## OUR PASTORS SPEAK

(Continued from Page 3)

is like trying to board a moving train. If we try to get on from a standstill (at least without a great deal of practice and I can speak as a brakeman) we will be terribly hurt. What we have to do is run in the same direction and somewhere near the same speed of the train in order to get aboard. To get men we must go after them where they are for they are not coming to us, at least in the proportion they ought to be. May the Lord help these few ideas to be "kindling wood" for Evangelism and may our every church be "Relevant" in its program for capturing the Souls of men.
