for Economical Transportation

CHEVROLET

Announces

The Landau

CHEVROLET has added another beautiful model to its line — the Landau — a handsome five-passenger car, with Fisher Body finished in Arizona Grey Duco.

The Landau reaches a new pinnacle of small car luxuriousness, having a seal grain leather top, with distinctive Landau irons and smart D-shaped windows in the rear.

It is upholstered in rich velour, which harmonizes with the exterior finish, and is provided with a folding foot-rest and a robe rail. Pockets are built into the rear doors and the rear compartment is supplied with a smoking set.

Possessing the economy, ease of operation, quick acceleration and abundant power for which all Chevrolet models are famous, the new Landau represents a combination of value and quality never before presented in a car in its price class.

SUSSEX GARAGE - SUSSEX, N. B.

Greater Quality at Low Cost

MILLER'S

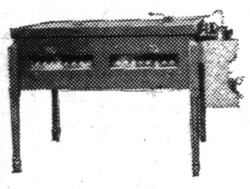

"IDEAL" Incubators & Brooders

Are Giving Wonderful Satisfaction

Starting with one 400-egg machine, we now have capacity in these Wonderful Hatchers to set 6000 eggs at one time.

Two years ago, we were using several of the best known makes; now every machine is a Miller.

The per cent. hatch is greater and the Chicks are bigger and stronger. These machines are built of California redwood, double-walled, heavy copped tanks, and are equipped with the famous Miller Automatic Turning Trays, which do away with all hand turning.

They cost 30 per cent. less than other machines of similar quality, and are perhaps the best machine on the market at any price.

Mr. L. R. Guild and other well known poultry breeders including Agricultural Colleges, use Miller Machines exclusively.

MILLER COAL and OIL BURNING BROODERS will bring every chick to maturity. They are noted for their safety, low fuel cost and simple operation.

We can supply other makes of Incubators and Brooders, and

A COMPLETE LINE OF POULTRY SUPPLIES.

AFTER MARCH 15th we will have for sale—

BABY CHICKS and HATCHING EGGS

from Quality Barred Rocks and White Leghorns. Write for circulars and price lists.

TENDERS FOR FOX RANCH

Sealed Tenders, marked "Tenders for Fox Ranch" will be received by the undersigned up to and including noon of Saturday, May 1, 1926, for the ranch and equipment of the Kings County Silver Black Fox and Fur Co., Limited, situated near Sussex, N. B., including seven acres land, particularly well situated and drained for ranching purposes together with good residence, barn, killing house, refrigerator, cook house, breeding pens of best material and construction, for 36 pairs of foxes and 21 furring pens. The highest or any tender not necessarily accepted. Inspection of property can be arranged for. For further particulars apply to W. B. Jonah, J. D. McKenna, Trustees, Sussex, N. B.

All coms out even at the end of the day.—Churchill.

THE BANKRUPTCY ACT

Notice to Creditors.

IN THE ESTATE OF CHARLES C. CARR, of the Town of Sussex, in the County of Kings and Province of New Brunswick, an Authorized Assignor.

NOTICE IS HEREBY GIVEN that the said Charles C. Carr, did on the Sixth day of April, 1926, make an authorized assignment to Clarence H. Ferguson, of the City of Saint John, N.B., an Official Receiver in Bankruptcy.

NOTICE IS FURTHER GIVEN that the first meeting of creditors of the above named debtor will be held at the office of the said Official Receiver, in the law office of J. H. McFadzen, Main Street, Sussex, N. B., at two-thirty o'clock in the afternoon, on the Twenty-fourth day of April, 1926; to entitle you to vote thereat proof of your claim must be filed before the meeting is held; proxies to be used at the meeting must also be filed prior thereto.

AND FURTHER TAKE NOTICE that if you have any claim against the debtor for which you are entitled to rank, proof of such claim must be filed within thirty days from the date of this notice. For, from and after the expiration of the time fixed by subsection 8 of section 37 of the said Act, the proceeds of the debtor's estate shall be distributed amongst the parties entitled thereto, having regard only to the claims which have been properly filed.

Dated at Sussex, N.B., this Eighth day of April, 1926.

(Sgd.) E. O. McINTRYE,
Custodian,

Man is somewhat like a sausage—
Very smooth upon the skin:
But you can't tell just exactly
How much pig there is within.

NEWS OF THE WORLD IN BRIEF

Fredericton Gleaner, Saturday: The distinction of shooting one of the largest eagles ever heard of in New Brunswick belongs to the 16-year-old son of William Knox, of Hainesville, according to further particulars secured today by officials of the Deparement of Lands and Mines from the father of the boy. The eagle, which had a wing spread of eighty inches, is believed to be the same one which has frequently been seen about the Davidson Lake district for several months. It was shot by the youth after having been attracted to the carcass of a young calf which had been set out as bait.

Fred C. Lalachtur, 45, a farmer of Guernsey Cove, P.E.I., was almost instantly killed Saturday, when he fell from a load of potatoes which he was hauling to Murray Harbor. He was seen to fall beneath the sled and died as he was being picked up.

An average of more than two people a day were killed in street accidents in London last year, according to official figures just published, yet this number of fatalities was less than in the previous year. Automobiles were responsible for a total of 596 deaths in London's streets last year; omnibuses 139; and tram cars 30. There was an average of over 100 street accidents a day of varying degrees of seriousness in 1925.

It costs $6,167 to raise a girl and $6,077 to raise a boy to the age of 18 years, according to statistical study made public by the Metropolitan Life Insurance Company. It costs $2,500 each to feed them. The cost of being born has been reckoned at $250. Other items were analyzed as follows by the insurance company: In the course of eighteen years from birth the amounts spent for clothing and shelter upon the growing child are as follows: For a boy, clothing, $912; rent, $1,620; fuel and light, $300; furniture and household maintenance, $351; first cost of installation of home, $144. Total $3,327. For a girl the figures are the same except as regards the item of clothing, which is $1,002. The total is, accordingly, $3,417."

Albert Weisbord, young leader of the twelve thousand textile strikers in the mills of Passaic, is in jail, two strikers are in a serious condition and twenty four others, including nine children, are out on bail, as the result of a children's strike parade at Passaic, N. J., Saturday. The parade in which some two thousand children of textile workers took part, was broken up by the police amid scenes of the wildest disorder. Police waded out through the ranks waving their clubs over their heads, terrified children dashed for safety while their fathers and brothers engaged in arguments with police officers and the patrol wagons dashed clanging up and down the streets to take in those arrested. The parade was organized as a novel protest against the textile operators of the town in the eleventh week of the strike.

Two suggestions for enabling Canada to become independent of the United States for coal supplies, and to bring about the rescue of the perilous coal situation in Nova Scotia, were submitted by Major Hume Cronyn, K. C., former M.P., of London, Ont., at a recent meeting of the Young Men's Canadian Club of Montreal. Major Cronyn was a member of the Duncan Commission appointed to investigate Nova Scotia coal conditions. Establishment of coking plants in Montreal and other large central cities for the converting of Nova Scotia slack coal into domestic coke, was the first suggestion of Major Cronyn. The other was that the Federal government grant a subsidy for each ton of Nova Scotia coal sold to Montreal and points west, and for each ton of Alberta coal sold east of Winnipeg.

Exports of grain from the United States totalled 1,104,000 bushels during the week ending April 10, as against 803,000 the previous week. Canadian grain in transit from the United States ports, 3,850,000 bushels against 1,860,000, and wheat flour, United States and Canadian, in transit 231000 barrels as against 186000.

Raymond Poincaire, the war president of France and former premier, speaking at his home town Monday, warned the nation against granting Germany full and complete confidence. France has been obliged to defend the main clauses of the Versailles treaty against the permanent ill-will of our former enemies, and the constant indifference of former friends, themselves entrusted with the control and fulfilment of the undertakings assumed by Germany, M. Poincare said: "We must first look to ourselves for protection."

The steamship Virginian, of the American Hawaiian Steamship Company, which arrived in New York, Wednesday, had on board the 34-foot yawl of Harry Pidgeon, who has completed a voyage around the world alone on board the Islander, having left Los Angeles on Nov. 18, 1921, and returning Oct. 31, 1925, covering a total distance of over 35,000 miles on the seven seas. The yawl is 34 feet long, 10 feet, 6 inches beam, and a draft of five feet. It carries 1,200 pounds of iron as outside ballast on her keel and 800 pounds more inside. In referring to his voyage, Mr. Pidgeon states that during the entire 1,442 days "nothing really happened." Mr. Pidgeon made the trip with his yawl on the Virginian through the courtesy of the officers of the American Hamaiian Steamship Company.

Lord Beaverbrook has informed the Canadian Press that after conversation with Justice O. S. Crocket of the King's Bench of New Brunswick, he has decided to offer 25 travelling scholarships to High School teachers of New Brunswick as an experiment.

Chicago building contractors were notified of a demand for a wage increase for 25,000 carpenters of from $1.35½ an hour to $1.50. The Millmen Association also demanded increases of from $1 an hour to $1.25. Plasterers, Thursday, demanded that the present scale of $1.50 an hour be raised to $1.75 and the bricklayers' union has refused to sign a new contract until the plasterers' union has settled its wage controversy.

On Friday, lightning struck a 55,000 barrel oil tank on the Magnolia Tank Farm, near Luling, Texas, and set it afire. Fire holes were shot into the tank with small cannon later and fire walls were being thrown up to prevent the flames from reaching nearby tanks

On Friday, the Transvaal region, near Ventersdorp, south of the Witwatersand Mountain, was the scene of a final rush to the newly discovered diamond fields. The stampede includtd not only adventurers and unemployed, but professional men and farmers.

At Dublin, the home of Count Plunkett, noted Republican deputy, was raided Friday morning. His sons, George and Owen, were aroused from their beds and taken to a police station. A large military force guarded the house while detectives removed the sons and searched the premises from top to bottom. The reasons for the raid are unknown.

At Albion, Ind., a letter written Friday to the Dominion Bank, Toronto, by Charles Edgar Morris, who claims to have been a witness to the abduction of Ambrose J. Small, Toronto theatre owner, in 1919, and to know Small's present whereabouts, resulted in further questioning of Morris by C. A. Lincoln Noble county prosecutor. Morris is under arrest charged with obtaining money under false pretences

Officers of the Overseas forces of Canada during those memorable years 1914-1918 gave two tangible expressions of their affection for their excellencies the governor general of Canada, commander of the Canadian Corps 1916-17, and Lady Byng at the Vimy dinner held at Government House on Friday night, at which were present over 200 officers who fought under General Byng. One was in the form of a 7-passenger 75-horsepower Canadian made limousine and the other was a portrait of His Excellency to Lady Byng.

On Friday, cigarettes, overproof alcohol and automobiles smuggled into Canada in the teeth of customs barriers were discussed in the customs probe. The cigarettes were carried ashore from ships in the port of Montreal after passengers and cargo were landed and the vessels were lying at their docks. The raw alcohol, evading the Canadian customs and excise charges was brought in from New York as chemical compounds, and presumably was afterwards diluted, colored and flavored for home consumption or export.

Aaron Squier, aged 91, and his wife, Margaret, aged 89, who lived together during the 70 years of their married life, died Saturday at Toronto. The couple, who were married in 1855, both contracted pneumonia a short time ago, and their deaths took place within 12 hours of each other. David Squier, Winnipeg, is a son, and Dr. F. G. Banting, discoverer of insulin, is a nephew.

Charles Hoff, Norwegan star, again has demonstrated his ability to break the world's pole vault record, apparently at will. He cleared the bar at Chicago, Friday, at 13 8¼ inches, adding three quarters of an inch to his previous high mark. It was the seventh time he had broken the record for a total of more than eight inches in his indoor track season, now concluded.

In St. John on Monday, Dr. Walter W. White was elected Mayor, defeating Dr. J. M. Barton and A. M. Rowen, and the old commissioners, T. H. Bullock and R. W. Wigmore, were re-elected.

Premier Mussolini arrived at Tripoli, Sunday morning, aboard the dreadnought Conte Di Cavour.

Mrs. Molly Stankowitz, 40 year old "dream woman of Pound," Wisconsin, U. S. A., who mystified the medical world by sleeping for 30 months with only three or four short interruptions, has been awakened and returned to health by the removal of several large stones from her kidneys. Surgeons who have observed and attended her case are of the opinion it is without parallel. For almost three years the patient lay in a comatose condition, able to take liquid food only through a tube. Although unable to speak or move a muscle while sick, she claims to have been aware of everything going on about her, a fact unknown to those who attended her.

At Canton, Mass., a 14-year-old boy who toppled over a 12-foot dam, shot through a 60-foot sluice way and was fished out 700 feet down stream is alive, apparently little the worse for his experience.

On Sunday afternoon Professor Louis Athyme Herdt, D. Sc., and F. R. Sc., MacDonald, was found dead in his office in the McGill Engineering Building with a bullet wound in the head. A revolver was found beside him and examination showed that the bullet had gone through the brain.

At Denver, Col., damp and soiled money, bearing the earmarks of buried treasure aroused suspicions that led to the arrest of T. F. Allaiza, 28, who, police said, Sunday, confessed to absconding with $48,000 from the Sancti Spirit branch of the Royal Bank of Canada in Cuba late in March. Nearly $10,000 in cash and currency, some of it in Cuban money, was found in his room.

Cancer is not contagious when brought in contact with a healthy human body in the opinion of Dr. Hans Kurtzahn, of the Surgical Clinic of Koenigsburg University. Dr. Kurtzahn has astonished a convention of surgeons in session at Berlin by reporting that he had experimented on himself, transferring a patch of cancerous growth from a patient's pectoral gland to his own thigh. The cancer cells, he reported, died shortly, being unable to live in a healthy body.

Premier Pangalos' election to the presidency of Greece is final. The official returns from the second section of the election, held Sunday, show he achieved an overwhelming success.

An Expense or An Investment

This Spring make your outlay for Clothing an Investment, not an Expense.

The cheaply-priced, ready-made garment or the cut price tailored model rarely, if ever, gives the wear and satisfaction you rightfully expect!

At the best these low-priced imitations are short-lived. Such a purchase is truly an expense, for it never looks right while you wear it and the "cost of upkeep" in pressing and repairs will be more than you saved—considerably.

On the other hand, consider our Tailored Garments, made from guaranteed materials (inside and out) by skilled workmen to your own measure.

True, you pay a dollar or two more for them, but the many satisfied customers we serve will tell you that our Tailored Garments are an Investment in longer service and correct appearance. Hundreds of patterns, all the favored models to choose from—and a price to fit every pocket.
