It is said that in view of the Russian ukase prohibiting the export of rye, the imperial government has made enquiry as to the quantity of rye which can be procured from Canada by Great Britain. Charlatans and Quacks

Have long plied their vocation on the suffering people. The knife has been used to the quick; caustic applications have tormented the victim of corns until the conviction shaped itself—there's no cure. Putnam's Painless Corn Extractor proves on what slender basis public opinion often rests. If you suffer from corns get the Extractor and you will be satisfied. Sold everywhere.

The teachers of instrumental music and elocution gave selections and Dr. Hopper and Dr. DeBlois gave addresses, the former outlining the work of the school and closing with an account of its financial position. The Bathurst correspondent of the *Globe* telegraphed as follows: "The community was shocked this morning on hearing of the death of James W. A sad drowning accident took place off the past Harbor on the 5th inst. The schooner, Emma T. Story, Capt. George Foster, ran into and sunk Herbert Gardner's boat. The captain of the schooner got out his boat and saved William Brown, Jr., from drowning, but Herbert Gardner, the owner of the boat, was drowned. On Wednesday evening last, Coun. James McCrae of Wickham, Queens county, was seriously, if not fatally, shot. From the facts learned by a *Sun* reporter it appears that a man named Furlong was driving some sheep in and one became so wild that it refused to be driven, and it was decided to shoot it. It was about dusk, and Coun. McCrae was standing near by in an endeavor to keep the sheep from running away before being shot. Furlong discharged the gun and the charge entered Mr. McCrae's left shoulder, breast and leg. Dr. McDonald was summoned and the man was in a critical condition at last reports. It was fortunate that the gun contained a light partridge charge, otherwise the man might have been instantly killed.

Baird and Porter of the Star Line a boat will leave Indiantown to convey intending subscribers to Harding's Point and return. Mr. Tree, as the originator of the summer resort at Duck Cove, has had the opportunity to test the paying chances of this line of enterprise near St. John and believes it may be made a great success. He has at least shown that he deserves to succeed.

The Chatham World says.—During the past few months Chatham has been infested with sneak thieves, who have been in the habit of entering houses and walking off with all they could lay their hands on. Their last two thefts were from the collection boxes in the Methodist church and for this offence, four boys, between the age of eight and thirteen years, were arrested, and taken to the lockup. They were tried before Police Justice Murray and confessed their guilt. Their mothers pleaded for them, and they were let off by consent of the complainants.

Other articles dealing with the discovery of America are in course of preparation for the same magazine.

SCRATCHED 28 YEARS.

A Sealy, Itching, Skin Disease with Endless Suffering Cured by CUTICURA Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me \$200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but I feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. I used of them \$5 worth. If you had been here and said you would have cured me for \$200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I run my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.
