Royal Baking Powder

ABSOLUTELY PURE

Dominion Parliament.

News of the Week.

A bill respecting grants of land for Northwest rebellion service was then passed.

A bill passed allowing juvenile offenders to be sentenced to the New Brunswick reformatory.

The house was moved into committee of supply.

Mr. Mulock brought up the question of ocean freight rates on cattle. He renewed his charges against the steamship companies of combining to extort the full rates that the British market prices for cattle would stand.

Sir Hibbert Tupper said that Mr. Mulock's bill was wholly in the interest of the buyers and not of the stock raisers. While the freight rates were gradually decreasing it was the natural condition of the trade that there should be fluctuations. The shipowners were certainly not making money just now, and in the nature of things the question of the control of rates was one which required careful investigation.

Ottawa, June 26.—At the opening of the house today the premier moved the following resolution.

That if any judge of the supreme court of Canada has held the office and that of judge of the exchequer court, or said office and that of judge of one or more of the superior courts, or of the court of vice admiralty in any of the provinces of Canada for periods amounting together to fifteen years and upwards, and if such judge has attained the age of 70 years and resign his office, he shall during the remainder of his life continue to receive his full salary, which shall be payable to him in the same manner as it was payable at the time of his resignation, provided, however, that nothing herein shall apply to a judge who has held the office of judge of the supreme court of Canada for a period of less than five years.

There was much discussion on this resolution. Hon. Mr. Laurier moved in amendment the six months' hoist. The amendment was lost by 51 to 42 and the reply was adopted.

Mr. McMullen protested against the vote of \$198,000 for a branch road to connect Dartmouth with the Intercolonial.

Sir John Thompson explained that to make the connection by replacing the bridge recently destroyed would cost \$235,000; that the government was under obligations to operate the branch, and the most economical way to do so was to run a road around the arm.

The customs estimates went through.

Mr. Mulock, when the item of \$70,000 for the Royal Military college was reached, charged that the object of the institute had been diverted from a military training school to a general teaching institution. He wanted to know what the country got in return for the 195 graduates. Of this number 77 were in imperial service and only 13, including two cadets, in the permanent corps in Canada. Some thirty were in the government departments. It had cost the country to educate these 41 graduates and two cadets the sum of \$29,572.

Mr. Patterson replied. He said there were 130 graduates of the R. M. C. in military operations in Canada. It was the intention that the graduates should be employed on the public works of the country.

On the railway votes Mr. Haggart made his annual statement as to the government railways. He stated that the expectations he expressed a year ago had been realized. The Intercolonial made a profit on the year of \$201,161; Prince Edward Island a loss of \$3,731, and the Windsor branch a profit of \$17,426, making a net loss on the whole government railways of \$26,154. The gross earnings of the railways in 1891-1892 amounted to \$3,136,193 and the working expenses to \$3,748,597, showing a loss on the year's operations of \$612,404. For the year 1892-93 the gross earnings were \$3,262,505 and the working expenses \$3,288,623. The loss was \$26,118 and the saving had been \$586,080. This state of affairs was brought about partly by an increase of income, partly by a decrease of expenditure. On the Intercolonial there was an increase in income of \$1,201,057; Prince Edward Island \$3,247, and Windsor, \$807; total \$126,112. The expenditure had been reduced \$459,968, \$394,059 in connection with the Intercolonial; \$63,284 on the Prince Edward Island and \$2,624 on the Windsor. For the ten months of 1893-94 for which returns were available the receipts on the Intercolonial were \$2,471,376 and the working expenses \$2,498,405; in 1892-93 the figures were \$2,550,110 and \$2,491,368. The loss on the ten months in 1893-94 was \$20,028, and in 1892-93 \$78,742. At the end of the year he was certain that the showing would be at least as good as last year. The net loss on the government railways was \$76,270 in 1893-94, and \$18,923 the previous year. In 1879 there was 714 miles of railway and a staff of 2,928 men or a fraction over four men to the mile. Today there were 1,142 miles of railway and 3,623 men, or a fraction over three men to the mile, a very considerable difference.

A Puny and Fretful Baby.

This is now quite unnecessary! Like many others, you may have your baby fat, laughing and happy, if you give it Scott's Emulsion. Babies take it like cream.

New Brunswick

John Davis, of Bloomfield, was seriously injured by a bull last week.

A sailor was drowned on Saturday evening from a foreign barque lying just below Chatham. He was out on the jibboom and fell off and never came to the surface again.

During a thunder storm Wednesday at Millville, York Co. lightning wrecked a building belonging to Ludlow Hawkins and destroyed a large barn.

Word was received in the city yesterday of the burning of the rectory at Cambridge, Queens county. The house and furniture carried insurance, but not to their value.

One hundred weavers in the Moncton cotton mill struck last week. It has been the practice of the manager to give a premium of twenty-five cents on each loom producing above a certain standard. Last week the Manager posted a notice that this premium would be discontinued, and the men struck after having unsuccessfully interviewed the manager.

The weavers in the Moncton cotton mill who went out on a strike on Monday returned to work Thursday morning.

Friday, as the down train on the Salisbury & Harvey railway was crossing the Shepody river bridge, near Albert, on the Harvey branch line, the bridge fell, precipitating the train consisting of baggage and postal and passenger car, into the bottom of the river, a distance of twenty-five or thirty feet. Miss Aletha Coonan of Harvey, one of the passengers, was very seriously injured and was unconscious for some time after being taken from the wreck, being badly cut about the head and face. Conductor Downing received a bad cut on the head, and Brakeman McKay had his leg cut severely. One of the passengers was slightly injured.

The Wonderful Prussian Oil.

1. Ques.—What is it?
Ans.—It is the Prescription of the late Dr. Nieneyer of Berlin, one of the most distinguished medical men of Germany.
2. Ques.—What is it for?
Ans.—It is the Great Modern Pain Reliever.
3. Ques.—Where can it be found?
Ans.—All Druggists and many General Dealers throughout the country sell it.
4. Ques.—What does it cost the buyer?
Ans.—It costs only 25 cents a large bottle.
5. Ques.—What is it worth to the buyer?
Ans.—It is INVALUABLE. (Bon Comm de Vor.) so say all.

USE IT AND PROVE IT.

Nova Scotia.

Steamer Bedlington, ashore at Whitehead, went to pieces.

On Wednesday Frederick Longhead, aged 20, lost his life while bathing in Salmon river near Truro, N. S.

Rachael McCuish, a nurse girl, 17 years old, was drowned in the Northwest Arm Tuesday, while bathing.

A London despatch says arrangements have been nearly concluded to provide the necessary capital to finish the Chignecto ship railway.

A farmers' picnic will be held at Truro in July at which the Governor-General and Prof. Robertson, Dominion Dairy Commissioner, will deliver addresses.

The strike at the Joggins mines has entered upon a new phase. The grand secretary suggested an interview with the manager along with the committee. The manager refused to see the old committee, and said there would not be a blow struck until a new committee was appointed, and that Bannome would be discharged and a new check weighman appointed. A meeting of all the men has been called and the struggle may be protracted.

There is great excitement at Kemp's Yarmouth County. Mr. Nash has struck a 3-foot gold lead near the Cowan mine. The reported yield is beyond any previous record in that neighborhood. We understand that the Cowan mine has been sold within a few days and operations will be commenced at once.

Wm. Sturgiss, a spinner at the cotton factory, Halifax was injured Wednesday, while at work. He was shifting a belt, when another belt was accidentally thrown off the pulley, which recoiled, striking Sturgiss and knocking him fifteen feet. He died Thursday.

About 100 Italians have arrived at Sydney to work on the Louisbourg railway.

Reports from the fishery districts are to the effect that codfishery is good and other branches of the fisheries fairly good.

There has been deposited within the last ten days 100,000 salmon fry in the North River, Cape North; 70,000 in Clyburn's River Ingonish; 55,000 in North River, St. Ann's and 40,000 in Baddeck River.

Fruit culture is more profitable to the farmer now than his other crops. Brown Bros. Co., the most extensive nursery house in Canada, have a vacancy in this section. Write them at Toronto, Ont., for their terms.

Other Provinces.

A young Englishman named Weeks and two sons of J. Cuthrell of Point St. Charles Montreal, were drowned Monday while bathing.

Booth's big lumber mill, Ottawa, said to be the finest of its kind in existence, was burned Tuesday. The loss is a quarter of a million, partly covered by insurance. Several hundred men are thrown out of employment.

At Vernon River Bridge P. E. I. on Sunday a little girl only 1 year and 7 months old, daughter of Cephas B. Ross, painter, fell head first into a creamer barrel filled with water, and was drowned.

There were thirty-five failures in Canada the past week, against twenty-seven same period last year.

The Manitoba wheat markets are now firmer than they have been for a long time, and there seems to be a growing confidence that this year prices will be far higher than for the past two years. Crops in this country have been greatly advanced by timely rains, and an excellent yield is well nigh assured.

The Moon's Influence

Upon the weather is accepted by some as real, by others it is disputed. The moon never attracts corn from the tender, aching spot. Putnam's Painless Corn Extractor removes the most painful corns in three days. This great remedy makes no sore spots, doesn't go fooling around a man's foot, but gets to business at once, and effects a cure. Don't be imposed upon by substitutes and imitations. Get "Putnam's," and no other.

United States.

A serious outbreak occurred among the prisoners in the Charlestown Mass prison, Wednesday and in the struggle between officers and convicts which followed one prisoner was fatally shot and another severely clubbed.

A tornado and hail storm struck Pierre, South Dakota, Wednesday evening. All small buildings were blown down. The large Catholic church was blown from its foundations and almost totally wrecked. Several people were severely injured by flying glass, but no lives were lost.

Consideration of the tariff bill on the United States Senate was completed on Friday. The reciprocity clause of the McKinley bill was repealed.

How to Get a "Sunlight" Picture.

Send 25 "Sunlight" Soap wrappers bearing the words "Why Does a Woman Look Old Sooner Than a man?" to LEVER BROS., Ltd., 43 Scott St., Toronto, and you will receive by post a pretty picture, free from advertising, and well worth framing. This is an easy way to decorate your home. The soap is the best in the market, and it will only cost 1¢ postage to send in the wrappers, if you leave the ends open. Write your address carefully.

British and Foreign.

M. Casimir Perier has been elected President of France.

The trial of the anarchist assassin of Pres. Carnot is to take place on July 23rd.

A son has been born to the Duke of York. The child will be king of England if he lives long enough.

A despatch from Point-y-Pridd, Wales, says that 172 bodies have been recovered from the Albion colliery, the scene of the fire damp explosion.

Italy intends proposing a system of international supervision of anarchism, with a central bureau of information concerning the movements of recognized anarchists.

At a meeting of the Midlothian Liberal Association Wednesday night it was definitely announced that Mr. Gladstone would not again stand for election to the House of Commons.

Literary Notes.

Harper's Magazine for June contains 84 pictures. Few books have so many. But the charm of these pictures is not in their number; it is in their beauty and variety, as well as their appropriateness to the texts.

Perhaps the shortest of short stories is a cartoon; for, at a glance, and sometimes without a single word, it must truly characterize all the people it depicts and make sure that you do not miss the moral. The political story of a week or of a month is told in the cartoons that from time to time appear on the first page of Harper's Weekly.

The Megantic Outlaw.

Very pathetic were the closing events in the life of Donald Morrison, of Megantic. Our readers will recall how a few years ago Morrison, who had resisted ejection from his farm in Megantic, shot the bailiff, and for nearly a year defied arrest. The sympathy of the sturdy Scotch yeomanry was wholly upon his side, and they would afford no assistance to the law officers in making his arrest. Finally the legal authorities of the province were invoked, and a strong detachment of police from Montreal was despatched to the district and succeeded, after many ineffectual attempts, in locating and capturing the man.

He was tried, convicted and sentenced to the penitentiary for life. It is said the jury only rendered a verdict of guilty upon an understanding that he would receive but a short term sentence. After a few years of confinement Morrison's health broke down, and it was announced recently that he would die. At this point the Caledonian Society, of Montreal, was asked to interfere in his behalf; they took up the case and sued the Crown to have mercy, and urged that he be relieved of the stigma of dying in prison. Their plea prevailed, and Morrison was pardoned. He was met by influential citizens and taken to Victoria Hospital, Montreal, where he died within a few hours of his arrival.

The Caledonian and St. Andrew's Societies took charge of the remains. A handsome rosewood casket enclosed the body, and a delegation accompanied it to his late home in Milan, and amid expressions of deep and universal sorrow the body of the Megantic outlaw was laid to rest.

Morrison's crime never appeared to his neighbors as one to be visited by penalty, yet the local sentiment was not permitted to govern in such a case. The law of the province had been broken and its majesty must be vindicated. The resources of the authorities must be exhausted ere the crime remain unpunished.

Sentiment can easily excuse the poor Scotch peasant who fought for his home against the ejector. Shall his crime be punished and the terrible liquor traffic be privileged to carry on its work of death? Shall local sentiment be permitted to determine the enforcement of the law against the men who are, in violation of law, carrying on their nefarious liquor traffic. Shall the Provincial resources be exhausted to effect the arrest and punishment of poor Morrison, and at the same time the authorities proclaim their inability to enforce the law against the illicit liquor traffic? As the enforcement of the law was not, in this case, left to local sentiment, so, we urge, neither shall the enforcement of the license laws be determined by the sympathy of those who are its victims for the trade. The practice in this case may well be adopted as the rule in all cases.

A. C. F. SOCIETY.—The A. C. F. Society, Hartland, held an anniversary concert on the 26th inst., on the grounds owned by G. W. Boyer, which were tastefully decorated for the occasion.

Ice cream and cake afforded refreshments during the evening, and good order prevailed. The proceeds amounted to \$23.55. Following is the programme which was very successfully carried out.

Chorus, A welcome to all, followed with prayer by Rev. J. J. Barnes. After which the secretary read a report of the work done in the Society during the last year which was very satisfactory. Chorus, "Behold the fields are white;" Recitation, by Arnold McFarland; Solo, Jennie Hay; Reading, "The light-house and its keeper," Blanch Kelly; Violin Solo, Miss Baird; Dialogue, "The Flower Mission Band;" Solo, Miss Watson; Recitation, Sadie Currie; Duett, The Misses Phillips; Recitation, Etta Thistle; Solo, Lela White; Recitation, Nellie Sharp; Recitation, Ethel Peoples; Chorus, "Where are the Harvesters."

THE LARGEST LENS IN THE WORLD.—Allegheny Observatory is to have it—a lens 50 inches in diameter—eight inches more than that which is being ground by the Clark's for the Yerkes Observatory of Chicago University; fourteen inches more than the largest now in use, that of the Lick Observatory, California. It is announced on reliable authority that Andrew Carnegie and Henry Phipps, jr., will contribute the greater part of the sum required to manufacture this lens, which is to be cast abroad, and ground by John A. Brashear, "Pittsburg's famous maker of telescopic lenses."

The new instrument will be located on an eminence recently purchased by the city of Allegheny, commands a view unobstructed by hills or smoke. It will take two or three years to perfect the lens, but when it is mounted, Allegheny will lead the world in astronomical facilities.

Running a Mill by Electricity.

The Ponemah Mills, in the village of Taftville, Conn., is one of the largest establishments in the world where cotton spinning and weaving are done under one roof. The older part of the plant is operated by water power, the newer by steam. The company lately purchased some mill property four and a half miles up the stream at Baltic. It did not care to equip this property at once, and it does not like to have 1,500 horse-power waste itself at the Baltic dam. The decision was therefore reached to transmit a part of this energy to Taftville and use it in the new mill instead of steam. Two "three-phase" alternating current dynamos were connected with the

shafting in the Baltic mill, and the power (about 700 horse-power) transmitted by wire to Taftville, where it is now running all the machinery in the mill. As there was still power to spare at Taftville, smaller dynamos having a direct current were connected and several trolley cars in Norwich, of which Taftville is a suburb, are now operated by this excess of energy. This successful experiment will doubtless attract wide attention.—Z. Herald.

Life Saved.

AN ENGINE DRIVER'S STORY.

"Two years ago my wife was sick in bed a good part of the time. Often she couldn't speak on account of distressing her stomach which was so very weak. For three weeks she was unable to eat, and lived only upon beef tea injections by the doctor. She suffered continually, and the gas arising from her stomach would seem to press against her heart and cause her to faint away. If she happened to be up and about the house at these times she would drop right in the middle of the floor. She tried hot water until she almost destroyed the linings of her stomach. One of the best physicians in town attended her regularly and during her last suffering called upon her three times per day. She had tried every kind of dyspepsia cure and patent medicine, but all in vain. Finally as a last resort she induced me to get a bottle of Groder's Syrup. After using half a bottle she commenced to feel better and by the time she had used two bottles she was around the house. She kept on taking it until she used seven bottles when she considered herself cured. She is now a well woman and frankly acknowledges she owes her life to Groder's Syrup. As for myself I found last spring my food distressing me and my appetite very poor. My wife induced me to try the above medicine and after using a couple of bottles my trouble ceased entirely. We now keep this medicine in the house continually and whenever we eat anything unusually hearty we invariably turn to Groder's Syrup and find ourselves relieved at once."

JOSEPH KEITH,

SPOTS AND BLEMISHES, CAUSED BY BAD BLOOD, CURED BY B.B.B.

DEAR SIR, I am thankful to B.B.B. because I am to-day strong and well through its wonderful blood cleansing powers. I was troubled with scrofulous spots and blemishes all over my body and was advised to try Burdock Blood Bitters. I took one bottle, with great benefit, and can positively say that before I had taken half of the second bottle I was

PERFECTLY CURED.

I am so pleased to be strong and healthy again by the use of B.B.B. and I can strongly recommend it to everybody. LORENZO PULISTON, Sydney Mines, C.B.

A Word in Your Ear Madam

Are you not feeling as well as usual this year? Is that tired, run-down feeling getting the upper hand? Do you sometimes feel nervous enough to fly? Are you sometimes even cross with the children? Do not mention that poor, patient husband of yours?

Get a Half Dozen Bottles

—OF—

POTTNER'S EMULSION

take it freely, and see what a charm will come over your existence. Read this to your husband THIS evening and he will bring you the medicine when he returns from the club. It is pleasant and safe to take. Six bottles for \$2.70.

Law Taught By Mail

It was the boy on the farm; the boy he hind the counter; the boy in the mill; the boy in the lawyer's office; the boy in the bank—the ambitious boy, who first made the method of teaching law necessary. The outcome is found in the

Sprague Correspondence School of Law an institution that gives a thorough legal education by mail, and helps practicing lawyers to review. The tuition fee is small, the course complete, the examination thorough, the result perfect. Send 10c. for particulars.

J. COTNER, JR., SECRETARY, 157 Telephone Bldg., Detroit, Mich.

WEBSTER'S INTERNATIONAL DICTIONARY

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and nations; noted foreign persons and places; translation of foreign quotations. It is valuable in the home, office, study, and schoolroom.

The One Great Standard Authority. Hon. D. J. Brewer, Justice of U.S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Sold by A. I. Bookellers. G. & C. Merriam Co., Publishers, Springfield, Mass. Do not buy cheap pirated editions. Send for free prospectus.
