Literary Notes.

The Methodist Magazine for February 1892. Price \$2 a year; \$1 for six months; 20 cents per number. Toronto; William Briggs. The article which will attract most attention is a memorial tribute to the late Dr. Staiford, accompanied by an excellent portrait. Two illustrated papers of special missionary interest are: "India: Its Temples, its Palaces, and its People" and the "Missionary Journey in Western China." "Across the Continent," has some striking illustrations. This is an admirable paper on "The New Evangel," the Woman's Mission work. Recreations in Astronomy are of fascinating interest. Fifteen pages are devoted to a Temperance tale of "A Woman's Fight with the Monster." Now is the time to secure the early numbers of the year.

Harper's Magazine for February contains the beginning of a series of papers describing a canoe voyage in 1891 down the Danube, "From the Black Forest to the Black Sea." There is an interesting paper on the great Northwest, describing the fur-trading industries of British North America and the operations of the once powerful Hudson Bay Company. Another paper of interest is an account of the "Old Shipping Merchants of New York." "Personal Recollections of Nathaniel Hawthorne," is continued. "Chicago—The Main Exhibit," gives a graphic account of the present aspects of business and life in the great metropolis of the lakes. There is a good lot of fiction, poems &c. The Editorial Departments are, as usual, interesting.

The most extensive salt mine in Wietzka, near Cracow, Austro-Hungary. For six hundred years it has been constantly worked, and from it 55,000 tons of salt are annually taken. The mass of salt in it is estimated to be five hundred miles long, twenty miles broad, and 1,200 feet in depth. Its collective galleries are fully thirty miles in length; and its lower levels contain streets and houses, making it a complete underground village.

Some statistical wretch has figured out that it costs the people of the United States \$250,000,000 a year to be born, \$300,000,000 to get married, and \$75,000,000 to be buried. As no man has much control, over either his birth or his burial, it follows that the only direct method by which he can cut down this expense is by avoiding marriage. This plan would, of course, indirectly lessen the other items in time.

K. D. C. is "worth its weight in gold," "sells like hot cakes," "is all it is recommended," "an excellent remedy," and the "best dyspepsia cure ever offered to the public." See testimonials.

MORTAR-SPOTTED SKIN

Covered with Scales. Awful Spectacle. Cured in Five Weeks by the Cuticura Remedies.

About the 1st April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers accompanied with itching. I would scratch every night until I was raw, then the next night the scales being from d mean while were scratched off again.

In vain did I consult all the doctors in the county, but without aid. After giving up all hopes of recovery I happened to see an advertisement in the newspaper about your CUTICURA Remedies, and purchased them from my druggist, and obtained almost immediate relief. I had the disease thirteen months before I began taking the REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I know of a great many who have taken the REMEDIES, and thank me for the knowledge of them, especially mothers who have babe with scaly eruptions on their heads and bodies. I cannot express my thanks to you. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as clear as a baby's.
