

News of the Week.

NEW BRUNSWICK.

Fredericton is to have the incandescent light soon.

In the police court, Fredericton, Thursday, Wm. Wilkinson, a Scott Act offender, was fined \$50 and costs.

The coal-sheds of the I. C. R. at St. John were almost completely destroyed by fire Wednesday. The loss is said to be between \$2,500 and \$3,000.

Walter Jenkins and James Jenkins of St. Stephen—father and son—have been committed for trial, one for stealing from Messrs. Broad & Son, and the other for receiving stolen property.

A meeting was held last week at Dr. Torrens', office, and the New Brunswick Dental society was organized. The officers elected were Dr. A. F. McAvenny, president, Dr. B. H. Torrens, vice-president and Dr. Murray, secretary treasurer.

A. B. Spence of St. Stephen has a fine farm at Rusignish, which is now in the best of order, and has been rapidly improved. The orchard on this property has been set out with 2,200 apple, and 200 plum trees, all doing well, and calculated to yield good returns. There are fifty head of cattle to be seen grazing on the rich pasture lands. Two commodious barns have been erected, one of which cost \$1,000.

Blueberries in large quantities are shipped to Boston daily from points between Welford and Fredericton Junction.

Twenty-eight lots of ordinance land at Edmundston were sold last week, at public auction; \$4,349, in the aggregate, was the result of the bids, the lots selling from \$45 to \$900.

Saturday is voting day in Victoria Co.

Another fatal railway accident occurred shortly before three o'clock on Saturday, at the Portland street crossing—a man about 55 years old, Hugh Montague, who lived just by the crossing. The deceased left the house just before the train came along, and in attempting to cross the track was struck and thrown some distance by the train.

The driver, Frank Connor, saw the old man step upon the track before the engine but it was too late to stop. When picked up blood was flowing from the deceased's mouth, and he had evidently been internally injured in addition to having his legs crushed. The deceased was deaf and doubtless could not hear the train. It is probable that Coroner Berryman will hold an inquest Monday.

The persons who are engaged in developing the silver deposit near Woodstock, are very hopeful of success. Every day the indications are more favorable.

The Moncton Transcript gives some details of the work now doing at Hillsboro in regard to operating the manganese mines. The mines have been sold to a New York company represented by Messrs. Stephen G. Day and W. Andrews, who intend to operate them for the ore, and the Record Foundry, at Moncton, is making the drying fountain and other apparatus. There is no duty on manganese in the United States, and there is quite a demand for it in that country.

Geo. T. Baird, government, and James E. Porter, opposition, were nominated this morning. The court adjourned till 2 p. m. Hon. A. G. Blair and Wm. Wilson, M. P. P., are here and will probably address the electors on behalf of the government, and Dr. Atkinson, M. P. P., on behalf of the opposition. At 2 o'clock Mr. Baird took the floor. The attendance is the largest ever seen at a nomination, and the election will be close.

A seven-year-old son of James Irvine, of Milford, was knocked down by a team in Fairville on Saturday night and very seriously injured. The young lad was taken home and when Dr. Gray reached the house was unconscious. He regained consciousness Sunday and will recover.

The arrangements for Canada's International Fair to be held at St. John, from September 24th to October 4th are making good progress. With the large additions that have been made to the grounds and buildings, much more accommodation is offered, than has ever before been afforded in the maritime provinces, but from the large number of entries now coming in, it is evident that even the increased space will be filled to overflowing. The exhibition proper promises to be unusually attractive, and with the array of special attractions that are being arranged for, the public will be well repaid for a visit during the exhibition in St. John. Write to Ira Cornwall secretary of the exhibition association, for the prize list and other information.—Herald.

Peter Black of Green Point, York county, was killed at Starkey bridge, seven miles from Fairville, Friday morning. The deceased was working on a ballast train, and when the bridge as reached the work of unloading as commenced. Black was thrown on the top of a car by a sudden start of the train and the wheels of a gravel truck passed over his loins, mangle him terribly. His remains were brought to Fairville where Coroner Robinson held an inquest. Herbert Lingley, conductor; F. W. Henderson, driver; John Shea, Duncan Black, and Fred Mason were examined and gave details of the accident showing that the train men had been warned to look out for jolt when the train had been moved. The verdict was one of accidental death. It was the first day on the road for the deceased. He was about 45 years of age. Duncan Black, a nephew of the deceased, took charge of the remains and will arrange for the funeral.

John Hunter, charged with selling an intoxicating beverage at Stanley, York county, has been fined \$50.

NOVA SCOTIA.

David Langille, son of George Langille, was crushed to death at River John, while unloading a car in a ship yard.

The provincial government's crop bulletin says that hay, though below the average, is satisfactory, and root crops look well. The Colorado beetle is troubling potatoes and is more formidable than in any former season in Nova Scotia. Barley is successful wherever sown, but oats will be poor, owing to the red leaf blight and attacks of the green fly. Orchards are making immense growth of wood, but the fruit will be much less abundant than usual.

Parties have been prospecting for coal at Walbrook, King's County, N. S., for the last week. It is reported they have found an out crop of two small seams, which they are industriously following up.

Another discovery of coal is reported from Saltsprings, Cumberland. The seam is three feet thick, and dips at an angle of 20-290. The coal is good quality, and this discovery in connection with one previously made is of great importance.

More plaster has been shipped from Walton, N. S., this season so far, than during any year for a decade. Not a man who desires employment is out of work.

Lieut. Stairs of the Stanley expedition, is in Halifax, visiting his mother.

The forty-fifth annual meeting of the Baptist Convention of the Maritime Provinces will be held in the Temple Baptist church, Yarmouth, N. S., commencing on Saturday, August 23, at 10 o'clock, a. m.

The unfavorable prospects of a settlement at Springhill still remain the same. Thursday 24 men left for Little Glace Bay, Cape Breton, says the Press. It is now reported that the pumpmen have given three days' notice, from Monday last, to leave their work, should no settlement be come to in the meantime. It is feared that, should fresh men be put in their places, it will lead to a disturbance; whereas, if the mines are not kept clear, they will become utterly worthless.

A despatch from Spring Hill, Friday says the mine managers offered to compromise the cause of the strike, but men claiming that they have justice on their side refused. All the machinery in the mine is now at a stand-still and fires are out.

A mulatto girl named Symonds was ordered to be sent to the home for friendless women by Stipendiary Motion, but when she was taken to the institution by the police she was refused admittance, said to be on the ground that she was colored. The girl was taken back to the police station and sent to jail. It is reported that she is now ill with diphtheria.—Halifax Echo.

A company has recently been organized in Halifax to work the extensive marble deposits at Marble Mountain near West Bay, Cape Breton.

Four men lost from fishing schr. Seaway, of Chezzetcook, in a fog, arrived at Halifax yesterday, three days without food or water.

OTHER PROVINCES.

The population of Ottawa city and suburbs, according to the recent local census, is 51,378.

English mills of the 17th of July were delivered in Victoria, B. C., on the 1st of August, the fourteenth day out, from all parts of England, via the Canadian Pacific. This is the quickest time on record.

What is expected to turn out a brutal murder occurred at Etchemin, opposite Quebec, Wednesday night. A brother and sister named Dubois having quarrelled, the man threw his sister down stairs, and she received probably fatal injuries.

Deputy Minister of the Interior, Burgess, has returned to Ottawa from a western trip and says that all danger to the crop from frost is considered over.

The St. John's Nfld. board of health announces the city clear of diphtheria, which has been rife the past eighteen months.

A boat containing two unknown men got into the current on the Canadian side above the Horse Shoe Falls, Thursday, and both were swept over the falls.

The Toronto Globe says the winter apple crop of Ontario is a comparative failure.

UNITED STATES.

Prairie fires are devastating the western part of Kansas. Ford and Edwards counties are suffering the most. In the northern portion of Ford county a track twenty miles square was burned over inside of two hours after the flames started. So far no loss of human life is reported, but in numerous instances live stock has been destroyed in addition to crops of all kinds.

The lumber industry in the Southern States has become an important one of late years. Five years ago there was 850 saw mills in Georgia, Alabama, Florida, Mississippi, Louisiana, Texas and Kansas. There are now 2,054. The Southern red pine now finds its way into the Northern markets, and competes to some extent with the white pine grown in Canada.

The most disastrous fire Norwich, Conn., has had for twenty years broke out in Beckwith's flour and feed mill and store at 2 p. m. Friday. The building was an old wooden one, three

stories high and was used for more than fifty years as a feed store. The fire caught from a spark from the chimney. Beckwith had just put in 30,000 bushels of corn and oats, and more than thirty tons of hay. He had a large stock of flour and feed on hand. The total loss will reach \$35,000; insurance, \$11,000.

Jerome Sweet, who killed his wife Catherine by pouring oil on her and setting her on fire, was arraigned Saturday night on the charge of murder. He pleaded "Not guilty," waived examination and was committed without bail. This morning Sweet was taken back to Cranston jail.

BRITISH AND FOREIGN.

During a very heavy storm at Crefeld, Germany, a house containing 50 inhabitants fell to the ground and 13 persons were killed, 20 were rescued more or less injured. Twelve are still buried in the wreck.

Seven persons were killed by the bursting of a steam pipe on the Russian man-of-war Tcherna at Sebastopol the other day. Among the victims was Prince Khilkoff.

The king of Holland is in a feeble condition and is confined to his room.

The situation in Wales is becoming more serious. The strikers, encouraged by the support of the Sailors, Union and other sympathizing organizations, are more than ever determined to fight to the end and are certainly making great headway in the matter of obtaining converts to their cause. The dock laborers at Cardiff have succeeded in persuading several railway crews to leave their trains, which are now at a stand-still, the company not having been able to secure men to take the places of the deserters.

Recent information confirms the report of the murder in the Sudan by Arabs of F. M. Gates, E. Kingman, and John E. Iaderquest, missionaries who with seven others left the U. S., in May last. Particulars are not known.

Stanley, in a recent lecture in London, made the somewhat remarkable statement that Christian missions to Africa had nothing to fear from the Arabs, who were always supposed to be very inimical to Christianity; but that the cause of religion was much more likely to be seriously injured by the strife between the Protestant and Roman Catholic missionaries.

One-half of the town of Moncton, France, was burned Wednesday. Forty persons were injured.

The report from Madrid says that cholera is nearly extinct in the place from which it was reported.

The Lancet, the leading medical organ, discussing the Kemmler execution, says: "The operators in the Kemmler case used their mimic lightning with all the clumsiness of mortal inability. They burned the skull and a portion of the back, and exploded the sinuses of the brain. No doubt they were fortunate enough to render the man senseless at the first blow, just as they would have done if they had struck him on the head and back with a red-hot hammer, but there was found no mark of the electrical current in or through the viscera of the body. The man was killed by concussion of the brain and explosion within the closed cavity of the skull, just as a man may be killed by apoplexy or sunstroke."

SKIN DISEASES.

Itching, Burning, Scaly, Crusted, Pimply and Blotchy Cured by the Cuticura Remedies.

A Clergyman's Testimonial.

About two years ago I was attacked with an inflammatory disease on my face (pettyrasis), which was very troublesome, being extremely itchy and painful, giving rise to the production of small bran-like scales. My general health was affected by it. I used the CUTICURA RESOLVENT, CUTICURA, and CUTICURA SOAP according to directions, and experienced a change from the very first day; they worked wonderfully, and by their continued use for about five months I was completely cured. I have unbounded faith in the CUTICURA REMEDIES. I regard the CUTICURA RESOLVENT as the very best blood purifier; a trial will convince any one. The CUTICURA SOAP is the best in the market, and cheap at twice its present price. I shall use no other for the toilet and bath. With the prevalence of skin diseases among us as a people (and they are the most difficult to deal with), I regard the CUTICURA REMEDIES of more importance and intrinsic value to the world than any other medicine now before the public. I am, with deep gratitude,

(Rev.) WM. CREELMAN,
York Corner, Me.

Cuticura Remedies.

Are compounded upon scientific principles, are absolutely pure, delicately manufactured and in every respect bear the stamp of a refined and cultivated origin. Whenever there is the highest intelligence, there you will find the greatest appreciation of these remarkable remedies. CUTICURA RESOLVENT, the New Blood and Skin Purifier and greatest of all Remedies, internally (to cleanse the blood of all impurities, and thus remove the cause), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), cure every species of itching, burning scaly and pimply diseases and humors of skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary.

Sold everywhere. Price, CUTICURA, 75c; SOAP, 35c; RESOLVENT, \$1.50. Prepared by the FORTY DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

LOVE LEST, Whitest, Clearest Skin and

Softest Hands produced by CUTICURA SOAP.

Weak Painful Kidneys: With their weary, dull, aching, lifeless, all gone sensation, relieved in one minute by the CUTICURA ANTI-PAIN PLASTER, the only pain-killing plaster.

AN EVANGELIST engaged in holding revival services in Newark, N. J., asked all in the great audience who had been converted before the age of twenty to arise. Two hundred and fifty arose. Then all those converted between the ages of twenty and thirty were requested to arise, and one hundred and three arose. Between thirty and forty there were fifty-six converted; between forty and fifty, nineteen; and between fifty and sixty, none. As years increase the probabilities of conversion diminish. There may be some who shall read those lines whose chances of salvation are rapidly diminishing. They are not so near the kingdom of God now as they were twenty years ago. They are drifting down to eternity and drifting away from God. There is but one way: Come to Christ now. The time is short.

INGERSOLL has perambulated this continent lecturing against the Bible, and making money out of his assaults on the most precious doctrines of God's Word. With all his eloquence and popularity, what has he effected? He has gratified the haters of the Lord. He has confirmed the vicious in their sinful ways. He has grieved many loyal and true hearts. If these are achievements to be proud of then Ingersoll has a right to be proud. We have never yet heard of a life he has saved, of an hospital he has aided, of any deed of charity he has done. We have not heard of any drunkard he has reformed or any debauchee he has reclaimed to the paths of virtue. It is significant that the assailants of the Bible are usually the apologists of a low and base morality. This is true of Ingersoll, at least.—Pres. Witness.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. Small price. Small dose. Small pill.

My friend, look here: you know how weak and nervous your wife is and you know that Carter's Iron Pills will relieve her, now why not be fair about it and buy her a box?

Mr. Thomas Ballard, Syracuse, N. Y., writes: "I have been afflicted for nearly a year with that most-to-be dreaded disease Dyspepsia, and at times worn out with pain and want of sleep, and after trying almost everything recommended, I tried one box of Parmenter's Valuable Pills. I am now nearly well, and believe they will cure me. I would not be without them for any money."

C. C. RICHARDS & Co.

Gents—I have used MINARD'S LINIMENT in my family for some years and believe it the best medicine in the market, as it does all it is recommended to do.

DANIEL KIERSTEAD.

Canaan Forks, N. B.

John Mader, Mahone Bay, informs us that he was cured of a very severe attack of rheumatism by using MINARD'S LINIMENT.

Baird's Balsam of Horehound promptly relieves and cures obstinate coughs, croup, hoarseness, and all affections of the throat and lungs. It gives immediate relief.

GOOD FLAVORING EXTRACTS, are cheaper than the poor ones, because they go further. Try the "Royal" and be convinced.

The best and surest dye to color the beard brown or black, as may be desired is Buckingham's Dye for the Whiskers. It never fails.

Money saved and pain relieved by the leading household remedy, Dr. Thomas' Electric Oil.—a small quantity of which usually suffices to cure a cough, heal a sore, cut, bruise or sprain, relieve lumbago, rheumatism, neuralgia, excoriated nipples, or inflamed breast.
