Hardware and Crockery

Doll up the old bus—make her look as if she had some pep in her. Sure you can do it yourself! A few hours of interesting work, a few dollars' worth of EFFECTO and 24 to 48 hours for drying will transform an old weather-beaten car into a real automobile.

It is not a paint, wax or polish; it is the Original Auto Enamel. It will go on easily and evenly without streaks, laps or brush-marks.

It was created by the laboratories and factories that produce Vitrolite, the long-life enamel, and 61 Floor Varnish, the hammer test varnish, for furniture, woodwork and floors. Manufactured by Pratt & Lambert.
