NEW BRUNSWICK.

A large excursion train from Boston consisting of five Pullman palace cars, arrived at St. Andrews with about 80 passengers on board. They are now staying at the Algonquin. The excursionists are chiefly railway men, passenger and ticket agents, from many different roads all through the United States and Canada. They will remain in town until Thursday morning. The Algonquin hotel is full to its utmost space to-night and many applicants for rooms had to be turned away.

Hannah Cliff who lives on the Portage in the parish of Stanley, near Boiestown, was fined \$50 and costs for selling intoxicating liquor, at the police court, before Col. Marsh. Last year the temperance organizations of Boiestown by united efforts succeeded in closing up the illegal sale in the village. Since then some other parties have started up outside the village proper and these are now having their turn. Another information was laid against an alleged violator and the case will be tried next week.

Interest in the Sheek shooting affair is growing. That two men should coolly shoot down an officer of the law in the presence of a number of spectators and then defy arrest would seem almost incredible, but judging from the activity the police are displaying it will not be long before they are in duance vile.

The S. S. Loanda left St. John on her second trip to the West Indies. She carries a large cargo from this port, space only being left for some freight to be taken at Yarmouth. Only a limited number of passengers, however, went on this trip as the weather is too hot in the West Indies to encourage much travel. Mr. George F. Baird when asked last evening in regard to the business carried on by the Canadian South American and West Indian line, said there was every encouragement, and he believed that in the near future an important trade would be done between Canada and the West Indies. On this trip the Loanda carries with cotton and manufactured goods some \$25,000 or \$30,000 worth of freight, and in the fall, in order to fulfill all engagements, another steamer will have to be put on.

Central Railway spent the day there.

What might have proved very destructive to Bridgetown, had it not been for their excellent water supply system, took place on the 4th inst., when A. J. Morrison's tailoring establishment, situated adjacent to the best business places in the town, was burned to the ground.

The heaviest tornado known for a long time swept over Bangor, Me., July 8th, doing great damage in that vicinity. The storm descended very suddenly and with great severity. The ice stack of the Bangor Ice Co., was blown into the street; another was partly unroofed. Great elm trees were blown across the street. The ice house of W. Ayer & Co. was unroofed about two-thirds of its length. Many trees were blown down about the city. The falling trees broke the electric street-light wires, and lights were out for some time. Scatched 28 Years

A Scaly, Itching Skin Disease, with Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me \$200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot no larger than a cent. It spread rapidly all over my body, and not under my arms, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel like to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was \$5 worth. If you had been here and said you would have cured me for \$50.00 you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.
