The Victoria Hospital.

On Thursday afternoon the Victoria Hospital was formally opened to the public. At the hour announced a large number of citizens, and visitors to the city gathered in the Hospital, and grounds, and listened with pleasure to the excellent programme prepared by Lady Tilley for the occasion. The programme began with a hymn 'Nearer My God to Thee,' played by the I. C. R. Band, followed by a quartette 'Peace to this House,' by Mrs. J. Black, Miss Lugin, Mr. J. Black and Mr. H. V. Bridges. A selection from the Scriptures was then read by Rev. G. G. Roberts, and prayer offered by Rev. Jos. McLeod. Sir Leonard Tilley followed with a brief address, expressing his gratification that the enterprise had been crowned with such an abundant success. He had been in a way, the treasurer, having had the accounts to keep, and he was pleased to be able to announce that there had been sufficient money paid and sub-

scribed to cover all the expenses of the building and furnishing, and with the amounts yet to come in there would be sufficient to erect the necessary out-buildings. The Hospital was now virtually free from debt. His Honor was warmly applauded during his remarks. After the singing of a hymn, Lady Tilley read an address giving the details of how the Hospital scheme had first impressed itself on her mind. Referring to the benefits of the Hospital she said:—To me it has been truly a 'labor of love' in every sense of the word, and feeling that in the future years to how many it will bring comfort and consolation is an all-sufficient recompense. For here may come the sick stranger, away from his dear ones, when prostrated by disease, and have quiet and kind judicious nursing, under good medical advice. The college and Normal school students who leave their homes with many an anxious mother's prayers that God would keep them in health and strength, but should sickness—the common lot of all—overtake them, here they may have good care and the comforts of home, which might be impossible to get under other circumstances. Here, also, may come the young mechanic, industrious and frugal, who can pay the ordinary charges for board, but who has not, as yet, the means for the extra expenses of sickness, yet with a self-respect that would lead him to pay reasonably for his own maintenance. Female domestics, sick in the families of the affluent, may receive the care of those with whom they live, but such care must be given with so much inconvenience that they would gladly place them here at their own expense, where they can have during their illness what they can hardly obtain in a private family. To such the hospital will bring relief, and gladden all hearts. To those who meet with fractures, accidents, or wounds (most common among laborers), who come directly to the hospital, its doors will be open both night and day. Some private rooms are prepared for those who wish to enjoy the advantages of a hospital, with constant medical attendance, and who are ready to pay for the accommodation and services rendered. 'May those of future years who find relief here bless this work long after we have passed away and our very names are forgotten. At the closing of her address Mr. Asa Dow of Canterbury, Y C, stepped forward and presented Lady Tilley with a cheque for \$1000 as a contribution towards the erection of the wing for the treatment of contagious diseases. Mr. Dow was loudly cheered for his generous gift.

Hon. A. G. Blair made the announcements of the programme. Mrs. Hunter acted as matron, the Lady engaged for this office not having yet arrived. Rev. A. J. Mowatt pronounced the benediction, after which the hospital was thrown open to the public for inspection.

Excursions and Sports

A large number of costly prizes. Magnificent Fireworks, &c.

POLYMORPHIAN PARADE.

The various committees having in charge the sports and other attractions for Dominion Day have settled down systematically to work, and everything indicates a most enjoyable day. The programme which will be published in circular form and distributed about the streets on that day will doubtless have some few changes but the following is substantially the proceeding as it will be the effort to carry them out.

Write it for the great and small,
In the mansion, cot or hall;
Where there's drink there's danger.

Write it on our ships which sail,
Borne along by steam and gale;
Write it in large letters plain,
O'er our land and 'cross the main;
Where there's drink there's danger.

Write it in the Christian home;
Write it where our drunkards roam
Year by year from good and right;
Proving with resistless might,
Where there's drink there's danger.

Write it on our history's page;
Write it patriot, scholar, sage;
Write it in the Sabbath school;
Write, Oh! write this truthful rule,
Where there's drink there's danger.

Write it in the house of God;
Write it on the teeming sod;
Write it on hill-top and glen;
Write, Oh! Write with blood-dipped pen,
Where there's drink there's danger.

Write it for the rising youth;
Write it for the cause of truth;
Write it on our fatherland;
Write 'tis duty's stern command
Where there's drink there's danger.

Write it for bright heaven above;
Write it for the God of love;

New Governor of Manitoba.

Senator Schultz has been appointed Governor of Manitoba and will assume office on the 1st July. The appointment meets with general approval. The new Lieutenant Governor is one who knows what roughing it in the west means having had a practical experience of being in the toils of Louis Riel in his first rebellion.

The Parliamentary Companion tells us that the Hon. Dr. John Christian Schultz Senator, is an Ontarian. He is of Danish descent, a son of the late William Schultz merchant, of Amherstburg, Ont., his mother being of Bandon, Ireland. Senator Schultz was born in Amertsburg in 1846, educated in arts at Oberlin college, Ohio, and in medicine at Queen's university, Kingston, and Victoria university, Coburg. He graduated in medicine in 1860 and went to the Northwest, then under the rule of the Hudson's Bay Co., the same year. He practised his profession at Fort Garry, now Winnipeg, and went into the fur trade. When Riel inaugurated his first rebellion in Manitoba, and sought to prevent the country being incorporated with Canada, Dr. Schultz did what he could to resist the rebel chief, but being overpowered was, with a large number of Canadian sympathizers, thrown into prison, and the doctor himself would have been shot had he not succeeded in escaping, and making his way on snow shoes out of the country, a journey of hundreds of miles.

He now returns to that country as its Lieutenant Governor, a great favorite with the people and one who has done much to promote the prosperity and to shed light on the godly heritage the Canadian people have in the great Northwest.

Messrs. Crossley and Hunter, evangelists, closed their services at St. Thomas, Ont. on Monday evening, having been the means during eight weeks of converting 1, 154 persons.

A Swiss engineer has submitted a plan for supplying Paris with pure water from the lake of Neuchatel, at a cost of \$103,000,000. The proposed aqueduct would be 312 miles in length, including a tunnel twenty-two miles long under the Jura mountains. The lake is 1620 feet above the average of Parisian streets, and it is believed that power sufficient for all the industries of the French capital could be furnished in addition to potable water.

In the court of appeal Wednesday judgement was given in the libel suit of Lafamme v. Toronto Mail. The court confirmed the verdict of the court below, granting \$10,000 to the plaintiff, and dismissed the motion for an arrest of judgment and new trial. Judges Church and Bady dissented on the ground that the damage awarded was excessive, but the majority of the court were against them.

The coast of Iceland, last month, shows 400 French fishermen were drowned; 30 vessels were wrecked.

A party of drunken Hungarians started out early Tuesday morning to mob the Irish inhabitants of Georgetown, a suburb of Wilkesbarre, Pa. Entering the houses of some of the sleeping citizens they dragged them from their beds and assaulted them with clubs and stones. The Irish rallied, returned the onslaught and a battle ensued in which a number on both sides were badly used up. Two miners, John McGlynn and Dennis Hanlon are reported fatally injured. Six rioters are under arrest. The ringleaders with a dozen others fled to the mountains.
