Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

News of the Week.

New Brunswick.

Capt. David A. Melvin was drowned at St. Stephen, Monday, while stepping ashore from his boat.

John McKean, employed at Aberdeen Mills, this city, fell from a pile of deals recently and broke one of his ankles.

In St. John, Wednesday, the Central railway was offered at auction. The property consists of seventy miles of railway and $680,000 worth of bonds. The railway was offered at the instance of Clarke & Co., of Philadelphia. Not a single bid was made.

Albert A. Barnes, an I. C. R. brakesman, was seriously injured in the back Thursday while attempting to fasten the arm of a hay presser which had become loosened on a flat car.

One thousand dollars has been bequeathed to the Fredericton Deaf and Dumb Institution, by the late Mr. Hocken, Chatham.

The hay crop in Northern New Brunswick has been very light this year. Hay will have to be imported to supply the demands of the lumbering camps. The grain crop promises well.

Near Moncton, Mrs. Sanford Ryan was thrown from a carriage Thursday night and was unconscious. The horse and wagon were found on the opposite side of the road overturned. The injured lady died without recovering consciousness.

Harvesting is being actively pursued throughout Carleton county. Wheat is above the average, and oats and barley promise extra good. All the crops are excellent. The fruit crop is immense.

MARK THE DIFFERENCE

Between Diamond Dyes and Imitations.

To the thrifty and economical housewife Diamond Dyes offer advantages and results that no other dyes can guarantee.

The Diamond Dyes that all chemical experts pronounce to be purest and best, possess more than double the dyeing strength of all other dyes. The colors are made to endure in spite of soap, rain or sun.

Diamond Dye colors are brilliant and bright; imitation dyes give dull and blotched colors. Diamond Dyes are prepared and mixed without regard to the user's interests; the fact is, they are made to deceive and swindle the unsuspecting.

If you would dye well, easily and successfully you must use the Diamond. Tell your dealer plainly that you have no use for miserable imitation dyes.

Nova Scotia.

Wm. Curry, sheriff of Hants Co., died suddenly Saturday morning from heart failure.

Mr. Elward Gates has been appointed sheriff of Annapolis County.

The Medical Register of Nova Scotia just issued by the Registrar, Dr. A. W. H. Lindsay, contains the names of some 430 gentlemen who are duly authorized to practice medicine in this province. That is one doctor for 1100 inhabitants.

The contract between the Midland Railway Company and Dominion Government for the construction of a railway between Windsor and Truro, has been signed.

Schooner Herald, of Parraboro, N. S., 86 tons register, Clement Merriam master, with a cargo of coal, ran ashore on the western side of Point Lepreaux, Wednesday morning. Probably a total loss. Hull insured.

The Governor General in Council has decided to let the law take its course in the case of Wheeler the Digby murderer now lying in Digby jail under sentence of death, to be hanged on Sept. 8.

Quite a number of men from Cumberland county, N. S., have taken advantage of the harvest excursion to Manitoba and the Northwest.

The dockyard authorities at Halifax, have received official notification concerning the intention of the Admiralty to place more first class warships on the station.

Twenty-two prisoners, with twenty-six charges against them, mostly drunkenness, were before the police magistrate in Halifax in one day last week. How will license regulate.

Over a million feet of manufactured lumber at Joggins Mines wharf was destroyed by fire Wednesday night. The fire is supposed to have been the work of an incendiary. The lumber was owned by J. W. Hunter of Leamington and was being shipped to South America. Loss estimated at ten thousand dollars.

A heavy storm passed over Antigonish, Wednesday night and Thursday morning accompanied by lightning. A barn of William Boudroit, Lower South River, was struck by lightning and destroyed by fire with all its contents.

A drowning accident occurred at Glace Bay, N. S, Sunday morning, John R. McDonald met his death while swimming in the Harbor. He attempted to swim across the harbor and had almost reached the opposite shore when he was seized with cramp and immediately went down.

A Halifax boy named Vincent Hernon, while picking blueberries in Camp Hill cemetery, placed his hand on a headstone weighing about 300 pounds. It fell and crushed the boy to the earth, breaking his right thigh and badly lacerating the leg.

It is now said that Radcliffe will not hang Peter Wheeler, and that Sheriff Van Blarcom will be obliged to perform the execution. The municipality thought the expense of bringing Radcliffe too large.

Live up to Your Privileges.

If we read of some new fabric made in some foreign country which gave protection from cold, providing a healthful warmth in all sorts of weather we would consider it wonderful and be envious of the people who could take advantage of it. But because Fibre Chamois is quite inexpensive and easy to get perhaps some have not yet tested its merits and found out for themselves the splendid winter comfort a layer of it will impart to all outdoor garments. Its weather proof qualities are genuine, founded on the fact that it is made entirely from Spruce Fibre, and is therefore a complete non-conductor of cold. This, as well as its light weight, makes it an ideal addition to every one's fall and winter clothing.

Other Provinces.

All banks doing business in Newfoundland, refuse to accept American silver coin under any circumstances and demand a five per cent. discount on American notes.

Official returns from British Columbia to the dominion government show that in 1894 the aggregate value of precious metals mined in the province was $1,000,000; last year the value $5,038,375, and this year the output will be greater judging from the three months ended July 15, when the estimated value of gold melted and shipped was $1,750,000.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our own trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor. Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns, and wise people will use no other.

United States.

Twelve negroes and three white men were killed by a cyclone in Perry county, Ala., on Thursday. Hundreds of farmers lost their entire crops by wind and rain.

Sunday morning lightning struck a 30,000 barrel oil tank at Lima, Ohio, owned by the Standard Oil Company, and the fire burned three others. Loss $75,000.

At Eau Claire, Wis., Monday, while 25 workmen were engaged in tearing down the music hall, a 4-story frame structure, the building collapsed, and 25 men went down in the ruins. Three were killed and 14 injured.

Parents Must have Rest.

A President of one of our Colleges says: "We spent many sleepless nights in consequence of our children suffering from colds, but this never occurs now: We use Scott's Emulsion and it quickly relieves pulmonary troubles."

British and Foreign.

A despatch to the Daily Mail from Cape Town says that the Transvaal government is issuing further orders providing for the arming of Boer burghers.

The mission of Hon. Cecil Rhodes to the Matabele is reported to be a pronounced success. The natives have yielded and the war is considered at an end. Cecil Rhodes inspired the confidence of the Matabele chiefs by going among them unarmed. The chiefs complained that illusage by native police provoked rebellion and Mr. Rhodes promised them that reforms in this respect would be inaugurated at once.

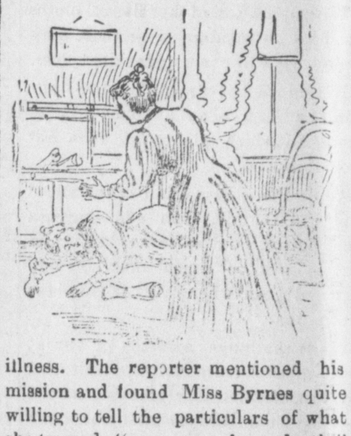

WHEN OTHERS FAIL

Dr. Williams' Pink Pills Restore Health and Strength.

A WELL KNOWN YOUNG LADY IN NAPANEE GIVES HER EXPERIENCE—SO WEAK THAT SHE COULD NOT GO UP STAIRS WITHOUT RESTING — HER FRIENDS THOUGHT SHE WAS IN CONSUMPTION— NOW THE PICTURE OF HEALTH AND STRENGTH.

From the Beaver, Napanee, Ont.

Among the young ladies of Napanee there is none better known or more highly esteemed than Miss Mary L. Byrnes. Indeed her acquaintance and popularity covered a more extended field, as she is a travelling saleslady for the Robinson Corset Co., and has many customers on her route which extends from Oshawa to Ottawa. How this young lady happens to be the subject of this article is due to the fact that she has recently undergone a most remarkable change through the use of those wonderful little messengers of health, Dr. Williams' Pink Pills. When the reporter of the Beaver called to make enquiry into her cure, he was met at the door by the young lady herself, whose rosy cheeks and healthy appearance gave no indication that she had undergone a prolonged

illness. The reporter mentioned his mission and found Miss Byrnes quite willing to tell the particulars of what she termed "an escape from death." In reply to the query "what have Dr. Williams' Pink Pills done for you?" she replied, "why, they have done wonders. I feel like a new woman now. For eight years I was weak and miserable, and at times I could not walk. I was greatly troubled with indigestion, and frequently could not keep anything on my stomach, not even a glass of milk. I had dizzy spells, severe headaches, and my complexion was of a yellowish hue. My kidneys also troubled me, and in fact I was all aches and pains. In going up a flight of stairs I had either to be assisted up, or would have to rest several times before I got to the top. At times my hands and feet would have no more warmth in them than lumps of ice. On one occasion while stopping at an hotel in Kingston, after waiting on a number of my customers, I fell down in a faint. The landlady found me in this condition and sent for a doctor, who after bringing me back to consciousness, gave me medicine to take. He told me that my system was so badly run down that it was imperative that I should have absolute rest. His medicine had no beneficial effect that I could see, and I tried a number of other doctors, with no better results. I became so low that I cared for neither work nor pleasure, and my friends thought I had gone into consumption. It was at this juncture that I determined to give Dr. Williams' Pink Pills a trial, and my appearance to-day will show you what a wonderful change they have wrought in me. I continued taking the Pink Pills for three months, and before discontinuing them every ache and pain had disappeared. I cannot speak too highly of this wonderful medicine, and I am eager to let the fact be known for the benefit of other sufferers."

Mrs. Byrnes was present during the interview and strongly endorsed what her daughter said, adding that she believed they had saved her life.

The experience of years has proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles would avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, who for the sake of extra profit to himself, may say is "just as good." Dr. Williams' Pink Pills cure when other medicines fail.

Literary Notes.

THE HOMILETIC REVIEW for August is rich and varie in its contents. Principal Dawson opens with the concluding article on "Natural Facts Illustrative of the Biblical Acconnt of the Deluge." in which he summarizes the conclusions reached. Among these conclusions are, that in the opening chapters of Genesis, we are "justified in holding that we are dealing with one narrator, and that he endeavors faithfully to represent to us the results of his experience and observations," and that "we thus have preserved for all time in the narrative of the deluge in Genesis a precious and unique record, from the standpoint of human history and divine revelation, of the latest of those great continental subsidences which, in the course of geological time, have been the means employed by the Creator for destroying and renewing the animal population of the land."

Among the sermons, given fully or in part, the following are some of the themes represented: "The Worth of Personality," "Jesus, Sinners doth Receive," "The Essence of Prayer," "The Transfiguration of Self-Sacrifice," "A Call for Unselfish Educated Men," and "The Silence of Christ."

We can only glance at some of the main features of the REVIEW, but at whatever point we open it we find abundant evidence from month to month, of its increased solidity and scope. In its special sphere it stands alone among publications for the preacher's use.

Published by Funk & Wagnalls Co., 30 Lafayette Place, New York. $3.00 a year.

'George Muller, the Patriarch and Prophet of Bristol,' is the subject of the opening paper in the August number of the *Missionary Review of the World*. In this sketch are given some exceedingly interesting and helpful incidents in Mr. Muller's life and portrait of his character together with an account of the orphanages of which he is the founder. *Papal Europe* is the general subject for the current month. 'The Gospel in Spain,' 'Work Among the French Priests,' 'Notes from Paris,' 'The Inquisition and its Holy Offices,' are interesting. Other valuable articles are 'Lessons from Romish Missions,' 'Romanism in China,' and 'Regulated Vice in Geneva,' The otner departments of the Review are worthy of notice of those interested in Missions, and who seek to keep abreast of the times. Published by Funk & Wagnalls Co. 30 Lafayette Place, New York. $2.50 a year.

Have you ever stopped to think how perfectly needless it is that one out of a hundred of those who now die in early life as a result of Lung trouble, should do so? If, when first threatened with weak Lungs, a few bottles of PUTTNER'S EMULSION OF COD LIVER OIL WITH PANCREATINE AND HYPOPHOSPHITES OF LIME AND SODA, were judiciously administered to the invalid, in nine cases out of ten, an early and permanent restoration to health and vigor would result.

For sale at all Druggists at 50 cents a bottle.

THE DELINEATOR.—The September number of the Delineator is an excellent issue. It contains nine colored plates illustrating dress modes and millinery, and makes announcement of styles for Autumn wear. Of especial value to young ladies having vocal aspirations is an article on singing as a profession. The paper on Interior Decoration is devoted to Kitchens. There are explanations of floral work for Autumn. There are the usual departments of Tea-table Chat, New Books, Seasonable Cookery, Smocking, Knitting, Tatting, Crocheting, Lacemaking, etc. The Delineator Publishing Co. 33 Richmond St. West Toronto, Ont., $1.00 per year, or 15cts per single copy.

The Dark Night!

If you would Avoid its Terrors and sufferings

Be Wise and use Paine's Celery Compound.

The dark night of sorrow, suffering and terror has come to many a man and woman in our midst, and hope has almost fled from the troubled and anxious heart.

The shadows and small clouds, or, in other words, the symptoms of disease that were noticed and felt some time ago, were disregarded, and the sufferers now find themselves completely overwhelmed, and are calling for succor and release.

To the disease-burdened we would say, despair not. You may renew life and establish a condition of health that will cause your friends amazement and wonder. Paine's Celery Compound will do the good work for you. It restores lost vigor and vitality, give new, fresh blood, braces up the nerves, and builds up flesh and muscle.

Paine's Celery Compound—the century's wonder—is no new and untired remedy. It has been tried and tested for years, and has proved triumphant in the most obstinate cases. It has saved life after all other medicines failed, and has the approval of the best medical men on this continent.

If the shadows of disease are hovering over you, if you are not as bright, energetic and strong as you were some weeks ago, a few doses of Paine's Celery Compound will tone up your whole system, cleanse the blood, correct indigestion, sharpen the appetite, and give you a vim and vigor that you will thoroughly appreciate.

By all means give Paine's Celery Compound a fair and honest trial at this season, and you will be compelled to sing its praises as thousands of others have done. Get the genuine 'Paine's' as there are vile imitations.

IT'S ELECTRIC ENERGY EVERLASTINGLY RADICATES Inflammation without Irritation

Every Mother should have it in the house. It acts promptly; It is always ready for use; It is the best; It is the oldest; It is unlike any other; It is superior to all others; It is used and recommended by physicians everywhere. It has stood upon its own intrinsic merit and excellence while generation after generation have used it with entire satisfaction and handed down the knowledge of its worth to their children as a valuable inheritance. Could a remedy have existed for eighty years except that it possesses great merit for family use?

JOHNSON'S ANODYNE LINIMENT

It was originated in 1810 by the late Dr. A. Johnson, an old fashioned, noble hearted Family Physician to cure all ailments that are attended with inflammation, such as asthma, abscesses, bites, burns, bruises, bronchitis, colds, coughs, croup, catarrh, chaps, chilblains, colic, cholera-morbus, all forms of sore throat, earache, headache, la grippe, lame back, mumps, muscular soreness, neuralgia, pains anywhere, scalds, stings, sprains, stiff joints, toothache, tonsilitis, whooping cough
