COMPARTMENT CARS ON OCEAN LIMITED

Fine Equipment of C. N. R. Through Trains Praised by Travellers.

The Compartment-Observation Cars on the "Ocean Limited," between Halifax and Montreal, are greatly favoured by patrons of the Canadian National Railways, and have proved a great acquisition to the splendid equipment of these fine All-Steel trains.

These cars have six sections and two most comfortable compartments. The observation end is spacious with ample room for fifteen luxurious and restful chairs. There is also a wide observation platform, greatly in demand when fine weather permits. The Observation Cars have a library with a sufficiency of good reading matter. Radio is also a feature on these cars, and the afternoon broadcasts are enjoyed, as well as the evening concerts from "CNRA," "CNRM" and other stations.

The operation of these cars makes the "Ocean Limited" one of the very finest trains on the continent.

The dining and sleeping car services of the Canadian National Railways is noted for its excellence.

PORTAGE VALE

Nov. 30—A very serious and distressing accident occurred at the home of Mr. and Mrs. Alvin Marks, on Saturday morning, when a young man, in the act of removing a shell from a .22 rifle, it exploded and the bullet found its mark in the little body of Miles, their youngest son, who is

six years old. Dr. Fleming was called, and made a quick trip from Petitcodiac. He found that the bullet went almost through the body, and just missed from going through the spine. The doctor was unable to remove it. The little fellow is being kept very quiet and seems to be doing all right, but the doctor says that it will be several days yet before it will be known what the result will be. The many friends of the family are wishing for a speedy turn for the best and many expressions of sympathy are heard. Mrs. Marks was in Moncton when the accident occurred, and did not get back until the evening train.

The game season, which closes today, has been a successful one for quite a number of the local sports. Mr. Harold Teakles brought down a large buck deer a few days ago. It had a splendid set of horns and is reported to have been the best deer shot in this locality for many years. Those who have been successful in getting moose are: Hebel Dunfield, F. L. Smith, manager at the Marven Farm; Councilor Ross Brown, and Wilfred Hubley, of Anagance.

SIDE-STEPPED THE SERVICE

An English clergyman tells this one on himself. A dignified old lady, ascending the steps of his church, had difficulty with her breathing, and asked his assistance. He offered her his arm and on reaching the church door she thanked him and inquired, "Do you happen to know who is preaching this morning?"

"The rector, madam," he replied. "Oh," she said, "then might I beg you to do me yet another favor?"

"Certainly," replied the rector once more, "what else can I do for you?" "Would you," said the old lady, "be good enough to assist me down the steps again?"

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.
