

**A TESTIMONY: By MISS EILEEN NKOSI
LOUWSBURG, NATAL, SOUTH AFRICA**

Miss Eileen Nkosi

Dear Friends,

What a wonderful change has been brought to my soul since Jesus came into my heart. I have joy and perfect peace that I did not have before. I rejoice because my sins have been cast into the depth of the deepest ocean. Not only my sins have been forgiven, but my name has been written in the Lamb's Book of Life.

I long for that day when I shall see Jesus face to face. I cannot think of suitable words of praise that I shall say to the Lord Jesus, when I behold him. I am not ashamed of my Lord, for it is he who lifted me up. It is Jesus who opened my blind eyes. I could not see the beauty of following Jesus when I was Satan's servant. To me sin was tasty. I thought it foolish for young girls to accept Jesus as their Saviour.

It was an Easter morning on the 17 April, 1960 when I met the Lord. He showed me how unworthy I was to be called his daughter, but by his love, he changed my life completely. For the first time in my life I saw the day dawning. Darkness fled from my eyes, for Jesus had come with heavenly light.

Since that day my greatest desire is to serve the Lord with my "EVERYTHING". What he did for me on the cross is something no one else could accomplish. My parents, my brothers and sisters could not save my soul from eternal destruction, only Jesus.

Not only did Jesus save me, but he sanctified my soul. Before my salvation I never obtained satisfaction in what I thought were my pleasures. Instead I was continually distressed. My soul craved for peace.

"I will Bless the Lord at all times and his praise shall continually be in my mouth". How can I deny such a Redeemer who ransomed my soul from my oppressor, the Devil. It gives me immeasurable happiness to belong to Jesus when still so young.

I am nineteen years old. I am taking Junior Matric (Std. X) at an American Board Mission School at Inanda, (Inanda Seminary), a few miles outside Durban. My interest is in Medical Science.

After I finish Senior Matric, (Std. XI) I shall go for B.Sc. There I'll take three years studying science. When I finish that, I hope to be accepted in the Medical School in Durban, for training in medicine.

I do not know where I shall work after receiving my
