MOUNTAIN DALE

Feb. 16—The roads in this vicinity
are not as good as we would like them
owing to the inclement weather.

Walter Long passed through here
Sunday, enroute to Millstream.
Chas. Steen, W. M. Simpson and
Ross Simpson of McAuley's Flats,
spent Sunday at their homes here.

Mr. and Mrs. Thomas Cameron and
children spent Sunday afternoon at
Pleasant Ridge.

Misses Florence Parlee and Eva
Long were calling on the people in this
place, collecting for the Bible society.
Frank Long, Pleasant Ridge, was a
Sunday guest of his parents, Mr. and
Mrs. Walter Long, Mountindale.

Wm. Cameron, who has been con-
fined to his home for the past three
weeks, is able to be around by the use
of a crutch. He had the misfortune of
jamming his knee while unloading a
load of logs. His friends wish him a
speedy recovery.

Mr. and Mrs. Geo. Hayes of Sears-
ville, spent Wednesday with Mr. and
Mrs. J. H. Ganong.

Our mail driver Samuel Folkins was
unable to make the trip through this
place on Saturday last, coming as far
as Mr. Darling's, and turning back.
It will be a week Wednesday since he
was in this place, and everyone is
watching with wistful eyes, and hoping
he will be able to climb the hill next
mail day.

Friends in this place were sorry to
hear of J. W. Grey, of Sussex, being ill
with pneumonia.

Kenneth Simpson, of Erb Settlement
spent Sunday at Mountindale.

Mrs. Roy Lang and sister, Mrs. Eliz-
abeth Simpson, spent an evening re-
cently at Spruce Lodge, the guests of
Mr. and Mrs. Thomas Cameron.

A new device for locating sea depth
was brought to New York this week.
It is known as Lesonde Behm and is a
German invention. The apparatus is
a gun and microphone. The gun on the
port side, fires a projectile, which ex-
plodes one fathom below the water.
The detonation is recorded by the
microphone, which is attached to the
forward section of the keel beneath the
water line, and this is transmitted
to the instrument on the bridge, oper-
ating a dial. When the cartridge has
struck the ocean bed there is another
sound, which the microphone also re-
cords. The dial on the bridge gives
the depth.

EXTRACTS FROM DIRECTORS' REPORT

Your Directors present the fifty-fifth annual report for your approval.
The Company's statements have for years reflected its constantly
increasing expansion and prosperity, but this year marks an epoch in the
life of the organization. It has now passed the Billion Dollars mark in
assurances in force, the amount after deducting reinsurance being \$1,021,
097,101.54.
Applications for new assurances have been the largest in our history,
aggregating \$220,334,526.67. The new policies paid for numbered 9,944,
for the amount of \$18,477,657.25, after deducting amounts re-assured. The
new business for the year exceeds the total amount of business the Company
had in force only thirteen years ago.
The gratifying evidence of growth and expansion exhibited in the
accompanying statement is paralleled in regard to strength and profitable-
ness. Notwithstanding the general decline in interest rates, the Company
has been able not merely to continue, but to slightly increase its record in
this connection, the profit earned during the year on the mean invested
assets having been 6.41 per cent.
Several factors have contributed to produce this result, not the least

important being an increase in the dividends paid by some of the corpo-
rations in which the Company has substantial stock holdings.
Even more important than interest yield has been the advance in the
market value of our securities. For many years we have speculated in long
term bonds and preferred and common stocks of outstanding corpo-
rations, both in Canada and in the United States. We are now reaping the
rewards of this policy. On actual sales of municipal debentures and other
securities which had risen to high premiums, we have realized a net profit
of \$2,215,772.41, while the increase in the value of securities still held has
been much greater.
The profits earned by the Company during the year, based on the
increase in the valuation of our securities as made by the government
authorities, has been \$21,666,284.00. We have made a deduction of
to take credit for the entire amount, and have made a deduction of
\$3,000,000 from the official valuation placed on our assets. We have, more-
over, added \$2,500,000 to our Contingency Accounts, bringing these up to a
total of \$10,000,000.
Following the practice of recent years, we have written off \$750,000 from
the book value of our Head Office and Branch Buildings, and other real estate.

We have also, by setting aside an additional \$350,000, further strength-
ened the special reserve to provide for possible greater longevity among
assurees, bringing the total amount under this heading up to \$1,100,000
in excess of government requirements.
During the year we have paid or allotted \$7,682,764.25 as profits to our
policyholders. After deducting this sum, and the accretions to shareholders'
accounts, and making the foregoing heavy allocations, we have yet been able
to add \$6,325,642.75 to our undivided profits bringing the total surplus over
all liabilities, Contingency Accounts and Capital up to \$28,640,000.00.
For the sixth consecutive year we are able to announce an increase
in the scale of profits to be distributed to our policyholders in the ensuing
year.
To provide for the expansion of our business, it has been necessary
to make an extension of the Head Office building, which has now been
completed, and will be formally opened on the day of our Annual Meeting.
The building is devoted exclusively to the use of the Company, but it
is already evident that we must at once provide for further enlarge-
ment.

play in the second period was about
even. The third period began with
both teams battling to score. After 15
minutes of good hockey, Guthrie
managed to put the puck past H. Melick,
Hampton's goalie. With but two min-
utes to go, Crawford, after some very
nice stick handling, tied the score.
Neither team could score in the over-
time period. For R.C.S. Currie, Guth-

TITUSVILLE

Feb. 15—A very novel and interest-
ing social club was organized at the
home of Mr. and Mrs. Austin Smith.

It is called the Merry Makers Club.
Its object was two-fold, to provide
a pleasant social evening, and to do
some useful work for the benefit of
some worthy cause. The following of-
ficers were elected: president, Mrs.
Austin Smith; vice president, Mrs.
Eugene Robertson; secretary, Miss
Margaret Ickle; treasurer, Miss Mae
Titus. The club was entertained on
its first evening by Mr. and Mrs. F.
Abbott. As it was on St. Valentine's
eve, the entertainment took the form
of a valentine party and much credit
was due to the entertainment com-
mittee for the success of the evening.

All seemed to agree that this in-
teresting way of bringing friend to
meet friend, where the older ones may
forget the cares of the week, and join
in the merry making, and the young
ones have a chance to develop a some-
times undiscovered talent in dram-
atic, musical, or conversational art,
cannot be too highly commended.

Great men rejoice in adversity just
as brave soldiers triumph in war.—

A PROBLEM FOR MOTORISTS

President Coolidge has urged a con-
ference of State Governors to discuss
methods of reducing the number of
accidents on highways due to motor
traffic. Apparently no suggestion has
been put forward as to the trend of
their deliberations, but presumably
legislative bodies would seek a remedy
through legislation.

A good deal of responsibility for
solving this problem should rest with
the motorists themselves, although
many accidents are due to careles-
ness of pedestrians. The majority of
drivers are careful and considerate of
the rights of the man on the street
and of other drivers, but they will be
amenable to any laws passed to pro-
tect against the thoughtless motorist.
Drivers and all others interested in
the trade should be anxious to make
the motor car safe without a multi-
plicity of laws to govern them. It
would not be difficult to draw up a
code of ethics which motorists them-
selves could undertake to observe and
enforce, as supplementary to existing
laws. The motoring public could po-
lice itself very effectively. In any
event, motorists should take the in-
itiative in suggesting new restrictive
legislation as found necessary.

Colds Are Not Necessary Evils

Observance of One Fun-
damental Rule of Health Pro-
tects Against Them

Whether one catches cold easily is
largely a question of physical condi-
tion. If the general vitality is low,
resistance to disease is weak and at
such a time a cold is easy to contract
and difficult to check.

Constipation is frequently the cause
of such a state of health, with its at-
tendant listlessness, biliousness, headaches
and a general lack of vitality. Poisons
from the waste matter that remains
behind after improper, irregular bowel
elimination are picked up by the blood
and carried to every part of the body.
They weaken your resistance to disease.

Thousands of people who have suf-
fered from self-poisoning in this way
have found that *Nujol*, the internal
lubricant makes bowel elimination sure
and easy.

Nujol softens the waste matter and
permits thorough and regular elimi-
nation without overtaxing the intestinal
muscles. *Nujol* can be taken for any
length of time with no ill effects.

If you take cold easily, ask your
druggist for *Nujol* to-day—and remem-
ber, look for the name "*Nujol*" in red
on both bottle and package.
