Dear Brother:

Enclosed find renewal for the King's Highway to the Carey Library, Houlton, Me. I feel thankful for this excellent paper, which is not backward in publishing articles that are against sin, whether it is against the petted sin of using tobacco or going visiting on the Sabbath. We are glad to have it among the other papers in our library.

VINETTA G. SOULE.

Dear Highway:

A few words from this part of the field might not be amiss. We feel we have much to be thankful for. God is blessing. Our congregations have almost doubled, and in the Sunday services souls are being blessed for which we praise the dear Lord. The Church has given me a unanimous call to remain their pastor for the coming year and I have decided to accept as I feel it is the will of the Lord. I am glad that we are to have an evangelist at Beulah.

Your brother in Christ,

W. W. HOWE.

Riverdale, N. S.

Dear Highway:

I am enclosing my renewal as I love to read your pages. I love to read the letters from the brothers and sisters. I trust they are being blessed in their meetings. Each day brings us nearer to our eternal home.

Yours truly,

Dear Highway:

We trust a report of our work on this field may be of interest to the Highway family. Early in March the writer left home for Knowlesville, where he held meetings over two Sundays, then went to Juniper and held a few services. There we had good congregations, considering the condition of the roads. The Lord helped us in preaching the word and we saw some evidence of the working of the Holy Spirit among the people. From Juniper we returned to East Knowlesville and held four services in a school house, where they seldom have any meetings. The Lord gave us great liberty there in preaching the truth and much conviction was on the people.

Came home on March 30th. Got my light wagon and went back to Gordonsville for the following Sunday, where we had two profitable services and made some calls among our good people of that place, and was invited back to preach to them every two weeks which, however, we have been unable to do.

During these weeks Brother Earl Forman supplied for us acceptably on this field and also held special services with quite a measure of success at Knoxford.

On April 9th we went to Upper Wicklow and held special services there for a little over two weeks, Brother Forman doing the most of the preaching. The Lord gave us victory. Several were restored from a backslidden state, two or more converted and on April 25th we had the pleasure of baptizing four young men and three young women. The work there is now in a prosperous condition. They have had a good Sunday school since last May and now have a praying band organized which holds a prayer meeting every Wednesday evening.

We are now holding special services at Beachwood on the opposite side of the river from Upper Wicklow. The Orangemen there have kindly let us have the use of their hall. We have good attendance and see some victory. Praise the Lord. I find Brother Forman a true yoke-fellow, and a good preacher for a young man. My soul is aflame with the divine fire and zeal for the salvation of lost men and I am trusting the Lord to direct us in the future. We are expecting to say good-bye to the good people here in a few weeks. May the Lord send them a true shepherd.

Yours in the work,

I. F. KEIRSTEAD.

Dear Brother Trafton:

My soul is still rejoicing in the Lord and praising Him for full salvation, yea an uttermost salvation. Some are sticklers for Bible terms and terminology, so we must be careful, but I know that "If we confess our sins, He is faithful and just to forgive us our sins, and to cleanse us

from all unrighteousness," and also "If we walk in the light as He is in the light, we have fellowship one with another, and the blood of Jesus Christ his son cleanseth us from all sin." Praise the Lord.

Too our hearts are purified by faith, even as the Apostles were in the beginning of this holiness movement.

Hallelujah, amen. I am still persuaded we are on the right track in preaching the necessity and blest privilege of knowing our hearts cleansed and purified by the baptism of the Holy Ghost, after we have been born again.

Praise the Lord. It was the greatest blessing I had ever known or heard of when I entered into this blessed experience of perfect love. It brought in everything that was good and bless God it lingers with me yet.

Now our aim is to keep on walking in the light, obedient, that we might eat the good of the land.

Hope the brethren will never let up preaching this good news of the Spiritual Canaan land, where theres rest and peace, joy and blessing so abundant, for all who will obey and trust God with their all, in living sacrifice.

With love to all the brethren in Jesus' name.

Yours to help this good work,

ROBSON GIBBS.

Dear Highway:

A few lines from the City of Columbia, S. C., may be of more or less interest to the readers of the Highway at this time, more especially as it is a city in one of the sunny states of the South.

Columbia is the capital city of South Carolina and is a very pretty city with broad, well laid out streets, lined on either side with beautiful shade trees, and has broad sidewalks of cement. Columbia has a dozen or more churches of various denominations, nearly half of boasts of having a dozen or more hospitals, and strange as it may seem, they are which are colored people. This city also nearly always full of patients seeking healing from all the diseases to which human flesh is heir.

Down here we have some of nearly all the creeds known, even the Latter Day Saints, or more properly speaking, Mormons, for there is a difference between Mormons and Latter Day Saints.

The Columbians are much more given to Church going than the people in many other places. It is frequently difficult to get a seat unless one is early at the services. This cannot be said of any of the churches either North or in Canada, as far as my knowledge goes.

The climate here is quite different from the climate North or in Canada. For two months or more it has been exceptionally dry and hot even for the South, the thermometer having gone as high as 95. One remarkable thing about the climate is the very sudden changes from 60 and less to 90 and over, within a few hours, which makes it not any too healthful, especially for the northern people.

I may add that suicides, murders, fratricides, and all other cides are of frequent occurrences, with breach of promise cases thrown in.
