#### The Parting of the Ways.

Wilkins and Watkins were college chums and close friends. They had been hard students and had taken little out-door exercise. When they shook hands and said good-bye, at the end of their college career, they were in impaired health. Both had dyspepsia, liver troubles and troublesome coughs.

Wilkins had plenty of money, and had decided to travel for his health. Watkins was poor. "I must go to work for my living," said he, "but I'll try the remedy that Robinson talks so much about—Dr. Pierce's Golden Medical Discovery."

In less than two years, Wilkins came home in his coffin. Watkins, now, in the prime of life, is a bank president, rich and respected, and weighs 200 pounds. "The 'Golden Medical Discovery' saved my life at a critical time," he often says. "Oh, if poor Wilkins had only tried it!" For weak lungs, spitting of blood, all lingering coughs, and consumption in its early stages, it is an unequalled remedy.

If so, go at once to any drug store and buy a bottle of Polson's Nerviline. Polson's Nerviline never fails to relieve neuralgia, cramps, headache, rheumatism, and all internal or external pains. J. B. Carman, druggist, Morrisburg, writes: "All the parties I supply speak very favorably of Nerviline, and always purchase a second lot." Polson's Nerviline is sold in bottles at 25 cents—by all druggists and country dealers everywhere.

Differences of opinion regarding the popular internal and external remedy, Dr. Thomas' Electric Oil—do not, so far as known, exist. The testimony is positive and concurrent that the article relieves physical pain, cures lameness, checks a cough, is an excellent remedy for pains and rheumatic complaints, and it has no nauseating or other unpleasant effect when taken internally.
