

**OF MINISTERS.**—Rev. M. B. Shaw (Baptist), for some time pastor of Mill on church, Yarmouth, has accepted an appointment as missionary to India. Rev. J. L. Blair (Presbyterian) died at Florenceville, C. Co., last week. He was a highly respected minister. Rev. Dr. Rylance (Episcopal) of New York, has been awarded \$10,000 in a suit against one of his members for circulating untruthful reports about him. Of the 1,100 ministers of the Free Church of Scotland only 650 profess to be total abstainers. We regret to hear that members of the family of Rev. O. M. Mott are ill with diphtheria. We hope to learn of their recovery soon. Immanuel Baptist Church, of Toronto, has called the Rev. W. H. Cline, of Halifax, to its pastorate. He will accept. Rev. B. N. Hughes (Baptist) has been spending a few days amongst his friends in Fredericton and vicinity, and he has many of them. He preached at Gibson, and in the F. B. Church of this city, with much acceptance. Rev. E. Evans, pastor of Centenary church, continues so ill that he is unable to attend to his pastoral duties.

**LECTURES.**—Rev. W. K. Burr Ph. D. lectured in the F. Baptist church of Dover W. Co. the 1st of April at 7.00 o'clock—Subject: "Character."

Rev. A. C. Thompson is expected to deliver the next lecture which will be near the middle of May

**PATENTS.**—The number of applications for patents, in Canada last year was 3,279, and the number of patents granted 2,725, for which fees were paid to the amount of \$72,411. The patents for the year belonged to the following countries: Canada, 609; England, 203; United States, 1,788; France, 18; Germany, 51; other countries, 56. The Canadian patents were distributed among the following provinces: Ontario, 383; Quebec, 129; Nova Scotia, 30; New Brunswick, 22; P. E. Island, 2; Manitoba, 32; and British Columbia, 11. Patents in Canada may be taken for 5, 10 or 15 years, and as might be expected the vast majority are taken for the shorter period, so as to save the proportionate amount of fees, if the invention does not prove commercial success.

**CORRECTING THE PRESS.** The ordinary reader has no idea of the care required to present him with columns of reading matter reasonably free from errors of the press. Dr. Field in a recent *Evangelist*, tells of the pains taken to remove all errors from his new book: During its preparation there has been the greatest care in setting up the pages, before they were sent to the stereotyper, on the part of the writer, and of every one in the composing-room, that no possible mistake should be made, even in so small a matter as punctuation—the putting of a comma in the wrong place, or leaving it out where it ought to be. After passing under so many pairs of eyes, we felt reasonably sure that it was all right. Yet, as if to teach us humility, and that there is no perfection here below, when all had been done, and the book was on the press and nearly off, we discovered a mistake of one word. On page fifty-two, the ninth line from the top, the word *company* had been set up as *country*, a change which destroyed the meaning of the sentence!

The newspaper man suffers much in this line. Sometimes he is "humbled" by finding his nearest sentences somewhat chaotic. But the wonder is that errors of the press are not more numerous.

**Literary Notes.**

The *Homiletic Review* for April is to hand. The ability, freshness and variety which has so long characterized this Review is emphasized in this number. The Liturgical question is discussed by Dr. Witherpoon. Prof. Pattison gives a paper on The Relation of Preaching to Christian Work and Worship. The Law of Love in Business is crisp and comprehensive. Prof. Schodde writes on Protestant Church Problems in Germany. Dr. Kennard gives a second paper on The Cultivation of Physic Energy, which every preacher and public speaker should read. The Sermons are by such preachers as Bersier, of Paris, Dr. Davis, Dr. MacLarin, Dr. R. S. Storrs, Dr. Allison and others. The Prayer-Meeting Service, and the Easter Service, are specially adapted to the season. The Editorial and other Departments are all well filled with matter of interest and instruction.

Published by Funk & Wagnalls, 18 and 20 Astor Place, New York. \$3.00 per year; single copies, 30 cents.

STANLEY'S OWN BOOK, entitled "In Darkest Africa, and the Quest, Rescue, and Retreat of Emin, the Governor of Equatoria."

Mr. Stanley has advanced so far with his account of his adventures in achieving the rescue of Emin as to be able to announce the title of his book. All sensible persons will await with patience for the publication of the authentic account. "In Darkest Africa, and the Quest, Rescue, and Retreat of Emin, the Governor of Equatoria," though there will be an abundance of Stanley literature turned out from the printing presses during the next few months. Probably the smooth-tongued book-agent will be able to convince

some guileless persons that he is retailing "Stanley's Own" long before the only genuine narrative of the great traveler's heroism, privation and suffering is given to the world. Would-be-purchasers should be on their guard.—*New York Tribune.*

The *Missionary Review of the World* for March has come to hand. The table of contents of the Literature Department is exceedingly rich. Dr. Pierson gives the second chapter of the series on Missions in Old Scotland. He also has an article on "Enthusiasm in Missions" which stirs the blood. There is a graphic sketch of the mission work among the "Bores," or Dutch farmers, in South Africa. There is a valuable paper on "The Jew in the Nineteenth Century." "Mora-vian Missions in America" is a valuable contribution to the literature of this Church's missionary life. The Roman Catholic Lay Congress of 1889, is a work of careful consideration. "Nicaragua as a Missionary Field" is suggestive. The other seven departments are full of intelligence, correspondence, reports, international papers, reports of societies, editorial notes, &c., that cannot fail to interest, inform and inspire. Published by Funk & Wagnalls, 18 and 20 Astor Place, New York. \$2.00 per year; in clubs of ten, \$1.50. Specimen numbers, 20 cents.

**THE GOSPEL OF COMMON SENSE,** by Charles F. Deems, D. D., L. L. D. Among the many gospels of this practical age the "Gospel of Common Sense" will arrest and command attention, more especially when it is known the inimitable and tireless writer, Dr. Deems, is the author. The work is so saturated with evangelical thought and so profoundly practical as certainly to make it universally popular. Its basis is the epistle of St. James. A most admirable biblical letter expounded and adapted to the surroundings of the day. It is terse, tender, and telling. Full of practical illustrations. A most helpful book for the clergy, and one in which the common people will take delight. It presents the fruits of learning without bothering them with its processes. Entirely free as the volume is from all traces of pedantry, no scholar can examine it without perceiving there is judicious scholarship behind its production. Joseph Cook says: "Dr. Deems' eminent common sense never appeared more profitably than in his fresh, incisive and most timely discussion of St. James' epistle as the *Gospel of Common Sense*. The book is at once popular and scholarly, broad and deep, radical and conservative." It is printed in clear type, on good paper, and handsomely bound. Price, \$1.50, postpaid. *Wilbur E. Ketcham, Publisher, 13 Cooper Union, N. Y.*

Is it Mary, or the Lady of the Jesuits? By Justin D. Fulton, D. D., President of the Pauline Propaganda, and author of "Why Priests should Wed," "Rome in America," "The Fight With Rome," "Washington in the Lap of Rome," "The Way Out," etc. Published by the American Co., Boston, Mass. Price 25 cents.

This is a scathing review of the assumptions of the Jesuitical propaganda, and a withering rebuke to the idolaters of Mariolatry. This gross, mythical superstition is laid bare by a master-hand, and Romanism in general is made to feel the ponderous blows of this polemical gladiator. The illustrations enforce the text.—*Christian Leader, Cincinnati, Ohio.*

General Wesley Merritt, U. S. A., will contribute to the April number of *Harper's Magazine* an article, entitled "Three Indian Campaigns," accompanied with maps and illustrated from drawings by R. F. Zogbaum. The article gives memorable incidents illustrating the different phases of Indian warfare in the West. The campaigns referred to are those against the Cheyenne, Apache, and Ute Indians. General Merritt quotes and confirms the portion of a report by General Sheridan, declaring that it would have been actually less expensive for our government if an army of 60,000 or 70,000 had been maintained for the prosecution of these Indian wars; and, moreover, the blood of gallant officers, soldiers, and citizens would not have rested on our hands.

**PARLIAMENT.**

A Northwest delegation are urging the government to pay the expenses of twenty British farmers to Canada this year to report on the resources of the territories.

Mayor Allen and Messrs Edward Jack and F. B. Edgecombe of Fredericton are in Ottawa to urge upon the government the necessity of constructing the Harvey-Salisbury short line.

In answer to Mr. Guay, Sir John Macdonald said the government had paid all but \$200 of the \$300,000 they undertook to pay to the Baie des Chaleurs Railway Co. for the twenty miles of railway comprised between the Metapedia and Cross Point; \$148,675 had been paid on account of subsidies to the Baie des Chaleurs Co. from the 1st of July, 1889, to 15th March, 1890.

After routine, Mr. Weldon, of St. John, called attention to a bill now before the imperial parliament respecting the regulation of the load line of vessels. He thought that as Canadian vessels' interests were largely affected, the Dominion should have something to say in the matter.

The house was summoned to the senate chamber, where Sir Wm. Ritchie, deputy governor, signed the royal assent to a number of measures which have this session passed both houses.

Considerable discussion took place on the method to be followed in taking the next census, the general opinion expressed being that the Canadian population should be more clearly shown by a special column being provided for that purpose.

On Thursday Mr. Foster made his Budget speech. He congratulated the house on the prosperous condition of the country, the general trade having somewhat exceeded that of the previous year, the railway building being

fairly vigorous, and the volume of traffic larger than ever before. Ocean freights have been high and the vessel owners in the maritime provinces and on the lakes have reaped a rich harvest. The Northwest settlement had progressed, a satisfactory nucleus being established, and on the whole the condition was one of fair prosperity with in the country. There had been something done also towards forming swift communications between Canada and distant portions of the world. The contracts for the Canadian Pacific fast steamers had been let and the Atlantic fast service promised to be arranged for shortly, while the West India service, subsidised last year, had been inaugurated. Proceeding then to give the first financial statement, he said this was the satisfactory result shown with respect to the revenues:

	Estimated.	Actual.
Customs.....	\$23,533,971	\$23,726,783
Excise.....	7,068,143	6,886,738
Miscellaneous.....	7,999,180	8,169,349
Total.....	\$38,601,294	\$38,782,870

This gave an increase of \$181,576 over the estimate. Looking back for the year it was found that there was in 1888-89 an increase of \$2,874,408 over 1887-88 and the increase of this last named year over 1886-87 was \$153,970.

Sir Richard Cartwright followed Mr. Foster, criticizing the changes in the tariff. The Budget discussion is being continued.

The duty on flour is increased twenty-five cents. The duty on beef and other meats is also increased. The duty on molasses is reduced, and also that on corn.

He was a man much and deservedly respected by all who knew him.

**Hospital Remedies.**

There is a new departure in the treatment of disease. It consists in the collection of the specifics used by noted specialists of Europe, and America, and bringing them within the reach of all. For instance the treatment pursued by special physicians who treat indigestion, stomach and liver troubles only, was obtained and prepared. The treatment of other catarrhs were procured, and so on till these incomparable cures now include disease of the lungs, kidneys, female weakness, rheumatism and nervous debility. Ask your druggist for them. Those who cannot procure these remedies from their druggist may remit the price to Hospital Remedy Co., 303 1/2 West King St., Toronto, and the remedy will be shipped to them direct. (The price is one dollar each.) Descriptive catalogue sent on receipt of stamp to pay postage.

**ONE LITTLE PIGGIE.**

I OWNED a litter of pigs. They threw well until a month old, when their throats swelled, and spite all remedies they all died except one, which was nearly dead. Laughingly I said I would try Yellow Oil, and gave it a thorough application. He improved at once, and soon was all right.

Price twenty-five cents a bottle. Be sure and ask for "Mrs. WINSLOW'S SOOTHING SYRUP," and take no other kind.

**TRUTH STRANGER THAN FICTION.**

Miss Jennie A. McNair, of Lions Head, Bruce Co., Ont., tells the following remarkable experience:—I called upon a poor woman who was very sick. She had not left her bed for weeks. Her friends said she was dying of consumption; indeed she was so low it seemed that it would be but a very short time until she would pass away. I looked around on her little children and resolved if possible to cure her, but how to do it was the question. I was well used to the different forms of consumption and knew her trouble all came from the "head" and that the lungs were being destroyed by breathing the poisonous secretions into them. I came home praying that God would give me what was wanted to cure her—and he did in a strange way. A little boy came into the room where I was and wanted me to look at a star on a piece of paper. It proved to be an advertisement of Nasal Balm. I ordered it at once and it proved to be just what I wanted as today the woman's head is all right. She is able to do her own work and is getting strong very fast. This remarkable change was effected by one bottle of Nasal Balm. Enclose 50 cents for another bottle which is for a young lady here who has had catarrh for a long time. Please send at once and I will try and make its worth known in this place. It is a pleasure for me to work for the suffering and praise the medicine that deserves it.

**SOME FACTS ABOUT ORGANS**

Organs used to be made forty years ago in appearance much like a cottage piano. But as the bellows were in sight the general effect was somewhat incongruous. Organs were first made in their present form about 1861, when some men in Boston conceived the idea of making a distinctive organ case which would conceal the action.

Organs began to sell much faster from that time, and now not less than 100,000 are annually sold in the United States and Canada. Organs made in both countries are sold side by side on their merits in almost every civilized community on the globe.

Organs are made of such wide range in size, capacity, elegance of exterior and price that they meet every want, and may be purchased by cottager or capitalist and each secure what is adapted to his use.

Organs are especially designed and made for use in churches, halls, schools and lodge rooms, as well as for homes.

Organs do not require to be often tuned, a great merit, especially to people who live in neighborhoods where Tuners seldom go.

Organs are easily played upon. The prolonged tones of an organ give greater pleasure to a learner than do instruments which have not this faculty.

Organs are capable of fine gradations of tone; soft, sweet and low, or strong and loud, as the player wishes.

Organs are for sale by us at prices ranging from \$50 to \$500, but it does not follow that the more one pays the more music one gets.

Organized system in our business enables us to buy the best organs at the best rates and sell them on the best terms.

Allen's Lung Balm was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balm will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs. ALLEN'S LUNG BALM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balm, call for a 25-cent bottle to test it.
