

highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1885.

Royal Baking Powder

ABSOLUTELY PURE

News of the Week.

NEW BRUNSWICK.

Parks Cold Mills, St. John, are making a bold fight to keep out the Montreal syndicate, which recently purchased mills in Moncton and Halifax. John H. Parks said that notwithstanding foreclosure proceedings by the bank of Montreal, he believed the factory could hold out and it was his intention to economize in every possible direction. He had not found any difficulty in competing with upper Canadian manufacturers and intended while it was possible to do his own business.

All of the Belledune prisoners have been released on nominal bail.

Conductor John Thompson of the I. C. R., while boarding his train at Painesville and fell and his foot was badly crushed under the wheels. He was also injured internally and it is thought his injuries might prove fatal.

Rev. Mr. Lewis, Baptist minister of Lumsden, Albert County, while out hunting caribou, accidentally shot himself through the right side just below the ribs. The wound was dressed and he is recovering.

A very sad accident occurred one day last week on the Temiscouata railway. The victim was seven years old and a son of Archibald Mardian, a Frenchman who lives with his wife and family of 16 children in the vicinity of Edmundston. The lad was, in company with two other brothers, walking on the track in the direction of their homes. Following them, but without their knowledge, was a locomotive and snow plough clearing the snow from the road. At the three mile bridge, so called, (three miles from Edmundston) the train overtook the lads. Two of them escaped, but the youngest was run into by the plough, smashing in his skull and inflicting other injuries that caused his death almost instantly. An inquest was held; no blame could be attached to any one.

The intended application by John O'Leary for a liquor license in Guy's ward, St. John, has excited a great deal of attention and opposition. Since the act of 1887 came in force there have been no licenses in the West End, and the temperance people there say they are determined that prohibition shall continue.

At Petite Roche, Wm. Bell, a driver on the I. C. R., lost his life. He jumped from his engine, his foot slipped and he fell under the wheels. His legs and arms were terribly crushed and his head almost severed from his body. He was dragged some distance and was picked up dead. He was a popular young man of 23 years of age and leaves a widow and child at New-castle.

The Maine company, that lately purchased the 55,000 acres of land on the Keswick and tributaries intend in the near future to erect a large pulp mill with the best machinery at the North Forks of Keswick, sometimes called Dorn Ridge stream, about two miles from Zealand station, on the northern division of the C. P. R. in New Brunswick. The whole country is heavily wooded with all the hard woods, and the land is most carefully guarded, not a stick, even for a handspike being allowed to be cut, and no one is permitted to tap the maples or sugar sap. There is talk also that this company will erect saw mills at Cardigan station on the same railroad for the manufacture of all kinds of small hardwood goods, such as fruit boxes, brushes, broom handles, lasts, furniture and many other things. These factories will employ a great amount of labor.

As Richard Stothard of Chatham was unloading hay Thursday evening, he reached too far forward, lost his balance, and fell upon one of the stakes of his sled, its sharp point piercing the thigh to the bone. He wrenched himself severely in getting off the stake finding no support in the soft snow for his free foot, but will suffer no permanent injury.

J. Sutton Clark of St. George, who recently acquired the valuable lime property at Letang harbor, is making preparations for developing it on a large scale. He has contracted with Wm. Austin, of St. George, to erect an immense storehouse, as well as a number of buildings for workmen, and he is also arranging for placing a number of modern kilns at the quarry. Mr. Clark's enterprise is deserving of success, and we have no doubt that he will succeed.

According to the Railroad Gazette there were 22 miles of railway built in New Brunswick last year. This was on the Temiscouata and Tobique Valley railways. The whole mileage constructed in Canada last year, was 640 miles.

NOVA SCOTIA.

The family of Mr. J. K. Munnie, who reside on Brunswick street, Halifax, had boiled partridge for breakfast. Immediately afterwards three members of the family were taken severely ill from poisoning and a doctor was hastily summoned and succeeded in relieving them. For a short time it was feared the poison would have a serious effect, but all the sufferers are now completely restored. —Halifax Echo.

Two Cape Breton fishermen, Dowl and McRae, have been presented by the marine department with silver watches for brave attempt to rescue a couple of men whose boat upset. One of the wrecked fishermen was drowned but the others were rescued.

The assertion that the Chignecto ship railway is the first ever undertaken in the world is incorrect. In 1861, a ship railway was built, 2,000 feet in length, connecting Halifax harbor with Dartmouth lake and the Shubenacadie canal. In 1862, the steamer "Avery" passed from Halifax harbor to the Dartmouth lake over the road, then up through the lakes and canals to the Basin of Minas, and returned. Many of the old locks are to be seen yet at the inlets of the lakes between Dartmouth and Shubenacadie; but the undertaking was a failure financially and commercially.

Eleven sailors, comprising the crew of the schooner Henrietta, charge their captain, Charles Keene, with deserting the schooner Alberta of Windsor, N. S., which they sighted in distress Thursday afternoon about twenty miles off Monhegan with signals of distress flying. The members of the crew say they remonstrated against this to no avail. The Alberta was in a sinking condition, her crew exhausted, and followed the Henrietta until nine o'clock in the evening, burning signals of distress. At that hour the signals disappeared, and the fate of the vessel and crew are unknown.

OTHER PROVINCES.

L. Vankoughnet, Deputy Superintendent General of Indian Affairs at Ottawa, has issued a circular to all magistrates and justices of the peace, calling their attention to the sale of liquor to Indians, complaints of which are constantly received by him. Accompanying the circular is a printed notice which declares that any person who sells, barter, or gives, either directly or indirectly, liquor to Indians will be prosecuted to the utmost rigor of the law, and are liable to a fine of \$300 and six months imprisonment. Half the fine will be paid to the informer.

The coroner's jury in the great railway disaster at St. Charles says it was an accident and exonerates the railway employees from all blame.

At an early hour at Ancaster, Ont., burglars entered the house of John Heslop, treasurer of Ancaster township, who lives about a mile from the village, and were making a search for money and other valuables when the old man heard them and arose from his bed. One of the burglars who was armed with a revolver, shot Heslop in the heart, killing him instantly. Deceased was about 75 years of age and lived on the homestead with his daughter. The burglars left the premises immediately after the shooting. There was no clue of the murderers.

The government has decided to increase the capacity of the government cartridge factory at Quebec. New machinery has been secured to enable the manufacture of Hartini Henry ammunition in Canada.

Missionary Sette of Dynoor writes to the Winnipeg Free Press and tells a horrible tale of a pack of wolves devouring a camp of Indians on Lake Winnipeg. One Indian engulfed and killed twenty wolves. Another climbed a tree with his gun and killed twenty more. There is a great panic among the Indians at that quarter. They say there are no deer consequently the wolves are mad with hunger.

Sir Charles Tupper is coming to Canada in reference to the live stock shipment question and the Plimsoll agitation. He is furnished with the views of the imperial government in the matter.

S. Burnas was convicted at Merriton, Ont., Saturday, of having asked for liquor at a hotel during prohibited hours and was fined. The conviction was made under a recent amendment to the liquor law.

A man named Mignault, while returning to Montreal, was attacked by a ruffian, who sprang from behind a dyke, stopped Mignault's horse and pointing a gun at the driver deliberately fired. The charge was small pieces of pig iron. Mignault's face was shattered; nevertheless he drove home reaching there in a dying state. He is very low, and detectives are scouring the country for the ruffian.

UNITED STATES.

Elliott Giles, a young married man of Mariaville, Me., while deer hunting, was shot and killed by his brother-in-law, Mr. Richardson, who fired at a deer, Giles at the same time moving his head so that he received the bullet in his brain.

Mrs. Grace E. Ridley, of Amboy, Ill., who went to sleep about nine months ago, awoke on Friday last for the first time. She wandered about the house, but did not speak a word. At tea time she took her accustomed seat at the table, but could eat nothing, and when some one of the family attempted to assist her she motioned them away with a guttural sound, but no distinct word was uttered.

Eugene Heims, a young student at the Pennsylvania state college, has been taken to his home, the entire side of the boy's face being completely paralyzed by the excessive use of cigarettes.

A special from Scottsdale, Pa., says: By an explosion of fire damp in the mammoth shaft of H. C. Frick coke company, 110 miners were killed, and a number seriously injured. The explosion occurred this morning shortly after nine. The supposed cause of the ignition was a miners oil lamp. The after damp which followed explosion suffocated nearly every workman. Many persons not killed are in such a critical condition that their deaths are momentarily expected. Up to this writing sixty bodies have been recovered, all without signs of life. The only man who escaped from the mine was mine boss Eaton. It is estimated sixty families are penniless by the disaster. The mine is on fire, and it is feared the bodies not recovered will be cremated.

BRITISH AND FOREIGN.

The colonies of Australia have asked the home government to accord them the privilege possessed by Canada of negotiating commercial treaties with foreign countries under the sanction of the foreign office.

The Daily News declares the rumors of the retirement of Gladstone entirely without foundation.

A thaw has set in at Brussels and floods have resulted. The river which flows through the city is much swollen and has overflowed its banks for miles. Food is being conveyed to the flooded quarters of the city by boats.

The Jamaica exhibition was opened Tuesday by Prince George. The Dominion will have the largest foreign display, having been allotted ten courts. England has eight, Austria five, Italy four, Germany and the United States three each, and France two. It is stated that all the steamers sailing from Europe and America for the West Indies are crowded, so that in point of attendance at least the exhibition will be a success.

A scrimmage took place Monday at Bordeaux France, between a number of French and German sailors. Knives were drawn and two Germans were seriously wounded and taken to the hospital. Several Germans and Frenchmen were slightly wounded. One Frenchman was arrested. It is expected one of the Germans will die.

Advices from Massowah, on the Red Sea, state that a terrific storm, followed by floods, caused enormous damage there. Over 100 persons lost their lives during the storm.

What is lacking is truth and confidence. If there were absolute truth on the one hand and absolute confidence on the other, it wouldn't be necessary for the makers of Dr. Sage's Catarrh Remedy to back up a plain statement of fact by a \$500 guarantee. They say—"If we can't cure you (make it personal, please), of catarrh in the head, any form or stage, we'll pay you \$500 for your trouble in making the trial." "An advertising fake," you say. Funny, isn't it, how some people prefer sickness to health when the remedy is positive and the guarantee absolute. Wise men don't put money back of "fakes." And "faking" doesn't pay.

Magical little granules—those tiny, sugar-coated Pellets of Dr. Pierce's—scarcely larger than mustard seeds, yet powerful to cure—active yet mild in operation. The best Liver-Pill ever invented. Cure sick headache, dizziness, constipation. One a dose.

Christian Work News.

Dr. Pentecost writes that the Lord is giving tokens of favor to his work in India. Already conversions of Hindoos are reported. He says the difficulties confronting the work are great, but believes the Lord will give strength to overcome them.

The meetings being held in Boston and suburbs by Mr. Moody are having a large attendance. He is speaking three times every day. Much religious interest is being awakened.

Union meetings in Iowa, Mich., ed by Dr. Munhall, have resulted in two hundred additions to the churches, and many others are expected to make confession of Christ.

The Young Men's Christian Association of Chicago, is to erect a magnificent building at a cost of \$1,400,000. The building will have fourteen stories, three of which will be devoted entirely to the work of the Association.

Rabinowitch, the Hungarian Jewish Rabbi, who, a few years since, publicly confessed Jesus as the Messiah, and led out a new body of Jewish believers, adheres to his faith and preaches to great crowds. A new, large hall, is to be opened soon. We look with interest upon the new movement known as the "Israelites of the New Covenant."

Universal Testimony

Cannot be disputed, and the case is yet to be heard from in which Putnam's Painless Corn Extractor has failed to perform a perfect cure. This with painless and rapid action and freedom from annoyance during use. The great corn and bunion cure stands unrivalled. Sure, safe, painless. Beware of frauds offered as substitutes for the great corn cure—Putnam's Painless Corn Extractor. N. C. Polson & Co., Kingston, proprietors. Use no other.

ALL SORTS.

All whose subscriptions have expired will do the paper a favor by renewing at once.

The Bank of England has reduced its rate of discount to 3½ per cent.

The "grip" is having a great run in Georgia. There were 500 cases in American one day last week.

All the letters of the alphabet appear in the following sentence: The quick brown fox jumps over a lazy dog.

A young woman is now in the city prison at San Francisco a raving maniac from the use of cigarettes.

Some recently published statistics show that Canada is the proud possessor of 3,021 lawyers, of whom nearly one-half belong to Ontario.

An English court has decided that a chime of bells at Deptford must not be rung because a majority of the property owners in the vicinity object to the noise.

The "quickest trial on record" is reported from Oconee, Ga. A man who stole an umbrella from a store was arrested, arraigned, pleaded guilty and paid a fine of \$29.25 inside of 15 minutes. After the trial he claimed the umbrella, but didn't get it.

A larger number of students are in attendance at the Baptist institutions in Wolfville, than during any previous year. In the college there are 137, four of whom are taking general studies. The academy has 82 enrolled and the Ladies' Seminary 73, making a total of 292.

Benjamin H. Carrier, the oldest member of the Boston Bar, is ninety-four years of age. He goes to his office every day. The first of the year he administered the oath to the directors of one of the National Banks for the sixty fifth consecutive time.

The King of Siam will soon send six youths from his kingdom to Pennsylvania to be educated. (They are all to become physicians. The young men are to be chosen among the poorer classes, and the expense of their tuition, about \$500 a year each, is to be borne by the Siamese government.

Dr. Alexander G. Bell, the father of the telephone business, was recently at Rochester, New York, and there said to a reporter: "My remaining days, my energy and my fortune I shall devote to the cause of deaf-mute education." He has a scheme to bring about a uniform method of instruction in all the different deaf-mute establishments in the country. Dr. Bell is very wealthy, and he is said to have set aside \$40,000,000 for his wife, who is a deaf mute.

The "Congregationalist" reports the case of a pastor and his flock who evidently propose to begin their relations on a Scriptural basis. It says:

A novel way to indicate acceptance of a call to a pastorate was illustrated recently in the case of a local church, the chairman of whose supply committee received a telegram with the words—Ruth 1, 16: "Thy people shall be my people." The reply which went back over the wire was, "And all the people said Amen."

A banker in Chicago failed. The Interior says he opened business each day in the bank with prayer, which leads the Christian Inquirer (Baptist) to remark: "It may be that this banker was really a religious man; but, nevertheless, whenever a man protrudes his piety into business affairs, it is well for all who deal with him to be extra watchful. Some of the greatest frauds of the century have been perpetrated by men assuming a religious garb."

Those intolerably painful and constantly harassing things called piles, which trouble so many people, are soon healed by Dr. Thomas' Electric Oil—the great external remedy for physical suffering and means of relieving pains. A very small quantity achieves results of the most gratifying kind.

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue or bad taste in the mouth this morning. Keep a vial for occasional use.

HAGYARD'S YELLOW OIL.

This great internal and external remedy always allays all pain. It is a specific for croup, and promptly cures coughs, colds, sore throat, sprains, bruises, burns, rheumatism, cuts, wounds, etc. Good for man or beast. Stands all tests. Sold everywhere. Price 25 cents. Hagyard's Yellow Oil.

C. C. RICHARDS & Co.

Gents.—I certify that MINARD'S LINIMENT cured my daughter of a severe and what appeared to be a fatal attack of diphtheria after all other remedies had failed, and recommend it to all who may be afflicted with that terrible disease.

JOHN D. BOUTILLER.

French Village, Jan'y., 1883.
