he has not some provision made for it. And, as a matter of fact, they are few who have been able to make provision for it. It is pitiable to see an old minister, after having spent his strength in the service of the church and getting a mere pittance for it, compelled to rely upon charitable contributions often given in such a way as to make every fibre of his being quiver with the pain of humiliation. It is altogether discreditable to the church that its aged ministers are not better provided for. As to saving, it is the duty of every minister to do so if he can. > And there is no inconsistency be tween maintaining the authority of our Lord's doctrines and precepts, and exhibiting them in their most convincing and persuasive manner. The tenderness of God would lose most of its attraction if we could forget the awful majesty of Him who thus condescends to entreat his sinful creatures. The claims of God are surely not weaker because they are supremely reasonable But there is a way of addressing persuasions to men as if it were at their option whether to yield or not or of arguing as if they were umpires in the matter. In this style of discussion the speaker deals so predominantly, if not exclusively, with his own reasons why the doctrines should be believed, or the exhortation heeded, that the hearer almost or quite loses the sense that any higher being is concerned in the matter. But this is not fighting with the "sword of the Spirit." It is preaching one's self, not Christ Jesus the Lord. Such preaching must

How may the efficiency of the churches be increased ? is a question to which much thought is given by ministers and others deeply concernleaving home we gain many very dear ed for the success of Christian work ones here. and the salvation of the world. The terms or by implication, concede away "Christian Inquirer," a while ago asked from a number of ministers and others their views on the question. There was, as was expected, a great variety of opinions, hough there was agreement that one essential, no matter what else mig t be required, is a spirit of deeper christian devotion. Summing up the views of its correspondents, our contemporary says, -

> To attain such a development of the religious life as is needed a fuller ac quaintance with Christ and closer communion with him are earnestly commended by all. With piety, however, it is well-shown that more intelligence s needed, and such intelligence as comes from the careful study of the Word of God. The entrance of that word gives light and understanding, and if it dwelt more fully in the hearts of Christians it would do much to foster the religious life and promote usefulness. People generally can give reasons for their denominational attachments, but there is reason to fear many neglect the habitual, careful, prayerful study of the Bible.

at all? If any minister does save any noney, how does he invest it? I hold t to be the duty of every minister to save some money. If he has only \$400 a year and a parsonage, he ought to save a few dollars out of this \$400.

When he has saved, how shall he in vest his savings ? I answer, first, by not lending to a parishioner; second, by not investing in a western farm nortgage, unless he is sure of both his security and his debtor's farm ; third, by not lending to any one outside of his circle of immediate knowledge, unless he has most creditable evidence power of the Gospel.
