

REPAIRS AT BEULAH CAMP

A new picket fence, fronting our Beulah property, has been built this summer under the direction of Mr. Everett Bain. A number of others gave assistance to the work. The fence was made possible by the generosity of Mr. William Trafton and Mrs. Stanley Titus. Other work that has been done includes the repairing of foundations under Riverview, Cedardale, and The Hotel. Rev. J. A. Owens, Charles Owens, and Rev. G. A. Hopkins have been working on the latter project.

In the North Atlantic one occasionally encounters an extraordinary phenomenon. The wind, the tide, the surface ice will all be going in one direction; but there will be an iceberg moving majestically against these forces.

The sight is actually not so strange, however, when one realizes that only a small part of the iceberg is visible. Deep down in the water its base is controlled by currents more powerful than those on the surface.

This occurrence has a significant application in human life. A strong, worthy character reaches down deep and is driven only by those currents of fundamental truth which flow unalterably regardless of the changing philosophical fantasies which from time to time blow across the sea of time.

"If you want to get along, go along," expresses a current point of view. Following that rule, many people willingly sacrifice integrity on the altar of personal advancement or momentary popular acclaim.

And, indeed, everyone, sooner or later, is confronted with the temptation of doing the thing which seems popular or profitable even though one knows it to be wrong. On such occasions one needs to be directed by the sure principles of right as taught in the Bible and as perfectly illustrated in the life of Jesus Christ. Aware of all this, the apostle once exhorted some friends, "Be no more children, tossed to and fro, and carried about by every wind of doctrine, by the sleight of men, and cunning craftiness, whereby they lie in wait to deceive" (Eph. 4:14).
