HOW REPRESENTED

The "Parliamentary Guide" will be issued from the Printing Bureau at Ottawa very shortly, and it will contain all the latest information regarding the Parliament of Canada and the members of which it is constituted. Amongst other data, when this volume is in the hands of those interested in such matters it will be possible to scan a good many interesting facts. One of these will be the various callings of the present members of the House of Commons, of which at the moment there are 244. A "full house" now is 245, but there is one vacancy in Saskatchewan. The Summerside Pioneer is the first paper in Canada to be able to give its readers the following interesting particulars, which

the "Parliamentary Guide" will later reveal and verify:

To begin with, it is an interesting and to some possibly a gratifying fact, says the "Pioneer," that P. E. Island is the sole Province in Canada that has no lawyer in the House. Of our four members, one is a farmer and the other three are classed as merchants. The Yukon returns only one member, and he is a lawyer. Of the 65 members from Quebec no less than 22 are lawyers; of the 82 members from Ontario 21 are lawyers and 15 are doctors. Quebec has in the House 6 doctors and only 4 farmers. There is one farmer out of the 11 from New Brunswick, and not a single one amongst those from Nova Scotia.

By callings, the House of Commons today is constituted as follows: Law-

yers, 60; farmers, 43; doctors, 29; merchants, 23; manufacturers, 15; lumbermen and notary publics, 7 each; druggists, 4; dentists, 2; contractors, 2; the remaining 47 are classed as "others," which is indefinite enough. Nova Scotia has 3 lawyers, 2 doctors, 2 manufacturers, 1 merchant, 1 contractor and 5 others.

Beauty is truth; truth, beauty.

ACROSS CANADA AND BACK

"Marvelous beyond conception" aptly describes the glories of Canada's Rockies. To be fully appreciated they must be seen. To start out on a trip by one's self into this unfamiliar but far-famed paradise-on-earth, to many appears quite a task. Realizing this, Dean Sinclair Laird, of Macdonald College, an experienced Rocky Mountain Traveller, for the third year in succession has undertaken to conduct a party through this glorious wonderland.

A special train of dining, standard sleeping, and observation compartment cars has been chartered, to leave Toronto on July 19th via the Canadian Pacific Railway. Stops will be made at Port Arthur and Fort William, which together form Canada's greatest grain port; Winnipeg Beach, the popular summer resort for Winnipeggers; Winnipeg, Canada's third largest city; Indian Head, the chief tree distributing centre of the Federal Forestry Branch; Regina, the capital of Saskatchewan; Calgary, Alberta's largest city; Banff, the world-famous mountain resort; by automobile for 104 miles over the Banff-Windermere Highway, the most spectacular drive in Canada; through Kootenay Lake to Nelson, the commercial centre of Southern British Columbia; then through the Doukhobor country to Penticton; along lovely Okanagan Lake, and to Vancouver, thence by steamer to Victoria.

Returning, the trip will be by the main line of the Canadian Pacific, through the great canyons of the Fraser and Thompson Rivers, and through the Selkirk, and Rockies, affording scenery such as can be found nowhere else on earth; Lake Louise, the Pearl of the Rockies, the most perfect gem of scenery in the world; another day at Banff, Edmonton, the Capital of Alberta; Saskatoon, the city of optimism; Devils Gap Camp, on the Lake of the Woods, near Kenora, thence to Fort William, where one of the fine Canadian Pacific steamers will be used across Lakes Superior and Huron to Port McNicoll, then rail to Toronto, where the trip will terminate.

Everything is included in the price

of \$330.00, from Toronto; transportation, sleeping cars, accommodation in Hotels, and Bungalow camps, meals in diners, hotel and on steamers, and sight-seeing tours at points visited.

The trip is open to all, and applications for accommodation are now being received.

Fares from other points than Toronto will be named and descriptive illustrated booklet sent on application to Dean Sinclair Laird, Macdonald College Post Office, Que.

NEWS OF THE WORLD IN BRIEF

In order to stimulate greater interest in swine raising among boys and girls a swine club was organized on Monday evening at Dalhousie Junction by J. E. McIntyre, agricultural representative, Bathurst. The officers are as follows: Randolph Hicks, president; Hartley Miller, vice president; Chester Blair, secretary treasurer. Each member will have at least two pigs and will exhibit these at a local fair in the fall. Valuable cash prizes will be paid by the Provincial and Federal Departments of Agriculture and the two highest winners will also exhibit and compete in the Interprovincial Service Club competition at Amherst.

A terrific explosion aboard the tanker Gulf of Venezuela in the harbor of Port Arthur, Texas, took a toll of at least 25 lives, Sunday, injured more than a score, eight seriously, and for a time threatened other shipping. Seven members of the ship's crew of 39 were missing, but it was believed some were among the dead. A number of dockworkers also were missing.

On Saturday, Hon. W. F. Nickle, Attorney General of Ontario, says he will investigate the Proprietary Articles Trade Association, a newly-formed organization of Canadian drug manufacturers, wholesalers and retailers, which has for its object the maintaining at certain defined levels of price a number of drug and toilet articles. He would review the position of the law of the Dominion.

The dirigible Norge, which will

carry the Amundsen Elsworth Expedition on its Polar flight, completed the first lap of its journey from Rome when it landed at Pullman, Eng., at 5.50 p.m. The great ship, which took off from the Ciampino, flying field near Rome, at 9.30 Saturday morning, first circled over the aerodrome at 2.45, but it required several hours to bring the vessel to its moorings.

Hon. M. Martin, member of Quebec Legislative Council, Monday was elected, defeating J. V. Desaulniers and J. A. Baillargeon in a majority race by 20,000 votes. With the exception of the past two years, Hon. Mr. Martin had been the chief magistrate since 1914.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. Try this plan yourself, but be certain to get pure Bisurated Magnesia especially prepared for stomach use.
