There is considerable excitement about Gagetown and the vicinity over the reported discovery on the grounds of Joseph Erb of gold quartz in encouraging quantity.

Hatfield Colwell, a ten year old son of Capt. Colwell of the schooner Progress, was drowned at Jemse on Saturday by the upsetting of a boat.

The St. John common council by a vote of 13 to 12 last week accepted Mr. Leary's proposition to build deep water wharves and an elevator at Carleton, guaranteeing him \$5000 a year for 20 years to do the work, and promising to forward a memorial to the dominion and provincial governments soliciting such further subsidies as are asked for in the proposition, viz: \$5,000 from each.

Fire started in the Plumbing establishment under the Clifton House, St. John, about midnight Saturday. The hotel was filled with smoke, but all the boarders got out safely. The hotel was not injured except by the smoke.

NOVA SCOTIA.

Yarmouth has a new weekly paper, the Yarmouth Light, published by C. Craig.

It is rumored, says the Halifax Herald, that Sir Adolph Caron has expressed his willingness to spend \$50,000 in the erection of a new drill shed at that city, providing the militiamen furnish a suitable site.

Another rich strike of gold is reported at Montague, N. S.

About fifty Italian laborers arrived on Quebec to work on the Digby and unopolis railway.

Carter's hotel, Truro, caught fire in the upper part of the house and the roof was badly damaged. Insured \$2,500.

Capt. J. Templeton of Hampton, N. S. lately caught the king halibut the season, it being eight feet in length and weighing over two hundred pounds.

The large run of mackerel off the Nova Scotia coast has caused a sudden demand for salt in Halifax, and the prices of Liverpool salt have advanced ten cents per hoghead, with the probability of a further advance.

A large immigrant shed is being erected at the deep water terminus, Halifax. It is about 150 feet long and 25 feet wide. It will be divided into apartments, and rooms will be furnished for those who are compelled to remain over night. There will also be a cooking department and dining room, to be solely for the use of immigrants.

An ex-soldier now living in the North west is about to bring a suit for divorce against his wife, who resides in Halifax.

Great interest centres in the sitting of the supreme court at Pictou. The docket includes cases of murder, wife poisoning, attempt to wreck a train, breach of promise, etc. The man Ross, charged with attempting to wreck a passenger train on the Pictou branch was discharged, as there was no evidence to convict.

A dry dock for Torpedo boats is being built in the Halifax dock yard, 250 feet long and 60 wide. It will be covered with an iron shed. Two Torpedo boats leave England in a few days in tow of the troopship.

James Hunter of Westville, N. S., was killed at the railway crossing at Pictou, Friday. He ran along the track to jump on the moving cars. He got his hand upon the rails of the car, but failed to reach the step. He was swung around and his brains were dashed out.

On Wednesday, David and Amos Travis, of Kemptville, were drowned in the river near their home while trying to cross on a log. Their bodies were recovered that night by dragging. They were aged respectively 15 and 18 years.

At the supreme court, Pictou, Daniel Robertson has been found guilty of man-slaughter by killing William Robertson. The murder was due to liquor and Judge Meagher denounced the traffic in eloquent terms.

OTHER PROVINCES.

The crop reports from every section of Ontario are encouraging, with the exception of fall wheat. All the grains promise good yield, and many localities report that never before at this season of the year was the outlook of the farmers more encouraging.

At Moosomin, N. W. T., fire, the supposed work of an incendiary, destroyed the greater part of the business town, entailing a loss of about \$190,000, \$48,000 insurance.

Lobster fishing at the east side, from Boughton Island to Murray Harbour, P. E. I., is reported very good. Factories are taking from 15,000 to 19,000 a day.

The Department of Indian affairs is receiving information from Manitoba and the Northwest territories which contains most favorable prognostications for the harvest. There has been plenty of rain. The crops are doing magnificently.

Recently a delegation of Germans, representing about 100 families, who have settled in the blizzard region of Dakota territory, made a trip through Manitoba. They are now at Winnipeg arranging for the removal of their whole settlement into Canada.

The dry goods merchants of Charlottetown have agreed to close their stores on Monday of each week at one o'clock in the afternoon, and give their employees a half holiday.

UNITED STATES.

Stock men in New Mexico have never before suffered anything like the losses which are now borne on account of the extreme shortness of feed, partly due to overstocked ranges, but mainly on account of long-continued dry weather. There has been no rainfall for six months in the southern portion of the territory. Cattle are dying by hundreds daily.

Three boys, aged 6, 8 and 16, were drowned in the river at Biddleford, Me., Tuesday afternoon. Four boys were out in a boat and the youngest fell overboard. His brother, the oldest boy in the company, jumped in after him; in so doing he knocked the other boy into the water. All three went to the bottom.

BRITISH AND FOREIGN.

The legislative assembly of Victoria has unanimously approved the scheme for the federation of the Australian colonies, and appointed delegates to a convention to consider the subject.

The crop prospects in England are generally excellent and the country never looked more flourishing. Neither warmth nor moisture has been lacking.

Reports have been received of disastrous conflagration in the mining districts of the Ural Mountains near works at Ufalesk and New Janak. A thousand dwelling houses, four school-houses, three churches, hospitals and magazines were completely destroyed. Forty persons were burned to death, 18,000 were made homeless by destruction of the towns.

An explosion at a powder factory Friday at Spandau, Germany, was heard ten miles away. The shock caused the collapse of another magazine, in the ruins of which 180 men were buried, but all were safely rescued.

Information has been received that fourteen deaths from Asiatic cholera have occurred at Puebla de Rugat, in the province of Valencia, Spain. It is believed the pestilence was brought into the province by the soldiers recently returned from the North African garrison.

THE CONGO RAILWAY.—Reports say that satisfactory progress is being made on the Congo railroad. The principal difficulties to be encountered are confined to the first ten miles (starting from Matadi), and two of these miles of track were completed on the 12th of April last. Over one thousand workmen are employed, under the supervision of twenty-five Europeans.

General Religious News.

—In Switzerland there are 340 Young Men's Christian Associations, with a membership of 4,850.

—It is said that of 6,500 theological students in the United States, less than a quarter are college graduates.

—The work on the Adoniram Judson Memorial Church in New York was begun the first of May, and it is expected to have the basement ready by next October.

—Rev. Jacob Freshman, pastor of the Hebrew Christian Church in New York city, is encouraged in his work by receiving two Hebrew converts into church membership, Sunday, May 11, and baptizing another convert the 18th.

—Dr. George F. Pentecost has returned with his family to this country after spending two years in successful evangelistic work in Great Britain. He will remain during the summer at Waterbury, Conn., and will then accept invitations to go to India for similar service there.

—Miss Susannah Warfield, a wealthy unmarried woman, who died a few days ago at "Groveland," Carroll County, Md., has left all her property to found an Episcopal college, which is to be named after her. The endowment amounts to about \$100,000.

—In 1841 there were 8,000 Jews in all Palestine. In 1883 there were 20,000; but so great has been the increase of late that in 1888 the number reached 70,000, about the number that came up from Babylon.

—The Young Men's Christian Association at Berlin, organized some five years ago, met at first with considerable opposition. The clergy as a class looked askance at it, and the church societies opposed it; but now all the evangelical pastors, from the court chaplains downwards, and the leaders in the church associations are in hearty sympathy with the movement. At the recent opening of the splendid building which has been erected for the association, and which includes a boarding-house for young men, with seventy-five rooms, the Emperor took a prominent part in the proceedings, while the Emperor sent a handsome subscription. The venerable Count Von Molke was present, as also were Count Waldersee, chief of the general staff of the German army, and other high dignitaries of the court and the army.

—The average number of colporteurs employed by the Metropolitan Tabernacle Colportage Association during the last twelve months was about 80, but the year closed with 84, as against 74 in 1888, and at this time there are 87 actually at work, being a clear addition of 13. The sale during 1889 amounted to \$9,688, the largest total yet reached, and included 8,782 Bibles.

Scaly Skin Diseases

Psoriasis 5 years, covering face, head and entire body with white scabs. Skin red, itchy and bleeding. Hair all gone. Expensive treatment of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scabs fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA RESOLVENT, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT and one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES, cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use.

Mrs. ROSA KELLY, Rockwell City, Iowa.

IT STOPS THE PAIN.

Back ache, kidney pains, weakness, rheumatism, and pains relieved in ONE MINUTE by the CUTICURA ANTI-PAIN PLASTER. The first and only instantaneous pain-killing plaster. 30 cts.

11,339 Testaments, 220, 713 books, and 365,788 magazines. In addition, 163,000 tracts were distributed; and the colporteurs conducted nearly 10,000 services in about 2,500 towns or villages, which are visited monthly. Addressing the men at the annual gathering a few days ago, Mr. Spurgeon asked if they found the country getting worse? Christian work went on more than ever, and yet the sinful seemed to get worse. 500,000 persons had assembled on a Sunday in Hyde Park, and one paper remarked that probably not one per cent. of that multitude were of the class which gave any attention to any religion. There were entire streets where not one of the inhabitants attended any place of worship. Infidelity was also colder than ever, having learned its methods from sceptical ministers who taught people to doubt what they should have taught them to believe. He was not careful to answer the objections of infidels; the game did not pay, and such people did not believe in their own objections. They had to use holy boldness with such, while showing them the way of salvation. But the difficulty of the colporteur was often with himself. They could not always speak the right word or be at their best; but fretting and crying must be avoided, and unbelief must not get into their own hearts.

A NEW SOCIETY. There is in Santa Cruz, California, a society that has some features worthy of mention. It is composed wholly of women, married or unmarried, and without distinction of color or religious creed. Here are some of the vows which the members make: "I vow not to brag of my own virtue, but this actual or only conventional." "I vow not to read the demoralizing stories published in the newspapers." "I vow not to intermeddle with other women's affairs." "I vow not to let my tongue occupy the floor three-fourths of the time with personalities at public or private meetings." The last vow is not sufficiently limiting as to time, but it looks in the right direction. Speaking of this society a minister sarcastically says that it is "a society which will, beyond question, rise high in the favor of men, and to which single men will look for model wives and mothers-in-law." The society is called "Purana Silence Society."

It is conjectured that specific may yet be found for every ill that flesh is heir to. However this may be, certainly the best specific yet found for diseases of the blood is Ayer's Sarsaparilla and most diseases originate from impure blood.

Harsh purgative remedies are fast giving way to the gentle action and mild effects of Carter's Little Liver Pills. If you try them, they will certainly please you.

For Cholera, Cholera Infantum, Summer Complaint, Cramps and Pains in the Bowels, there is no remedy that can be more relied upon than Kendrick's Mixture, for children or adults.

C. C. RICHARDS & Co. Sirs,—I was formerly a resident of Port La Tour and have always used MINARD'S LINIMENT in my household, and know it to be the best remedy for emergencies of ordinary character.
