

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

# Royal Baking Powder

## ABSOLUTELY PURE

### News of the Week.

#### New Brunswick.

Herbert Little who has been employed making repairs on the Crawford house, Brundage Point, has been living in the house. When alone he was taken ill and was unable to call aid. He tied a piece of cotton to a stick and hung it out of the window. Mr. Crawford chanced along shortly after and found Little. Both of his feet were frozen. Little had been five days without nourishment.

Freddie McConnell, eight years old, while skating on Morrie's lake at Sackville last Monday night, skated into an open place some distance from the shore and was drowned. The body was not recovered for some time.

A barn belonging to John T. Watson of Sussex was burned Tuesday evening. Insurance about \$300.

When the river closed Alex. Gibson had about two million feet of deals lying in rafts at the mouth of the Nashwaak. In order to fill his chartered vessels Mr. Gibson is forced to get this to St. John at once and has now a large crew of men and horses at work hauling it out of the river and loading it on the cars. It will take nearly two hundred cars to carry away the lumber.

Quite an excitement has been caused by discovery of gold bearing quartz at different points on the Dover road, about five miles from Moncton. The formation is similar to that at Memramcook, but is believed to be richer. An analysis of a sample box made by Analyst Smith of Boston shows \$3.80 of gold and 20 cents worth of silver to the ton. A nugget of gold about the size of a pin head was picked out of a piece of white quartz, since found by one of the owners, and the indications are good.

Harlan Tupper, aged 18 years, for stealing one bay mare, the property of John Melanson, and one riding wagon, harness and robe from Isaac Elliott, was sentenced to four years in the penitentiary at Dorchester—two years for each offence.

Mr. J. H. Carnall, taxidermist, has in his possession a white squirrel, an animal that is very rare in New Brunswick. It was shot at a place on the St. John river. Mr. Carnall says that during his 30 years experience as a taxidermist, he has never seen but one other white squirrel, and that was not perfectly white. Mr. Carnall has mounted his rare specimen and now has it on exhibition in his rooms on King street, St. John.

Teddy Cormier and Charles McGinnis of Moncton aged 15 and 12 years respectively, were committed for trial for stealing a post-office key and robbing boxes. The police are after five other lads concerned in petty robberies and burglaries. A lad named Robinson, aged about 15 years, hailing from St. John, was arrested for burglarizing Bell's grocery some days ago. Charles Turner, a young lad charged with entering the I. C. R. freight shed at Potterydock and stealing Havelock water, admitted his offence.

A carload of cheese, about 10 tons, will be shipped at once from the Nappan Creamery to the English market. The price received, is 11 cents. The factory is now making about 400 lbs of butter per week.

The season's lumber shipments from Miramichi to the United Kingdom and the continent have been in round numbers eighty-three millions deals against ninety-five millions last year. Nearly two and a half millions of pieces of spoolwood were shipped this year, an increase of more than two hundred thousand pieces over last year.

The employees of the Morrison shingle mills struck Friday on account of the notice received that their wages would be reduced after the last day of November, and in consequence the mills were shut down. About one hundred and ten hands are employed. The greatest reduction is made in the shingle sawyers, who have been cut down from \$2.25 to \$1.50 a day. The \$1 men are cut down to ninety cents. An effort is being made to effect a compromise.

A mail bag was out open at Florenceville Carleton county, some days ago and five registered letters stolen containing about \$230. Two of the letters were for St. John. It is stated that the bag was out open while the driver of the mail wagon was in the railway station at Florenceville waiting for the train. The matter is being investigated.

The liquor dealers are refusing to sell just now except to a chosen few. One man who can't pass a saloon without entering, and can't enter without treating everybody there, says he has saved \$2.50 this week already, and if the saloons keep closed for a few weeks he'll have money to buy a new winter overcoat for himself and something comfortable for the children.—Chatham World.

Fairville has received its 1,000 feet of new hose, and a day or two ago a test of its strength and the power of the hand engine recently purchased by the village were made. It is understood that the residents are not fully satisfied with the showing made by the engine and there are some intentions of purchasing a steam engine.

Mr. Jed Day, of St. John, brother-in-law of Mr. George Barnes, who lost his life by an accident in a mill at Houlton, on Wednesday, brought the body home. The interment took place on Friday at the Narrows, Queens county.

Persons receiving \$5, \$10, or \$20 bank notes should scrutinize them carefully to see that they are all right. The Bank of New Brunswick to-day has one been raised to a ten, and a Commercial Bank of Windsor note which had been similarly raised. The Bank of Nova Scotia has also a \$5 note of its issue which had been raised to \$10. The fraud was perpetrated by pasting the word ten and the figures 10, taken from the notes. The word five in the centre of the bills had also been covered in the same way. The work was very ingeniously done, but a careful look at notes changed in this way will show the fraud. Old notes are being used. The new issue of the Bank of New Brunswick has figures on the backs as well as face, and therefore cannot be altered successfully. Nobody who scrutinizes the notes will be cheated.

Under a penalty of \$10 all persons are forbidden by law to hunt, take, shoot, kill or destroy partridge, woodcock or snipe between December 1st and 20th September in the following year.

Dyspeptics lack strength. K. D. C. restores the stomach to healthy action, and gives the Dyspeptic strength. K. D. C. Company, Ltd., New Glasgow, N. S. Canada, or 127 State St. Boston, Mass.

Its marvellous how many people use Johnson's Anodyne Liniment, so say retail druggists.

#### Nova Scotia.

The spring hill news is in future to be conducted solely by a young lady, Miss Mary Robbins. She has already contributed some excellent articles to Canadian papers.

Nov. 29—Arthur Palmer, aged 21 years, and George Palmer, 18 years, were brought before Judge Chipman, under the speedy trials act, and pleaded guilty to stealing 12 pairs of men's larrigans, six pairs of boys' larrigans, six pairs of knit socks and four pairs of felt socks, the property of Henry V. B. Farnsworth, of Aylesford, and were sentenced to the penitentiary at Dorchester for the period of two years and six months.

Harry, the twelve-year-old son of Councillor Sproul, while jumping on a moving truck at Digby, Wednesday, fell in the wheel and was carried some distance before the horse could be checked, the spokes meanwhile striking his head, cutting it severely. The extent of the internal injuries is not yet known. He may recover.

Archie Ekins, 18 years of age, son of Arthur W. Ekins of Yarmouth, fell through a hatch of the third floor of a large warehouse of Parken, Ekins & Co., to the lower floor. He will recover.

Harbert Bacon, a well-to-do farmer living at the ridge in Digby county, mistaking a bag of gunpowder for turnip seed threw it into the kitchen stove. The explosion shattered the stove, blew out windows and caused Bacon to collide with the ceiling. Although he escaped the flying pieces of metal, the unfortunate man was terribly burned about the face and will doubtless lose his eyesight.

The people of Springhill have ordered a monument in memory of the miners killed in the disaster in that town. It is to have on top of it a statue of life size of a miner in full working dress. The monument will cost about \$1,500. It will be unveiled next Dominion day.

Don't selfishly deprive your friend of cheerful company by remaining a dull, gloomy Dyspeptic. Restore your spirits by using K. D. C. the King of Dyspepsia Cures. It conquers every time.

Sufferers from La Grippe should not despair—Puttnr's Emulsion is the best tonic for them. A bottle or two taken as they are getting well will hasten their recovery—perhaps saving them months of lassitude and debility.

#### Other Provinces.

Mr. Christopher Robinson, Q. C., has declined the honor of knighthood conferred upon him by Her Majesty for services rendered in the Behring Sea arbitration. He thinks the honor in his case would be an empty one. He was not consulted before it was offered him. He thinks a lawyer in active practice is better without them.

Two men named Joseph Wood and John Trainor were drowned at the South Port ferry, Charlottetown, on Tuesday night, says the Guardian. They were drunk, and thinking the steamer was in the dock, walked off into the river. The bodies were recovered. Trainor leaves a wife and six children.

William Haines, a bricklayer, was burned to death in the electric works at Kingston, Ont., Tuesday, while working inside the super-heater. A candle which he used ignited some oily material and sent a flame up the

flue in such a volume that it became impossible to rescue him, though assistance was near at hand. There in a confined space, the man burned to death before his helpless companions.

An earthquake shock was felt at River Moisie, Que., Friday morning.

The lifeless body of John Flood, thirteen years old, was found in Charlottetown, near Victoria park, Friday. On the 24th Nov. Flood and one or two other boys found a bottle of whiskey among some seaweed, and Flood drank so much of it that he became drunk. About nine that night he was left standing at the corner near his home, and that was the last seen of him alive. He must have wandered out to the park, and, lying down, fallen asleep and died from exposure.

James Duffy, a labouring man out of work, was run down and fatally injured by a train, while walking on the Grand Trunk Railway track east of Mimico.

The legislature of Quebec, refused to authorize the taking of a plebiscite for the purpose of obtaining the voice of the people relative to the abolishing of the legislative council. The question has been debated for some time in the assembly, the members being very evenly divided regarding the usefulness of the upper house.

The Influenza Epidemic in Ottawa is becoming very serious. A large proportion of the police force are laid up and many of the banks and large whole sale houses are seriously inconvenienced through the forced absence of a number of their employees.

Do you feel the first muttering of Indigestion? Don't wait for it to become chronic. Use K. D. C. K. D. C. Company, Ltd., New Glasgow, N. S. Canada, or 127 State St. Boston, Mass.

#### United States.

Daniel Thomas, a wealthy farmer, living near Columbus, Ohio, was seized when he went to the barn by three well-dressed young men, who after beating him into insensibility, bound him and carried him to the house. Mrs. Thomas, hearing the noise, let loose a vicious dog, but it was promptly shot by the men. They then bound Mrs. Thomas and demanded money. They were told that there was only \$200 and a gold watch in the house. These were secured, but they insisted that there was a large sum of money in the house, and removing Thomas's shoes, applied burning matches to his feet to make him tell where it was. He was terribly burned. They finally left after ransacking the house, leaving both Mr. and Mrs. Thomas bound and gagged.

GEORGE BARNES, foreman in Sincok's mill, near Houlton, was struck on the head by a piece of machinery and died a few hours afterwards.

#### The Children's Enemy.

Scrofula often shows itself in early life and is characterized by swellings, abscesses, hip diseases, etc. Consumption is scrofula in the lungs. In this class of disease Scott's Emulsion is unquestionably the most reliable medicine.

#### British and Foreign.

The Dublin police have obtained evidence concerning the murder of a man named Reid. The dynamiters doubt Reid's fidelity and asked him to go to America, giving him £7 to leave. He refused, and a quarrel ensued, resulting in Reid's murder.

News reached Rome, of a railroad accident last night at Melzo, Lombardy 12 miles northeast of Milan. The express train, laden with inflammable material, collided just outside of Melzo. The wreckage was set on fire by lights on the train. One of the seven carriages which caught fire was filled with emigrants from Venice, bound for America. This carriage and Pullman car were smouldering at four this morning. Many emigrants were injured, several being burned to death. Throughout the night men and women half clothed, wandered about in the dense fog and sought shelter near the scene of the collision. They were found at day-light lying exhausted and semi-conscious in a field. Details as to the exact number killed and wounded are still lacking. It is thought over 30 deaths will result. Injured were taken to Milan hospital.

The other evening a fire occurred in A. A. Delgado's shop and house, at St. John's, Nfld. The servant, with Mrs. Delgado, left the kitchen on the top flat, and her sister, who is a nurse in the same house, at the time went down stairs for another purpose, leaving in the kitchen, four of the children. A few minutes after she had left the kitchen, the girl heard a scream and running up stairs saw the lamp broken on the floor and the boy all on fire. She did her best to save the child, but in the attempt severely burned herself. The little cripple, who was sitting in a chair was not noticed, and when at last the fire became too strong for any person to stand in the room, it was found that both children were still there. When the firemen had obtained the mastery the poor little children were both dead. The accident was caused by the breaking of a lamp.

#### The Raw, Cutting Winds.

Bring to the surface every latent pain. A change of even a few degrees marks the difference between comfort and pain to many persons. Happily disease now holds less sway. Science is continually bringing forward new remedies which successfully combat disease. Polson's Nervine—nerve pain cure—has proved the most successful pain relieving remedy known. Its application is wide, for it is equally efficient in all forms of pain whether internal or external.

#### A Diagnosis and the Prescription.

We know exactly how you feel; You've lost your appetite, You're weak and nervous all day long, You cannot rest at night, Take SKODA'S DISCOVERY, then You'll be yourself ere long; It makes you eat, it makes you sleep, It makes you well and strong.

You feel a languor in your limbs, Are weary through and through; While others find a joy in life, 'Tis dull and sad to you. But SKODA'S DISCOVERY, friend, Will quickly right the wrong; 'Twill make you eat, 'twill make you sleep, 'Twill make you well and strong.

You try to sleep—the nightmare binds You down with iron chains; You wake with headache, dizziness, And countless aches and pains. Use SKODA'S DISCOVERY, soon You'll join the host in song: "It makes us eat, it makes us sleep, It makes us well and strong."

Ladies, rough hands are a horror. Bathe them well at night in Johnson's Anodyne Liniment.

#### Governor Boyd Dead.

Governor Boyd died early Monday morning. All day Sunday he was appearing in excellent health, but Sunday evening he felt slightly ill, which however was not considered at all serious. About one o'clock Mrs. Boyd left his room for a moment and when she returned he was dead. John Boyd was appointed Governor of the Province on the 22nd of September last, and the appointment was well received by the people who through the years had known him as an honest man, a true friend and a lover of and believer in his country. He did not long live to enjoy his honourable position, but he will long be remembered as a man of sterling character and upright walk in life. When the great fire left the people of St. John discouraged and down hearted, he himself a heavy loser, was found stirring his fellow citizens with new courage and stimulating to take up with new energy the struggle of life. He was a good citizen of St. John, a good Canadian and a good man.

For pity's sake don't growl and grumble because you are troubled with indigestion. No good was ever effected by snarling and fretting. Be a man (unless you happen to be a woman) and take Ayer's Sarsaparilla, which will relieve you, whether man or woman.

#### How to Get a "Sunlight" Picture.

Send 25 "Sunlight" Soap wrappers (wrapper bearing the words "Why Does a Woman Look Old Sooner Than a Man") to LEVER BROS., Ltd., 43 Scott St., Toronto, and you will receive by post a pretty picture, free from advertising, and well worth framing. This is an easy way to decorate your home. The soap is the best in the market, and it will only cost 10 postage to send in the wrappers, if you leave the ends open. Write your address carefully.

1894.

#### HARPER'S MAGAZINE.

Illustrated.

HARPER'S MAGAZINE for 1894 will maintain the character that has made it the favorite illustrated periodical for the home. Among the results of enterprises undertaken by the publishers, there will appear during the year superbly illustrated papers on India by Edwin Lord Weeks, on the Japanese Seasons by Alfred Parsons, on Germany by Poulney Bigelow, on Paris by Frederic Kemington.

Among the other notable features of the year will be novels by George du Maurier and Charles Dudley Warner, the personal reminiscences of W. D. Howells, and eight short stories of Western frontier life by Owen Webster. Short stories will also be contributed by Brander Mathews, Richard Harding Davis, Mary E. Wilkins, Ruth McEnery Stuart, Miss Laurence Alma Tadema, George A. Hibbard, Quemes de Beaupaire, Thomas Nelson Page, and others. Articles on topics of current interest will be contributed by distinguished specialists.

#### Among Exchanges.

##### DOES NO GOOD.

A meteor in the pulpit may be an interesting spectacle; but there is not much warmth in it, and the light does not last long.—Chris. Register.

##### PULPIT SCOLDING.

Scolding in the pulpit is inspired by the devil. There is a vast difference between it and plain, pointed preaching. The latter should be done all the time, the former never.—Telegraph.

##### CHEAP SERVICE.

That is a cheap service that is worth only one cent to a man. Yet that is the estimate many places upon church services. The church gets more pennies than any other institution, save the organ-grinder. The latter is a nuisance, while the former is a preserver of civilization—the salt of the earth, the light of the world. If men were to get salvation by what they give, most men would not have a patch large enough to cover a key hole.—The Ensign.

##### HE IS NEEDED.

Some day an evangelist will appear who doesn't know a single funny story who tells no personal experiences, who allows infidels to do all the sneering at churches, but who just preaches Christ crucified. Multitudes are looking for that man.—Mid Continent.

##### EXTEMPORANEOUS.

There are extemporaneous preachers and extemporaneous hearers; the former never think of their sermons before they go to church, the latter never think of the sermon after they leave. Can. Independent.

##### A SLANDER.

Evil men everywhere are trying to widen the gap between the working classes and Church. There is kept persistently before the minds of working men, the slander that the churches are for the rich, and care nothing for the poor. The clergyman who helps on that cry by toadying after the rich, and boasting about the wealth of his congregation, should be tried for heresy. Can. Presbyterian.

#### A POOR MAN

indeed is he whose blood is poor who has lost his appetite and his flesh and seems to be in a rapid decline; but

## SCOTT'S EMULSION

Of Pure Norwegian Cod Liver Oil and Hypophosphites

can make it rich again by restoring appetite, flesh and rich blood, and so giving him energy and perfect physical life, cures Coughs, Cold, Consumption, Scrofula and Bronchitis. It is ALMOST AS PALATABLE AS MILK.

Prepared only by Scott & Bowne, Belleville, N. J.

#### Nervous, Tired, Weak.

That most dreaded disease typhoid pneumonia left me with a cough, sore throat, tired nerves, I could not sleep nights. To add to my many troubles last winter I had La Grippe. I seemed I would not live until spring. I tried

#### FATHER AND SON

#### Skoda's Discovery

many remedies, but got no relief until I took Skoda's Discovery. My little boy has been sickly for several years. He too has taken Skoda's and now he is as fat, rosy cheeked little chap as you would like to see.

Elmer E. Albee, 35 Pleasant St., Lewiston, Me.
