### Parliament.

The House is chiefly engaged in winding up business, and is expected to prorogue this week. The session has been long and severe, and not particularly creditable to a good many.

The report of the majority of the committee on the Langevin—McGreevy matter was adopted. It condemned McGreevy for participation in booting transactions. It censured Langevin for not knowing what was going on in his department, but cleared him of guilt of the charges made against him. An amendment moved by Dalton McCarthy, declaring that it was impossible to determine as to the guilt or innocence of Langevin was lost, only two members voting for it.

Hon. Mr. Caron introduced the militia bill, which provides that when the militia are called out to assist civil authorities to keep the peace the authorities calling the men out must make a deposit to cover expenses. This bill will, however, not be pushed through this session.

The House took up the bill granting subsidies in land to the Manitoba and South-western railway company. The supplementary estimates went through quickly.

Mr. Chapleau said that some of the civil service officers, found guilty of offences, had resigned, but others preferred to be dealt with by their superiors. The minister of justice had under consideration which ones, if any, should be proceeded against criminally.

Mr. Hagart stated that it was proposed to continue the grant for the exhibition of dairy products, and encouraging the dairy industry.

Mr. Kaulback brought up the subject of the Newfoundland bait regulations and other matters relating to the fisheries.

Mr. Tupper said he was not in a position to explain the exact situation of affairs. He would, however, state that the government was fully alive to the importance of this matter and that he had every reason to look for a satisfactory solution of all international matters now in controversy, so far at least as they affect the fisheries.

Mr. Mills argued that Canada had no reason to be surprised at the bill, will of the Newfoundland people. The colony was about negotiating a treaty with the United States when the dominion government intervened and used its influence with the Imperial government to have the negotiations broken off.

Mr. Foster said that Canada had done its simple duty in intervening during the bond negotiations. Even if Mr. Mills were right in assuming that the treaty would have been good for Newfoundland, it would still have been the duty of the Canadian government to watch over and protect the larger interest of their own country. Moreover he (Foster) felt certain that the treaty was not advantageous to Newfoundland, and when all the facts were known in the colony it would not have been approved by the people. Mr. Mills was quite wrong in assuming that the hostile bait legislation was in consequence of Canadian intervention against the treaty. The bait act and the regulations under it were in force long before the treaty was thought of.

An incendiary fire occurred at Moncton, Friday morning. The large warehouse of A. J. Babang, near Sumner's wharf, was totally destroyed with its contents—tea, tobacco, and general merchandise. The property is insured for \$1,800. Several cars of tan bark and lumber took fire, but were extinguished without loss.

A despatch from St. Andrews to the Telegraph says:

A daring deed was committed Saturday, a few miles from here. Thomas Mahar, for whom a warrant has been issued since last May for a fifth offence under the Canada temperance act, was arrested and sent to St. Andrews jail, in charge of constables George Spence and Bailey. When the constables were about 10 miles from town, near the Waweg bridge, three men, with faces blacked and revolvers in their hands, stepped out of the bushes and demanded the prisoner and the keys of his hand-cuffs. After obtaining these they took the constables' team and with the prisoner started for Calais.

Judgment has been given in the supreme court in favour of the directors of the Deaf and Dumb Institution against Henry N. Paint as executor of the estate of the late John Naylor for \$21,000.

An unsuccessful attempt was made to sink the Digby schooner "Edward A. Horton" on her last fishing trip to the Banks. Some wretch fastened a rock to the plug in the vessel's bottom with an eighteen thread hemp line while at the wharf, which was not discovered until after the vessel arrived back to port. Fortunately, although the vessel rode out the heavy gales during her absence—two months—the plug remained in, though somewhat loosened. The lives of eighteen men were endangered.

### British and Foreign.

A despatch from Singapore says: Shanghai advises to Sept. 12th prove that the Ichang riot was an organized outbreak on the part of Hunan soldiers. The central government was powerless to quell the riot except by sending troops from a distance and risking civil war. Placards in Nankin accuse Christians of gross crimes.

A furious gale has been raging at Berwick-on-Tweed. Several vessels were wrecked. A great amount of damage was done by the storm of the harbor. Crops throughout the borough suffered severely.

THE EXHIBITION in St. John is pronounced a success in exhibits, attendance etc.

Rev. "Sam." Small is now endeavoring to establish an undenominational church in Atlanta, Ga. He is holding services in a hall.

Rev. John McNeill, "the Scottish Spurgeon," made a fine impression during his visit to Toronto. Father Chiniquy had successful meetings in Halifax last week.

BALMACEA'S DEATH.—The fallen President of Chili tried hard to escape from the country, but failed, and then he crept back to Santiago where he found shelter in the house of the Argentine minister. Here after vainly trying to devise means of escape he at eight o'clock last Saturday morning shot himself dead. In a statement left behind him he says:

"I acted during the last eight months with the firm conviction that I was right. I had no one in the army with whom I could place my trust. My generals were false to me. My heart all through this trouble has been with Chili. I sought to rescue my country from foreign domination."

A TEMPERANCE VICTORY.—Temperance people in Ontario are feeling well over a recent decision of the Court of Appeal. In 1890 the Ontario Legislature passed a local option prohibition measure. One of the judges quashed some convictions on the ground that the law was ultra vires the Legislature. A test case was then submitted to the Court of Appeal, and on Wednesday last judgment was given sustaining the law. Now the temperance people will push their good work.

A RUM ASSAULT.—The rum men of St. Mary's opposite this city, are a much enraged gang. Their trade having been seriously interfered with they are moved to desperate deeds. A little ago they attempted to burn the house of the man who made the complaint against them. And they have sought in other ways to do him injury.

Their latest was an attempt to seriously injure, perhaps kill, Rev. W. D. Manzer. Mr. M. has been active in opposition to the rum men, and is, therefore, an object of their hatred. On Tuesday evening of last week, as he stood near his house, he was assaulted by Alex. Atkinson, and left lying insensible in the street. Atkinson after the deed boasted of having "knocked Manzer out." He was soon arrested, and has been committed for trial. Mr. Manzer, has been in delicate health for several years, and the assault effected him quite seriously. He is now able to be about, however. Rum men are a murderous lot everywhere.

K. D. C. relieves distress after eating and promotes healthy digestion.

RESOLUTION OF CONDOLENCE.—An account of the drowning of Herbert Gardner appeared in these columns two weeks ago. At a meeting of the Temple of Honour, North Head, soon after his death, the following resolutions of condolence were adopted and ordered to be published and a copy of the same presented to the near relatives of the deceased:

Whereas, It has pleased our Heavenly Parent, in the dispensation of His providence, to suddenly call from our midst, in the prime of life, our brother, Herbert Gardner, who but a short time since was accepted as a pillar into our Temple and being worthy of our kind regards and high esteem, it is therefore fit and proper that there should be offered such feeble words of sympathy as befit our sorrowing hearts; therefore be it

Resolved, That while we in our fraternal relations do keenly feel and realize the loss which we have sustained in the death of our worthy brother, and that as we sadly miss him in our Temple here, we trust that we may joyously greet him among the shining ones in that Temple above.

Resolved, That to his venerable father and members of the family we tender our sincere condolence in this deep hour of affliction in their bereavement of an affectionate and dutiful son, and a kind-hearted brother, and while we hesitate to trespass upon the sacredness of their grief, we earnestly commend them to the mercy of Him who has promised a crown of immortal glory beyond.

Per order of Northern Light Temple of H. & T., Grand Manan, N. B. G. B. N.

### SCRATCHED 28 YEARS.

A Sealy, Itching, Skin Disease with Endless Suffering Cured by CUTICURA Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me \$200.00 and an immense amount of suffering. My disease (Eczema) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc.

I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was \$5 worth. If you had been here and said you would have cured me for \$200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I run my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.
