunday afternoon.

BRITISH AND FOREIGN.

Intelligence has been received in Paris from Noumea, New Caledonia, that sixty leper convicts confined in the penal establishment there made their escape last June. The authorities have been unable to discover their whereabouts.

A St. Petersburg despatch says the Russian minister of the interior is preparing a law authorizing the deportation to Siberia without trial or formality of any kind of all foreigners who have been expelled from their own countries and whose government refuse to recognize them. The law is directed against the mass of Roumanian Jews in Russia.

Madam Bonnet, arrested at Cannes on suspicion of a German spy, has confessed she was in the employ of the German government at a monthly salary of 300 francs besides her traveling expenses.

It is reported from Madrid that Cuba is ripe for revolution. The country is almost in a state of anarchy. In the towns commerce is ruined, and public opinion is so discouraged that hope for the future is abandoned, while in the country strong gangs of bandits and sequestrators are described as carrying on a nefarious trade in the most open and barefaced manner. Trains are stated to have been stopped and pillaged, passengers not unfrequently murdered, farms and homesteads burned and their owners sequestered.

A despatch from Erzeroum says the situation in Armenia has become serious. The Russian government has massed 72,000 troops on the Armenian frontier. The Turks are expecting an attack and are rapidly supplying the Kurds with arms and ammunition and making other preparations to resist the Russian forces. Russia is also increasing the frontier guards on the boundaries of Austria, Turkey and Persia.

It has just been learned from St. Petersburg that during the recent manoeuvres at Rovno four officers of Governor Gourke's army were arrested charged with conspiring against the government. In their possession were found copies of a pamphlet by the Polish revolutionists, urging the people and officers to rise against the government and free the fatherland from a disgraceful despotism.

The Religious Newspaper.

The minister who complains that his people know so little about the thought and work of the church, and yet who makes no effort to put his church paper in each family of his congregation, has more reason, says the Presbyterian, to find fault with his own remissness or indifference than with his people's ignorance. He neglects to place within their reach the very agency which will bring them in contact with a knowledge of what the active minds in the church are thinking about, and what her best workers are doing. He keeps from them the very source of information and quickening which they need. It will not do to say that taking a church paper is their own lookout, or that they should take it without his urging. This is not the way in which he reasons and acts in other matters. When his heart is set upon a particular measure, he talks it up and persists in pressing it upon the attention until a proper interest is aroused and his end is attained. People generally need to be urged to do the very things which are best for them, and about which they should be most intent. Thus it is in regard to the religious paper. Many persons think that they must have their party organ and their county or city paper, but they have yet to be educated up to the use and necessity of taking and reading the church paper. They do not usually subscribe for it until urgently solicited to do so by their pastor, or an agent, or some friend. Would it not, then, be well for each minister, yes, is it not his churchly duty, to work up an interest in the paper or papers of his church during the family visitation, from the pulpit, and by the wayside? There is no doubt that he who circulates such a paper, or gets it circulated throughout his congregation, reaps corresponding advantages. He speaks to a more intelligent and responsive audience. He finds a more wide-awake and active people. He also is the means of carrying blessings to many a household and of extending his influence in ways that he little realizes.

The average height of American recruits is about 3 feet 9 inches. The average height of well-built men is 5 feet 9 inches; of women, 5 feet 4 inches. One inch of height should add two pounds of weight. The specific gravity of the body ranges from 0.950 to 1.030. The heart weighs 260 grammes in women and 330 grammes (10 1/2 ounces) in men; the average weight is 292 grammes. The period of its maximum weight is between fifty and eighty. The amount of blood in the body is one-thirteenth the weight of the body, or five or six quarts, or eleven or twelve pounds. A man dies when he has lost a fifth of his blood.

A BURNING SORE LEG.

Ulcers Form. Hospital and Doctors useless. Crazed with Pain. Cured by Cuticura Remedies. About eight years ago I wrote you from Wilkesbarre, Pa., describing how your wonderful remedies cured me of a wonderful case of eczema or salt rheum. I must now tell you what CUTICURA REMEDIES have again done for me. On the 22d of last September, I had the misfortune to bruise my leg, and I put a piece of sticking plaster on it. Inside of a week I had a terrible leg. My wife became frightened and advised me to go to a surgeon. I went, and doctored for two months, but no good was done me, besides costing me big money. My leg had by this time formed into a ulcer, and got worse every day. I could not stand it any longer, and made up my mind to go to a hospital and see if I could be helped. I went to several here in the city, in turn, but none could do me any good. I had a terrible leg, with a hole in it as big as a dollar, and pain that almost set me crazy. I must now tell you what CUTICURA REMEDIES did for me. I obtained a set, and inside of five weeks my leg was healed up as well as it ever was, except the terrible sore it left for a reminder of what was once a terrible sore leg. These REMEDIES are worth their weight in gold. JOHN THIEL, 117 E. 88th Street, New York.

The New Blood and Skin Purifier and greatest of Humor Remedies, internally (to cleanse the blood of all impurities and poisonous elements, and thus remove the cause), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), speedily and permanently cure every case of itching, burning, scaly, crusty, pimply, scrofulous, and hereditary diseases and humors, infancy to age, from pimples to scrofula.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped and oily skin cured by CUTICURA SOAP.

MUSCULAR STRAINS and pains, back ache, weak kidneys, rheumatism, and chest pains relieved in ONE MINUTE by the CUTICURA ANTI-PAIN PASTER. This is the only instantaneous pain-killing plaster.

MINISTERS AND WEDDINGS.—The "Christian Guardian" referring to several letters it has on the subject of ministers and weddings, says this: For a minister to use his personal influence to secure an invitation back to an old circuit, to officiate at a marriage, is something only to be condemned. Too great willingness to accept such an invitation is also to be condemned. But to say, that no minister should, under any circumstances, go back to marry anyone on an old circuit, is too extreme a position to be rigidly enforced in all cases. It should be borne in mind that the main responsibility is with the parties who invite the officiating minister; and that any evil of this kind which has existed, can best be reached by promoting a sound sentiment on the subject. The loss of the fee is a very small matter. It is the apparent slight that hurts; and this offence is given when a minister from a distance is invited, whether he accepts or not. The custom of giving and accepting such invitations can be discontinued, without laying down any absolute rule, to be carried out in all cases.

We've heard of a woman who said she'd walk five miles to get a bottle of Dr. Pierce's Favorite Prescription if she couldn't get it without. That woman had tried it. And it's a medicine which makes itself felt in toning up the system and correcting irregularities as soon as its use is begun. Go to your drug store, pay a dollar, get a bottle and try it—try a second, a third if necessary. Before the third one's been taken you'll know there's a remedy to help you. Then you'll keep on and a cure'll come. But if you shouldn't feel the help, should be disappointed in the results—should find a guarantee printed on the bottle-wrapper that'll get your money back for you.

How many women are there who'd rather have the money than health? And "Favorite Prescription" produces health. Wonder is that there's a woman willing to suffer when there's a guaranteed remedy in the nearest drug store.

Dr. Pierce's Pellets regulate the Stomach, Liver and Bowels. Mild and effective.

The Raw, Cutting Winds. Bring to the surface every latent pain. A change of even a few degrees marks the difference between comfort and pain to many persons. Happily disease now holds less sway. Science is continually bringing forward new remedies which successfully combat disease. Polson's Nervine—nerve pain cure—has proved the most successful pain relieving remedy known. Its application is wide, for it is equally efficient in all forms of pain whether internal or external. 25 cents a bottle, at druggists.

FOR OVER FIFTY YEARS. Mrs. Winslow's SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

THE MOST EXQUISITE handkerchief perfume—"Lotus of the Nile."

C. C. RICHARDS & Co. Gents.—I took a severe cold, which settled in my throat and lungs and caused me to entirely lose my voice. For six weeks I suffered great pain. My wife advised me to try MINARD'S LINIMENT and the effect was magical, for after only three doses and an outward application, my voice returned and I was able to speak in the Army that night, a privilege I had been unable to enjoy for six weeks. CHARLES PLUMMER, Yarmouth.

Public Speakers, Actors and Vocalists find, and state that Dr. Thomas' Electric Oil relieves hoarseness and irritation in the throat better than remedies specially advertised to relieve that difficulty. This Oil has a wide scope, since it cures external hurts, corns, sores, frost-bite, piles, and a variety of other unhealthy conditions.

D. Sullivan, Malcolm, Ontario, writes:—"I have been selling Dr. Thomas' Electric Oil for some years, and have no hesitation in saying that it has given better satisfaction than any other medicine I have ever sold. I consider it the only patent medicine that cures more than it is recommended to cure."
