BEAVER HARBOR.—Rev. G. A. Hartley spent a part of last week with Bro. Long at Beaver Harbour, when Bro. Darkin was appointed clerk of the church, thus filling the vacancy caused by the death of Bro. Best, and Bro. G. A. Eldridge was given a license to preach. The church regrets that Bro. Long cannot continue with them after G. Conference. He is greatly beloved for his work's sake.

LOWER BRIGHTON, C. Co.—Rev. Wm. Downey baptized twenty-eight converts at Lower Brighton Sunday last (2nd inst.).—*Sentinel.*

FROM LICENTIATE LEWIS.—I am preaching at present in six different places, viz., Waasis, Waterville, Geary, Greenfield and Gagetown. We have not been able to have any services at Waasis for some time because the place in which worship is held has had to have repairs. I have been to Upper Gagetown two Sabbaths, found the brethren ready to hear the Gospel. Last Sabbath we had two good meetings. There is not so much spiritual life in these churches as ought to be, but the brethren are holding on in hope. There is a Sabbath school in each of the churches, except Gagetown. I will be at Waasis, 16th, in the afternoon at 3 o'clock, and at Greenfield 23rd, at 3 o'clock.

ISAAC LEWIS.

DEDICATIONS, &c.—The dedication of the F. C. B. Church at Bumfrau Ca. Co., which took place at 10.30 a. m. July 12th, was a season of wonderful encouragement and refreshing to the church worshipping there. Difficulties of a grave nature, which had existed in the Church and community for years and had been a great burden and distress to many, are now removed out of our way. "Thanks be unto God who giveth us the victory through our Lord Jesus Christ." Rev. J. W. Clark who preached on the occasion was wonderfully helped of God. His sermon was seasonable, and most faithfully delivered. In honest, loving words the preacher told his hearers painful truth in reference to that which was gradually but surely destroying the unity and the harmony of our beloved cause in this place and the effectiveness of the public worship. We sincerely lift up our hearts in gratitude to the father above for the much improved condition of things now existing in the church at Bumfrau. The district meeting did more to aid us in

satisfactorily harmonizing the church than we can ever know, perhaps.

Rev. C. T. Phillips, by his sermon, on Saturday afternoon, so rich with good things, gave the meeting a spiritual tendency, which it carried to the end.

The church building is very suitable to a community such as Bumfrau. It is large and well finished, and, best of all, it is out of debt.

Our cause from Lower Perth to Bath has visibly improved since last Conference. We never more enjoyed our work here, nor were we ever more encouraged with results. God is manifestly blessing us in our labour. We are planning to begin special meetings with Bumfrau church soon. We are expecting and praying for a revival of religion. May God send it. Pray for us.

J. J. BARNES.

C. T. A. NOTES.—In four cases against Whalen and Doherty, Sussex, the Police Magistrate gave judgment, imposing a fine of \$50 and costs in each case. Rev. J. Grant (Baptist) has been the moving spirit in these prosecutions, and deserves much commendation for the persistency with which he pushed them in the face of very great difficulties.

DISTRESS.—The Jewish Chronicle reports that the large influx of Russian refugees has given rise to terrible distress in Palestine. The fugitives arrive at the rate of 200 to 300 families per week, almost all absolutely without means, and as no provision has been made for them their condition is most wretched. Disease has broken out among them and a pestilence is feared.

HONEY.—It is not not often that there is too much honey in a church. A California paper tells this story: "A number of bees selected the garret of a local church for a hive, storing in it many tons of honey. The recent hot weather caused the wax to melt, which loosened the store of sweetness. The weight was too heavy for the church rafters to hold, and the whole partition of the roof caved in over the pulpit. The church pews and pulpit were completely buried in honey and melting wax."

PONONCIATION.—Pronunciation bees are now the rage. They have been having them at a number of the summer schools this season, and they have made as much excitement as the old-fashioned spelling bee used to. They are conducted on substantially the same principal as the spelling bee, only the words are spelled out and the contestant must pronounce them. It is probably safe to say that there are more words mispronounced than are misspelled by intelligent people, and the pronouncing bee ought to be popular next winter.

THE LIFE OF SIR JOHN A. MACDONALD.—The Earle Publishing House of St. John N. B. informs us that they are now ready to appoint canvassers for the biography of Sir John A. Macdonald, by his nephew Col. J. P. Macpherson M. A.; A. D. C. The book fully illustrated, including two fine steel plate engravings of the late Premier, is the only one written with Sir John's concurrence and approval. Before his death the late Premier revised the manuscript in part. The book was approaching completion when the distinguished Statesman died and Col. Macpherson, who has been engaged in the work for over twelve years, is now writing the final chapters.

The fame of Sir John is so great in Canada that no Canadian of whatever political party, should consider his library complete without this work, which cannot fail to be an interesting synopsis of the recent history of the Dominion. Lady Macdonald kindly expressed the hope "That the volume will be successful from every point of view. Hugh John Macdonald, who has carefully read part of the manuscript of Col. Macpherson's book, says: "I can honestly congratulate you upon the success of your work."

A HIGH-CHURCHMAN ON SPURGEON.—In the course of a recent sermon at St. Alban's, Holborn the Rev. A. H. Stanton made the following allusion to the illness of the Rev. C. H. Spurgeon: "One word about the great Baptist minister who is so ill. When he began his ministry, he was despised of all round about him, who belonged to the educated portion of the metropolis, sneered at and called the vulgar minister, and jokes of all kinds made at his expense. But what a power he has proved since; and no man in London stands with such clean hands—he has made no money. What rejoices my heart above all things is, that along all the posters this week, we find the German Emperor and Mr. Spurgeon—Mr. Spurgeon and the German Emperor. He is despised no longer; but acknowledged to be one who preached Christ with power; and now that he hangs between life and death, Englishmen acknowledge that he is a good man—one of whom Englishmen are proud."

JOSEPH COOK.—Dr. Cuyler writes thus of Joseph Cook with whom he recently passed some days: "I enjoyed his renewal of an old friendship with this unique and brilliant lecturer. He is stouter than ever in physique, and has the same steam-engine power before a popular assembly. However polemical he may be in his public advocacy of old-fashioned orthodoxy of doctrine, he is, in private, as genial and playful as a school-boy. He told me of a remarkable talk he once had with Mr. Spurgeon on the subject of secret prayer. Those who know the great preacher best, know how wonderful he is at the throne of grace; and the last prayer I heard at his own family altar, surpassed anything I ever listened to in childlike simplicity, in its range and its depth of devotional fervor. Then I discovered the real hiding of his power."

JUDGE WATERS, Judge of the County Court of St. John, died suddenly on Friday morning of heart disease. He had been apparently in good health up to the hour of retirement the night before. Not coming down to breakfast at the usual time, his daughter went to call him and found him lying across the bed dead. He had, apparently, died while dressing. He was past seventy. He was for several years a member of the Local Legislature and a member of the Government. He was a colleague of Sir Leonard Tilley in the Confederation agitation. In 1867 he was appointed to the judgeship. He was a man of good abilities, very genial and highly respected by all classes.

THE CONVENTION OF THE Y. M. C. A. of the Maritime Provinces, which met in Truro last Thursday, was well attended. The sittings of the Convention are reported of much interest. The associations in the Provinces are in good condition and doing excellent work. The following officers were elected:

President.—Harvey Graham, New Glasgow.
Vice-Presidents.—Joseph N. Burgoyne, Halifax; W. A. Stoneman, Yarmouth; W. C. Tower, Charlotteville; T. B. Darby, Mt. Allison College, Sackville; J. E. Masters, Moncton; W. S. Fisher, St. John; W. C. Peterson, Chatham.
Secretary.—A. E. Atlee, Pictou.
Assistant Secretary.—Alex. M. Wood, Halifax.

A Little of Everything.

Although the population of Italy is about the same as that of England, 820,000 persons died in Italy in 1888 and only 619,000 in England.

An aeroplane by a balloon has recently taken place in the West. It is doubtful whether it will ever become popular. While the dangers of being overtaken are very much reduced, the dangers of being undertaken are considerably increased.

The millions of steel pens used in the world are all made by very few firms. Three are in this country, three in Great Britain, and one each in France, Germany, and Italy; and all these manufacturers purchase the raw material, which is sheet-steel finely rolled, from a single establishment in Sheffield, Eng. To make this crude stuff into a finished pen, it has to be passed through fourteen different processes, after which each pen is examined and tested by an expert.

The custom of lifting the hat had its origin when knights never appeared in public except in full armor, but, upon entering an assembly of friends, the knight removed his helmet, the act signifying, "I am safe in the presence of my friends."

Near Milan nearly 22,000 acres of land, irrigated with water derived from the sewers of the city, are yielding crops of from eight to ten tons of hay, as a rule; while occasionally some separate meadows will yield the fabulous amount of eighteen tons of hay per acre.

Emperor William is following the example of Frederick the Great in enlisting the tallest men that can be found for his Guards. The latest acquisition is a young Rhinelander whose height is seven feet four and a half inches. He is the tallest man in the Guards since 1850.

A little girl who is just learning to read short words, takes great interest in the big letters she sees in the newspapers. The other evening, after she had kept her mamma busy reading the advertisements in the newspapers to her, she knelt down to say her prayers. "Dear Lord," she lisped, "make me pure!" Then she hesitated and went on, with added fervor, a moment later, "Make me absolutely pure, like baking powder!"

An autograph letter of Abraham Lincoln to a friend is said to contain the following:—"Do not worry. Eat three square meals a day. Say your prayers. Think of your wife. Be courteous to your creditors. Keep your digestion good. Steer clear of biliousness. Exercise. Go slow and go easy. Maybe there are other things that your special case requires to make you happy, but, my friend, these, I reckon, will give you a good lift."

Father West, is an old circuit preacher in Western Pennsylvania, and very popular with young people wishing to get married. On one occasion he found in a certain town several couples awaiting him. He was tired, and married them in a lot. After the ceremony, two of the couples found they had taken the hands of the wrong persons. The old preacher's eyes twinkled as he took in the situation; but he instantly straightened up, and with a wave of his hand dispersed them. "I married ye all," he said. "Sort yourselves."

The alligator, when dead, is a very useful animal. Some 60,000 hides are used in the United States every year, but besides this its teeth may be mounted as jewellery, given to teething babies, or ground to powder and used as medicine, or else carved into buttons and cane-handles. His tail gives nearly 70 pints of oil, used for lighting, or as a remedy for rheumatism. He also yields a large quantity of musk. This industry is carried on in Florida.

It is related of the late Dr. Hodge of Princeton Theological Seminary that he once asked a student for the definition of eternity. The student, after some hesitation replied that he used to know the definition, but had forgotten it. "Oh, my, my, my!" exclaimed Dr. Hodge, bringing his hand down forcibly upon the table, "what a calamity! The only man in the universe that ever knew what eternity is has forgotten it."

In Brompton Cemetery, London, 100,000 bodies lie in twelve acres; and in the Tower Hamlets Cemetery almost a quarter of a million lie in less than seventeen acres, some to the number of seventy in the same pit. And London is only a large example of what exists at Edinburgh, Glasgow, Manchester, and, in a lesser degree, in many country churchyards.

An old woman was praising in rather enthusiastic terms the sermons of a Scottish minister who had acquired a great name for depth and sublimity. The suspicions of her auditor were a little roused, and she ventured to propose a question to her: "Well, Jennie, do you understand him?" "Understand him!" ejaculated Jennie, holding up her hands in astonishment at the question; "me understand him! Wad I have the presumption?"

Literary Notes.

The handsomely illustrated article on the Cuthberts, of Berthier, which appears in the last issue of *The Dominion Illustrated*, should be read by every one interested in the early history of Canada. In the same number is a delightful article by Miss MacLeod on the Augustan Days of Edinburgh. There are letters from London, Toronto, and Halifax. The Sagamore gives his opinion of the recent Mercier demonstration. A full page portrait of the Emperor of Germany is produced, also views in St. John's Nfld. The number is a good one.

The Century for August has a double frontispiece consisting of portraits of the Emperor and Empress of Germany to accompany a paper on the German Emperor, being a sketch of the first three years of his reign.

In "Life on the South Shores Lightship," which is anchored twenty-four miles seaward of Nantucket, various phases of this desolate life are recorded.

In the California series is a paper on the Cape Horn Route. This paper is illustrated. "The Press as a News Gatherer," the first of several papers on journalism which are to appear in The Century. It discusses topics of interest to newspaper editors, as well as to the public. "The Argentine Cheap Money Paradise" is discussed editorially in "Topics of the Time," and is believed to be the most authentic account of the great disaster; other subjects are "The Lottery's Last Ditch," and "Orthodoxy and Liberty."

Among the most attractive titles in the index of the August St. Nicholas we select "The Crowned Children of Europe," an account of Wilhelm of Holland, Alphonso of Spain, and Prince Alexander of Servia, with photographs; "Plain Truths About Hunting"; "Vacation Days," a story told in letters and illustrated; and "The Story of My Life," wherein Saleh Bin Osman, Stanley's Zanzibar boy, is made to tell his own story.

Other good things are "Four Sides to a Triangle"; another "Swimming-hole Story"; "Some Incidents of Stanley's Expedition" and "The story of the 'Century' Cat."

There are also Verses and Jingles in crowds. The departments are also full of good things.

"I SLEEP like a babe since taking 'Dyspeptique' is quite an ordinary remark, for many nervous sleepless sufferers have found out that 'Dyspeptique' causes sweet, natural sleep. This remedy contains no narcotics whatever, but quiets the nerves and gives sleep by soothing the irritated coatings of that Great Nerve Centre—the Stomach. Try 'Dyspeptique' for Sleeplessness."
