

well known artists, nothing need be said. Owing to indisposition, Stipendiary Moton was not present to preside, as arranged for. The piano was kindly lent by Miller Bros. and the accompanists were Misses McDonald, Philips, McPherson and Prof. Bristowe. —Halifax Recorder.

HOME MISSION REPORT.—To Rev. B. H. Noble Cor. Sec. H. M. Board: —DEAR BRO.:—It becomes my duty to make another monthly report. I remained home the first week in order to rest and recuperate before beginning another campaign. I left home on the 5th of June and arrived in Upper Brighton on the 6th, and held the first meeting on Sunday the 7th. I was very glad to meet Father Noble, hale and well. He has been pastor of this church during the year and has done most acceptable and efficient work among the people. He is esteemed in love for his work. His life is a practical demonstration that it is possible for a minister to grow beautifully and gracefully old and retain sympathy with the young to life's latest hour.

I met a rather small congregation, but the Lord was very manifest with us from the first. Upon enquiry I learned that a most grievous division existed in the church and community, arising principally out of school difficulties, and the storm of contention was just then raging, and had not existed long enough to become exhausted with its own fury. This undesirable condition of things seemed almost an insuperable barrier to successful revival work. But I reasoned after the following manner:—if we have to wait for the conversion of souls until all professed Christians do right, and live uprightly, there will be no more conversions; these young people will die and meet God just as surely and as quickly as though there were no church difficulties or community quarrels, hence it is important they get prepared for these things, and why not now? So we began to labour, and God immediately began to convict and convert souls, much to the surprise of all. I held meetings each evening for three weeks except Saturday, and twice on Sundays, we had a conference meeting each Saturday, and I visited and labored from house to house during the week-days. The Lord is pleased to very deeply move the public mind religiously, and had it not been for the unhappy division and the consequent prejudice there would have been a very general and extensive revival. Notwithstanding the unfavorable circumstance much good has been done. So far as results can now be calculated, about twenty have been converted, seventeen have been baptized, fourteen added to the church and quite a number of wanderers reclaimed.

I found a most comfortable home at the pleasant residence of Dea. Charles Chase. To him and his amiable wife and family I feel deeply indebted for their unbounded hospitality and Christian kindness. I also experienced many expressions of sympathy and kindness at the hands of the people generally. I have received during the month the sum of \$52.11. Looking back I am constrained to say, "What hath God wrought." Father Noble and Bro. Wm. R. Rued were with me part of the time and rendered timely and valuable assistance.

I purpose to remain home until Thursday 9th inst., and then start for Lower Brighton at which place I purpose commencing special services on Sunday the 12th inst.

Temperance Notes.

—Archdeacon Farrar recently said, preaching in Westminster, "Drink still remains the greatest curse in England."

—John B. Gough used to say that every moderate drinker could abandon the intoxicating cup if he would, and every inebriate would if he could.

—Dr. Dawson Burns says that since the foundation of the Temperance Hospital the amount of alcohol used in the other London hospitals has been reduced by one-half.

—A woman who has just been convicted for the forty-fourth time for drunkenness told the magistrate that ladies for whom she worked gave her the beer, as they said a woman could not do a day's work without it.

—It is said that the liquor-traffic has done more to demoralize the Alaskan Indians than all other causes. The Government has issued orders to the revenue cutter Bear to seize all liquors on board whalers in Alaskan waters except a small supply for medicinal purposes. This is highly commendable. It is a great pity to demoralize the barbarous tribes under the protection of our Government with American whisky. Would it not be well for the Government to consider what can be done to prevent the demoralizing effect of liquor in the States?

—Congress passed a law prohibiting the sale of liquor within a circle of a mile around the National Soldiers' Home. Why not within a mile of everybody's home.

—During the year ending June 30th, 1890, there was a falling off of over thirty-six per cent. in the amount of distilled liquors exported from the United States. Blessed fact. May such progress go on.

—Archdeacon Farrar, preaching in St. Margaret's, Westminster, said: Men of vested interests—yes, vested interests in men's ruinous temptations, vested interests in the destruction of flesh and blood, and souls, and bodies. They use the proud name of Liberty, and declare that she demands the liberty of every human being to destroy himself and to be a curse to his neighbour and his land, deriding all legislation which aims at the restriction of evil weakness.

—One of the most notable of the recent utterances of religious conventions on the subject of the liquor traffic is that of the New Jersey Methodist Conference. It runs as follows: "Resolved, That, since our church brands all license as a sin, we hold that the proper attitude of Christians toward the whole license system is one of uncompromising opposition."

"Resolved, That while we do not advise the taking of partisan politics into the pulpit, yet on this most important of all political issues we call upon our ministers to pronounce most emphatically against any party that, in its platform or legislative acts, provides by license or otherwise for the continuance of the drink traffic and affords no protection against its ravages."

"Resolved, That we emphatically declare ourselves in favor of that political party, of whatever name or title, that will incorporate in the party platform the principle of prohibition of the liquor traffic, and that we will not cast our votes for any man, however solemn his pledges to aid the cause of temperance, who will permit himself to be a candidate for office in a party whose platform favors the liquor interests by license or other methods of regulation, but that here and now we solemnly record our votes for prohibition, pure and simple."

TEA MEETING AND BAZAAR.—A Tea Meeting and Bazaar will be held at the Marysville F. C. Baptist Church ground on the 16th inst. under the auspices of the Ladies Sewing Society. Admission to grounds, 10 cts; Supper, 25 cts; Children under 12 years, 15 cts.

FATHER CHINIQUEY.—The Orange Temperance Association of New Brunswick is preparing to give Father Chiniquey a most cordial welcome. Father Chiniquey is a veritable "Apostle of Temperance." His gift of oratory is still marvellous, for a man of 81 years.

THE NATIONAL DIVISION, Sons of Temperance, will begin its session in St. John Wednesday. It is expected that every state in the American union and every part of Canada will be represented.

BEECHER.—A statue of Henry Ward Beecher has just been unveiled in Brooklyn. He was easily Brooklyn's first citizen, and it is fitting that he have such a memorial.

LADY MACDONALD has been raised to the peerage, as an acknowledgment of her husband's distinguished services. She will be known as the Countess of Epsom.

THE METHODIST CONFERENCE ON TEMPERANCE.—The Conference of N. B. and P. E. I. just held at St. Stephen adopted resolutions on temperance. The resolutions urged the importance of faithful temperance teaching in the Sunday Schools, commencing the W. C. T. U. work, and said:—"Our ministers and members should use increased zeal in disseminating temperance principles and restraining men from doing evil by the sale of that which intoxicates. And we wish with the various temperance organizations of our day and land to make total prohibition our aim and watchword and to arouse our people afresh to the benefits to be derived from legislation which can undoubtedly be obtained if initial effort is made in favor of such an object."

A MEMORIAL.—A meeting was held in Ottawa a few days ago, composed of representative men from different parts of Canada, to take steps towards the erection of a memorial of the late Premier, at the capital. It was resolved: That this meeting is of opinion that a memorial to be of lasting benefit to future generations should assume the form of an institute, to be known as the Macdonald National Memorial Institute, to be devoted mainly to the purposes of art, literature, science and music and for such other purposes as may be decided.

A committee was appointed to canvass for subscriptions in the leading cities and towns of the Dominion, and the chairman was also authorized to cable Sir Charles Tupper, requesting him to make an appeal to the British public.

A NEW TEST.—The Legislature of Maine has submitted to the people of that State an amendment to the Constitution providing that no one shall be allowed to vote or hold office who cannot read the Constitution in English and write his name.

FRANCE is considered a densely populated country, with 187 people to the square mile, but in Bengal, almost wholly agricultural and with scarcely any large manufacturing centres, there are to cultivate land 715 persons to the square mile.

PRESENTATION.—S. A. McLeod, for eleven years Principal of the Sussex Grammar School, and who has just retired from the position, was last week presented with a complimentary address and a gold-headed ebony cane by the teachers and pupils, and a gold watch and chain by the citizens.

All Sorts.

The true Bengal tiger is dying out, owing to the advances of civilization and the rewards offered for their destruction. They are now rare in localities where they were formerly numerous.

A Glasgow doctor, who recently died, after leaving his property to his sisters, ordered the payment of 10s. to his wife to buy a pocket-handkerchief to weep in, as a recompense for deserting and leaving him in peace.

AT A MINISTERIAL CONFERENCE the presiding officer announced that Elder H. would, at the afternoon session, read a paper on "The Devil," and added, "Please be prompt in attendance" for Brother H. has a carefully prepared paper and is full of his subject.

THE RUBBER of the Amazon is a source of much wealth to the people who live upon the borders of its valley. This business is almost monopolized by American merchants. Many hundreds of men, with their families, ascend the Amazon, tap the trees, and prepare the rubber in a rough state for market.

THE COTTON of Peru grows on a tree instead of the diminutive shrub which grows in the southern part of the United States. The tree commences bearing when it is two years old, and it continues to bear every year for forty or fifty years. In the warm regions of the north, two crops are gathered every year.

No one will have a very high opinion of that old-time resident of Bradenbury, Kentucky, U. S., who gave his children such names as London Judge, Hebrew Fashion, Chinese Figure, Reputable Kingdom, and Greek Wisdom. A daughter who was christened "Hell in the Kitchen" died early, which is not surprising.

It is claimed that the New York, New Haven and Hartford railroad carries an average of 350,000 New York and Boston passengers a year, and that it can count on an average of 1,000 through passengers a day. It is also estimated that the Sound boats carry twice as many more, and that the travel between New York and Boston aggregates more than 1,000,000 passengers a year.

There are more than 250,000 Swiss in the United States. In September the Swiss of New York will invite those of other parts of the country to join in celebrating the 600th anniversary of the independence of Switzerland. Beside this oldest existing republic the United States seems young.

Fruit raising in California is coming to be the great industry. Ten years ago, but little of any kind was grown there. Now, every variety of semi-tropical fruit is raised on an extensive scale, and the business is increasing astonishingly. In six years, ending 1889, the shipment of dried peaches increased from 600,000 pounds the product of 1883, to 3,200,000 pounds, the product of 1889. In the same time, apricots increased from 150,000 pounds to 2,000,000; and prunes from 500,000 pounds to 25,000,000.

How Many People

Suffer miserably after eating, from sour stomach, which causes either pain and sickness, or disagreeable scalding in the throat and raising of food. A dose of "Dyspeptique," taken after meals, will prevent this suffering; when taken at bedtime for a week or two "Dyspeptique" will remove the cause of trouble.

SIR JOHN MACDONALD'S PORTRAIT. Every person in the Maritime Provinces has heard of the late premier of Canada, Sir John Macdonald, but not one in ten has seen the great leader. Progress of St. John, N. B., the splendid sixteen page paper that has won deserved popularity so quickly, has no politics, but for half a dollar in stamps, it offers a handsome cabinet photograph of Sir John and a three months' subscription to Progress. It will not be surprising if thousands of persons—on both sides of politics—take advantage of this offer, and thus secure a good picture of the man who has governed Canada so long. The portrait is a perfect copy of one now in possession of Sir Leonard Tilley, governor of New Brunswick, who received it a few days before Sir John Macdonald's death—4 ins.

FOR OVER FIFTY YEARS.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Marriages.

LONDON-SPINNEY.—At Woodstock, on the 3rd inst., by Rev. C. T. Phillips, Henry London, of Windsor, Carl. Co., and Eva A. Spinney, of South Knowlesville, Carl. Co.

WHITEHOUSE-CURRIE.—At Woodstock, on the 3rd inst., by Rev. C. T. Phillips, Thomas L. Whitehouse, of Knowlesville, and Maggie Currie of the same place.

Deaths.

PHEASANT.—On June 16th, Charles Pheasant, of Gladstone, Sunbury Co., died, aged 54 years. He was a member of Tracy church. He was a consistent Christian. In his sickness and death he enjoyed the peace which Christ alone can give. He leaves a widow, two sons and four daughters. May the grace of God sustain them. The funeral sermon was preached by the writer from John, verse 1.—G. W. F.

MORRELL.—At Kars, King's County, June 15th, Mary, widow of Andrew G. Morrell, and daughter of Deacon John Erb, aged 54 years, leaving one son, an aged father and mother, three brothers and two sisters. She professed religion in early life and died trusting in Jesus.

HOOPER.—Calvin E. Hooper died on the 14th ult. He was 17 years old. Five days before his death he was baptized. He was carried to and from the shore at the time of his baptism, being too weak to walk. He is gone to rest; and we trust that his life and death may be a loud voice to all. May God support the mourning friends.

ADAMS.—Mr. Adams died at Northern Harbour, Deer Island, the 15th ult., aged 84. He belonged to Lord's Cove Disciple's church, and was a faithful member.

MCGRAY.—Abbie W. McGray, daughter of Mrs. Abbie McGray and the late M. D. McGray, was buried from her home at Centerville, Cape Island, N. S., on the 22nd ult. Abbie has been an invalid from her infancy, but the kind care and solicitude of her relatives prolonged her life until at the age of 19 years the Lord released her gentle, child-like spirit from the bondage of a frail and feeble body. A number of relatives and friends assembled at the home to give expression of their sympathy to the bereaved family.

COVILLARD.—In Chelsea, Mass., at her daughter's residence, of chronic bronchitis, Elizabeth, widow of David H. Covillard, aged 84 years and two months, leaving one daughter and three sons. She died trusting in Jesus and breathing His name. She was converted in childhood, and was a member of the First Free Baptist organization in the Province of New Brunswick. She afterwards united with the F. M. Church in Waterloo Street, St. John. She had been a member of the F. M. Church, in Boston, Mass. She had been too feeble to attend church for years, but her faith never failed, and she took delight in worshipping in the ladies' prayer meeting, frequently appearing at her home. She has taken the INTELLIGENCER from its commencement. She was buried in Woodlawn Cemetery.

COLPITTS.—On the 23rd ult., Charlotte, beloved wife of Abram Colpitts, in the 65th year of her age. Sister Colpitts, in company with her husband, went to Millstream to spend the Sabbath; after leaving the evening service at Apohaqui, she was taken very ill, and with some difficulty, reached the kind home of Bro. C. W. Weyman, where every means was used by kind friends and skillful doctors; but in spite of all disease on the lungs did its fatal work, and after eight days' suffering she calmly passed away to the home of the blessed. Sister Colpitts, as a Christian lady, had few equals. Her former pastors, Revs. Perry, Clark and DeWane, and others will remember her very pleasant manner in her well-equipped home, as well as the inspiration of her countenance in the house of God. The first Saturday in June she attended the Monthly Conference, and was the first to report herself after the pastor; her testimony was very impressive, which proved to be her last in her much beloved church. Her remains were taken to her late home on the 24th, and on the 25th followed by one of the longest processions seen for years in that place. After religious services in the church (led by her pastor), her remains were buried in the old burying ground at Midland. She leaves a sorrowing husband and one daughter, with many relatives and friends, to mourn their loss.—T. S. V.
