ABSOLUTELY PURE

THE LADIES INTERESTED IN THE DISTRIBUTION OF

\$1,500.00! A Spirit of Friendly Rivalry

Stirred up! THE LADIES ALIVE

To the Great Importance of The Undertaking!!

The ladies of Canada are delighted ; husbands note with pleasure the smiling faces of wives and daughters; indeed, the whole country is stirred up with a pleasurable excitement.

It simply amounts to this, -that the manufacturers of the celebrated and universally used Diamond Dyes have inaugurated a grand competition scheme known as the "Diamond Dye Competition," which is freely thrown open to every mother, wife and daughter of our broad Dominion.

No less a sum than \$1,500,000 will on. be distributed to the mothers, wives and daughters of Canada, in first, second and third prizes. This sum is really being returned to the consumers of Diamond Dyes. Every lady in Canada can afford to become a competitor, and has sufficient intelligence varied list. Ample time is afforded to | county. all for experimenting and becoming perfect as competitors for the large cash prizes offered.

It is an unprecedented act of liberality on the part of the wealthy manufacturers of Diamond Dyes, and never before attempted by any similar institution in the world; and the public have the most ample proof that every promise will be faithfully carried out.

During the season the manufacturers of Diamond Dyes have contributed liberally to country affairs, in order to encourage Household Economy and Art. Small and almost unknown concerns have tried to stimulate this character of work, by the insignificant sums of from one to three dollars, that would not in any instance defray cost of dyeing and the making up of goods called for. We fear these small imitators have not yet discovered the fact that the ladies value too highly their time and materials, to be lured by such miserly prizes.

The fairs of our country having closed for the season, the manufacturers of Diamond Dyes mean to keep the ladies busy during the long autumn and winter evenings, by offering large and substantial prizes in keeping with the character of work asked for.

The production of every competitor will form an exhibit in the large and well-equipped Diamond Dye establishment in Montreal, and three of the largest and best known Dry Goods firms in Canada have promised experts to award the prizes. These well known houses are: Henry Morgan & Co., Henry & N. E. Hamilton, and

Herald and Weekly Star," have signi- down of the brick walls of their fied their willingness to act as judges | bakery recently destroyed by fire. on the various Essays sent forward for

Young and old, rich and poor, have an equal chance in this magnificent and novel competition scheme; therefore all should willingly enter. If you have not yet received a book giving full particulars of the scheme, write at once to the Wells & Richardson Co., Montreal, who will send it post free.

We are asked to remind our readers of the fact that all intending competitors should at once signify their intentions of becoming competitors, by sending in the form, properly filled up, which is found on page 15 of the book referred to. We wish to impress upon our people the fact that this contest is absolutely free to all. There is no cost for books, no entrance fee, and no money to be sent forward; it is as free to all as the air we breathe. We trust | Halifax, came to terms, and work our people will do what they can in commenced Monday. this competition, and thus sustain the reputation of our women and girls as adepts in household work and art.

"Universal household remedy," is the common people's name for Johnson's Anodyne Liniment.
