WEDDING BELLS

Elder-Good

(From Fillmore, Saskatchewan, paper)
A wedding of much interest to the whole community was solemnized last Wednesday evening, when Miss Greta Ruth, youngest daughter of Mr. and Mrs. James E. Good, was married to Howard William, son of Mr. and Mrs. William A. Elder, at the home of her parents.

The bride looked very charming in her gown of biscuit tulle, crepe, trimmed with bronze and reseda cut steel beads, as she entered the room leaning on the arm of her brother Ira, owing to the indisposition of her father. The wedding march was played by Mrs. J. E. Elder, and the ceremony was performed by the Rev. T. H. Sendall, pastor of the Fillmore United Church, in the living room which was decorated with plants, foliage and bulbs in bloom.

After the happy event, buffet lunch was served to the assembled guests. The many presents were both useful and costly. Mr. and Mrs. Elder will take possession of their farm home Northeast of town in a few weeks. The "Review" extends its best wishes to the young couple for a long and happy life.

PASSED AWAY

Oliver Hamilton

At the home of his daughter, Aylesbury, Sask., on March 2nd, Oliver Hamilton passed away. Deceased was in his 83rd year and had been in his usual health until three weeks before, going out every day. He was only confined to his bed two weeks and the first ten days of that time gained strength. The funeral was held on Thursday, the cortege going from the house to the Union church where Rev. Jas. Smith, of Mortlach, conducted a most impressive service taking his text from Genesis 15th Chapter and 15th verse. The hymns used were: "Forever with the Lord" and "There is a Land of Pure Delight." At the close the Rev. Jas. Stewart offered prayer and Mrs. Stewart sang the deceased's favorite hymn "I saw a Way-worn Traveller." Interment was made in the Aylesbury cemetery alongside the remains of his wife who predeceased him four years ago. The floral offerings were numerous and showed the high esteem in which the deceased was held as he was "grandpa" to everyone in the district. He was born in Kings county and lived in New Brunswick until 1900 when he went to Boston with his family where all are living and resided there until 1914 when he and his wife went to Saskatchewan to live with their daughter, Ethel. He leaves to mourn him three sons, Arthur M. of Mattapan, Mass.; Harry W. and W. Allan of Dorchester, two daughters, Laura M. of Somerville, Mass., and Mrs. J. A. Menzies, of Aylesbury; six grandchildren and five great-grandchildren; also one brother, David Hamilton, of St. John, N.B.

THE ROYALS ELIMINATED FROM PLAYOFFS.

The Montreal Royals lost a two-game series with the Young Sons of Ireland, Quebec, in the Quebec province finals by a 2-8 score. The first game was played in Quebec on March 9th and the home team won by a 3-1 victory. Joe Lamb was one of the stars for the Royals and scored their lone tally in the first period. The Young Sons scored all their goals in the second session. The return game was played on Friday and ended in a 7-1 score. At the end of the first period the Royals had tied the score for the series and had a loose work by the defence and poor net minding by their goalie cost the Royals the championship. Lamb was not able to break into the scoring column in this game.

STRANGE UNIVERSE SIGHTED

Great interest has been aroused among astronomers and other scientists in the announcement by Dr. Edwin Hubble of the University of Chicago, that he has discovered another universe far away in the infinity of space, apparently equal or superior in size to that with which astronomers are already acquainted through the use of the telescope. For some years past, astronomers have speculated upon the possible existence of other systems forming an entire universe far beyond the range of the strongest telescope. According to Prof. Hubble, this strange universe has become within his ken is 700,000 light years away from the earth, which means that light would require that number of years to reach this earth from the universe said to have been sighted. If reckoned in miles, the distance would amount up to 17 figures or go into quadrillions. This distance is simply so great that it cannot be comprehended by the imagination as will be realized when it is considered that light travels at the rate of 186,000 miles per second. It is stated that Professor Barnard, of Yerkes' Observatory, had a faint glimpse of this remote universe in 1884, but was unable to see it with sufficient clearness to arrive at any conclusions as to what it might be. He supposed, however, that it was part of a universe lying outside the influence of our own, and beyond the range of the most powerful telescope then in use. Scientists will now bend their efforts to the production of a telescope powerful enough to get a clearer view of this newly discovered universe.

IN MEMORIAM

RITCHIE—In sad and loving memory of our dear mother, Mrs. James Ritchie, who passed away five years ago, on March 15, 1921.

In our hearts your memory, dear mother, lingers sweetly tender, fond and true; there is not one day, mother dear, that we do not think of you, dear. As it draws near another year, in our lonely hearts our thoughts are for you, mother.

CHILDREN.

MECHANIC

March 15—The weather of the past week has been very pleasant. Miss Vera A. Wortman has gone to Ponobiquis to spend some time. Misses Margaret Doherty and Helen Webster spent Tuesday evening the guests of Mr. and Mrs. R. L. Moore. Moses Wortman and Otty Myers spent a day in Sussex last week. Leo Hourihan spent Sunday guest of Mr. and Mrs. Jesse Myers. Misses Minnie and Vera Wortman spent a few days last week guest of the Misses Melton. Leonard Nickerson is spending a few days guest of his brother, Wm. and Mrs. Nickerson. Mrs. William Nickerson spent Sunday guest of her sisters, Misses Vera, Minnie and Viola Wortman. Mr. and Mrs. Thomas Munroe spent Tuesday in Sussex.

The Great Salt Lake of Utah was discovered by William H. Ashley, of St. Louis, a celebrated mountaineer, in the year 1824.

A drummer down South put on the brake in front of a cross-roads store, where the proprietor sat whittling a stick and chewing tobacco. "Hello, Mr. Bascom," the travelling man cheerily shouted, as he stepped out of the car, "how's business?" "Well," said Bascom, "I reckon everything's about equal."

"Equal? How's that?" "Well, I ain't sellin' nothin' an' I ain't buyin' nothin' and I ain't payin' nothin'! That makes things equal, don't it?"

The rarest, most costly and most curious fish for aquariums come from China, where gold fish breeding has been a specialty for centuries.

MEN WANTED

Earn while learning, greatest paying trades: Automobile Engineering, electrical, batteries, welding, chauffeur, bricklaying, plastering, barbering. Catalogue free. Write HEMPHILL GOVERNMENT CHARTERED SCHOOLS, King West, Toronto, 2.

They Sure Look Great!

—is the comment of both men and women when they see the kind of shoe repair work we do. In these days of high priced new shoes it is a comfort to find a shop like ours where old footwear is converted into good-as-new.
