my return I was very sorry to find  
Deacon John Pennfield dangerously  
ill and now at the time of writing, five  
days later, he is no better. Oh, that  
it may please the blessed Lord to spare  
him to his family and the church. The  
time of General Conference is drawing  
near and the people here are beginning  
to make preparation for the reception  
of the many that may attend that meet-

may come up as clouds full of rain and  
a very special blessing may attend all  
the sessions. May this be the earnest  
prayer of all.

In conclusion I wish to express my  
thankfulness to the church and con-

MONCTON.—The Moncton church is  
still living and working for the sus-  
tenance of God's cause and conversion  
of sinners. Recently a number of good  
workers, whom we miss very much,  
have removed from the place. But  
others are coming in, putting on the  
harness and finding their place in the  
Lord's work. Last Sabbath three  
young sisters, who lately professed re-  
ligion in our meetings, were baptized  
and received as members of the church.  
Our faith is in God, and we purpose  
by His grace to go forward.

Attention is called to advertise-  
ment of Short's "Dyspepticure" which  
appears in this issue. Numerous let-  
ters testify to many wonderful cures  
wrought by this remedy and there  
seems little doubt that it is really a  
first class article.

SCOTT ACT NOTE.—W. H. White of  
Gibson, was fined \$50 for violation of  
the Scott Act at the police court  
Thursday morning. In the afternoon  
evidence was heard in the case against  
Hugh Edgar of St. Mary's for a like  
offence and judgment reserved till  
Monday.

"GENTLE PAUPERS."—An English  
rector lately burst forth with this:

I am often congratulated upon hav-  
ing a rich congregation, and, looking  
to the general expenditure upon dresses  
and establishments, they should, in-  
deed, be wealthy; but looking to the  
amounts given by them in the church,  
they could only be regarded as gentle  
paupers. There is a decent liberality  
which is midway between beggary  
and meanness and imprudent generosity.

This is true of some churches in all  
denominations in this country. Many  
have a reputation for large gifts that  
really give small amounts in proportion  
to their means. Twenty-five thousand  
dollars is a large sum in the aggregate,  
but what is that for a congregation of  
professed Christians whose wealth is  
counted by scores of millions, and  
current incomes in proportion? In the  
most liberal churches can be found  
some who by this standard are gentle  
paupers. In all there are many per-  
sons who are willing that others should  
pay all expenses of the church, while  
they give as little as they can; spend  
disproportionate amounts in display  
and self-gratification; and often have  
the impertinence to be among the most  
severe critics and mischief-makers.  
The cause of the one is the cause of  
the other—want of religion.—*Advocate*

SUNDRIES.—It is calculated that the  
average American citizen spends \$12  
a year for shoes. . . . The nursery of  
floral interests in the United States  
now reach a value of nearly \$42,000,000,  
and claim an empire of more than 170,-  
000 acres. . . . If all the locomotives  
in the United States were coupled to-  
gether they would make a train 200  
miles long. Add the passenger cars  
and we would have a train 7,000 miles  
long, carrying 1,500,000 passengers.  
. . . Three factories in the United  
States consume nearly two million  
eggs a year in making the peculiar kind  
of paper known as albumen paper,  
used by photographers. . . .

##### MIRACLE.

The Terrible Sufferings of  
Isaac W. Church from  
Paralysis.

CRUSHED BY A FALL OF FORTY FEET—  
HE SPENDS MONTHS IN A HOSPITAL AND  
IS DISCHARGED ONLY TO SUFFER GREAT  
AGONY—MONTHS WITHOUT SLEEP AND  
A VICTIM OF NERVOUS PROSTRATION—  
AN ACCOUNT OF HIS MIRACULOUS CURE  
AS INVESTIGATED BY A "TIMES RE-  
PORTER."

Hamilton Times, June 20th, 1892.

"In the spring of 1887, while work-  
ing on a building in Liverpool," said  
Mr. Church, "a scaffold on which I was  
standing collapsed and I fell to the  
pavement a distance of forty feet.

Bruised and bleeding I was picked up  
and conveyed to the Northern Hospi-  
tal, and not one of the doctors who at-  
tended me held out any hope for my  
ultimate recovery. The base of my  
spine seemed to be smashed into a  
pulp, and the efforts of the medical  
men were directed altogether towards  
relieving the terrible agony I suffered  
rather than towards curing my injur-  
ies. I had the constitution of an ox  
though," and the speaker threw out  
his chest and squared a pair of shoul-  
ders that would have done credit to a  
prince among athletes, "and as I  
seemed to have a tremendous grip on  
life the doctors took heart and after re-  
maining in that hospital forty weeks I  
was discharged as being as far recov-  
ered as I would ever be. For twenty  
six weeks I would lie in one position,  
and any attempt to place me on my  
back made me scream with pain. Through  
eighteen months after my  
discharge I was unable to do a stroke  
of work, and could with difficulty make  
my way about the house, and then only  
with the aid of crutches. Twice dur-  
ing the time I underwent operations  
at the hands of eminent surgeons, who  
were amazed at the fact of my being  
alive at all after they had been in-  
formed of the extent of my injuries. On  
the last occasion my back was cut  
open and it was discovered that the  
bones which had been shattered by my  
fall had, by process of time, comple-  
tely overlapped each other, forming a  
knuckle that you see here," and Mr.  
Church showed the reporter a curious  
lump near the base of his spine. "All  
efforts to straighten those bones con-  
tinued unavailing, and finally told me  
that in the course of a few months  
paralysis would set in and my troubles  
would be increased tenfold. Their  
predictions proved only too true and  
before long I was in almost as bad a  
condition as ever. No tongue can tell  
the pain I suffered as the disease  
progressed, and eventually I decided  
to come to America. So in 1890 I  
closed up my affairs in England and on  
arriving in Halifax, so done up was I  
with the journey across the ocean, that  
I had to take to my bed and was kept  
a close prisoner for several weeks.  
Having a brother living at Moorfield,  
near Guelph, I with difficulty accom-  
plished the journey there and tried to  
do some work. My utmost exertions  
could accomplish but little, however,  
and as the result of my trouble, nerv-  
ous prostration, in its worst form as-  
sailed me. I remember once being  
overtaken by a thunderstorm while  
about a mile away from the house, and  
while I was making my way there I  
fell no less than eight times, comple-  
tely prostrated by particularly vivid  
flashes of lightning or heavy rays of  
thunder. About a year and a half ago  
I came to this city and secured work  
at the Hamilton Forge Work, but be-  
fore long had to quit, because I could  
not attend to my duties. I used to  
think that if I could only get a  
little sleep once in a while I  
would feel better, but even that boon  
was denied me. Night after night I  
tossed from side to side, and every  
time my back pressed the bed the pain  
that shot through every limb was al-  
most unbearable. The doctors pre-  
scribed chloral and bromide of potash,  
and for weeks I never thought of going  
to bed at night without having first  
taken powerful doses of either of these  
drugs. Towards the last these doses  
failed to have the desired effect and I  
increased the size of them until I was  
finally taking thirty grains of potash  
and ten grains of chloral every night,  
enough to kill a horse. I became so  
weak that I could hardly get around,  
and my lower limbs shook like those  
of a palsied old man. When every-  
thing seemingly had failed me and I  
was about to give up what seemed a  
vain battle for life and health my wife  
here read an account in one of the  
newspapers of John Marshall's wonder-  
ful cure by means of Dr. Williams' Pink  
Pills, and although I had lost all faith  
in any medicine I resolved to try once  
more and accordingly procured a box  
of those little Pink Pills from Mr.  
Harrison, the druggist, and commenced  
to use them according to the directions.  
This was in October of last year. I  
had not taken them a week till I be-  
gan to feel an improvement in my  
general health. In a month I slept  
every night like a baby. The pain  
left my back entirely, and by the be-  
ginning of the new year I could lie on  
my back for hours and never feel the  
slightest pain therefrom. Prior to  
taking the pills I suffered terribly with  
fits, many of them so severe that three  
or four men were required to hold me.  
The pills knocked those all out, though  
and all the time I used them I did not  
have even the suspicion of a fit, and as  
for my weight, well, you will hardly  
believe it, but honestly in that time I  
gained forty pounds. Well, to make  
a long story short, I went to work  
again a few months ago, this time in  
the Hamilton Nail works, where I  
went as shipper, and I have worked  
there steadily since the first day I went  
in. Last fall I was too weak to walk  
a mile, now I work from 7 a. m. to 6  
p. m., and my work is no child's play  
either. I can assure you. I handle  
about 500 kegs of nails every day and  
each keg weighs one hundred pounds  
and has to be lifted a distance of from  
five to six feet. All my renewed  
strength I ascribe to the use of Dr.  
Williams' Pink Pills, which I consider  
have worked wonders in my own case.  
For anyone troubled with nervousness,  
sleeplessness or loss of strength in any  
way, in my opinion there is nothing in  
existence like those pills for restoring  
people who are thus afflicted. Yield-  
ing to the advice of friends, who  
claimed that my renewed health was  
not due to the Pink Pills, I quit using  
them for about a month, but the re-  
currence of those terrible fits warned  
me of my folly and I commenced using  
the pills again, and I will certainly  
never be without them in the house."  
"Not if I know it, anyhow," remark-  
ed Mr. Church. "I know only too  
well the good they have done you, and  
you would not have been anything like  
the man you are to-day if it had not  
been for those pills, and no one on  
earth knows better than I how greatly  
you have been helped, and not only

you but others in the family who were  
thought to be going into a decline, be-  
fore they were restored by taking those  
pills."

Some of the particulars of the mar-  
velous rescue of Mr. Church from a life of  
suffering having reached the public, a  
reporter of the Times thought it worth  
his while to investigate the matter for  
the benefit of other sufferers, and it  
was in response to his enquiries that  
the above remarkable story was nar-  
rated by Mr. Church. Taken in con-  
nection with the reports of other equal-  
ly remarkable cures—the particulars of  
which have been published from time  
to time—it offers unquestioned proof  
that Dr. Williams' Pink Pills for Pale  
People stand at the head of modern  
medical discoveries.

The neighbors generally were very  
out-spoken in their astonishment at  
Mr. Church's miraculous cure, all who  
knew anything of his case having given  
him up months ago as rapidly approach-  
ing the portals of the great unknown.  
He looks far from that now though.  
His eye is as clear, his cheek as ruddy,  
and his step as elastic as a youth in his  
teens. He was for seven years a mem-  
ber of the Life Guards, and for some  
time conducted a gymnasium in Liver-  
pool. He expects to get back to his  
beloved athletic exercises this season,  
and is much elated at the success of  
his treatment.

The reporter then called upon  
Messrs. Harrison Bro., James street  
north, from whom Mr. Church had  
purchased the remedy, who further  
verified his statements. In reply to  
the enquiry by the reporter, "Do you  
sell many of Dr. Williams' Pink Pills?"  
Mr. James Harrison of the firm re-  
plied:—

"Well, yes, rather. A thousand  
boxes don't last long. You see our  
business is largely with men, women  
and girls employed in the big factories  
and mills in this locality and the re-  
commendations we hear from these  
people day after day, month after  
month, would indeed make the manu-  
facturer of those wonderful little pellets  
think he was a benefactor of humanity.  
Several cases have come under my own  
notice of women, poor, tired-out, over-  
worked creatures, being made "like  
unto new" by the use of these pills  
and I see them passing to and from  
work daily and looking as though life  
was worth living and well worth it, too.  
In all my experience in the drug busi-  
ness I never saw anything like these  
pills," and Mr. Harrison related a  
number of cures that had come under  
his observation in addition to that of  
Mr. Church.

Dr. Williams' Pink Pills for Pale  
People contain in a condensed form all  
the elements necessary to give new  
life and richness to the blood and re-  
store shattered nerves. They are an  
unfailing specific for such diseases as  
locomotor ataxia, partial paralysis, St.  
Vitus' dance, sciatica, neuralgia, rheu-  
matism, nervous headache, the after-  
effects of la grippe, palpitation of the  
heart, pale and sallow complexions,  
and the tired feeling resulting from  
nervous prostration; all diseases depend-  
ing upon vitiated humors in the blood,  
such as scrofula, chronic erysipelas,  
etc. They are also a specific for troubles  
peculiar to females, such as suppres-  
sions, irregularities and all forms of  
weakness. They build up the blood  
and restore the glow of health to pale  
and sallow cheeks. In the case of men  
they effect a radical cure in all cases  
arising from mental worry, over-work  
or excesses of whatever nature.

These pills are manufactured by the  
Dr. Williams' Medicine Company,  
Brookville, Ont., and Schenectady, N.  
Y., and are sold in boxes (never in  
loose form by the dozen or hundred,  
and the public are cautioned against  
numerous imitations sold in this shape)  
at 50 cents a box, or six boxes for  
\$2.50, and may be had of all druggists  
or direct by mail from Dr. Williams'  
Medicine Company from either address.  
The price at which these pills are sold  
make a course of treatment compar-  
atively inexpensive as compared with  
other remedies or medical treatment.

FRED B. EDGECOMBE'S,

192 and 194 QUEEN ST., FREDERICTON.

McLEAN.—At Woodstock on the 27th  
June after a long illness Alice, aged 16  
years and seven months, second daughter  
of James and Kathleen McLean. This  
young sister made a public profession of  
faith in Christ and united with the Free  
Baptist church more than a year ago, and  
until too ill and weak to attend prayer-  
meeting and Y. P. C. E. was always ready  
to testify her love for her Saviour. A gen-  
eral favorite among her young friends and  
in her home, many were the prayers offered  
for her recovery, but God gave her a better  
gift than health. He gave her life forever-  
more.—C. P. T.
