IMPERIAL (TO-NIGHT) THURS.-SAT., FEB. 18 & 20

Many celebrated men and women of ancient and modern history have been lashed with tongues of scorn and called FOOLS. For example:

1. Courageous COLUMBUS who dared sail beyond the horizon.
2. Scientific GALILEO who believed the earth was round.
3. Dreaming JOAN OF ARC whose "visions" saved France.
4. Imaginative JULES VERNE who foretold the submarine.
5. Aspiring WRIGHTS, inventors of heavier-than-air planes.
6. Foolhardy FULTON, whose "folly" revolutionized navigation.
7. Creative EDISON, who flooded the world with light.
8. Practical FRANKLIN, who converted everglades into an empire.
9. Philosophic FRANKLIN, who harnessed lightning with a kite.
10. And also DANIEL GILCHRIST, social revolutionist of today.

hero of CHANNING POLLOCK'S glorious drama.

Times a year a new DeLaval will save you money

Most farm machines can save or lose money but a few days or weeks during the year, but a separator saves or loses twice every day—730 times a year. That is why it is so important that you have a clean-skimming De Laval.

The latest De Laval is years ahead of any other separator you have ever seen. It gets more and better cream; it turns easier; it is more sanitary, and it lasts longer.

Chief among its many improvements is the wonderful new self-centering bowl which runs without vibration, thus greatly increasing the all-around efficiency of the separator.
