IODINE AND LIFE

Whether this pamphlet merits the prominence it now receives we know not; we do know that iodine is a substance of incalculable value in surgical treatment. That it is so vital to life, as Mr. Bensusan argues it to be, is a question for experts, and to them we leave it. Sufficient for present purposes is the fact that Mr. Bensusan makes out a good case. He says that without iodine there can be no growth, whether of body or mind. Certain countries in England are notoriously deficient in iodine. With the exception of Cumberland, these are counties without seaboard, and Cumberland's share of that is not great. The benefits derived by town dwellers from a sojourn at the seaside is claimed for iodine, and the reason why both beasts and bodies eat seaweed (otherwise "dulse") is the natural craving of the body cells for iodine. The theory seems feasible; in any case, it can do nobody any harm.

In the Great War iodine came to its own. Many a man's life was spared because of the prompt application of iodine to his wounds. This we can believe, and should it prove to be the case, as Mr. Bensusan claims, that that hideous disease, goitre, can be checked

by the proper use of iodine, then let us have all that can be produced of the substance.

Under the head of Nutrition an extended account is given of the trial of iodine at the Rowett Institute at Aberdeen. The experiments were made on pigs, and similar experiments are recorded in Bulletin 86 of the State College of Iowa, Ames, Ia. The Staffordshire Farm Institute corroborates the results at the Rowett and at Ames, and the suggestion is made that the services of iodine might be tested in connection with foot-and-mouth disease. The suggestion is that animals fed with an approved iodine ration might resist the bacillus of the infection. Hairlessness in pigs and patchy wool in sheep are said to be alike due to iodine deficiency. Finally Mr. Bensusan tells us that the opinion is gaining ground that effects in nutrition which have been attributed to vitamins are in reality due to the mineral contents of food stuffs, and in particular to their iodine content. It should not surprise us were this correct. Iodine we know, have seen, and its healing virtues we have experienced; has anybody ever seen a vitamin, or is the word not a scientific-looking arrangement of letters employed to conceal scientific ignorance.

PASSEKEAG

Sept. 20—The residents of this place were shocked to learn on Monday that Patrick Murphy, employed with Ryan Bros., had been killed by a horse at noon hour. The rest of the men had gone to the house to feed the horse. It is supposed that the horse became frightened at some chickens and kicked striking the unfortunate man on the side of the head causing instant death. The body was viewed by a physician and coroner and an inquest was decided unnecessary. The body was removed to the home of his sister Mrs. Payne, at Upham, and burial took place Friday.

Miss Bertha Carson, accompanied by Miss Edith Ross, Hampton, spent the week-end with the former's parents, Mr. and Mrs. W. Carson.

Mr. Leo Doherty spent last week-end guest of friends in Saint John.

Rev. Chester Earle and little son Harvey, of Rothesay, called on friends here last week.

Miss Marie Kennedy spent a few days last week in Sussex.

Miss Fanny Tays, Lakeside, was at her home here for the week-end.

Messrs. Kay and Allaby, Norton, here on business this week.

Mrs. Chapman, of Bloomfield, is the guest for a few days of her sister, Mrs. Joseph Moody.

Mr. Gordon Moody, who spent the summer in Nova Scotia, has returned home and is busy engaged shingling and renovating his house.

Mrs. Bunker and children, of Calgary, who have been visiting Mrs. Wm. Doherty, have returned home.

Miss Doris Pring and brother George attended the closing of the Saint John exhibition.

Mr. Bernard Doherty spent Sunday in Norton.

Mrs. S. H. Sherwood suffered a severe loss Saturday night when the large barn on her farm burned to the ground. The horses and cattle were gotten safely out but the season's hay and grain, all the farm machinery and about 200 hens were burned. As yet the origin of the fire is unknown.

A number of the young people of this place attended a party at the home of Mr. and Mrs. H. Brayley, Friday evening, in honor of Miss Eitel Dempster.

Frank Doherty, Sussex, spent the week-end at his home here.

Mr. and Mrs. John Carson were in Saint John on Friday.

Mr. Charles Swanton, Saint John, was the guest this week-end of Mrs. S. H. Sherwood.

Misses Anne and Gen Maxwell, Hampton, spent Saturday with their father, Mr. H. Maxwell.

Rev. H. V. Young, Hampton, held service in the church here yesterday.

KEIRSTEADVILLE

Sept. 20—Mr. Kochaly spoke in Kiersteadville church on Friday evening in the interest of the Armenian relief.

Mrs. O. Pendergrass, of Midland, and Mrs. B. F. McCutcheon of this place, spent Friday and Saturday visiting friends at Brown's Plats.

Mr. Clarence E. Davis and Mr. Robt. McCutcheon, of this place, spent Sunday visiting friends in Long Point.

The service held in Kiersteadville church on Sunday morning was largely attended a number being present from Hatfield Point and other places.

Mr. and Mrs. A. Y. Earle, of Long Point, spent Sunday the guest of Mr. and Mrs. A. W. Earle.

Mr. Roy Spragg and bride are visiting Mr. Spragg's mother, Mrs. D. W. Spragg.

Mr. and Mrs. Harry Flower and party, of Minto, attended church at this place on Sunday and afterward were the guests of Mr. and Mrs. T. B. Flower.

Mr. Osmond Ganong, of this place, and Mr. Edward Bates, of Long Point, have gone to the United States where they expect to remain for a time.

On Monday evening, Sept. 13, a large number of friends and relatives gathered at the home of Mr. and Mrs. A.B. Manning, Midland, to bid farewell to Miss Emily Manning, who left on Saturday, Sept. 18, for Boston, where she will reside.

The evening was spent very pleasantly in music and games. In the latter part of the evening, Mr. Wm. Cosman in a few well chosen words, presented Miss Manning a purse of money as a token of regard from the friends present. Miss Manning made a suitable reply, expressing her pleasure and surprise, and thanking her friends. Delicious refreshments were then served by the ladies.

Among those present were Mr. and Mrs. J. R. Case, Mr. and Mrs. O. M. Hayes and family, Mrs. B. Price, Mr. and Mrs. R. G. Price and family, the Misses Pauline, Oressa and Grace Allaby, Mr. Wm. Crawford, Mr. and Mrs. H. V. Crawford and family, Mr. Ernest Taylor, Mrs. Frank Gamblin and son Harold, Miss Ida McCutcheon and son Harold, Miss Ida McCutcheon and son Harold, Mrs. Will Gray and family, Mr. and Mrs. Wm. Cosman and family, Miss Florence Moffet, Mr. and Mrs. A. B. Manning, Mr. Clyde Manning, Miss Emily Manning, Messrs. LaVerne and Jas. Allaby and Mr. George Long and party from Lakeside.

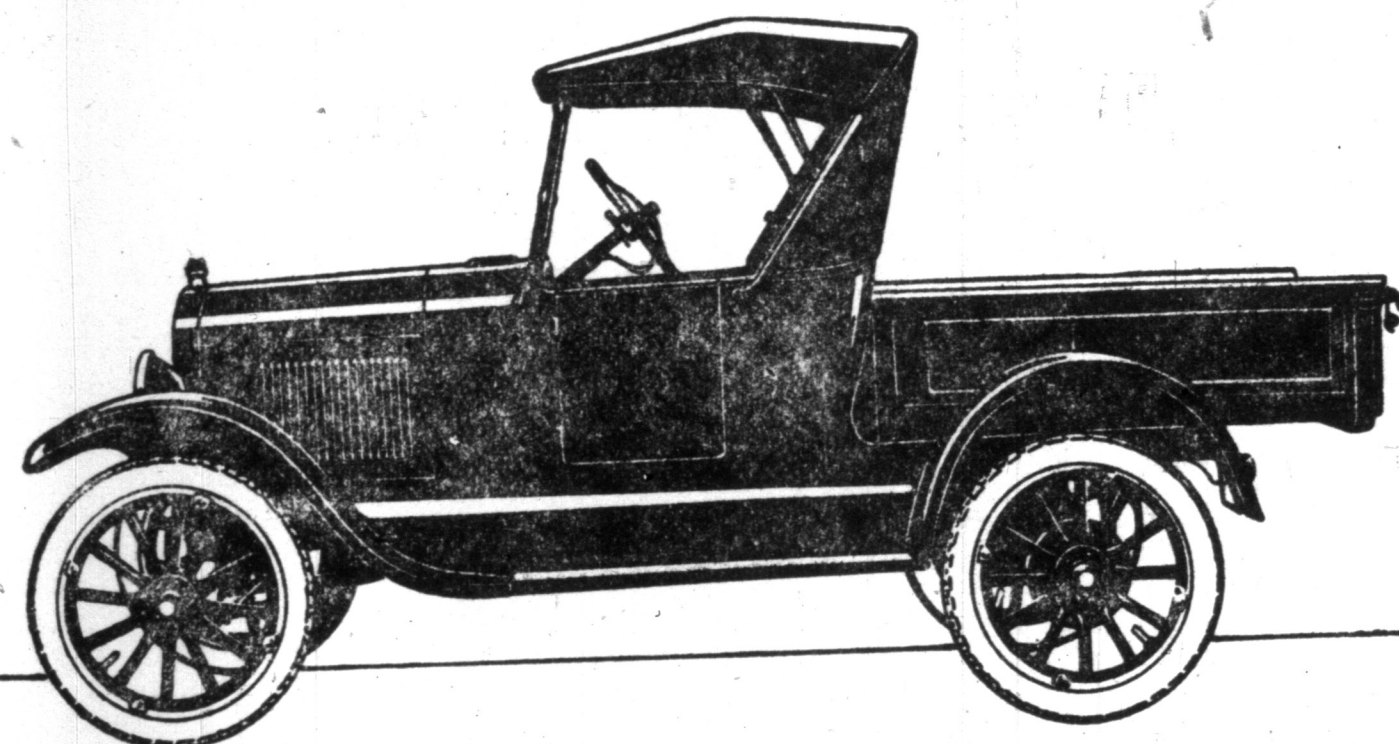

BLOOMFIELD

Sept. 14—Miss Muriel Theall, R.N., Boston, is visiting her mother, Mrs. Charlotte Bettie.

F. L. Titus and Mrs. Titus left yesterday for their home, Andover, after visiting relatives here.

Judge White, Sussex, and his cousin, Mrs. Mellish, wife of Judge Mellish, Halifax, called last week at W. E. S. Wetmore's to see another cousin of each, Mrs. James Covey, of Melrose Highlands, who has been visiting relatives here, but who left on Saturday for home.

A quiet wedding took place last Tuesday at H. H. Cochrane's when

Wherever motor cars are used, the Ford is known and respected. Adaptability has carried it to the corners of the earth and placed it in every conceivable branch of transportation. Performance has made it the natural choice of over twelve million users.

The light delivery car offers the speed and flexibility of the standard car chassis adapted to package delivery. It is widely used for retail deliveries of every kind operating with ease and economy under the hardest usage. Its dependability emphasizes the Ford quality tradition.

Ask your local authorized Ford dealer about the new National Time Payment Plan.

Runabout - \$175 down and \$35 a month Touring - \$195 down and \$35 a month
Sport Roadster - \$210 down and \$40 a month
Coupe - \$240 down and \$40 a month Tudor - \$250 down and \$40 a month
Fordor - \$275 down and \$45 a month

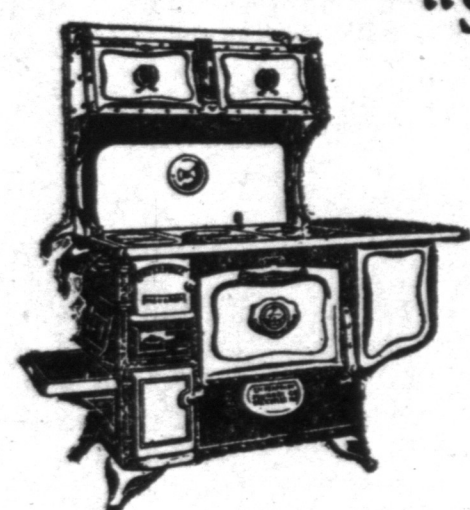

Payments throughout Canada are standard. Down payments do not vary regardless of tax, license, insurance, freight and delivery charges.

MONARCH STEEL RANGE

NEW SOURCE OF ELECTRICAL ENERGY

A new generative source of electricity has been discovered if the claims of Prof. J. B. Kramer, a British scientist, can be credited. He says that electric batteries which would last for thousands of years before running down are a possibility of the near future. Electricity, according to this scientist, will be drawn in limitless quantities from vast natural resources of radio-active substances and will be harnessed to the service of the world.

"The principal on which my discovery is based," says Prof. Kramer, "is a perfectly natural process and is so noticeable and elementary that scientists appear to have overlooked it. It consists of placing radio-active material between plates of different metals, such as copper and aluminum, which by virtue of their difference have a discriminating quality between the positive and negative elements of the radio-activity, and storing them up in a charge of electricity, which can be drawn off in the usual way."

"The world is full of radio-active substances and there are countless millions of tons available. There is a species of sand on the shores of India and elsewhere which is radio-active, and upwards of twenty different minerals have similar properties. Most of these substances endure for thousands of years and the energy would be good for the whole of that time."

"Radio-activity is a natural process. It goes on incessantly and it remains only for man to devise some means of storing it and turning it into electrical energy."

Prof. Kramer claims that with his apparatus he has succeeded in driving a small engine.

A MULTI-COLOR PRESS

A multi-color press, which has been perfected by Justus Zubli, an engineer at the Puget Sound Navy Yard, Bremerton, will, according to the inventor, print any color on any surface.

This device will be of especial interest to women, as Mr. Zubli claims that it is possible to change the color of a dress in a very few minutes. "Think what this will mean," says the inventor. "A woman wears a white dress downtown in the morning. She decides she prefers a pink dress for the afternoon. So she steps in a store and has her color changed to pink, or any other color desired."

This machine will do more, according to the claims of the inventor. It can be taken into the home where in a few minutes' time the color of a rug on the floor can be changed. Even the design of the wallpaper may be altered. If you are not satisfied with your plain glass windows, apply the machine and give them a fancy design.

NEW CLOTHES PRESS

A trousers press is now made to be hidden in the back of the bedroom chair. The bottom boards of the press form the actual chair back. Two boards hinged to the chair uprights form the top sections of the press. The trousers are inserted, and the bottom boards folded together, and the projecting part of the trousers stretches them, then the top lever of the press is closed.

S. W. K. remarks in Judge—"Some things are fitting and proper, and other things are not proper because they are too tight-fitting." Wonder if he refers to those one-piece suits?

Miss Nellie Cochrane and William Crabbe were united in marriage by Rev. Mr. Young of Hampton, the happy couple leaving by car for a short tour.

Miss Ada C. Wetmore and Miss Hansen, from the United States, who have also been visiting here, left on Thursday, the former going to California.

W. A. Saunders has been making extensive repairs and improvements to his barn, and putting up a new connection between the barn and store.

The annual school fair will take place in the school building on Friday evening.

Sept. 20—Some of the people are about through harvesting and report a good crop.

Most of the people of this place voted at Watford on election day, Sept. 14th.

Mr. and Mrs. Ira Fanjoy are receiving congratulations on the birth of a baby boy.

Mr. and Mrs. Wm. Armstrong, of Watford, spent Sunday guests of Mr. and Mrs. Wm. Dalling.

Messrs. Alvin Dalling and Wm. Carr spent Sunday guests of Mr. and Mrs. Ira Fanjoy.

Mrs. Lemuel Dalling is spending some time guest of Mrs. Ira Fanjoy.

Harvey Dalling, of Sussex, spent Sunday guest of John Dalling.
