

hoping and laboring for brighter days. There is at the present time quite a religious awakening among the children of the Sabbath-school of Fredericton Junction, as the result partially of the persistent and faithful teaching and prayers of noble brethren and sisters engaged in Sabbath school work there and partially due to "The Children's Prayer Meeting" organized a short time ago by sister Dr. Secord and others. These meetings are proving a great blessing to the children. Last Sabbath morning it was my enjoyable privilege to speak to the children, and it seemed to me that I never spoke to such an important and precious audience. At the close of the service I baptized two, and I may say that altogether it was a precious season. "God bless the children," and may many more of them come to Jesus. They are indeed the joy of our lives and homes, and the hope of the church. Many of the old "standard bearers" have and are falling, but we rejoice to think that their mantles are falling upon these precious little ones.

FROM REV. GEO. A. DOWNEY.—I intended to send a few lines to your columns before I left Kings Co., N. S., but somehow I succeeded in failing to do so. I have felt the need of better preparation for work ever since I began and so when the way seemed open I felt like improving perhaps my last opportunity to get a Theological training. I resigned my charge in Kings Co., in July. It was not without regret that I left the field where God blessed my labors and where I had many friends and opportunities for doing good. However, I feel that I have done what is best, everything considered, and I hope and pray that my place may be more than filled by some new pastor. I take this opportunity to express my thanks to all the friends who have so kindly assisted me and given many substantial tokens of their sympathy with me in my recent bereavement. I received many letters of condolence, all of which I did not answer for lack of time, but all of which I did appreciate. May God bless richly all those kind hearts and may the loving sympathy of Jesus be a reality to them in every trial.

BECOMES A BAPTIST.—Mr. Newman Manning, formerly a Catholic, and a nephew of Cardinal Manning, was baptized and became a member of the Chestnut Street Baptist Church, of Louisville, Ky., recently. It was the desire of his uncle that he should become a priest, but he has not accepted the advice of his misguided relative and has returned to the Protestantism which his uncle deserted.

PANAMA CANAL.—It is reported that arrangements have been made with a syndicate having ample means for completing the long-suspended Panama Canal work. In spite of all the international jealousies, in disregard of the interests of rival syndicates with other schemes on hand, we hope the great canal will be completed, and that too in the life of the great engineer who began it.

TRAVEL ARRANGEMENTS.

Arrangements for travel to General Conference have been made as follows: Ministers having half-fare certificates for either the C. P. R. or the I. C. R. will use them as ordinarily.

C. P. R. Delegates and their wives travelling by this line will purchase first class tickets at regular rates. Each person purchasing a ticket will state that he is going to conference, and ask and receive from the Ticket Agent at the starting point a receipt for the purchase. On presentation of the receipt to the Secretary of Conference, he will sign it. Being then presented on the return trip to the Ticket Agent at St. John, the holder will be entitled to receive a return ticket for one-third of first class fare if fifty or more have gone over the road to Conference, or for one half fare if less than fifty have gone.

Those travelling by this road should purchase tickets to St. John only; and there purchase I. C. R. tickets. I. C. R. Agents are the station nearest the place of Conference, and to it tickets should be purchased.

When purchasing a first class ticket to Annapolis, ask the Agent for a Certificate. The certificate, signed by the Secretary of Conference, and presented to the Agent at Annapolis, will entitle the holder to a return ticket free, if ten or more have travelled to Conference by the I. C. R.; or for one-third fare if less than ten have gone.

STEAMERS. Those going by the "Weston," "Star" or "Springfield," will be returned free on presentation of a certificate of attendance by the Secretary of Conference.

J. W. CLARKE
Cor. Secretary.

The Treasuries of all the Districts having Conference money will please forward the same to me before Conference.

THE COMMITTEE.

A GLENGARRY MIRACLE.

MR. JAMES SANDS' WONDERFUL RESTORATION TO HEALTH.

After Three Years of Paralysis, Insensibility, and Uselessness, he tells the tale of his recovery and renewed work in the world—his story as told a Free Press Reporter.

Ottawa Free Press.

The town of Alexandria, some 55 miles south of the city of Ottawa, on the Canada Atlantic Railway, has been completely astonished, recently, at the marvellous experience of a young man, who, after having been bed-ridden for nearly twelve months, and his case pronounced incurable by Montreal and Alexandria doctors, is now restored to complete health and strength.

Mr. James Sands is a young teamster, well known and extremely popular throughout the country side, and his illness and wonderful recovery have been—indeed still are—the chief topics in the town and neighborhood. The story of his miraculous cure having reached Ottawa, a member of the Free Press staff journeyed to Alexandria and sought out Mr. Sands for the purpose of ascertaining the truth of the statements made regarding his recovery. Mr. Sands is a slimy built, but wiry-looking young man of about 32 years of age and when met by the newspaper man the bloom of health was on his cheek and his whole framed showed signs of unimpaired vigor and vitality.

The newspaper man told Mr. Sands the object of his visit, and the latter expressed his perfect willingness to give all the facts connected with his case.

"I was," said Mr. Sands, "a complete wreck, given up by the doctors, but now I am well and strong again, and gaining strength every day. I was born in Lancashire in 1860, and up to three years ago I was always healthy and strong, living in the open air and being well-known throughout the whole country of Glengarry. It was in the winter of 1888-89 that I first felt signs of incipient paralysis. I was then teamster for the sash and door factory here, and had been exposed to all kinds of weather. I then experienced violent twisting cramps in my right hand. I was in Cornwall that winter when the first stroke fell, and remained there for three days before I knew anybody at all. A medical man was called in but could do nothing for me. After that I came home and appeared to get all right for a time, but after a few days the old trouble began again, my hand continuing the twitching and cramping that had preceded the stroke. Up to twelve months ago these twitching fits were the only symptoms I suffered from. Then in August, 1891, when I was in Huntingdon village I sustained a second stroke, and remained unconscious for about seven hours. A doctor attended me and I recovered sufficiently to be brought home. After my return home the paralysis steadily gained on me, and I lost the use of my right arm and leg entirely; my right eye was distorted and my tongue partially paralyzed. I was prescribed for by an Alexandria physician whose treatment I carefully followed, but it had no effect. I still got steadily worse, and about a month before Christmas last, I went to the English hospital at Montreal. Prof. Stuart and all the doctors came around me, as mine was a curious case, and the professor treated me. All the doctors could give me no satisfaction, and did not appear to understand my case. I questioned some of them, but they told me it was a hopeless case. I remained in the hospital a month, without the least improvement, and was then brought home, and remained in my bed till May day. I had constant medical advice, but continued to grow worse and worse. My right arm withered and I grew so weak and useless that I could not turn myself in bed. Meantime I had tried all sorts of patent medicines without the least effect. In May I saw an advertisement of Dr. Williams' Pink Pills, in the papers, and said I would try them as a last resort. I had heard of the wonderful cures worked by Pink Pills, and told my folks to get me some. I had not taken them long when I found myself improving, and this determined me to continue their use. My strength gradually returned, the muscles of my arm and leg became invigorated and stronger, and I was able to sit up. I still continued taking the Pills and gaining strength, until at last I was able to go about, and finally to return to my old place at the sash and door factory. I gave up the Pills for a while, but did not feel so well, so I again began their use. I now feel as well as ever, though perhaps not quite so strong as formerly. You can see my right arm, which was withered, is now all right," and Mr. Sands stretched out a muscular limb, which would have done credit to a blacksmith. In reply to the reporter Mr. Sands said he thought his trouble had been brought on through exposure to the weather. "I am completely satisfied," said he, "that it is entirely to Dr. Williams' Pink Pills that I owe my wonderful restoration. Besides the medical treatment I had tried electricity and patent medicines, both internal and external, but without the slightest avail. After beginning Pink Pills I began to mend, and they have made a new man of me."

The newspaper man then called on Messrs. Ostrom Bros. & Co., widely known druggists, and interviewed their representative, Mr. Smith as to his knowledge of the case. Mr. Smith was fully conversant with the facts, and vouched for the story told by Mr. Sands, and further said, that his hopeless case and remarkable recovery are known throughout Glengarry County. In reply to the query if many of Dr. Williams' Pink Pills are sold, Mr. Smith replied that the sale was remarkable and that in his experience he had never handled a remedy that sold so well, or gave such general satisfaction to those using them, as every-where glowing reports are heard of the excellent results following their use. Dr. Williams' Pink Pills are not a patent medicine in the sense that word is understood. They are the result of years of experience and careful investigation. They are not a purgative medicine, but act directly upon the blood and nerves, supplying those constituents required to enrich the former and stimulate and restore the latter. For all diseases depending upon a vitiated condition of the blood, or shattered nerves, they are an unfailing remedy. Such diseases as these speedily yield to their treatment. Locomotor ataxia, partial paralysis, St. Vitus dance, neuralgia, rheumatism, sciatica, nervous prostration, nervous headache, dyspepsia, chronic erysipelas, scrofula, etc. They are a specific for the troubles peculiar to females, correcting irregularities, and restoring the functions, and in the case of men effect a radical cure in all cases arising from overwork, mental worry or excesses of any nature. In fact it may be said of them "They come as a boon and a blessing to men, Restoring to health, life and vigor again."

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or hundred) and the public are cautioned against numerous imitations sold in this shape at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

A CHINAMAN, Jen Hawk, was one of the prominent speakers at the recent C. E. Convention in New York. He attracted much attention, and seems to have made a fine impression. He is the son of a laundryman in St. Louis, in which city he was brought up, and was early converted and joined a Baptist church. He has just now become pastor of a Chinese mission in New York.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by the careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
