in wretched homes; they suffer daily for sufficient and suitable food; they wear the scantiest and meanest cloth ing; millions have no clothing at all They have no books or furniture to brighten their lowly dwellings; mud walls, earth floors, thatch of reeds or straw, make up all the beauty and comfort which they associate with the name of home. They are in constant fear and dread. They have no hope, filled with no joy, and no better day is to dawn to them unless we send them the gospel of hope and joy.

Stanley says that he saw in the heart of Africa a native who was dragged before him with a gun in his hand which had been stolen from the Expedition. The frightened man when charged with the theft could only repeat, "I am a son of God; I would not steal." Stanley was interested. This man, he thought, must be a convert belonging to some mission, he therefore gave him the gun and let him go. But at the next halting-place they found the gun waiting for them. It appeared that it had been lost and the native had found it. When set free by Stanley he had gone to the missionaries and by their advice had taken it where Stanley would get it. But what a sense of God's Fatherhood and of his own calling, had entered that humble and honorable soul!

In spite of the progress of evangelical missions in India the number of heathen is constantly increasing. The number of declared native Christians is 2,-036,590, out of a population of 287,-000,000. Islam claims 57,000,000 while Hinduism- a vague and indefinite description, including many varie. 200,000,000. There are, it is asserted shall have supervision of the home they have a prosperous Sabbath lions more in 1891 than there were in look into their spiritual and financial other church next week (D. As an offset in part we mention the statement of the Mis sionary Review of the World for November, to the effect that "the native ordained pastors of India have increased by ninety per cent. within nine in Montreal, and has accepted. years." The hope of India is in the vast multiplication of native pastors! and evangelists.

In connection with the action of the Russian government toward the Stundists, the following facts, says the New York Independent, in regard to Bible and evangelistic work in Russia will be interesting: It is estimated that about half a million copies of the Scriptures are sold annually in that empire. Of these the greater portion are sold to the orthodox Russians. Most diswithout Russian Scriptures and refuse to purchase them. The Protestant sects, including the Molokans, Stundists, and others, are willing purchasers; but their numbers are comparatively small. Preaching in the Established Church is on the increase; but the quality of the sermons does not seem to improve, as all must be submitted to the bishops, who exercise a very careful censorship. We think it of importance that interest be awakened in the work of the Free Baptist "Ministerial Aid Society" among the members of our churches in Nova Scotia. It is required that each member contribute ten cents annually to a fund, to enable the society to respond to calls which will necessarily be made from time to time. Little delight, and there went up a shout of if anything has been done heretofore in meeting the requirement of the constitution in this respect, and so long as this lack of interest continues the Society will live more in name than in meeting the needs that gave it exist-

Jan. 9 '94. WHITE HEAD, GRAND MANAN. - The good work is going forward here, three converts have here followed their Lord n baptism, and a number more have given themselves to Jesus and are rejoicing in his love. Christmas was a good day for us here; we held a social meeting in the morning, and it was a meeting of power and great blessing to the church. In the evening we went to the hall to please and help the children. The hall was filled with parents and children, and every heart seemed happy. As the screen was drawn back, two trees, laden with presents, were brought to view. The eyes of the children sparkled with joy for another Christmas. Old and young rejoiced together as they re ceived their presents. I was requested by class No 1 to present brother Carroll, their teacher, with a nice Bible they had bought for him, and by which they wished to show their love and respect for him. Brother Carroll has taught the class for years, and has been a very faithful Sabbath School worker. After the presents were all distributed, brother Sidney Guptill, on behalf of the people, presented me

The new church is more centrally located than the one burned, and is, we think, a more attractive and comfortable building. The offering towards the building fund on Sunday were quite liberal. There is, of course, a debt, but it is expected that it will be gradually removed. The brethren have done admirably in the erection of the church, and deserve the sympathy and help of their fellow christians else. where who have not had so severe trials and losses. If any of our brethern anywhere are disposed to contribute to the building fund of this heroic little band of christians-and we hope some may be moved to do so, they may send their offerings to the pastor, Rev. J. T. Parsons, Marysville, or, if more convenient, to the editor of the INTEL LIGENCER.

> QUEBEC ALLIANCE. - The annual meeting of the Quebec Prohibitory Alliance is to be held in Montreal on the 30th instr One of the questions to be considered is whether an attempt shall be made to have a plebiscite on prohibition in the Province of Quebec.

DISORDERLY .- The grand jury at the St. John circuit court, a few days ago, called attention to certain disreputable houses in the vicinity of one of the wharves, and asked the judge to direct the Crown officer to indict the as a token of their love for us. I feel landlords, agents and tenants. This very thankful to God that, after living is well, so far as it goes. But why did and laboring with this people so long, the grand jury omit to mention the He has given us so large a place in places in other parts of the city? Are their hearts. > THIS LEAF FROM a Methodist pastor's note book teaches a lesson: He found many of his parishioners who were "too poor" to take their Church paper, but who took secular papers and tales of fiction that cost four or five times as much. Cause: They had little relish for religious reading. Effect: Their relish for religious reading lessened every year. Mystery They wondered why their spirituality was so dull and that their children loathed everything of a religious char acter. Those children who married. or left home, ceased church attendance

CHEESE .-- Prof. Robertson, in a recent address, said that within five years there would be two hundred cheese factories in the maritime provinces, and that each factory would held till his death, For several years he take the milk of from 300 to 500 cows.

A RUM PAPER.—The rum-men of Ontario are evidently a good deal disturbed by the prohibition vote. They have formed an association, and are funeral service was conducted by the to issue a paper to "defend and guard" people. I spoke for him on Sabbath be editor of the new paper, which will be called The Advoate.

> A BUSHEL OF CORN. -- It is estimated that from one bushel of corn four gallons of whiskey can be made which retails at \$16 by the glass, Of this DO Her Own the retailer gets \$7, the distiller gets \$4, the Government gets \$3.60, the railroad gets \$1, the farmer gets 40 cents. The consumer gets fuddle and demoralization; his family gets strength, and want to keep you unhappiness and shame, and, often, impoverishment; and the country gets a burden of pauperism, insanity and

Women Voters .- The failure of the Cet her women voters in Ontario to record their votes on the prohibition question and a few of the south, side of the has caused some surprise, and has been much remarked upon. The following figures show how the women did and pected, but very timely offering of did not exercise their franchise; In PARLIAMENT.—It is now stated that these christian women made a deep Toronto 1,291 women who had the Parliament will not meet till March impression on our hearts. women voted and 683 did not. In Ottawa 332 voted and 723 did not. In Hamilton 592 went to the polls and 922 remained away. In St. Catherines 100 women voted and 362 declined. In St. Thomas 108 voted and 245 remained away. In all the cities the woman vote polled was 3,667, and the vote unpolled 9,064. Of those who voted 3,971 were for prohibition and 696 against it. The closest division was in Windsor, where 76 women voted for prohibition and 54 against it. The towns below the rank of cities so far reported number 15. In these 553 women voted "yes," 101 voted 'no," and 1,661 did not vote at all.

A GOOD OFFICER .- Mr. C. W. Wey man, Inspector under the C. T. Act in Kings Co., and who has at much selfsacrifice, and in the face of great diffipulties of various kinds, done brave service in the fight against the illicit rumsellers of the county, deserves, as he doubtless receives, the respect of all fairminded people who know of the faithful work he has done. Of course the rum men and their friends are not well pleased with him, which is the highest compliment to his faithfulness. And weak-kneed temperance people who are more anxious to get a political 'pull in their parishes, or who worship the money power even when it is in the hands of the rum traffic, will, also, criticize him as over zealous &c. &c. But he has made a record for manliness, courage and perseverance in the discharge of difficult and disagreeable duties which must commend him to the esteem and confidence of the best

PROTESTS. - Several of the County Councils have protested against the additional taxation imposed on the municipalities by the law enacted at the last meeting of the Legislature requiring them to support the dependent insane. They were previously supported from the Provincial treasury.

At the age of fifteen she was converted in the Free Baptist church, under the labors of the late Elder Hartt, by whom she was baptized. She lived a consistent christian life. Being blessed with a beautiful voice she was often heard singing the songs of her Redeemer, which she learned from Elder Hartt. moving in 1839 to Chipman, where there were no Free Baptists, she remained loyal to the denomination of her early choice,

Jan. 2nd., 1894, after an illness of but four days, Duncan D. Reed, aged 83 years and two months. Mr. Reed was Andover's oldest resident. He was born in Springfield York Co., Nov. 3rd, 1810, and came to Andover when but a young man. In March 1888 he was married to Mary Ann Sloat, daughter of Benjamin Sloat Esq. of Keswick, and in March 1865 to Charlotte Augusta Hayward, daughter of Dea. Daniel Hayward, of Lincoln, Sunbury Ces, who survives to mourn her loss. Two daughters of the deceased are living-Mrs. George Bedell, a daughter of the first marrlage, and Mrs. Joseph Straton a daughter of the second, both of Andover. By steady industry and careful planning, Mr. Reed became one of the most prosperous farmers of the place in which he lived, and to have everything comfortable about his home was his pride; while his honesty and straightforwardness in his dealings won for him a name as a man of integrity and uprightness. Though not as active physically of late years, his mental vigor seemed but slightly abated. He was uniformly genial and cheerful, and kind to those about him and welcomed heartily those who came beneath his roof. His last days were days of peace, and quietly relinquishing his hold on life he entered the world beyond in the hope of a glorious immortality.
