

Ministers and Churches

Rev. F. A. Watson, completing a two-year period as pastor of our church at Westchester, N. S., announces his intention to retire from pastoral work at the end of this church year. Brother Watson has rendered more than thirty-five years of service to the ministry of our Church, and the announcement of his retirement will be read with regret. He will be available for some supply and evangelistic work after this year's Alliance and Beulah Camp Meeting.

Song Evangelist Cedric Landers has the following dates open: March 14-31, and the last two weeks of April. Brother Landers is rendering very fine service and will be a blessing to any church that engages him. His address is Moncton, N. B., R. R. No. 8.

Special services are scheduled for our church in Saint John, N. B., March 7-19, with Miss Sheila Graham as evangelist. Rev. W. L. Fernley is pastor.

A number of requests have been received for visitation of churches by Rev. E. A. M. Kierstead, and some appointments have already been kept. Interested pastors and missionary societies may write Brother Kierstead at 870 Charlotte St., Fredericton, N. B.

Churches co-operating in the Highway subscription effort in January are asked to send reports in at once if they have not already done so, as the director of this effort, Rev. S. E. Cameron Perth, N. B., wishes to make a statement on the results of the campaign in the March 15th Highway. Send all monies to Rev. E. W. Tokley, Box 277, Moncton, N. B.

And let us be earnestly prayerful about decisions of churches and pastors regarding pastoral appointments for the 1961-62 church year.

IT IS RIGHT OR WRONG

The preacher is sometimes accused of being narrow-minded because he insists upon the Christians forsaking all to follow Christ.

Yet all of life is narrow, and success is to be found only by passing through the narrow gate down the straight way.

There is no room for broad-mindedness in the chemical laboratory. Water is composed of two parts hydrogen, and one part oxygen. The slightest deviation from that formula is forbidden.

There is no room for broad-mindedness in music. There can be but eight steps in an octave. The skilled director will not permit his first violin to play even so much as one-half step off the written note, chord, and key.

There is no room for broad-mindedness in the mathematical classroom. Neither geometry, calculus, nor trigonometry allows any variation from the exact, even for old-

time's sake. The solution of the problem is either right or it is wrong—no tolerance there.

There is no room for broad-mindedness on the athletic field. The game is played according to the rules with no favours shown for charity's sake.

There is no room for broad-mindedness in the garage. The mechanic there says that the piston rings must fit the cylinder walls within one-thousandth of an inch if the motor is to run smoothly. Even between friends there cannot be any variation.

How, then, shall we expect that broad-mindedness shall rule in the realm of religion and morals?
