

News of the Week.

NEW BRUNSWICK.

There are residing just outside of St. George, under one roof, a family of four persons whose combined age foots up 374 years, as follows: Miss Lizzie Mann, 100; Robert Mann, 90; Deacon John Mann, 92; Miss Catharine McBean 92.

Good cod and pollock fishing are reported at the gravelly and fog grounds, Grand Manan.

A 16-year-old son of Mr. John Summerton, who lives at the end of the Digdegash draw bridge, Charlotte County, was accidentally upset from the dory in the river and drowned one day last week.

Wm. Wilson was fined \$50 Monday at Moncton, for violation of the Scott Act. There was a second charge against him, but this was not pressed, as he promised to go out of the business. Inspector McCully prosecuted.

Three barrels of black varnish and two kegs of powder exploded in the I. C. R. store house at Campbellton, Monday. Mr. J. P. Mowatt was blown through the doorway and badly injured. Five others were more or less seriously injured—none fatally. The store house and also Mr. Mowatt's freezer and warehouse, together with the I. C. R. ice house, were all burned somewhat. St. John parties are losers, as they have goods stored in Mr. Mowatt's warehouse.

The evangelist, Sam Small, purposes to visit the Maritime provinces next month.

At Moncton, Willie Gray, 11 years old, was before the police court, Tuesday, charged with theft. He has been employed during the past few weeks in Higgins' shoe store, and during that time has stolen foot-wear and other articles from the shop. He confessed having stolen 16 pairs of shoes and some blacking. After consultation with his mother, his age being taken into consideration, it was decided that she should whip him severely, which she did in the presence of the marshal, and he was released.

In the recent Election in York the Government ticket was carried by a majority of 400.

Among the educational exhibits shown at the recent exhibition in this city was a machine for teaching children the rudiments of arithmetic. It is called a primary notation table, and was invented by Miss Etta Barlow, of St. John. Miss Barlow applied for a patent and a few days ago received it through her solicitor, Mr. S. B. Bustin.

Word has been received of the burning of a Canadian express car, at Montreal, containing a lot of goods for the lower provinces. The advices of the goods have not yet been received.

NOVA SCOTIA.

At least half a dozen Nova Scotia vessels will sail from various provincial ports for British Columbia this fall to engage in the fur-sealing of the Pacific. Of this number at least two will go from Cape Breton, one, the schooner Umbria of North Sydney, and the other Annie Pain, of Port Hawkesbury.

OTHER PROVINCES.

Louis Terreault, aged 19, got up on a circular saw table at Ross' estate mills, Three Rivers, Tuesday and fell across the saws, one of which cut off his two feet, the other severing the body in two diagonally. The body of the poor fellow presented a fearful sight. He died an hour after the accident. Some say he was thrown down by a piece of wood which struck him on the legs.

A site near Duferin terrace, Quebec, is being granted to St. Jean Baptiste Society by the city council on which to erect a monument to Samuel De Champlain, founder of Quebec. The monument will cost \$10,000, and be inaugurated in 1892.

The Canadian minister of marine states that the government have received no intimation from the Newfoundland government of their intention to open the negotiations with the states regarding the fishery question.

The petition started in London, which is being circulated on Birchall's behalf, has not been numerously signed. It has been in circulation several days, but up to Monday only 19 signatures had been obtained. Rev. Mr. Wade, Birchall's spiritual adviser, and one or two other clergymen and doctors were among the signers. Several ministers refused to sign the petition.

The rum party in Charlottetown, notwithstanding their claim there is as much, if not more, liquor drunk under the Scott Act than under license, have again got up a petition with the requisite 500 names attached to it asking the Governor General in Council to cause a poll to be taken to determine if there are not a majority of the electors in favor of revoking the C. T. Act. The Guardian of the 17th inst. has those names in its columns. Nearly one-sixth of the signers were unable to write their own names, and the Guardian gives the following classification according to religion:—Roman Catholic, 250; Episcopalian, 47; Presbyterian, 45; Methodist, 42; Baptist, 9; unclassified, 87. It adds, however, that of the Protestants there are not a dozen of those who signed this petition in full membership in their respective churches.—*Summerside Pioneer*.

Leading Ontario egg shippers have asked the government to send an agent to Europe to study the methods adopted on the continent for shipping and handling eggs for the English market. Eggs in Ottawa to day are worth 23 cents per doz. The increase is caused by the limited supply.

A rumor which gained currency some weeks ago, that an English syndicate was about purchasing all the flour mills in Canada, has gained new credence. The three principal mills are Ogilvie's, Lake of the Woods, and Hudson Bay, and they have already been secured. The output is 7,250 barrels per day, and the price named is nearly \$3,000,000.

Dun-Russell agency report 22 Canadian failures for the last seven days and 37 for the corresponding week of last year. Bradstreets report 23 this week.

Mrs. Birchall has written the deputy minister of justice expressing anxiety regarding the return of the governor general in time to consider her husband's case. She has been assured that the case shall be fully considered.

An Ottawa despatch says: The George Willard, of Portland, Maine, is ashore at Lockport, N. S. This is an American fishing vessel, but is not licensed under the *Modus Vivendi* act, and the collector telegraphed asking if he could grant permission to the captain to sell the cargo of fresh fish, which was spoiling. Hon. Mr. Tupper replied that if it was impossible to get the vessel off he might; but this was not to be considered as a precedent.

Comte de Paris and suite arrived at Montreal, yesterday morning, and were received at Bonaventure depot by twenty thousand people, including 600 students from the universities. The Comte will not talk politics, but thinks Canada one of the freest countries in the world.

Returns of customs for September show 42,000 lbs of crude opium were imported at Victoria, B. C., during the last three months and not one per cent of this amount is consumed in Canada. Our duty being lower the drug is imported into Canada and after being prepared into a smoking mixture is smuggled into the United States.

It is rumored that Birchall's sentence will be commuted to imprisonment for life but this is not confirmed at the department of justice.

The Canadian imports for September were ten million seven hundred thousand dollars a decrease as compared with September 1889. The exports were twelve and a half millions of which eleven and a quarter millions were produce of Canada—an increase of two millions and a half over September 1889.

UNITED STATES.

The following despatch from St. Paul, Minn., appears in the Boston Advertiser:

Mayor Smith has received an appeal signed by A. E. Bartlett and other prominent citizens of Brown county, South Dakota, saying: "We solicit aid for the needy and destitute of this locality caused by drought and crop failure during the past two years. Wheat, oats, barley and vegetables have none. Our fuel is gathered from the pastures; our clothing is thin and worn; our farms and stock are mortgaged to such an extent that no further loans can be secured on them. We must have help or many will suffer and some will perish."

The long distance telephone now running between Erie, Pa. and New York was tested Wednesday. The test was a success, and New York was easily talked to over the wire. The distance must have been at least 500 miles.

In instruction to the grand jury Bloomfield, Iowa, Judge Leggett said that under the decision of the United States Supreme Court it was not a crime to sell liquors imported from another State in original packages until the Wilson bill was passed by Congress and becomes law, but after that time it was a violation of the laws of this State to sell liquor without a proper permit whether imported and in the original packages or not.

The introduction of mines machines into the mines in Pittsburgh is causing the miners considerable uneasiness. The general use of machines would admit of performance of work by 10,000 which now requires 25,000 men. The miners contemplate a strike against the machine.

BRITISH AND FOREIGN.

It is semi-officially stated that negotiations between France and England, relative to the Newfoundland fisheries, will not be resumed until M. Waddington, French ambassador to England, at present absent, returns to London.

An enormous number of farms have become vacant in all parts of England, and the outlook for landlords is a sorry one. In most countries there are half a dozen farms to one applicant.

Don Pedro, during his recent visit to England, assured the Queen that he had no intention of seeking restoration to the throne in Brazil, and that the republic which had been established would be the permanent form of government.

The mayor of Philadelphia thinks the city's population, according to the census enumeration, was 100,000 too small and has ordered a recount by the police.

Another member of the royal family is dipping into literature. Princess Beatrice has just finished the translation of a German work, "Adventures in the Life of Count Albert of Erbach," and it will shortly be published in England.

A St. Petersburg despatch says: "The minister of the interior has received alarming reports of the state of the country. Prisons are crowded with suspects, chiefly young men of the educated classes. Dissatisfaction is spreading everywhere, incendiarism is rife and there have been conflicts in many places between the peasantry and soldiers."

The sultan of Witu has refused to surrender to British authority or afford redress for recent massacre, but on the contrary is actively preparing for hostilities. Hundreds of natives from the surrounding tribes are flocking to his standard. Fighting is inevitable.

A BOY PREACHER.—The name of the latest addition to the ranks of the "boy preachers" is James Cook. He is a product of the South. "Jimmy" as he is called, is but 13 years old. His recent sermons in Cincinnati created a sensation. It is more than probable that the best place for "Jimmy" and other "boy preachers" is at home.

Dr. T. H. RAND, formerly Chief Superintendent of Education in this Province, is now Principal of McMaster University, Toronto, a position of great influence and responsibility. Dr. Rand is an accomplished Educationist. Long may he occupy the post of honor and labor to which he is called!

ALL SORTS.

The publications of every kind received during last year at the British Museum numbered about 40,000. They require a mile of new shelf room every two years.

A mixed cargo certainly! A Belgian shipping paper states that a steamer bound for the West Coast of Africa had on board 11 missionaries, 460 tons of gunpowder, 11 cases of gin, and 10,000 cases of rum.

The art of making matches has been so perfected that 10,000,000 of the tiny sticks can be cut into shape, all ready for dipping, by one machine, in a single day.

The world is a looking-glass and gives back to every man the reflection of his own face. Frown at it, it will turn and look sour at you; laugh at it and with it, and it is a jolly companion.

A horse in Waterbury, Conn., is inordinately fond of pie, and often, walking to the kitchen door, refuses to leave until his appetite for the dainty is satisfied.

It is estimated that 162,987 volumes have been added to the college libraries of the United States during the past year, making the total number of volumes in such libraries 2,883,498.

It is estimated that the actual money lost to Russia by the expulsion of the Jews will reach away up into the hundreds of millions of dollars. The example of what befel Spain through the expulsion of the Moriscos has been lost on the Government of Russia but the results, in all probability, will be the same.

Artesian wells have developed such an abundant supply of water in the Desert of Sahara that French engineers are confident of being able to extend their railroad to a distance of a week's journey from Algeria right through the desert.

In the kingdom of Korea there is no such thing as divorce. A person is married but once in a lifetime. If husband or wife dies, the survivor never remarries. By the way, can't we learn something from the heathen as well as teach them?

A LITTLE BABY'S SKIN

And Scalp Covered with Sores. A wonderfully Rapid Cure by the CUTICURA Remedies.

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Massena Sulphur Springs, but he did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAP in washing him. He is now five years old and all right. The other case was a disease of the scalp, which was cured by washing with the CUTICURA SOAP and rubbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. It is surprising how rapidly a child will improve under this treatment.

JOHN R. BERO, Hogsburg, N. Y.

Itching and Burning Skin. I have been afflicted since last March with a skin disease the doctors called eczema. My face was covered with scabs and sores, and the itching and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended, concluded to give them a trial, using the CUTICURA and CUTICURA SOAP externally and RESOLVENT internally for four months. I call myself cured, in gratitude for which I make this public statement.

MRS. C. A. FRIDERICK, Broad Brook, Conn.

Why Suffer One Moment From torturing and disfiguring skin diseases, when a single application of the CUTICURA REMEDIES will, in the great majority of cases, afford instant relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases with loss of hair, and point to a speedy, permanent, and economical cure, when the best physicians and all other remedies fail.

Sold everywhere. Price, CUTICURA, 75c; SOAP, 35c; RESOLVENT, \$1.50. Prepared by the POTTER DRUG and CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

FREE FROM RHEUMATISM. IN ONE MINUTE THE CUTICURA AND PAIN PLASTER removes rheumatic, sciatic, hip, kidneys, chest, and muscular pains and weaknesses.

One of the latest and most unique inventions is a machine for buttering bread. It is used in connection with a patent bread-cutter, and is intended for use in prisons, workhouses, and other reformatory institutions. There is a cylindrical-shaped brush which is fed with butter, and lays a thin layer on the bread as it comes from the cutter. The machine can be worked by hand, steam, or electricity, and has a capacity of cutting and buttering 750 loaves an hour. The saving of butter and of bread and the decrease in the quantity of crumbs are said to be very large.

A young New York millionaire, who is called "Eugene Aram" at the clubs, because he sits "remote from all" and mopes, frankly admits that he takes no interest in anything in the world—races, base ball, yachts and other matters that generally engage the attention of young men in good health like himself, with a great fortune to spend. He got tired of them long ago. "The truth is," he says, "I began life too early. I have been cured by two much money. I wish I had been born poor. The poison of riches has made me unfit for anything but an ennuied and useless creature. I know my case would not awaken much sympathy, but I tell you, sir, it's a hard one."

A man can swim a mile in 26 minutes 32 seconds; he can walk it in 6 minutes 23 seconds; he can cover it on snowshoes in 5 minutes 39 3/4 seconds; he can run the distance in 4 minutes 12 3/4 seconds; he can ride it on a tricycle in 2 minutes 49 2/5 seconds; on a bicycle in 2 minutes 29 4/5 seconds, and can skate it in 2 minutes 12 3/5 seconds. Behind a trotting horse he gains nearly 4 seconds in covering the distance in 2 minutes 8 3/4 seconds, while on a running horse he gallops the mile in 1 minute 39 3/4 seconds, and last and fastest, he sits in a railway train and flies over a mile of the steel rails in 50 1/4 seconds.

Women are not slow to comprehend. They're quick. They're alive, and yet it was a man who discovered the one remedy for their peculiar ailments. The man was Dr. Pierce.

The discovery was his "Favorite Prescription"—the boon to delicate women. Why go round "with one foot in the grave," suffering in silence—misunderstood—when there's a remedy at hand that isn't an experiment, but which is sold under the guarantee that if you are disappointed in any way in it, you can get your money back by applying to its makers.

We can hardly imagine a woman's not trying it. Possibly it may be true of one or two—but we doubt it. Women are ripe for it. They must have it. Think of a prescription and nine out of ten waiting for it. Carry the news to them!

The seat of sick headache is not in the brain. Regulate the stomach and you cure it. Dr. Pierce's Pellets are the Little Regulators.

C. C. RICHARDS & Co. Gents.—I took a severe cold, which settled in my throat and lungs and caused me to entirely lose my voice. For six weeks I suffered great pain. My wife advised me to try MINARD'S LINIMENT and the effect was magical, for after only three doses and an outward application, my voice returned and I was able to speak in the Army that night, a privilege I had been unable to enjoy for six weeks.

CHARLES PLUMMER, Yarmouth.

As a family medicine, Ayer's Pills excel all others. They are suited to every age and, being sugar-coated, are easy to take. Though searching and thorough in effect, they are mild and pleasant in action, and their use is attended with no injurious results.

The Moon's Influence

Upon the weather is accepted by some as real, by others it is disputed. The moon never attracts corn from the tender, aching spot. Putnam's Painless Corn Extractor removes the most painful corn in three days. This great remedy makes no sore spots, doesn't go fooling around a man's foot, but gets to business at once, and effects a cure. Don't be imposed upon by substitutes and imitations. Get "Putnam's," and no other.

Derangement of the liver, with constipation, injures the complexion, induces pimples, sallow skin. Remove the cause by using Carter's Little Liver Pills. One a dose. Try them.

FOR OVER FIFTY YEARS.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

A New Lease of Life. - A Cure Without Medicine

All Diseases are Cured by our Medicated Electric Belt and Appliances. On the principle that Electricity is Life, our appliances are brought directly into contact with the diseased part. They act as perfect absorbents, by destroying the germs of disease and removing all impurities from the body. Diseases are successfully treated by correspondence, as our goods can be applied at home.
