

A Request Repeated.

TO THE MINISTERS

We venture to ask a special favour of the ministers. They will be coming conference in about two weeks. We would like them to bring renewals from all subscribers in their fields, and also, lists of new subscribers. In all the churches there are subscribers whose payments are over due—in some places the number of such is considerable. If the ministers will mention the matter to their people, and say they will like to receive subscriptions, they would probably be given a good many. If our brethren will do this we will be much obliged to them.

Then, in every church there are families—in some churches many of them, that do not receive the INTELLIGENCER. Of course they all ought to have it a regular visitor to their homes. That is what the Conference says, and what the ministers say. We would like the ministers and others, too—to make a special effort to secure new subscribers now. A few judicious words from the past rs to their congregation, followed in some cases by a personal canvass, would, probably, result in securing new subscribers in every congregation. We trust the brethren will do the paper and the cause it represents this service just now. We hope that each minister may be able to bring to Conference a list of renewals and new names. Try it brethren.

The rapid expansion of the Australian shipping trade continues undiminished. In South Wales it was larger in 1900 than in any previous year. The total number of vessels entered and cleared was 7,082, against 6,400 in 1899. Of these 6,308 were under the British flag and 724 under those of other countries.

Dr. Pierce's Medicines Do Cure.

We must either believe that a large percentage of the population lie deliberately, and premeditatedly and without any motive other than a love of mendacity, or else we must believe in the many and remarkable cures effected by the use of Dr. Pierce's Golden Medicine Discovery and "Favorite Prescription."

For these cures are testified to by hundreds of thousands of men and women, scattered over every state in the Union. These are the men and women who are the backbone of the country. Their word is good with the merchants with whom they trade, with the neighbors and friends who are of the community in which they live. It is equally good when they tell the story of cures achieved by the use of Dr. Pierce's medicines.

Think of the matter in this light. Here are hundreds of thousands of credible witnesses who without conference or collusion testify independently to a common series of facts. Such testimony as this from only two or three persons would be adequate to determine a matter of life or death in any court of law in the land. What can be said when instead of two or three witnesses, hundreds of thousands testify that Dr. Pierce's medicines do cure the diseases for which they are prescribed and recommended? We come back to our starting point. We must either believe this multitude of witnesses or we must believe that men and women who are as we are morally and socially will go out of their way to write a monstrous falsehood, damaging to themselves and perilous to the public which it is designed to deceive and delude. Such an opinion would be a disgrace to the lowest class of human intelligence.

A New Shortening

If you have a sewing machine, a clothes wringer or a carpet sweeper (all new inventions of modern times), it's proof that you can see the usefulness of new things.

Cottolene

Is a new shortening, and every housekeeper who is interested in the health and comfort of her family should give it a trial. It is a vegetable product and far superior to anything else for shortening and frying purposes. Physicians and Cooking Experts say it is destined to be adopted in every kitchen in the land. This is to suggest that you put it in yours now. It's both new and good. Sold in 3 and 5 pound pails, by all grocers.

seem excessive, yet many of our customers have realized these annual profits during the year 1900 by following our intelligent plan of combination investments in mining stocks, dividing the investments, obviating loss, and by combining first issues of stocks in promising mines and dividend payers. The payment of the regular monthly dividends on the properties we handle as fiscal agents, June 1st, required Three Thousand Dividend Checks. And we have never yet made a loss for a customer in any mining stock recommended by our house. We make profitable mining investment a specialty and will not handle as financial agents any but meritorious working mines that possess all of the requisites necessary to make valuable producing properties, with conditions favorable to possible "Bonanzas."

WE DO THE LARGEST BUSINESS IN MINING STOCKS

of any firm in the United States, because we make our customers' interests our own, and do not advise them to invest in any property that we have not first thoroughly investigated with our own experts and are willing to take financial interest in, which with their own holdings will insure control and the proper and economical management of the property for profit to its stockholders.

Send for prospectus of new and promising mines and dividend payers, together with subscription blanks and reports showing present conditions of the properties and also booklet "ABOUT OURSELVES," giving in detail our intelligent plan of securing the large profits of legitimate mining without the risk of loss.
