

## News of the Week.

## NEW BRUNSWICK.

Bart Reardon is under arrest charged with poisoning four cows of M. Gallagher at Canterbury.

The stockholders of the Moncton Cotton Manufacturing Co., at the annual meeting, authorized the directors to sell, lease or otherwise dispose of the property, as they saw fit.

The accommodation train from the north on Tuesday night struck and ran over a cow at a sharp curve near Woodstock. The engine left the rails and ploughed down a 50 feet embankment to the river's edge with the tender and three freight cars. Geo. Gabels, driver, and John Kemp, fireman, kept to their posts until the engine struck and turned nearly bottom up. Gabels crawled out in a pool of water, hot water and steam rushing on him. The water into which he went, however, prevented him being scalded fatally. He is badly bruised and scalded about the legs, but his injuries are not considered dangerous. Kemp climbed out over the wreck of the tender unhurt. The cars were wrecked and 30 sheep in one of them were killed. There were about 40 passengers, but none of them were injured.

During the past two or three weeks a party of gold hunters have been prospecting about 60 miles up the Tobique, on the Serpentine. They have certainly struck it pretty rich, and are now satisfying themselves that gold and silver actually exist there in paying quantities, before they form a company and proceed to develop the mine. This constitutes their second or third trip to the same spot; and while they keep pretty quiet, those in a position to know, affirm their faith in the enterprise.—*Carleton Sentinel*.

John McEaddy, a farmer residing on the Bay side at St. Andrews, has of late had periodical returns of insanity, which made him very despondent. He was a former inmate of the Provincial Lunatic Asylum, from which he was discharged about a year ago. On Thursday night he committed suicide by taking Paris green. He leaves a wife and three children.

A good deal of interest has been shown in a road making machine introduced at Central Hampstead by a Mr. Wright. It turned up 25 rods of road in a capital manner, without the use of a shovel, in about two and a half hours. The machine will be on view at the St. John exhibition.

Wm. Bryson of Oromocto, attempted suicide, by jumping off the bridge at that place. He was drunk.

Imports at Moncton, in August, amounted in value to \$86,363 compared with \$81,047 in August this year; exports increased from \$46,464 in August last year to \$49,366; in August last year and duty collected increased from \$26,726.02 to \$43,635.79.

The Transcript says that the highest tides known for a great many years took place at Baie Verte and Tidnish, Monday, of last week, flooding considerable of the ship railway works at the latter place. Saturday's high tide washed away in different places a total of about fifty feet of the wharf track at Sackville.

Sardine herring are so numerous at St. Stephen that the price has fallen very low. The fish are not taken from many of the weirs, the owners thinking it will not pay to handle them.

The burglar who called himself George, or Francis Fraser, of Fredericton, but who has many aliases, was brought up under the speedy trial act before Judge Wilkinson, at Dalhousie, Thursday. He was sentenced to two years penitentiary for his attempt upon Haddock's store. Prisoner took matters very coolly, and was heard to remark that he got off easily.

About half-past two o'clock, Wednesday morning fire broke out in Joseph Sharpe's woodshed on Water street, Campbellton. The fire spread and consumed LeBlanc's boot and shoe store. His loss amounted to \$2,000. He was insured for \$1,600. Mr. Gilker's residence was entirely destroyed. His property was insured for \$300 also. Mrs. Sharpe's residence was destroyed; loss, \$1,000; insurance, \$500. Wm. Storey, barber, lost furniture to the extent of \$200. Jos. Sharpe's loss was \$3,500; insured for \$1,850. Daniel Elliott's stores, occupied by Miss Maher, millinery, and Mr. Elliott, grocer, were burned; loss to building and stock, \$1,000. The cause of the fire is unknown. Had there been anything in the shape of fire protection the flames could have been killed at the outset.

Wednesday evening Dr. Sproul, of Chatham, received some severe injuries while attempting to board a moving train at Boiestown. Dr. Sproul is a son of Conductor Sproul, of the I. C. R.

The body of Francis Ferguson, who was drowned at Beramini, Quebec, arrived here by the 1.42 express Thursday morning. The deceased was a son of Wm. Ferguson of Tracadie, and at the time of his death was working in the employ of the St. Lawrence Lumber Co. It seems that on Sunday last he with a companion named Pitre, belonging to Bathurst village, were returning from the settlement to the camp, only a few miles. They were on horseback and had to ford a small river or creek. The tide was higher than they anticipated, and on getting into midstream Ferguson's horse got beyond his depth and thinking the horse would be lost he called out to his companion who was following to jump and save the horses. Both did so and Pitre got to shore, but Ferguson who was a good swimmer seems to have been taken with cramps, as he did not swim a stroke and sank before he could to his assistance.

The remarkable case of Edna Simpson of Moncton, who has been asleep since last Sunday week is exciting a great deal of attention. It has been found possible to administer nourishment to her by artificial means, and it is possible that the girl may recover. Her case, which is almost unique in its character, will be watched with a great deal of interest.—*Gleaner*.

Mr. Trueman Burr, of St. Mary's, while working in McFarlane's Hames Factory Friday morning had one of his eyes badly injured. He was using a sledge hammer at the time, when the piece of iron he was hammering, flew up, striking him in the eye badly cutting the lid and wounding the eyeball very seriously. Dr. Crockett was called and attended to his injuries.

The pyrites mine at St. Stephen promises now to be more valuable than the most sanguine of the prospectors had supposed. Latest advices place the value of the best specimens at about \$20 per ton at the mine. If even half this can be realized it will probably pay to work it. Mr. Carroll is said to have refused \$30,000 for his lease.

## NOVA SCOTIA.

A man named Forshan fell from a boat in Bedford Basin, near Halifax, and was drowned. He was 65 years of age.

During the month of August 114 burial permits were issued in Halifax. About 77 of these were under the age of 21, and a large majority of the whole were very young children, including several still-born.

The rumor is current that the Nova Scotia apple crop is not so good as in former years, but there is a grave possibility that the rumor is circulated to make purchasers more anxious to buy early.

Fine specimens of gold are daily taken out of the "Cowan mine" at Kemptonville, Yarmouth Co.

Work on the branch railroad from Mulgrave to Terminal City began this week. It is reported that parts of the grain elevators which are to be built at Terminal City are expected to arrive there this week.

A new industry is shortly to be started in Annapolis, in the evaporating of fruit, etc. Buildings are now being fitted up for the business. It will be a branch of an extensive Chicago establishment, and will employ about 60 hands.

Diphtheria, of a malignant type, which has been prevailing in Annapolis is dying out, no new cases being reported, and those that were prostrated are favorably progressing.

The burning of Robb's foundry at Amherst, will to a certain extent, stop the progress of work on the ship railway. Messrs. Robb & Sons intend re-erecting their works at once, making them double their former size.

The tides of Saturday night, Sunday and Monday were very high, in many cases overflowing the dykes along the Cornwallis river.

The Cornwallis railway is about completed. It runs from Kentville on the Windsor and Annapolis railway down the Cornwallis Valley in Nova Scotia, a distance of 12 miles. The surrounding country is well cultivated and full of resources, and it is expected that the railway will do a big export trade in apples during the coming season.

## OTHER PROVINCES.

A man named Aaron Buckler from Bowmanville blew out the gas in the Albion Hotel, Montreal, when retiring and was found dead in the morning.

The total tonnage of vessels arriving at Montreal from the sea this year was 476 vessels of 608,870 tons, against 540,385 tons in 1889, 509,341 tons in 1888, and 561,463 tons in 1887. The harbor revenue this year is \$144,142, against \$142,455 last year.

Vancouver World boasts that there were above 20,000 tons of shipping in that port at one time last week. This large tonnage was pretty evenly divided between sail and steam vessels and is exclusive of tugboats and small local crafts. Vancouver will yet be a great shipping port.

At Point Levis, Que., Wednesday morning about one o'clock fire broke out in Duplessis's tannery, and rapidly extended, by means of wooden sheds and outhouses, until about a dozen families were rendered homeless. Many of them lost all their effects. The total loss is estimated at about \$30,000.

The Haldimand election trial to unseat Dr. Montague came up Tuesday. The case was dismissed with costs against the petitioner, Dr. Montague being confirmed in his seat.

The report that there is to be a fall session of the Quebec legislature is confirmed. L'Electeur announces that the house is called for the 4th of November, and that this will be the beginning of a permanent return to the old and more convenient system of autumn sessions. The premier will not go to Europe until after the session.

Theophilus Farquharson, of Charlottetown, who was injured in the fire in McLeod's barn a few nights since, died from the injuries received.

Two C. P. R. cars are now on their way east with three "sticks" of timber for the Montreal harbor commissioners, 36 inches by 36 inches square and 60 feet long, each stick containing 6,480 superficial feet, the three sticks making a double carload of about 20,000 or 60,000 pounds weight. These sticks are perfectly square, edged and free from knots or defects of any kind whatever from end to end, and in point of length, size and quality are considered the finest specimens of timber ever shipped from any mill in any country.

## UNITED STATES.

On Wednesday, the Northern Pacific passenger train, when about sixty miles from Tacoma, struck a broken rail, derailing the engine and four coaches. Twelve persons were injured, two fatally.

A large vein of pure white sand, suitable for making glass, has been found near Pittsburg, Pa. The discovery will save the glass manufacturers of that city thousands of dollars annually, as they have hitherto been obliged to send across the Alleghany Mountains for their sand.

The Norfolk county grand jury has indicted Joseph F. Welch for manslaughter in causing the death of Mary E. Fenley a victim of the Old Colony railroad disaster at Quincy on August 12. Welch was foreman of the section gang using the track-jack that caused the accident.

Fred Sprague, aged thirty years, committed suicide here Friday forenoon by strangling with his suspenders. Despondency, following ill-health, was the cause.

## BRITISH AND FOREIGN.

Cholera is raging in the Arabian town of Yemo.

A despatch from Vienna, says that six more villages in southern Hungary have been burned. This fearful destruction by fires is due to the dryness of the buildings, caused by a long season of torrid weather. Twelve persons lost their lives during the burning of Mezo-Kerastzes recently.

Extensive forest fires are reported in the vicinity of Norovotchat and Rotschink, Russia. Much damage has been done.

A North Canadian and Atlantic Railway and Steamship syndicate has been incorporated with capital of \$50,000. The chairman is the Lord Mayor of London. The intention is to form a company with capital of \$4,000,000 to work the Milford route and construct a railway from the extreme eastern part of Labrador, probably St. Charles Bay, to Quebec, with the Great Western, joining Milford and London. Canadian charters and concessions have already been secured and surveys are at work laying out the route.

C. T. A. NOTES.—Daniel Doyle, a King's County rumseller, convicted in June of violating the law, and who has been evading the constables, was caught and put in jail last week.

A little girl, not very bright, was arrested the other day charged with a petty theft. A few minutes sufficed to find her guilty and send her to jail for two months. If it had been a rumseller, several days, with sundry adjournments, would have been required, and when the conviction was announced the fellow would have been missing. Something makes a great difference. What is that something?

MEMORY.—It is said that Mr. Spurgeon is able to repeat the whole of Pilgrim's Progress.

THE Y. M. C. A. of Moncton have begun the erection of a building. The corner stone was laid last week.

## DYING WITH HUMORS

Which Three Doctors Could not Cure, Cured in Four Weeks by Cuticura Remedies.

I wrote you about four years ago of the wonderful cure I made with your CUTICURA REMEDIES of a bad humor on my face which twelve doctors failed to understand or cure. Three years last fall my son went to Sacramento, Cal., and after two or three months he broke out with a humor on his stomach and back, suffering very much. He employed three different doctors, and at last they told him to go back to Maine, as his disease was caused by change of climate, and he could not live in California. He wrote me that he was coming home, for he was dying with a humor that the doctors could not cure. I wrote him to get some CUTICURA REMEDIES and take according to directions, and bathe freely with the CUTICURA SOAP, and in four weeks after he got my letter he wrote me he was entirely cured. He came home a few weeks ago on a visit, and is at home now. His health is good. I have recommended these remedies to a great many people with bad cases that would not yield to doctors' medicine, and in no case have I known them to fail to make a cure. If you wish to refer any one to me, I will answer, with pleasure.

HARRISON STEVENS, East Jackson, Me.

## Cuticura Resolvent

The new Blood and Skin Purifier and greatest of Humor Remedies, internally (to cleanse the blood of all impurities and poisonous elements, and thus remove the cause), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), speedily and permanently cure every species of itching, burning, scaly, crusty, pimply, scrofulous, and hereditary diseases and humors, infancy to age, from pimples to scrofula, when the best physicians and all other remedies fail. This is strong language, but every word of it is true. CUTICURA REMEDIES are the greatest skin cures, blood purifiers, and humor remedies of modern times.

Sold everywhere. Price, CUTICURA, 75c; SOAP, 35c; RESOLVENT, \$1.50. Prepared by the PORTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

Pains and Weakness. Of females instantly relieved by that new, elegant, and infallible Antidote to Pain, Inflammation, and Weakness, the CUTICURA ANTI-PAIN PLASTER, the first and only instantaneous pain-killing plaster.

—If you have not yet sent your subscription for the INTELLIGENCER, kindly forward at once. The money is needed—needed now. Don't delay longer.

JOURNALISTIC.—The Farmer has a new suit of type; the Sun has a new press and folder.

## FOR YOUR MOULTING HENS.

The time when hens shed their feathers is again at hand. It is a very exhausting process. Are you preparing to help them through this trying period? Eggs have not been so high for years at this season as now; they will be still higher. Hens rarely ever lay while moulting, then help them to get their new plumage quickly.

Many people get only five or six dozen eggs in a year from a hen and lose money when they ought to get three times that many and make money rapidly. How? There are about 600 eggs in the ovaries of a hen; get all you can of them in two years and keep the hen no longer. You thus save two or three years feed of the hen which is no small item if you buy all the food.

When a hen is in "condition" says a high poultry authority "she will lay plenty of eggs." Therefore help her through the moulting season, that she may be in condition to lay early, as everything is pointing to higher prices for eggs this fall and winter than ever before. The elements needed by a hen at moulting, in addition to good food is contained in Sheridan's Condition Powder to a very high degree. Thousands of people have proven it to be worth its weight in gold when hens are moulting. It keeps them in health, helps form the new plumage, and gets them in condition to lay early. A hen will not lay while moulting. But if you give them during the moulting Sheridan's Condition daily in extra doses, they will get to laying much sooner and lay all winter; larger, better, and more vigorous eggs for hatching, than pullets. But don't keep them a third year; get all the eggs in two. Remember Sheridan's Powder is not an egg-food; you can raise or make food as cheaply as anyone. To any person interested, I. S. Johnson & Co., Boston, Mass., on receipt of address and stamp for reply will send a recipe for making a good egg food. Any person buying and using Sheridan's Condition Powder now, will get their hens in good laying condition and stand a good chance to win one of the large gold premiums to be offered later by the same firm; who are the only makers of Sheridan's Condition Powder. For 50 cents they will send two 25 cent packs, five packs for \$1.00; or for \$1.20 one large 24 pound can of Powder, postpaid; six cans for \$5.00 express paid. A copy of the best poultry magazine published, sent free; The paper one year and a large can of Powder for \$1.50.

**The Toronto Home for Incurables.** Parkdale, Ont., Feb 27th, 1888.—Gentlemen, it gives me pleasure to let you know I have derived great benefit from the use of Nerviline. I have been a great sufferer from Neuralgia in the face, and last two years was quite a martyr to the malady. So soon as I observed the Nerviline advertised I obtained a bottle from our druggists, Messrs. John Gray & Co., Parkdale, and the effect was marvellous; pain ceased and I can enjoy sound sleep at night, and rise refreshed. I cannot speak too highly of it and heartily recommend it. ALEXANDER STEEN.

## A Bean of 1829.

When grandpa went a-wooling He wore a satin vest, A trail of running roses Embroidered on the breast. The pattern of his trousers, His linen, white and fine, Were all the latest fashion In eighteen twenty-nine.

Grandpa was a fine-looking young fellow then, so the old ladies say, and he is a fine-looking old gentleman now. For the score of years he has been a firm believer in the merits of Dr. Pierce's Golden Medical Discovery. "It renewed my youth," he frequently says. "It is the only blood-purifier and liver invigorator guaranteed to benefit or cure, or money refunded. It cures liver disease, dyspepsia, scrofulous sores, skin eruptions, and all diseases of the blood. For lingering coughs and consumption (which is lung-scurf in its early stages) it is an unparalleled remedy."

## FOR OVER FIFTY YEARS.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

MESSRS. C. C. RICHARDS & CO.

Gents.—I have used your MINARD'S LINIMENT successfully in a serious case of crump in my family. In fact I consider it a remedy no home should be without.

J. F. CUNNINGHAM, Cape Island.

So Say ALL.—That MINARD'S LINIMENT is the standard liniment of the day, as it does just what it is represented to do.

THE SUPERIORITY of the "Royal Flavoring Extracts" is purity and strength.

FOR IMPROVING and preserving the health of your Horses and Cattle, use "Maud S." Condition Powders.

LADIES go into ecstasies over the new perfume, "Lotus of the Nile."

**TEN POUNDS IN TWO WEEKS THINK OF IT!**

As a Flesh Producer there can be no question but that

**SCOTT'S EMULSION**

A New Lease of Life. - A Cure Without Medicine.

All Diseases are Cured by our Medicated Electric Belt and Appliances. On the principle that Electricity is Life, our appliances are brought directly into contact with the diseased part. They act as perfect absorbents, by destroying the germs of disease and removing all impurities from the body. Diseases are successfully treated by correspondence, as our goods can be applied at home.

## ANOTHER NEW LIST OF HOME REFERENCES:

GEO. NICHOLSON, Zephyr, Ont., rheumatism 18 years, after two days resumed work in the harvest field. HENRY WHITE, Marham, Ont., rheumatism, shoulders and knees, cured after doctoring ten years. WM. DRINKWATER, V.S., Dutton, Ont., a martyr to rheumatism, cured in three weeks. MRS. McKAY, Ailsa Craig, Ont., sciatica 15 years, no pain from the first day. JAS. MANSFIELD, Saskatchewan, N.W.T., piles and complete prostration completely cured. JAS. STORY, Fitzroy, Ont., after wearing Butterfly Belt one night, attended a fair; a walking advertisement for us 70 years old. W. J. GOULD, Bathurst St., City, after laying off 3 weeks went to work wore Butterfly Belt 4 days—sciatica. GEO. H. BAILEY, Yarmouth, Ont., crippled from rheumatism, liver and kidney, completely cured in one month. MRS. WALTER LUM, Port Talbot, Ont., not able to work for two years, cured in one month, lame back and liver complaint. JOSEPH FENNEL, 237 Queen St. East, for 6 weeks could not write a letter, went to work on the sixth day—neuritis. FLOED, 1194 Portland St., cured against his will, liver and kidney trouble. FLORENCE O'NEILL, Pakenham, neuritis, cured in four days, doctors could do nothing more for her. MISS FLORIE McDONALD, 21 Wilton Ave., reports a lump drawn from her wrist. RICHARD FLOOD, 40 Stewart St., tried everything for catarrh. Actina cured him. L. D. GOOD, Berlin, Ont., cheerfully recommends Actina to catarrh. J. R. JOHNSON, Solgirth, Man., tried a hundred remedies, nothing effective, Butterfly Belt cured biliousness and dyspepsia. SENATOR A. E. BOTSFOED, Sackville, N.B., says Actina is good for defective eye-sight. THOMAS GUTHRIE, Argyle, Man., received more good from our Butterfly Belt and Suspensory than from the medicine he paid for in twelve years.

"Your Belt and Suspensory have cured me of impotency," writes G. A. Says S. M. C. "For general debility your Belt and Suspensory are cheap at any price." H. S. Fleetwood, a weak mentally and physically, causes nightly emissions, perfectly cured. Many more such testimonials on file.

Catarrh Impossible under the Influence of Actina.

Actina will cure all diseases of the eye. Send for Illustrated Book and Journal giving full list, Free. No Fancy Prices.

Combined Belt and Suspensory, only \$5.00—Certain Cure.

NO VINEGAR OR ACID USED.
