Sunday morning; we all including Brothers Gunter, Mesereau, Flanders, Merrit and myself. I am now the only one living. Sunday evening Bro. Merrit and I went up to the Baptist House, there we had a glorious meeting Brother Israel Smith another son of one of these old gentlemen and brother to Solomon Deacon of that church got up to speak and had to stand sometime before he could get a chance to speak. This may not be very interesting to your readers generally, but many times I look back on those days with great pleasure. The experiences of those days are a great comfort to me now when I remember how the Lord has led me along and is still leading by his unseen hand. Although cannot engage in active service in this day as in other days yet believe the Lord accepts of the service I render to him now. In beginning this letter I did not think of writing as long a letter as I have done but before closing I will say this, as Brother Perry gave me a start I will close by saying to him as a good many have said to me, they would like to see some report of his own labour as well as a description of the Rusigornish of the past Yours in Christian work.

J. NOBLE.

Woodstock, Jan. 21, 93.

REV. W. B. HINSON, of Moncton, says a despatch, has accepted a call to Olivet street Baptist church, Montreal at a salary of \$3,000 a year. Mr. Hinson has been very successful in his ministry here, adding 630 to the membership of the Moncton church since he came here seven years ago. His salary here was \$1500 a year and free house.—Ex.

REVIVAL.—Lincoln, Nebraska, has had a very extensive revival. All the churches in the city, except the Episcopal, united in special meetings, under the leadership of Dr. Chapman. Nearly 1000 professed conversion during the meetings; the christian life of the churches is reported vastly improved.

SPURGEON ON FALSE ORTHODOXY.—“I have sorrowfully observed some persons who are very orthodox, and who can repeat their creed very glibly, and yet the principal use they make of their orthodoxy is to sit and watch the preacher with the view of framing charges against him. He has uttered a single sentence which is judged to be half a hair's breadth below the standard, and they say that man is not sound. He said some good things, but he is rotten at the core. I am sure he used an expression that was not eighteen ounces to the pound. Sixteen ounces to the pound are not enough for these dear brethren of whom I speak; they must have something more and over and above the shkel of the sanctuary. Their knowledge is used as a microscope to magnify trifling differences. I hesitate not to say that I have come across persons 'who could a hair divide betwixt the west and north-west side' in matters of divinity, but who knew nothing about the things of God in their real meaning. They have never drank them into their souls, but only took them up unto their mouths to spit them out upon others.

All Sorts.

Frederick Schwaetha, the traveler, once experienced seventy-one degrees below zero in the Arctic regions, near Burke's Great Fish river. It is said to be the coldest ever endured by man.

A wire netting fence 500 miles long is one of the late Australian wonders. The fence separates the colonies of New South Wales and Queensland, and its object is to keep the rabbit cut of the latter country.

When a Spaniard eats a peach or a pear by the roadside, wherever he is, he digs a hole in the ground with his foot and covers the seed. Consequently, all over Spain, by the roadside and elsewhere, fruit grows in the greatest abundance, and may be picked and eaten by anybody.

Not an island has risen or sunk from sight in the Pacific for 34 years, and geologists say that nature is resting for a future mighty effort. An English geologist predicts that within 50 years a convulsion of nature will sink the whole of New Zealand 50 feet below the surface of the sea.

Philadelphia has six day nurseries where working-women with children, ranging from three months to eight years in age, can leave them from 6.30 in the morning until 6.30 at night. Three meals and ample amusements are given, costing the mother six cents a day. These institutions are supported by voluntary contributions. Other cities have them on much the same plan.

There is no place like the House of Commons for a "nice derangement of metaphor." It will be a long time before we shall have a "mixture" equal to the outburst of an effusive orator, who said: "The British lion, whether it is roaming the deserts of India or climbing the forests of Canada will not draw in its horns or retire into its shell.

The remark of Charles Francis Adams that the safest place in which to pass an hour or two is on an express train on one of the main railways seems to apply with peculiar force to

the British railways, for last year on all the railways of the United Kingdom only five passengers were killed, while on the streets of London for the same period 147 were killed and 5,784 were injured.

One hundred and nine thousand locomotives are at present running in the world. Europe has 63,000, America 40,000, Asia 3,300, Australia 2,000 and Africa 700. In Europe, Great Britain and Ireland take premier position, with 17,000 engines, Germany has 15,000, France 11,000, Austria-Hungary, the second largest continental country, has 5,000, Italy 4,000, Russia 3,500, Belgium 2,000, Holland and Spain 1,000 each, Switzerland 900, and the remaining European states 2,600.

A singular law prevails in England. It prohibits the Queen from reading documents or receiving any letters, except from her own family, until they have been first scanned by the official authorized to examine the royal correspondence.

The people of Nicaragua where bananas grow in great abundance, will not eat them. They say that "only Americans and hogs eat bananas." Nine tenths of the food consumed by the wealthy class of Nicaraguans come from the United States, but is first shipped to Europe.

The longest train ever hauled in this country by a single engine has just been hauled on the Reading road. It contained 250 empty freight cars, and was about a mile and a quarter in length. The longest train previously recorded was on the Northern Central road, a mile and an eighth in length, or 6,113 feet.

It has been estimated that 25,000 horses are employed in the metropolitan carrying trade in the city of London, that their value is \$1,250,000 and the cost for food alone is \$800,000. A rule prevails for foraging the horses on three-pence an inch per week—that is a horse costs as many shillings a week as it stands hands high.

A teacher who had asked a girl to purchase a grammar received the following note from the little girl's mother: "I do not desire that Mattie shall ingage in grammar, as I prefer her to ingage in more yofusful studies, and can learn her to speak and write proper myself. I went through two grammars, and I can't say as they did me no good. I prefer Mattie to ingage in German and drawing and vokal music on the piano."

Catering for the World's Fair visitors will be no dainty 5 o'clock tea affair. Whoever secures the restaurant contract must be able to serve 25,000 people at once, for there are to be 25 restaurants in the grounds each to accommodate 1,000 guests. The service will be in three grades. First, there will be the restaurant equal in its appointments, service and cuisine to Delmonico's, the Richeleu or other, high-priced establishments; second, the ordinary restaurant, and third, the lunch service. An immense kitchen, 200 by 400 feet, will cook for all the restaurants.

A FRONTENAC MIRACLE.

Relief Comes When Hope Has Almost Fled.

AN EX-COUNCILLOR OF OSO TOWNSHIP TELLS OF HIS RELEASE FROM SUFFERING—HIS NEIGHBORS VERIFY HIS STATEMENTS—A MARVELLOUS CURE THAT IS NOW A HOUSEHOLD WORD.

Kingston Whig.

The readers of the Whig will remember that our reporter at Sharbot Lake, on two or three occasions last winter, wrote of the serious illness of Edward Botting, a well-known and respected resident of the township of Oso. Mr. Botting was so low that his friends had no hope of his recovery, and although of an energetic disposition and not the kind of a man to give up easily, he even felt himself that life was slipping from him. Later we learned that Mr. Botting's recovery was due entirely to the use of that remedy which has achieved so many marvellous cures that its name is now a household word throughout the land—Dr. Williams' Pink Pills for Pale People.

Our reporter visited Mr. Botting at his home on the picturesque shore of Succor Lake. Mr. Botting is a very intelligent and agreeable gentleman, some seventy-five years of age, but looking and acting as smartly as a man twenty years younger. He is probably one of the best known men in this section. He was postmaster at Ferry for fourteen years, and a councillor of the united townships of Bedford, Oso, Olden and Palmerston for ten years. He gave the Whig representative a cordial greeting, remarking that it was his favorite paper and that he had been a constant subscriber for forty-nine years. Mr. Botting readily consented to give his experience in the use of Dr. Williams' Pink Pills saying that he believed it was a duty he owed to humanity to let the public know what they had done for him. "It was about two years ago," said Mr. Botting, "that I first began to feel that I was not my old self. Up to that time I had been exceptionally strong and rugged. My illness first came in the form of kidney trouble, which seemed to carry with it general debility of the whole system, and none of the medicines that I took seemed to do me any good. I am not of a disposition to give up easily, and I tried to fight off the trouble and continued to go about when many another would have been in bed. Things went on in this way until about a year ago when I had a bad attack of la grippe, and the after effects of that malignant trouble brought me so low that my friends despaired of my recovery. I did not give up myself for that is not my disposition, but when I found that the remedies I tried did me no good, I must admit I was discouraged. I was troubled with severe and constant pains in the back, severe

tions of extreme dizziness, weakness, and was in fact in a generally used up condition. I had read frequently in the Whig of Dr. Williams' Pink Pills, and at last the conviction forced itself upon me that they must have some special virtue else they could not obtain such strong endorsements in all parts of the country. The upshot was that I determined to try them and I bless the day that I came to that conclusion. Before the first box was finished I was benefited, and I continued their use until I was as strong as ever. I have lately worked hard and find no ill effects therefrom. I consider Dr. Williams' Pink Pills the best medicine sold, and you may say I would not be without them in the house if they cost \$5 a box. All my neighbors know what Pink Pills have done for me," said Mr. Botting, "and I would just like you to ask some of them."

Your reporter acted upon the hint, and first saw Mrs. L. Kish, a daughter of Mr. Botting. Mrs. L. Kish, said "What my father has told you is quite true. It was Pink Pills that cured him and we are very, very thankful. Father is now as smart as he was twenty years ago."

Charles Knapp, a prominent farmer, said: "I consider Mr. Botting's cure a most wonderful one and I believe he owes his life to Dr. Williams' Pink Pills." Your reporter called at John W. Knapp's but found that gentleman away from home. His wife, an estimable and intelligent lady, said, "we are aware that Mr. Botting was very sick for a long time and considering his age thought it unlikely that he would recover, but he is now as smart as he was ten years ago and he ascribes it all to Dr. Williams' Pink Pills."

Mr. Avery, Reeve of the Township of Oso, and Warden of the county of Frontenac, merchant, told your reporter that he has a large and constantly increasing sale for Pink Pills, and from all quarters has good reports of their curative qualities.

H. W. Hunt, a commissioner and school teacher, said he had known Mr. Botting for a number of years and considered him a well read and intelligent gentleman, who, if he said Pink Pills had cured him, could be depended upon, as he is a very conscientious man who would not make a statement that was not accurate.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after-effects of la grippe, diseases depending on humors in the blood such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess of any nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so-called blood builders and nerve tonics, no matter what name may be given. They are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills for Pale People, and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

ST. JOHN BUSINESS COLLEGE.—Miss Blanche Huntley, Kingsport, N. S., Miss Blanche Hayes, Fredericton, and Mr. F. S. Sherwood, Rothesay, received the shorthand and typewriting diplomas, yesterday.

Miss Laura Burpee, assistant teacher in the shorthand department, has accepted the position of stenographer in the law office of Mr. Wesley Vanwart, Fredericton, and Miss Huntley will fill Miss Burpee's place on the college staff.

Miss Ida Henderson, another graduate, took the C. P. R. express Sunday night for Nashua, New Hampshire, to fill an engagement as book keeper and stenographer for an important paper manufacturing concern.—Telegraph January 17th.

SPECIAL OFFER ! !

Any Subscriber sending a new subscriber with his own renewal can pay for both one year, with \$2.50.

Denominational Notices.

WHAT PHYSICIANS SAY.

ENDORSED BY A Graduate of Edinboro'.

A. DEW. BARSS, A.M., M.D., Edin., a man of culture and refinement, is Lecturer on Physiology and Hygiene in Acadia College, Nova Scotia. OF SKODA'S REMEDIES he says:—

"I have carefully examined the formulae from which they are constructed, and find they have been judiciously selected, and are well adapted, for the accomplishment of the various ends desired. I believe the ingredients used, the BEST of their kind, and the REMEDIES should have a large sale, when placed before the general public."

F. A. ROBERTS, M.D.

The late Dr. F. A. Roberts, a leading Homeopathic Physician of Maine, said:—"No Remedies upon the market equal SKODA'S, in neatness and elegance of appearance. I believe SKODA'S German Ointment and Skoda's German Soap, are the most perfect remedies with which I am acquainted, for the cure of all Skin Diseases. I do not hesitate to recommend them as such."

SKODA DISCOVERY CO., WOLFVILLE, N. S.

EDGECOMBE'S "BIG REMNANT SALE"

—WILL BE ON THE—
Second Day of February.

DON'T FORGET! TO REMEMBER.

FOR OVER FIFTY YEARS.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Intelligence R
1893.

RENEWALS

ARE SOLICITED

DEATHS.

Noble-Bunker.—At the parsonage, Fredericton, January 18th, by Rev. F. C. Hartley, W. Herbert Noble to Miss Ida Bunker, both of Lincoln, Sunbury Co.

Deaths.

GOLDING.—At Hampstead Village, Jan. 1st, Frankie son of the late Albert and Elthara Golding, aged 14 years. Little Frankie was subject to spinal trouble caused by an accident when five years of age. During his last illness he gave evidence of a hope in the Saviour. May God sustain the mourners.

McDUGALL.—At Antigo, Wisconsin on December third of Spinal Meningitis, Maggie Ann, and on December twentieth Leona Lyle, children of Hubert W. and Lizzie A. McDougall. Sentinel and Telegraph please copy.

FLANAGAN.—At Connell, Jan. 10th, James Flanagan, aged 47 years, leaving a wife and daughter, brother and sister and a number of relatives and friends to mourn their sad loss. Our brother was converted to God about 12 years ago, and was baptized by Rev. John Perry and united with the Free Baptist church at Connell. Brother Flanagan was a good man, lived a consistent christian life and died in the triumph of the gospel. He was only sick a short time but his sufferings were intense, yet he was resigned to the will of God. The church has lost a faithful member, but he has entered into rest. May the God of all grace sustain the grief stricken widow and little daughter. The funeral service was conducted by Rev. G. Swin assisted by Rev. Mr. Hayward (Baptist).

JONES.—On the 13th of January, at the residence of her son-in-law, Mr. M. McLeod, Eleanor, relict of the late Ephraim Jones in the 81st year of her age. Her father, Peter McKenzie was a son of Malcolm and Eleanor McKenzie who came to this province with the loyalists in 1783, and settled on the Belleisle, in Kings Co., at which place our departed sister professed the religion of Jesus Christ, and was baptized by the late Rev. W. E. Pennington, in the year of our Lord 1832. A few years later she was married, and moved to this city, uniting herself to the F. C. B. Church of Waterloo Street, being among the first to be enrolled in its membership. Sister Jones was a faithful and consistent member of the Church for more than half a century, and has ended her long pilgrimage here in triumph over "the last enemy which is death." During her late illness, which lasted for several months, she often spoke to her pastor concerning her hope in the Saviour, and of her desire to depart and be with Christ. Out of a family of eleven only one (Mrs. Paul G. Clark of Manuquait Lake, Q. Co.) now survives, who with one daughter and several grandchildren are among the nearest relatives. J. W. C.
