ST. JOHN FILM FINE ONE

IMPERIAL THURSDAY, FRIDAY AND SATURDAY—ALSO "MADAM BEHAVE" AND "THE GREEN ARCHER."

The complete pictorial of Saint John under the title "The Loyalist City" which graced Imperial Theatre's curtain, St. John, the first half of this week, was one of the finest moving picture scenic visitations ever shown at that house and elicited not only enthusiastic comment from the large crowd present but the picture was actually applauded. It is the Dominion's Government Motion Picture Bureau's chapter on this city and belongs to the complete picturing series being made of the cities of the Dominion under the general direction of Raymond S. Peck, a former Upper Canadian newspaper man.

Saint John is pictured from an almost entirely new group of viewpoints, the tour of the city and surroundings being worked into a little scenario in which a party of tourists see the town from an automobile starting from the Admiral Bently Hotel. A bevy of Saint John young ladies and a member of a local theatre staff devoted themselves more than a week to assisting Director Badgley and his cameraman in carrying out the scenario idea. It was a service that entailed considerable sacrifice of time, though as the picture is reeled off in fifteen minutes it seemed a merry lark.

FORD BUSINESS SHOW INCREASE

Although the output of the Ford Motor Co. of Canada shows a decided increase during the last five months, the profits are not as large as for the same period last year, it was disclosed in report to the shareholders. The directors reported no mention of a dividend declaration. The reason for the fact that at the last annual meeting it was decided that the fiscal year of the company should close on December 31st, and not July 31st.

The total sales, and incomes for the five months' period, amounted to \$16,191,141.96. This is an increase of \$5,133,680.97 over the corresponding five months period of the previous year. This shows a profit of \$974,316.85.
