RETURNING OFFICER LOSES HIS
APPEAL—MUST SERVE HIS
SENTENCE

Following an all day hearing of arguments by counsel for both sides, the Appellate Division of the Supreme Court of Alberta, on Tuesday came to a speedy decision, and threw out the appeal of P. A. Beldy Robb, who was sentenced to five years on each three counts of fraudulent practice while acting as district returning officer at Brule poll, Alta., during the last Federal election. Robb was tried by Mr.

Justice Walsh and a jury of six. More than 130 witnesses were called by the Crown during the trial. Their Lordships found that the sentence of five years on the first two counts in the indictment—destroying ballot papers and "stuffing" the ballot box—was excessive, but allowed the sentence of five years on the third charge, that of fraudulently initiating ballot papers, or papers capable of having been used as ballot papers, to stand. The result is, as far as the courts are concerned, that Robb will serve the sentence of five years, as Mr. Justice Walsh ordered that the sentences were to run concurrently.

GIANT AMONG KINGS

Owing to his great height, King Christian of Denmark has frequently to include among his travelling impediments a bedstead long enough to allow him to sleep with comfort. When he visits England, knowing that his needs will be met, he leaves his special bedstead behind. King Christian is not only the tallest king in the world, but he is the tallest of a line of giants. In the cathedral of Roskilde, near Copenhagen, there is a pillar upon which the height of each Danish monarch is recorded at his coronation. King Christian's mark is the highest of all.

Prosperity doth best discover vice, but adversity doth best discover virtue.—Sir Francis Bacon.

BIRTHDAY OF QUEEN OBSERVED
IN BRITAIN

Her Majesty, Queen Mary, was 59 years of age on May 26. Flags were flying from all the Government buildings in London in observance of her birthday. She is in excellent health, but the recent strenuous years have caused her hair to be noticeably whitened.

The Queen, who was born at Kensington Palace on May 25, 1867, was the only daughter of the Duke of Teck and H.R.H. Princess Mary Adelaide Wilhelmina Elizabeth, younger daughter of H.R.H. Adolphus Frederick, 1st Duke of Cambridge, son of George III. She was married to her cousin, King George V., then Duke of York, at the Chapel Royal, St. James Palace, on July 6, 1893. King George and Queen Mary were married in Westminster Abbey on June 22, 1911.

Her Majesty is Lady of the Most Noble Order of the Garter, Lady of the Most Exalted Order of the Star of India, Lady of the Royal Order of Victoria and Albert, Lady of the Imperial Order of the Crown of India, and Dame Grand Cross of the Order of the British Empire. She also bears decorations of the Royal Red Cross, and is a Lady of Justice of the Order of St. John of Jerusalem.

The Queen is Colonel-in-Chief of the 18th Queen Mary's Own Hussars and of the Queen's Own Oxfordshire Hussars, and she is Commandant-in-Chief of Queen Mary's Women's Army Auxiliary Corps.

Her Majesty has honorary degrees from the following universities: London, Wales, Glasgow, Edinburgh, Oxford and Aberdeen.

A Flavor for Every Taste

FAMOUS ANIMALS

News has come that 'Granny,' the famous old chieftainess of the Canadian herd of bison, is dead. Bison, in spite of the fact that they are carefully preserved, kept in a reservation and fed, are still essentially wild animals, but Granny had sense enough to know on which side her bread was buttered or, rather, where the keepers forked out the hay, and would come for it like a domestic cow. She was known to thousands of tourists.

It is not very often that an animal becomes a celebrity, yet, of course, in the aggregate there are a good many cases, ranging all the way down from Balaam's ass to Jumbo, the great elephant, which was so popular in England that the whole country raised a howl when he was sold to America for two thousand pounds.

There was the snake of Cleopatra, the lion of Androcles—you remember how Androcles took the thorn out of the poor beast's foot and how grateful it was? The first horse to be honored with a statue was that of Caesar, and later in history the mare of the great French leader, Turenne, was so popular with the army that when Turenne himself was should lead them.

Several monkeys have attained international fame. The first was Esau, the so-called man-monkey, owned by Mr. Bostock, and exhibited both in London and New York. Esau is said to have earned seven thousand pounds a year for his proprietor. He caught cold and died at the age of four and a half years, and was succeeded by the

WOMAN COULD
HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run-down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."

Mrs. NELLIE HORN, 28 St. Matthews Avenue, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition. C

Banish The Blues

By Observing
Nature's Basic Rule

Those who suffer from despondency, listlessness and headaches can usually trace the cause of these conditions to constipation.

They are frequently brought about by overwork, nervous strain, lack of outdoor exercise or sleep, or improper food, but more frequently by the non-observance of nature's basic rule—regular thorough bowel elimination.

Poisons from waste matter left behind are picked up by the blood and absorbed by the system, weakening the nerves and lowering the vitality.

Nujol, the scientific internal lubricant, corrects constipation in nature's own way by augmenting the supply of nature's lubricant.

Nujol by softening the waste matter thus permits thorough and regular elimination without overtaxing the intestinal muscles. It is gentle, safe and natural in its action, and can be taken for any length of time without any ill effect.

Ask your druggist for Nujol today and remember—look for the name "Nujol" in red on both bottle, label and package.

two Consuls—Consul I. and Consul II, both chimpanzees.

The writer once interviewed Consul II, who sat in a chair, very nicely dressed, and leaned back smoking a cigar, and evidently enjoying it. He was a beast with nice habits. After finishing his meal, he would wipe his mouth with his napkin before climbing down out of his chair.

Sam, the polar bear of the London Zoo, was about as well known as any bear that ever lived, and columns were written about him in the press. In point of fact, he was a rather dull and queer tempered animal.

Among fish the greatest celebrity was the late lamented Pelorus Jack, the famous dolphin, which for years and years acted as the pilot of ships coming up the Sound into the harbor of Wellington, New Zealand.

Pelorus Jack had the distinction of being the only fish protected by a special Act of Parliament, but in any case no one would have dared to touch him. A man would quite probably have been lynched for interfering with this wonderful creature. After doing his duty as pilot for nearly thirty years, the dolphin came to the end of 1911, when he fell victim to sharks. He was seen by King George, when he made, as Prince of Wales, a visit to New Zealand.

A DETERRENT

Music is said to act as a crime deterrent, and there may be after all, some ground for the statement. We have a lot of music that would deter most prospective criminals from attempting to compete with it.—Montreal Gazette.

UNIVERSITY TRAINING NEEDED
BY TEACHERS

The necessity of a university training for teachers in the public schools and the advantage of continuing some course of study during their career are emphasized by Chief Inspector R. H. Cowley in his annual report to the Board of Education.

"Primary education in the city schools," he says, "has too great a proportion of immature and inexperienced teachers. The service that the children need can be given only by teachers who grow steadily in culture and learning. Teaching experience can be vitalized in no other way. The reiteration of routine program for a thousand days would of itself make for mental stagnation and atrophy of spirit. It were not that the love of the child is often a saving factor. The defect of the situation consists in the cessation in too many cases of the teachers' general education as soon as he enters on his practical life. To the university the teacher must look if he would not become the victim of mental fixation and a stereotyped view of knowledge."

Outlining the present situation existing among the pupils the report shows an improvement in the progress of pupils in the higher forms but points out that too large a proportion of the child's time is spent in the kindergarten and lower forms. Mr. Cowley believes the board should aim at the reduction of one year in the child's earlier education and that this could be effected by a unified and wisely graduated course for the childhood period up to the age of eight or eight and a half.

Canadian grown tobacco will enjoy for the next ten years a preference on the British market of approximately 49 cents a pound over foreign tobacco. This advice was received by the Department of Agriculture from W. A. Wilson, its marketing agent in London. Mr. Wilson points out that the British budget fixes for a period of ten years, the import duty on tobacco from foreign countries at 8s 2d per pound; but the import duty on tobacco from all parts of the Empire is fixed for the same period at only three quarters of that amount.

TRAINING
TOMORROW'S
LEADERS

Our schools serve commerce, industry, and the professions by teaching individuals the art and science of Success in Business. Our schools are training institutions of recognized merit and are widely known for efficiently instructing young men and women in commercial vocations.

UNITED WITH SUCCESS
BUSINESS COLLEGE—Moncton

ACROSS CANADA AND BACK

"Marvelous beyond conception" aptly describes the glories of Canada's Rockies. To be fully appreciated they must be seen. To start out on a trip by one's self into this unfamiliar but far-famed paradise-on-earth, to many appears quite a task. Realizing this, Dean Sinclair Laird, of Macdonald College, an experienced Rocky Mountain Traveller, for the third year in succession has undertaken to conduct a party through this glorious wonderland.

A special train of dining, standard sleeping, and observation compartment cars has been chartered, to leave Toronto on July 19th via the Canadian Pacific Railway. Stops will be made at Port Arthur and Port William, which together form Canada's greatest grain port; Winnipeg Beach, the popular summer resort for Winnipeggers; Winnipeg, Canada's third largest city; Indian Head, the chief tree distribution centre of the Federal Forestry Branch; Regina, the capital of Saskatchewan; Calgary, Alberta's largest city; Banff, the world-famous mountain resort; by automobile for 104 miles over the Banff-Windermere Highway, the most spectacular drive in Canada; through Kootenay Lake to Nelson, the commercial centre of Southern British Columbia; then through the Doukhobor country to Penticton; along lovely Okanagan Lake, and to Vancouver, thence by steamer to Victoria.

Returning, the trip will be by the main line of the Canadian Pacific, through the great canyons of the Fraser and Thompson Rivers, and through the Selkirk and Rockies, affording scenery such as can be found nowhere else on earth; Lake Louise, the Pearl of the Rockies, the most perfect gem of scenery in the world; another day at Banff, Edmonton, the Capital of Alberta; Saskatoon, the city of optimism; Devils Gap Camp, on the Lake of the Woods, near Kenora, thence to Port William, where one of the fine Canadian Pacific steamers will be used across Lakes Superior and Huron to Port McCall, then rail to Toronto, where the trip will terminate.

Everything is included in the price of \$330.00, from Toronto; transportation, sleeping cars, accommodation in Hotels, and Bungalow camps, meals in diners, hotel and on steamers, and sight-seeing tours at points visited.

The trip is open to all, and applications for accommodation are now being received.

Fares from other points than Toronto will be named and descriptive illustrated booklet sent on application to Dean Sinclair Laird, Macdonald College Post Office, Que.
