Mary Ann Stafford.

We are called upon to record the death of one of our best Christians and church members in the person of Mary Ann, wife of Jesse Stafford, who departed this life on August 8th, 1920, after eight weeks of suffering of typhoid fever. Everything was done that human skill and means could do but to no avail. She was born in England 57 years ago, was converted at the age of eighteen, and after coming to this country she was sanctified and joined the R. B. Church of Marysville, when Rev. H. H. Cosman was pastor, over twenty years ago, and has been a consistent member and worker ever since. She leaves to mourn besides her husband a family of six, George, Mrs. Cody and Mrs. Bettle of St. John, Miss Nellie, of Victoria Hospital nursing staff, of Fredericton, Albert and Frank at home. Sister Stafford was a good woman and to be in her presence was a blessing, it was like pouring oil on the troubled waters. She will be missed not only in her home and in the Sunday School and church, but in the town, for she was a friend to anyone in need. We extend to the sorrowing husband and family our sincere sympathy.

IT WILL SOON BE HERE.

The time for our new missionaries to sail for Africa will soon be here.

What part are you going to do?

There should be kind remembrances for every member of the Sanders family. We all appreciate them highly. It will do them a world of good to express it by an appropriate gift individually.

Then there are lots and lots of things our new missionaries will need. Some well to do folks should send enough cots for our new hospital and mattresses and quilts and pillows. How would you like to lay your head on brick like the poor blacks? How would you like people to do if you were in Brother and Sister Sanders' place and the same line of thinking will apply to the Sanders boys and girls. Go to your closets of prayer and get on your knees and think yourselves ten thousand miles away from your homes, with only poor negroes with all their ignorance and superstitions and all their childishness and you had to help them all the time, and no white associates. Nor any person to comfort and help you. My! How many poor selfish, fussy people would change into helpers should they see as they should and feel as they ought to feel.

How would you want people to do if you were there in this situation, or were going there.

Now, whatsoever he saith unto you do it and begin now.

HOT CAMPAIGN IN SCOTLAND.

The temperance campaign in Scotland is now in full swing and there is no lack of interest. Colonel Kyle, of the Highland Infantry, is in charge of the "drys," and he is busy running down liquor lies in regard to the failure of prohibition. The wets recently made much of the fact that a Canadian doctor had issued 12,274 whiskey prescriptions in eleven days. When the colonel got after them they promptly cut it down to 1,274, which of course was another story. The colonel declares that certain localities can already be counted upon to vote dry, and he is concentrating upon the large industrial communities. Many speakers are at work, and Mr. George Bell, M. P. P., of Victoria, B. C., who campaigned in New Zealand not so long ago, is being sent by the Dominion Alliance to Scotland to help in the present campaign. Mr. Bell is a good speaker, and he is not unfamiliar with the tactics of the "wets" in such campaigns, and he should be of no small assistance to the Scottish temperance forces in their heroic attempt to make Scotland dry.—Christian Guardian.

The number of children in China under 10 years of age is greater than the whole population of the United States. But at this age they are not supposed to have a soul, and are not given a proper burial. There are no children's graves in China.
