

Local Legislature.

In reply to Mr. Rourke Hon. Mr. Ryan said the Salmon River bridge was a by-road bridge. No contract had been entered into by the department of public works.

Mr. Stockton made his motion regarding the expenditure in connection with the bridge.

Hon. Mr. Ryan said any information not contained in the statement now before the house would be furnished.

Mr. Hannington committed a bill authorizing the Moncton school trustees to issue debentures. Mr. H.

explained that the bill was intended to enable the trustees to take up debentures now maturing, and to enable them to erect a new school building, the whole sum not to exceed \$60,000.

—Agreed to.

Mr. Melanson committed a bill authorizing the Westmorland municipality to issue debentures for the erection of a new jail in the county.

Mr. M. explained the bill. A new jail was required in Westmorland, the present one being unfit for the purposes intended. The total amount of debentures proposed was \$12,000.

—Agreed to.

Mr. Labllois committed a bill rendering valid the county valuation made in Restigouche, 1888. —Agreed to.

Mr. Labllois committed a bill amending the law relating to non-resident pedlars. Mr. L. explained that the bill authorized municipalities to impose licenses upon all pedlars doing business in the province, whether such pedlars lived in the province or came from places outside.

Progress was reported.

Adjourned till tomorrow evening.

Saturday's official report scarcely does justice to Mr. Stevens. Referring to public printing he said the government did not include under the heading of printing the item for publishing the debates, while the cost of publishing the Nova Scotia debates was included in the Nova Scotia public accounts. Leaving out that item in both cases, he claimed that the printing in Nova Scotia cost \$4,000 less than the printing in New Brunswick.

Hon. Mr. Mitchell submitted supplementary estimates as follows: To provide for the furniture, heating apparatus, etc., new departmental buildings, \$7,000; to provide for the furniture, heating apparatus, etc., lunatic asylum annex, \$2,000; in aid of Natural History Society, \$125—total, \$9,125.

The house resumed consideration of supply. When the item of \$125 for the Natural History Society was moved, Mr. Hannington objected to considering the supplementary estimates so soon.

Hon. Mr. Blair said the members were in possession of all information they could have until the chief commissioner gave particulars in connection with the items before the house.

Mr. Hannington committed a bill incorporating the trustees of the Mission Church of St. John Baptist, St. John, and for other purposes. He explained the bill, giving particulars of the difficulties between the trustees of the Mission Church and the corporation of St. Paul's in St. John, and how the troubles were brought to a satisfactory close. —Agreed to.

Mr. Ketchum committed a bill authorizing the town of Woodstock to erect a stand pipe and connect it with the system of water works in that town. —Agreed to.

Mr. Pugsley committed a bill amending the several acts relating to the People's Street Railway Co. Mr. P. explained that the bill intended to give the company power to operate the street cars in St. John by electricity.

Mr. Shaw moved the three months hoist. If the substance of the bill was well known in St. John there would be a largely signed petition against it.

Mr. Pugsley showed that over 200 cities and towns in the United States had horse cars run by electricity and claimed that there was no more danger through having the cars by electricity than by horses. The bill was passed.

Mr. Rourke committed a bill amending the law relating to the municipality of the city and county of St. John. Mr. Rourke said the first section was the most important part of the bill. It set forth that each councillor of the municipality of the city and county of St. John, shall be entitled to receive the sum of 10 cents a mile for every mile, by the most direct route from his residence, which it may be necessary for him to travel in going to and returning from any general or special meeting of the council of the municipality.

Mr. Blair committed the bill respecting practice and proceedings in the supreme court in equity. Its object was largely to consolidate the severe acts in equity.

Several sections were passed, when progress was reported with leave to sit again.

Dr. Atkinson moved his resolution for a committee to investigate the management of the government stables at Fredericton.

Hon. Mr. Mitchell said as no charge had been preferred, and as the public accounts contained all the items of expenditure in connexion with the stables, the resolution should not be allowed to pass.

Dr. Atkinson said it was a matter of notoriety that all manner of charges had been made, and if the government were not aware of them it was time such charges had become known to them.

The resolution was lost.

The supply bills were agreed to in committee of the whole.

Mr. Ketchum committed a bill incorporating the Woodstock Electric Light Co. —Agreed to.

Mr. Blair committed a bill to legalize the action of the sheriff of the city and county of St. John and of the sheriffs of the counties of Carleton and York

at the elections held in January last. Agreed to.

The house did not sit on Friday.

Hon. Mr. Mitchell committed a bill authorizing the issue of debentures to redeem certain other debentures. Mr. Powell in the chair. Mr. Mitchell explained that \$148,200 of debentures, were now about redeemable. It was proposed to take these up with debentures bearing not more than 4 per cent. The government hoped to float the debentures at as low a rate as three and a half per cent, which would save one and a half per cent to the province.

Answering Mr. Phinney regarding the Quebec resolutions, Mr. Blair said that no petition had been presented to her majesty by the lieutenant governor or any one on his behalf. Communications of a confidential character had taken place between the several provincial governments and the federal government with a view of giving effect to at least some of the resolutions adopted at Quebec.

The equity bill was again taken up and agreed to with amendments.

Hon. Mr. Ryan submitted returns regarding River view and Mutton bridges as asked for by Mr. Turner; also returns showing the expenditures in Northumberland as asked for by Mr. Burchill.

PARLIAMENT.

Davies moved for the appointment of a commission to inquire into the truth of charges he made against Commissioner Herchmer of tyrannical and otherwise improper conduct in the management of Northwest mounted police.

Sir John Macdonald opposed the motion and said Herchmer had greatly improved the condition of the police.

Mr. Blake said if there was to be any inquiry it might more properly be by the department than by a parliamentary committee.

McMullen moved the second reading of the bill prohibiting the employment of persons in the civil service until they had been five years in Canada.

Mr. McMullen resumed the budget debate.

McKeen delivered an address, showing the disastrous effect which would be produced upon the coal trade of Nova Scotia by any reciprocal arrangement with the United States, and he hoped that the government would not do anything to hazard the protection now enjoyed by that industry.

Hon. Mr. Foster gave notice that he would move the house into committee of the whole to consider this resolution. That it is expedient to provide by law that a bounty of two dollars per ton be paid on all pig iron manufactured in Canada from Canadian ore between the first day of July, 1892, and the thirtieth day of June, 1897, inclusive. He explained that a bounty of \$1 per ton was now paid.

Sir Richard Cartwright objected that this was virtually an extension of the bounty for seven years.

Mr. Jones of Halifax resumed the debate on the budget. He complained that the changes in the tariff would increase taxation half a million dollars and that already more taxation was levied than necessary. The national policy had quite failed of its objects. He found especial fault with the increase in the duty on flour and on beef and pork.

Mr. Mitchell resumed the budget debate. He spoke against the national policy and condemned the recent tariff changes.

Mr. Kenny followed showing the satisfactory condition of affairs in the maritime provinces compared with the eastern states. Dealing with the tariff changes, he thought the duty on the clear pork should not be higher than on mess. The duty on beef he thought was too much and should be reduced. He dwelt upon the attention the government had given to the development of the iron industry. Respecting the duty on flour he said the only possible effect of the recent increase would be to raise the price 25 cents a barrel on American flour, but as there was an abundance of Canadian flour in bond at Boston there was no necessity to buy the American. As a matter of fact since the new tariff was announced there had been no increase in the price of flour, whilst cornmeal had been appreciably reduced.

Mr. Ellis spoke in support of Sir Richard Cartwright's amendment.

News of the Week.

NEW BRUNSWICK.

The Pokiak extract works, which have been closed down for the past several months, will be started up again under the management of Mr. John B. Grant. About twenty hands will be employed.

Ice to the value of \$6,661 was exported from St. John during the month of March.

The employees of James Harris & Co., St. John, now on strike, have decided to stay out until the nine hour system is adopted.

The value of lime exported during the month of March was \$3,673, against \$7,026 for March of last year. The total value of lime exported for the quarter ending 31st March, 1890, was \$18,200, against \$3,790 for the same period in 1889.

James Johnson pleaded guilty before Judge Botsford at Dorchester to the burglary of McDowell's store and Captain Carter's house at that place, and was sentenced to 25 years imprisonment.

Dennis Hogan and Stephen Ryan of Moncton were convicted on Tuesday of violation of the C. T. act and each fined \$50 and costs.

Over 600 immigrants, bound for British Columbia and the North West Territory, passed through St. John Friday.

Mr. Tyler Jewett, of Jewett's mills, died very suddenly on Tuesday of last week. He will be much missed.

The ice in the river below Hamstead is beginning to run. From the mouth of the Jemseg to the head of Spoon Island, with the exception of a half mile at the head of Long Island, the river is open, but the crossing is good for teams at the head of Long Reach.

Gloomy reports come from Grand Manan. Not only has the winter fishery been a failure, but it looks as if the spring fishing would also prove a failure.

Some very perfect counterfeit 25 cent pieces were in circulation in town the past week. The imitation is a good one, with the exception of the ring which is dead.—*Sackville Post.*

On Monday the trains on the N. B. R. began running on the Spring Time Table. The trains now leave Fredericton as follows: Express for St. John and intermediate points, Vanceboro, Bangor, Portland, Boston and points west, St. Stephen, St. Andrews, Houlton, Woodstock, and points north at 6.05 A. M.; accommodations for Fredericton Junction, St. John, etc., at 11.20 A. M.; accommodation for Fredericton Junction and St. John, connecting at Junction with fast express for Montreal and the west via the C. P. R.; also for Woodstock and Houlton, at 3.20 p. m. The arrivals will be at 8.55 a. m., 2.00 and 7.20 p. m. On the Gibson branch the train will leave Gibson for Woodstock at 8.00 a. m.; returning will arrive at 5.55 p. m. Standard time.

Saturday evening the strikers of the Harris car works met James C. Robertson and an agreement was arrived at, whereby the men will return to work tomorrow morning. The men have gained their point to the extent of having nine hours constitute a day's work, but as an offset they submit to a reduction of five per cent in their summer wages.

NOVA SCOTIA.

A young lad in Liverpool, N. S., has just completed a collection of 1,000 postage stamps, some of which are very valuable.

A steamer of about 700 tons is to be built at Digby, to ply between western Nova Scotia ports and Boston.

The Halifax customs receipts for March were \$164,665.64 an increase of \$5,251.87 over the same month last year.

Four or five boys were arrested at New Glasgow on Saturday on the charge of breaking into the freight house there and stealing several caddies of tobacco and some liquor.

Albert McKean, Pleasantville, Lunenburg Co. N. S., has three vessels in his yard in course of construction, all of which are intended for the fisheries. The keels of four more will be laid during the summer.

Counterfeit Canadian ten-cent coins are said to be in circulation in Nova Scotia.

Alex. McQuish, a diver, 18 years of age, employed in the Gower mines, C. B., was instantly killed by the fall of a stone in the mine. He was sitting down in a room waiting for the tub to be filled when the accident occurred.

One hundred and twenty-six ocean steamers arrived at Halifax from foreign ports during the quarter ending 31st March.

It is estimated that there are 3,000,000 tons of ice harvested in Maine.

Mayor Jacobs of Louisville, Ky., says the number killed by the tornado and those who will die will not exceed 150. The losses to those whose homes and all were swept away will not, he thinks, exceed \$500,000. The total amount of the relief fund is \$110,000.

Pittsburg is scourged by an epidemic of black measles.

In Denver, Rawlins Co., Kansas, a father and mother of a family named Chleboard disappeared some time ago. Their dead bodies were found in a well. The children, Grocin and Mary, are suspected of causing their deaths.

Three sons of R. H. Baskerville, aged 15, 13 and 11, and three sons of K. R. Wommack, aged 15, 13 and 12, while playing in a sand cave, near Vernon, Tex., were buried by the bank caving in, and all six were killed.

The fire in the Cameron colliery, at Shamokin, Pa., is beyond control. The entire mine, comprising 25 miles of gangways, will have to be flooded. The loss is estimated at \$1,000,000. The work at the Henry Clay colliery, which has been suspended for three months, will be resumed, giving employment to 1,500 men.

In Vienna, ten thousand builders, 800 bakers and apprentices are now on strike.

A despatch from St. Petersburg to the Daily Telegraph says a man who committed suicide there left a letter in which he confessed he had been selected by ballot to take the Czar's life and that rather than commit the deed he had determined on suicide. The letter also gave the writer's accomplishments, several of whom have been arrested.

Peasants are rising in Riazan, Russia. Blood has already been shed. The agitation is spreading to Finland and Poland. Gen. d'Armes and Cossacks have been sent to quell the disorder. The excitement is intense. Everybody sympathizes with the students.

The Pope has instructed the bishops and clergy of Brazil to recognize the republic on condition that the rights of the church are respected.

The Brazilian coffee crop is reported as middling. It is estimated that 150,000 tons will be available for export.

The Marquis of Normandy is dead at Brighton, in his 72nd year. At different times he held the governorship of Nova Scotia, Queensland, New Zealand and Victoria.

FREE FROM RHEUMATISM. In one minute the Cuticura Anti-Pain Plaster relieves rheumatic, sciatic, hip, kidney, chest and muscular pains and weaknesses. The first and only pain killing plaster. 30 cents.

Sold everywhere. Price, CUTICURA, 75c; SOAP, 35c; RE-OLENT, \$1.50. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

An attempt to wreck the Halifax accommodation, on the Pictou town branch of the Intercolonial, was made Tuesday night. Two pieces of logs were laid, one across either rail, near the middle of Home Brook bridge, which, at that point, is 90 feet high. Fortunately, the cowcatcher was low enough to strike and throw off the obstruction.

It is said the N. S. general election will take place the middle of May. The names of 3,300 persons have been added to the voters' lists in Halifax city.

Watson Bishop, Kentville, has now in tanks at his residence, 60,000 young Ontario Lake trout furnished by government for stocking our lakes. Mr. Bishop placed in the big Gaspareaux Lake year before last 20,000, and last year 50,000. These trout grow to be 5 to 10 lbs. in weight and will make fine sport in 4 or 5 years. Mr. Bishop says that he gets no remuneration for his care of these fish except his pleasure as a naturalist.—*Kentville Star.*

James McLeod, suspected of poisoning his wife at White Hill, Pictou County, is committed for trial at the supreme court.

The Glasgow line steamer Utopia, from Naples and Gibraltar for New York, put in to Halifax for coal. She has 550 immigrants, the toughest crowd that ever struck these shores.

The N. S. mines report is encouraging. 26,156 ounces of gold were secured,—over half a million dollars. 1,750,000 tons of coal were raised, Quebec taking over a third of the total. The royalty to Nova Scotia is over \$130,000 a year.

OTHER PROVINCES.

The Manitoba Legislature has been prorogued.

The Quebec Legislature was formally prorogued Wednesday, and dissolution will immediately follow.

In the Charlottetown poisoning case Lizzie Stewart's mother testified that an unknown man offered her \$300 to get her daughter out of the way and to prevent her giving evidence against Mrs. Weeks.

The sentence of W. F. Callaghan, a prisoner in Dorchester penitentiary, has been commuted from four years to two years. Callaghan was convicted of forgery on the Frederick's Publishing Company, Charlottetown, in January, 1889.

On March 28th a man named Belanger tried to elope with another man's wife, Mrs. Laframboise, both residents of the town of Lancaster, Que. While endeavoring to cross over to Port Louis on the ice they broke through, and both were drowned in the sound channel of the St. Lawrence river.

The final action of the Weeks-Sutherland preliminary examination occurred Saturday morning when Mrs. Weeks was sent to the supreme court for trial. Bail was given.

Six thousand settlers have gone to the Northwest this spring to locate, and special trains, heavily loaded, are arriving daily. About a thousand French Canadians are among the number.

UNITED STATES.

It is estimated that there are 3,000,000 tons of ice harvested in Maine.

Mayor Jacobs of Louisville, Ky., says the number killed by the tornado and those who will die will not exceed 150. The losses to those whose homes and all were swept away will not, he thinks, exceed \$500,000. The total amount of the relief fund is \$110,000.

The Marquis of Normandy is dead at Brighton, in his 72nd year. At different times he held the governorship of Nova Scotia, Queensland, New Zealand and Victoria.

A DANGER SIGNAL!

A cold in the Head may be aptly termed a danger signal warning you that if neglected that dangerous and disagreeable disease, Catarrh, is sure to follow, perhaps leading to Consumption and the grave. At no season of the year is Cold in the Head more prevalent than during the Spring months, and at no other season do the people of this country suffer in so generally from Catarrh, with all its disagreeable and annoying effects. Do not for an instant neglect either of these troubles, but apply NASAL BALM, the only remedy that will give instant relief and effect a thorough cure. The following testimonials from among thousands in our possession bear witness to its sterling merit.

Wm. L. Lucas, Dempsey Corners, N. S., writing for a second supply of Nasal Balm, says: On September 21 I got two bottles from you, and it has done me more good for Catarrh, than all the other numerous and costly remedies and treatment I had tried. I feel better now than I have for years, and have every reason to believe the two bottles I am now sending
