NEWTOWN

Nov. 10—Congratulations are being received by Mr. and Mrs. Harry Davis on the arrival of a little son, born Thursday afternoon. (Donald.) Mother and son are doing well. Mrs. Davis was formerly Miss Laura Keith, assistant superintendent of the general public hospital, Saint John.

Mrs. Geo. Vaughan, of St. Martins, who has been visiting at the home of her parents, last week returned to her home in St. Martins on Saturday.

Master Stanley McKnight, who has been laid up with mumps, has recovered and is about his duties again.

Mrs. Willard Thorne, of Sussex, spent last week with her parents here. Miss Natalie Marr and Master Harold Marr, of Manhurst, spent the week-end visiting at their aunt's Mrs. Emma Hall, of this place.

Mr. and Mrs. Wesley Cosman, of St. John, spent Thanksgiving with her sister, Mrs. S. H. Tamlyn.

Mr. Geo. Hart is spending his vacation with his parents.

We are sorry to say that Mr. Elmer Cameron is very sick with pneumonia. Dr. Kennedy is attending him.

Mr. Clifford Keith, of Havelock, was a visitor to his brother, Mr. Howard Keith, last Sunday.

Thanksgiving day (Monday) passed very quietly here. Mr. J. T. Dimock preached to a large congregation in the Baptist church.

Mr. Charles Fennell and son, of St. John, spent a few days last week at the home of his parents here.

Mrs. John Fennell is the guest of friends in Saint John.

Mrs. P. H. Green, and children, of Penobscot, spent the week-end at her home here.

Miss Mildred Murphy, of Saint John, spent the week-end guest of Miss Annie Fennell.

Messrs. Mort Hanley and Edward Murray left on Thursday for Boston.

A number of people from Knightville, attended the bean supper held in the Smith's Creek church last Thursday evening, proceeds for church work.

Mr. and Mrs. John Chambers, of Knightville, were the guests of Mr. and Mrs. Walter Paterson, on Thursday.

AVONMORE

Mar. 10—The Misses Kirk, of Saint John, were week-end guests of Mr. and Mrs. James Howe.

Mrs. Ernest Myers, Norton, spent Saturday with her sister, Mrs. Leslie Huggard.

Mrs. Alberta Harmer and daughter Clara spent Thanksgiving with Mr. and Mrs. A. J. Northrup, Belleisle.

Mr. and Mrs. J. Jamieson, Norton, were guests of Mrs. Alberta Harmer, on Wednesday.

On account of the storm there was no service in the hall Sunday evening.

There are the relationships that ants entertain with non-social insects—their cultivation of the tree-lice or aphides as cows, their feeding of other kept insects, their community life with favorite parasites or with the myrmecophila, their relationships with other social insects, such as other tribes of ants, their keeping of slaves and social hangers-on, their composite and mixed colonies, their conduct of wars, and much more.

Mr. and Mrs. George Murray spent Sunday with Mrs. Murray's mother.

Mr. and Mrs. Orin Northrup have returned home after spending a few days with Mrs. Northrup's mother at Knightville.

Our teacher, Mrs. McCutcheon, spent the week-end with friends at Cole's Island.

Some of the people from this place attended the chicken supper at Highfield on Saturday night.

Earl Murray's friends are glad to hear that he has recovered from a severe cold.

Mr. and Mrs. William Crealock spent Sunday at Belleisle.

Harry Pearson, of this place, shot a fine catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

THE KINGS COUNTY RECORD

Record Building, Sussex, N. B.

RECEIPTS FOR RECORD SUBSCRIPTIONS

The Record, instead of giving you one receipt in the year for a paid subscription, sends you one each week. You will find it on the STRAW COLORED LABEL on which your address appears. The date printed there is that on which your subscription terminates. If on payment of your subscription the date is not changed within two weeks, please notify us. No other receipt will be sent.

IF THE DATE is not changed within a fortnight after payment is made kindly inform us. Do not let the matter run for several months and then come and try to get the matter righted. Subscribers in arrears will kindly remit, and can tell the amount due from the date on the slip which in every case is the time that subscription is paid up to. This paper is sent to subscribers unless a definite order of discontinuance is given.

Correspondence is earnestly solicited from every part of this and adjoining counties, and must be sent in not later than Tuesday.

TERMS IN CANADA: One year, postage paid, \$1.50; 6 months, postage paid, 75 cents. In the United States: One year, \$2.00; 6 months, \$1.00.

SECRETS OF THE ANT BARED BY SCIENTISTS

Observation of the industry of ants is of ancient record and in the Bible the sluggard is bidden to study her ways and be wise. The study of her ways is not being carried on by sluggards nowadays, but by scientists. Fabre contributed vastly to our knowledge of the ant and many others have observed and have been astonished by the communal life of the insects.

In many respects the ants more closely approach the human being than do any of the quadrupeds. They have a social organization that is unequalled in the whole animal kingdom, and surpasses that of the bees. Fresh light upon some features of ant life has been thrown by Dr. Herman Eidmann, a young German scientist in Munich, and described by Herman George Schaeffner in the New York Times. Since the doctor is only thirty years old, we infer that he could not have been a very active enemy while the war was going on, and it is thus a pleasure to mention his name in an approving way. One thing he seems to have proved definitely is that ants communicate to each other through the sense of touch. It seems highly probable that owing to the great delicacy of their antennae they have evolved a kind of speech, and that different touches signify different things to them.

"We know," says Dr. Eidmann, "that the social and community life of insects, especially of the ant, offers us likenesses to our own special institutions such as we find nowhere else. It is the social life of the insects that has augmented and intensified their instincts to a most remarkable degree.

The size and extent of the ant 'state' and the frequently huge numbers of its inhabitants have made it a potent factor in nature and brought about all kinds of interesting relationships. Food and shelter are, of course, the dominant urges in forming these relationships, which are sometimes one-sided, sometimes mutual. There are, for example, the relationships between ants and plants, as these manifest themselves in the gathering of grains, in the cultivation of fungi, in the utilization of hollow spaces in the ligneous vegetables as dwellings.

"Then there are the relationships that ants entertain with non-social insects—their cultivation of the tree-lice or aphides as cows, their feeding of other kept insects, their community life with favorite parasites or with the myrmecophila, their relationships with other social insects, such as other tribes of ants, their keeping of slaves and social hangers-on, their composite and mixed colonies, their conduct of wars, and much more.

honey a lick or two instead of remaining for the half-hour which it requires for an ant thoroughly to gorge itself on honey, and then resume its work. But he found if the honey was produced after the ant had gone to get help, the helpers on their return would stay with the honey and fill themselves, while the first ant would ignore the honey and proceed on his solitary way. This suggests that the finder ant was unable to communicate to his fellows the exact nature of what he had found. Another test was to dust over the trail made by the finder ant as soon as he returned to the nest with his tidings, and when he emerged to seize him. Thus it would be shown if the ant had been able to give directions to the others or whether they followed him blindly. They failed to find the cache of food, so it is supposed that all that the ant would indicate was that he desired the others to follow him. The test was not conclusive, of course, for so long as the ant believed the others were returning with him there would be no need for him to give particular directions if he had been unable to do so. It is still possible that ants have powers of descriptive communication.

MOUNTAIN DALE

Nov. 2—Miss Florence Parlee, our school teacher, attended the Teachers Institute in Sussex.

Mr. Charles McKnight spent Thursday evening in this place.

Mrs. Russel Crothers, of Berwick, spent a few days with her mother, Mrs. Handford Snider.

Mr. Robert Curbishley spent Tuesday in this place.

Mr. Hedley Cameron is spending some time at his home here.

Mr. and Mrs. Roy Long and Miss Elizabeth Simpson spent Tuesday in Sussex.

Mr. and Mrs. Arthur Boyd passed through this place en route to Pleasant Ridge.

Mr. and Mrs. Roy A. Long spent Saturday with Mrs. W. O. McNair, of Apohaqui.

Mr. Henry Ganong spent Saturday in Sussex.

Mr. Lorne Northrup passed through this place on Friday.

Mr. and Mrs. Roy A. Long spent Sunday afternoon in Goshen.

Mr. and Mrs. John Cameron, of Pleasant Ridge, spent Sunday afternoon in this place.

fine bear weighing about 480 pounds. The friends of Mrs. John Crealock are sorry to hear that she is not improving much from her illness.

REPORT OF JEFFRIES CORNER SCHOOL FOR MONTHS OF SEPT. AND OCT.

Grade V (a)—Willie McKie, 58.
Grade V (b)—Robert McLong, 80.2;
Fred Crowe, 77.9; Cecil Jeffries, 64.3;
Agnes McKie, 56.4; Arthur Crowe, 56.6.

Grade IV—Nellie Orr, 88.5; Daisy McKie, 58.4; Ethel O'Dell, 53.6; Ralph Lynch, 50.

Grade III (a)—Burton Orr, 58.4; Aubrey DeBow, 58.

Grade III (b)—Helen Bowland, 84.5.
Grade II (a)—Hazel DeBow, 74.2.
Grade II (b)—Emma McKie, 68.2;
Evelyn Lynch, 62.5.

Grade I (a)—John Crow, 75.2.
Grade I (b)—Otty Thorne, 69.2; Geo. Lynch, 62.5.

Standard I (a)—Dorothy Lynch, 72;
Clarence DeBow, 72; George McLong, 59; Florence Hayes, 57.2.

Standard I (b)—Ralph Hawkes, 72.6.
Number of pupils enrolled, 25.
Florence M. Proctor, Teacher.

PEARSONVILLE

Nov. 4—Mr. John Crealock and sister Stella spent Sunday with friends in Mt. Middleton.

Mr. and Mrs. Will Chown, of Berwick, spent Sunday with friends in this place.

Mr. and Mrs. George Murray spent Sunday with Mrs. Murray's mother.

Mr. and Mrs. Orin Northrup have returned home after spending a few days with Mrs. Northrup's mother at Knightville.

Our teacher, Mrs. McCutcheon, spent the week-end with friends at Cole's Island.

Some of the people from this place attended the chicken supper at Highfield on Saturday night.

Earl Murray's friends are glad to hear that he has recovered from a severe cold.

Mr. and Mrs. William Crealock spent Sunday at Belleisle.

Harry Pearson, of this place, shot a fine catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

WALKER SETTLEMENT

Nov. 10—The weather for the past week has been ideal, the farmers have been busy banking their houses and pulling their turnips this week.

Mrs. Wm. Anderson has returned home after spending the past few weeks with her daughter, Mrs. Oscar Adair, Sussex Corner.

Miss Mae Malloch, teacher, spent Thanksgiving with friends in Fredericton and elsewhere.

Masters Robert and James Hawkes and George Arnold were Monday evening guests of Master John E. Anderson.

Miss Pauline Anderson spent Sunday afternoon with her grandmother, Mrs. Wm. Walker.

Ora McLong, Waterford, was in this place Thursday selling Christmas cards and booklets.

Mr. and Mrs. W. John Anderson were in Sussex on Friday afternoon last. They were accompanied by Miss Mae Malloch.

Peavishness, they say, is an unpleasant manifestation of perverted physiology.

The Value of Father John's Medicine as a Body Builder

Is Positively Proven By Over 70 Years of Success.

FIRST—The quality of the Cod Liver Oil used, along with other valuable ingredients in compounding this remedy.

Dr. Harvey A. Sell, one of the best known analytical chemists on this continent, made an analysis of Father John's Medicine and said, "We have never examined finer cod liver oil than used in Father John's Medicine."

SECOND—The tiny particles into which the Cod Liver Oil is divided by the wonderful equipment in our new Montreal laboratory. Concerning the degree of fineness, Dr. Sell states in his report on Father John's Medicine, "The cod liver oil is broken up more completely than in any other medicine we have ever examined of this type, many of the oil particles in Father John's Medicine being only one-tenth the size of the particles of butter-fat found in cream."

The cod liver oil is so excellent in quality and is so finely divided that its full food value is easily absorbed by even weakened digestive systems.

This is why people, especially the aged and weak, and pale, thin, underweight children grow healthy taking Father John's Medicine.

LOCH LOMOND

Nov. 6—On Nov. 3rd (the day after All Souls', and the Octave of All Saints'), a choral celebration of the Holy Communion took place at 11 a.m. in the parish church of All Saints', Loch Lomond. This church was consecrated on All Souls' day in the year 1836. At the service on Tuesday last the celebrant was the Rev. C. W. Follett, priest-in-charge, and the preacher was the Rev. E. C. Budd, priest-in-charge of Upham and Hammond.

There were a good number of communicants present considering that it was a week-day morning, also a service very much appreciated.

HAMMONDVALE

Nov. 9—The Harvest Festival took place here on Sunday afternoon, Nov. 1 (All Saints' Day). The usual harvest hymns were sung and the preacher was the Rev. E. C. Budd, priest-in-charge. The building looked well with decorations of fruit, flowers and vegetables. A fortnight previously, Oct. 18th, St. Luke's Day, a harvest festival service took place in the old parish church of St. Paul's, London-derry, at 11 a.m., which makes five harvest festival services held during the autumn in this mission of Upham and Hammond. The Rev. E. C. Budd was the preacher.

Nov. 9—Mr. Wilford Smith, of Apohaqui, spent a day last week with Mr. and Mrs. Walter Alexander.

Mrs. Thomas Kelly and Miss Jean

Kelly returned home last Thursday from St. John, where Mrs. Kelly was under a doctor's care. We are glad to say she is somewhat improved in health.

Mr. and Mrs. Sherman Alexander spent a few days last week in St. John. Mrs. Jane Crawford is quite miserable at her home here. We all hope she will soon recover.

Miss Doras Alexander spent the week-end at Hillsdale.

Murray Virtue, of Jeffery Corner, is in this place with his thrashing machine.
