"IDEAL" Incubators & Brooders

Are Giving Wonderful Satisfaction

Starting with one 400-egg machine, we now have capacity in these Wonderful Hatchers to set 6000 eggs at one time.

Two years ago, we were using several of the best known makes; now every machine is a Miller.

The per cent. hatch is greater and the Chicks are bigger and stronger. These machines are built of California redwood, double-walled, heavy copped tanks, and are

equipped with the famous Miller Automatic Turning Trays, which do away with all hand turning.

They cost 30 per cent. less than other machines of similar quality, and are perhaps the best machine on the market at any price.

Mr. L. R. Guild and other well known poultry breeders including Agricultural Colleges, use Miller Machines exclusively.

MILLER COAL and OIL BURNING BROODERS will bring every chick to maturity. They are noted for their safety, low fuel cost and simple operation.

We can supply other makes of Incubators and Brooders, and

A COMPLETE LINE OF POULTRY SUPPLIES.
