AFRICA

enjoyable evening with Glendon and Betty and Storer.

We were up early next morning as we had to make the long trip back to Johannesburg and we wanted to spend some time on the Reef before plane departure. Glendon drove us as far as Piet Retief where Karl picked us up to take us the rest of the way to Johannesburg. Storer decided to take the day off from his classes and see us off at our departure, and teach a double the next day. We stopped at Ermelo and picked up Charles, Myra, and Joy who also made the trip to the Reef and Johannesburg with us. Our trip in was most entertaining and enjoyable. When we got to Boksburg, we stopped at Paul and Mary's home and met Victor Sanders, Paul's son. We also visited the Native Location at Daveyton and our lovely church there.

I am sure that many of you are somewhat familiar with the work on the Reef as, in all probability, Paul and Mary have visited the most of our churches with their film, slides, and lectures of the work there.

Truly the time is ripe and the need is great on the Reef. From here we traveled to the airport where we checked our baggage and cleared at customs. We were now ready for a well-deserved meal which we would have enjoyed much more had it not been for the fact that we would soon be departing and leaving our beloved missionaries.

May I preface in summation that the need in both the Rhodesias and the Republic of South Africa is great. One cannot grasp the full significance of this unless he has been there and witnessed the conditions and circumstances under which our missionaries have to work. They have done, and are doing a wonderful work, but there is much much more to be accomplished yet.

When I refer to the Rhodesias, I am including our work in Northern Rhodesia, for we have two churches there—one is located in Libuyu at Livingstone, and one is located about 20 miles away at Senkobo. Preacher Darlington lives at Libuyu and is in charge of these two churches.

In Southern Rhodesia, we have eleven churches, eight Sunday Schools, and seven day schools. These are located in our work on the Wankie Native Reserve which crisscrosses back and forth across the Reserve from Victoria Falls to Jambezi, covering a distance of many miles.
