

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

# Royal Baking Powder

## ABSOLUTELY PURE

### News of the Week.

#### New Brunswick.

Michael Woods, a farmer living at Acadia station, while walking on the railway track near that station July 6, was struck and instantly killed by the engine of a working train. Dr. Keyth, had a jury summoned and proceeded to Acadia station and held an inquest. The verdict of the jury was that Woods was killed by the engine of the working train, and that no blame could be attached to the employees of the railway. Deceased was about sixty-eight years old.

A prisoner named Nathan Griswold escaped from the Maritime Penitentiary at Dorchester, July 6. He was working with a gang of other convicts at the new kitchen which are being built on the officers' houses in the government row. He had only three years more to serve. Officers have since captured him.

Memramcook gold mining is promising.

Dr. J. H. McMillan, of Pictou, was found dead in bed in the Royal Hotel, St. John, last Saturday. Deceased was about 26 years of age, and was in practice with his father at Pictou. Verdict of coroner's jury: "death from natural causes."

The drought has been severe throughout N. B. The hay crop will be short. But the kindly rain has come.

The dwelling house of Nelson Atkinson at Wood Point near Sackville, was destroyed by fire on Tuesday night. The house was insured for \$1,000, with the Alliance Co.

Carmichael one of the troopers of the 8th Hussars who was injured at Sussex camp on Tuesday last will be unable to do any work for the remainder of the summer. Besides a badly sprained ankle he dislocated his right shoulder. Carmichael should be given aid from the militia department.

Physicians in cholera districts state that where there is no indigestion there will be no cholera. K. D. C. will cure your indigestion and make you cholera-proof.

Those suffering from indigestion are the first to be attacked by cholera. K. D. C. is the Greatest Cure of the Age for indigestion. It is the best cholera preventive.

#### Nova Scotia.

The grand lodge, I. O. G. T., of Nova Scotia elected officers at its meeting on Tuesday. The new G. C. templar is B. D. Rogers of Stellarton. The report on the state of the order showed a decrease of twenty-three lodges and 888 members during the year.

County Judge Johnston, Halifax, sentenced Eli Emino to nine months imprisonment for bigamy. Eli had three wives, the first in Boston; the second he sent on a visit to friends in Michigan, and during her absence he concocted a bogus letter announcing her death, on the strength of which he married his servant girl for his third wife.

Charles and Albert Cann, of Westport, who have been missing since last week are finally given up as lost. The boat in which they were out fishing was picked up off Centerville, bottom up, and was towed into Centerville and beached. When righted her sails were found to be set and not a reef taken. Expert fishermen conclude that the boat foundered when heavily loaded with fish while passing through Rips, carrying down its unfortunate victims.

Isobars are reported on the Grand Banks.

Nova Scotia cheese makers did well at the Chicago Fair.

The Summer School of Science met at Sackville on the 5th. The attendance was large and a "good time" is certain.

The Orangemen celebrate the 12th of July at Shubenacadie. Hon. N. Clarke Wallace, M. P., will be present. Two thousand Orangemen are expected to be in line. Orange Hall, Shubenacadie, is a large and handsome building.

The ship *Calders*, 1554 tons, from Pictou for Sharpness, G. B., with deals, was ashore at Riddlemen's Reef, North Bay; she threw over 40m. feet deals, and with assistance of tug came off; she is leaking slightly, but not sufficient to prevent her proceeding.

Charles and Albert Cann, brothers, left Westport on the morning of July 30th in a boat to tend their trawls. It is thought the boat drove off in the gale that afternoon and swamped in the Bay of Fundy. Both men were married and left families.

A murderous assault was committed at the Joggins mines by a laborer named Thomas McCoy, 43 years of age, in which, White received at the hands of McCoy a serious three-inch wound over the eye with an axe, splitting the skull open and causing about one and a half teaspoonful of the brains to come out. The two men had some words about McCoy turning his wife out of doors.

In the supreme court Saturday, before Judge Henry, at Halifax, an injunction was granted against members of the Salvation Army, to prevent them from making such noise as to be a nuisance to people living in the neighborhood of their tent on Sackville street.

Adults take two teaspoonfuls of Johnson's Anodyne Linctiment, in water for cramps and chills.

Do you realize the importance of a healthy stomach, now that cholera threatens? K. D. C. acts as a cholera preventive, by restoring the stomach to healthy action.

#### Other Provinces.

Dun & Russell report the Canadian failures this week at twenty-three, and for the same week last year eighteen.

Robert Venning, of the department of marine fisheries, Ottawa, has been appointed by the imperial government agent to visit the Commander Islands, to inspect the operations there under the agreement entered into between the British and Russian governments. This is considered a compliment to Canada that a dominion official should be selected for this purpose.

A steamer laden with cattle for the English market, from Montreal, struck an iceberg in the Strait of Belle Isle and had to be beached in order to save her from sinking. Another steamer, coming to Montreal, was injured by a berg in the Strait. This is an object lesson which the promoters of "Fast Lines" will make a note of. It is absurd to think of steamers going at the rate of 22 knots an hour, rushing through the narrow, foggy, icy seas and the St. Lawrence.

#### They do not Despair.

An utter loss of hope is not characteristic of Consumptives, though no other form of disease is so fatal, unless its progress is arrested by use of Scott's Emulsion, which is Cod Liver Oil made as palatable as cream.

#### United States.

Another fatal electric car accident occurred at Springfield, Mass., when a man, up to the present time unidentified, was killed instantly. The entire upper portion of his head was cut off and the body and limbs terribly mangled.

At a dance Tuesday night at the Indian village of Pleasant Point, in the township of Perry, Maine, Capt. Stanislaus Francis stabbed to death Joe Sopiell, the well-known ball catcher of the Quoddy's. Rum and jealousy were the causes. Francis was married, Sopiell unmarried. Francis has fled. Sheriff Martin is in pursuit.

Mumziato Nicola, victim of a stabbing affray among the Italian railroad laborers at Warren a few weeks ago, died at Rockland, Me., July 8. Ferrari, his assailant, will now be arraigned for murder. He says he stabbed Nicola in self-defence.

Mr. James Shand, the well-known Auctioneer, says: "Had considerable expectation and disagreeable cough. Physician recommended Putnam's Emulsion. Took six bottles—cough vanished. Am convinced your preparation brought about my speedy convalescence."

#### British and Foreign.

The work of rescuing the living miners and recovering the bodies of the dead is being pushed as rapidly as possible in Ingram's colliery, Thornhill, Yorkshire. The entombed number 135 men. Thus far the bodies of thirty-eight dead miners have been sent to the surface. Other bodies were seen in different parts of the mine, but are pinned down with rocks and timber. The air in the pit is comparatively good to-day. This leads to the hope that some men may have reached places of safety and are still alive. It is believed 110 men were killed. Two men have been brought up unconscious, still breathing, and hopes are entertained that they will recover. Six other men and a boy sustained no injury. All hope for the others in the pit has been abandoned.

The Reichstag was opened on Tuesday by the Emperor William in person. In his speech from the throne he said there would be immediately presented to the Reichstag the new bill regarding the peace footing of the army, and until it was disposed of the government would not introduce any other measure. The speech was received with applause and cheers.

Great excitement has been caused in Thornhill, Yorkshire, by an explosion in Ingram's colliery. One hundred and thirty miners are entombed, and it is feared the loss of life will be heavy. On Tuesday evening a rescue party went down and found the bodies of miners in heaps. Many were sent to the surface. About hundred and ten are supposed to have been killed.

As the steamer "Alfonso," employed in the river trade on the Volga, was approaching Remy on Tuesday her boiler exploded, killing 26 passengers. The burning coils blown from the furnace set fire to the wreck. The boat was burned to the water's edge and sank.

The yacht *Stannon* with a party of thirty railway builders and their wives, was struck by a thunder storm off Skegness, overturned and twenty-seven drowned. Twelve bodies have been recovered.

Numerous private letters concerning the sinking of the *Victoria* have been received from sailors of the Mediterranean fleet. One sailor who was on one of the smaller vessels writes in reference to Admiral Tryon's signal, knowing very well that there was not room for the ships to turn, but the order had to be obeyed. Although the vessel was fast sinking under him, Tryon signalled, refusing boats. We saw the men fall in at command, four deep, on the forecastle till the water reached them. They then received orders to fall in on the quarter deck. All the time they never attempted to go near the boats. This will show you how naval discipline is ground in to people. The whole fleet could see the poor fellows standing in perfect order, quietly drowning in their ranks.

#### Safe, Sure, and Painless.

What a world of meaning this statement embodies. Just what you are looking for, is it not? Putnam's Painless Corn Extractor—the great sure-pop corn cure—acts in this way. It makes no sore spots; safe, acts speedily and with certainty; sure and mild, without inflaming the parts; painless. Do not be imposed upon by imitations or substitutes.

Is It PERFECT LOVE?—We had somehow got the idea that perfect love implied much carefulness in the matter of judging other people; that it especially forbade imputing to them evil motives without necessity; that it enjoined doing unto others as we wished, and had a right to expect others to do unto us. Indeed, we supposed that any sort of genuine Christian love, that is, such love as Christ had, required this kind of conduct and produced it. But we have been led to wonder lately if we were not greatly mistaken. We find many who pose as leaders in the so-called "holiness" movement, and who make the highest possible professions of Christian attainment, printing the most violent and uncharitable language in regard to those who have ventured to differ from them respecting the proper use of certain theological terms. To quote a few sentences out of many, they say that the attempt to modify that meaning of these terms current in certain narrow circles, which is, in the thought of the attempters, but an endeavor to restore the words to their primitive Scriptural meaning, "is a part of the scheme to drive spiritual religion out of the world," and that it is made simply because "unsanctified human nature is never charmed by the real beauty of holiness." They frequently accuse these reformers of "dishonesty," of being "untrue to their vows as Methodist preachers," they call them "flippant opposers," "captious critics," "wilfully obstinate," "enemies of holiness," and bespatter them with many other such like phrases and epithets of contumely calculated to injure their reputation and prejudice the public mind against them.

Is this the perfect gentleness and meekness of our Lord? The strong words of Jesus against the Pharisees are often quoted as though they justified this style of harsh and rasping controversy. But it was against arrogant hypocrites, against thoroughly wicked men, who devoured widows' houses and were full of all uncleanness, hatred and malice, that the Saviour launched His lightning; while these who claim to be His closest modern representatives can find no words sufficiently bitter with which to stigmatize brother ministers of blameworthy lives, passionately devoted to the truth and to the church and the Lord, but conscientiously believing that the truth will be promoted by some changes in the nomenclature of this most precious theme of purity of heart and life. Why not cease imputing evil motives, and frankly admit that there are two sides to these questions of terminology which equally good men may take? It seems to us that this would be the wiser way, and would leave a better impression concerning the amount of love possessed by the disputant.

SUNDRIES.—The largest book known is owned by Queen Victoria. It is eighteen inches thick, weighs sixty-three pounds, and contains the addresses of congratulation on the occasion of her jubilee. . . . There are about 370,000 acres under tea cultivation in British India. . . . Horpa Cho, Thibet, is the highest lake in the world, its altitude being 17,930 feet. . . . In Dutch law a contract entered into in a tavern is not valid unless ratified within twenty-four hours. . . . In China, blue is the color for mourning. . . . Among the new diseases are listed typewriters' backache, telephone earache, gum-chewers' lockjaw, and cigarette smokers' insanity. . . . The great tunnel, to be built under the Cascade range of mountains, in Oregon and Washington, will be 13,168 feet long. . . . One of the exhibitions at the World's Fair will be a class of twelve young women typewriters from the blind asylum at Jacksonville, Ill. They are very proficient. . . . A newspaper has just been published in London, printed on a postal card. The first number has four illustrations, a comic tragedy, a few jokes and puzzles and

some advertisements. . . . It is said the United States has more than 9,000,000 young men fit for military duty. About 7,000,000 of these would want to be officers. . . . Aluminum pencils are being manufactured in Germany for use as a substitute for slate pencils. . . . Denmark exported considerably more than 100,000,000 pounds of butter last year. The trade has more than doubled in the past five years. . . . The highest value postage stamp issued in Great Britain is £5. It is chiefly used in defraying telegram charges. . . . Several prominent women of Somerset, England, have discarded the woman's saddle for the man's saddle. . . . About 40,000 people in England pay a guinea a year for the privilege of displaying their crests on their stationery and plate. . . . There are estimated to be about 200,000 men employed upon the 23,000 papers published in America. Ninety per cent. of the manufacturing work done is estimated to be carried on by machinery. . . . A schoolteacher in England has lately been voted a pension of two shillings a week. She is seventy-five years old and has taught an "infant school" for forty years "at a wage of four shillings a week" . . . It is calculated that the total value of matches manufactured yearly throughout the world is over \$100,000,000. . . . The anthracite coal fields produce more than 45,000,000 tons of coal a year. . . . A silk hat is the latest suggestion for preserving life when the ice breaks. All the drowning man needs do is to hold the hat firmly by the brim with both hands and then rest his chin on the top of it. . . . About 190,000 of the people of Rome can neither read nor write, and yet the city contains the Pope, 30 cardinals, 35 bishops, 1,469 priests, 2,832 monks, and 2,215 nuns.

#### What do You Take

Medicine for? Because you are sick and want to get well, or because you wish to prevent illness. Then remember that Hood's Sarsaparilla Cures all diseases caused by impure blood and debility of the system. It is not what its proprietors say but what Hood's Sarsaparilla does, that tells the story of its merit. Be sure to get Hood's, and only Hood's.

Purely vegetable—Hood's Pills—25c.

THE GREATEST GOLD FINDS.—Australia has yielded much larger masses of gold than any other country. A commissioner of the Denver Mining Exposition of 1882 states that the largest piece of gold ever obtained was by Byer & Halman's nugget, which was taken from a depth of 250 feet at Hill End, New South Wales, on May 10, 1872. It weighed 640 pounds, was 43 feet in height, and was valued at \$148,000. Welcome Stranger nugget was found on Mt. Molleget, Feb. 9, 1869, weighed 190 pounds, and was worth \$45,600. Welcome nugget, found at Bakery Hill, June 9, 1858, weighed 184 pounds and was worth \$45,356; and Oat's & Nelson nugget, taken from Donnelly gold field in 1880, weighed 189 pounds, and sold for \$50,000. A considerable number of other nuggets exceeded in size the largest recorded from California.

#### How to Get a "Sunlight" Picture

Send 25 "Sunlight" Soap wrappers (wrapper bearing the words "Why Does a Woman Look Old Sooner Than a Man") to LEVER BROS., Ltd., 43 Scott St., Toronto, and you will receive by post a pretty picture, free from advertising, and well worth framing. This is an easy way to decorate your home. The soap is the best in the market, and it will only cost 1c postage to send in the wrappers, if you leave the ends open. Write your address carefully.

JOHN KALLOCH, Montville, Me.

THEY SAID I MUST DIE : : :  
— BUT —  
: : : I AM WELL AND HAPPY.

MR. KALLOCH SAYS:—  
"I am 55 years old, and for the last 15 years, have had the worst Blood Disease known to man. To add to my misery, my Bowels became constipated, appetite ceased, and I was so reduced in flesh and strength, I could only walk by the aid of canes. An Eating Sore started on my side, and in spite of physicians and medicines, increased, until it measured 2 by 31-2 inches, laying sections of my Ribs bare. Dr. Kligore, advised SKODA'S REMEDIES. One course, 6 bottles of the DISCOVERY, with the LITTLE TABLETS, using the OINTMENT and SOAP externally, perfectly healed the sore. I have gained 25 lbs. in flesh, and am a WELL MAN."

I certify to truth of above statement. I knew Kallach's condition before treatment, saw him during treatment, and have seen him since cured.

VOLNEY B. THOMPSON, Montville, Me. Chm. Selectmen.  
SKODA DISCOVERY CO., WOLFVILLE, N. S.

# WASTING

Diseases are often difficult to remedy.

# SCOTT'S EMULSION

OF PURE NORWEGIAN COD LIVER OIL AND HYPOPHOSPHITES OF LIME AND SODA.

will restore a lost appetite, lost flesh, and check wasting diseases, especially in children, with wonderful rapidity. Coughs and colds are easily killed by a few doses of this remarkable remedy. PALATABLE AS MILK. Be sure to get the genuine, put up in salmon-colored wrappers.

Prepared only by Scott & Bowne, Belleville.

For information and free Handbook write to MUNN & CO., 361 BROADWAY, NEW YORK. Oldest bureau for securing patents in America. Every patent taken out by us is brought before the public by a notice given free of charge in the Scientific American.

Largest circulation of any scientific paper in the world. Splendidly illustrated. No intelligent man should be without it. Weekly, \$2.00 a year; \$1.00 six months. Address MUNN & CO., PUBLISHERS, 361 Broadway, New York City.

W. H. ROGERS.

THE GRODER DYSPEPSIA CURE CO. AMHERST, N. S., May 27, 1893.

GENTLEMEN:—I am 71 years of age. Have been afflicted with sick headache most all my life, which developed into Dyspepsia of a mild type about twenty years ago, and has continued to grow worse until during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes vomiting. I have been subject to severe pains in the chest, with dizziness, which have been more frequent during the past three or four years. My mouth was furred up in the mornings, accompanied with bad breath. My case was yearly growing worse.

During all this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvement.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it and now I can drink cold water or milk without any inconvenience. Those dizzy pains are all gone and my mouth is as sweet as a baby's. In short, your medicine has cured me and I am sure that all Dyspepsias can be cured by its use.

(Signed) W. H. ROGERS, Late inspector of Fisheries for Nova Scotia.

# Waterproof Garments.

# TENNANT, DAVIES & CO.

We are showing an extra fine assortment of New Waterproof and Rainproof Garments in Ladies' Waterproof Cloaks, (all sizes) Ladies' Heptonette Cloaks, latest styles in Navy, Black and Fancies, Gentlemen's Rubber Coats, Gentlemen's Mackintosh Coats, with capes, Gentlemen's Melissa Coats, the best Rainproof Coats made.

The HEPTONETTE and MELISSA goods contain no Rubber, are therefore porous and odorless, yet perfectly RAINPROOF.

# TENNANT, DAVIES, & Co
