A Comedy of the wide-open spaces where cows are cows. Laughs is what it has nothing else but!

Here they are—Buster and his cow Brown Eyes—in the comedy hit of the year. The whole country is rocking with laughter at the uproarious adventures of this pair in the wide-open spaces where cows are cows.

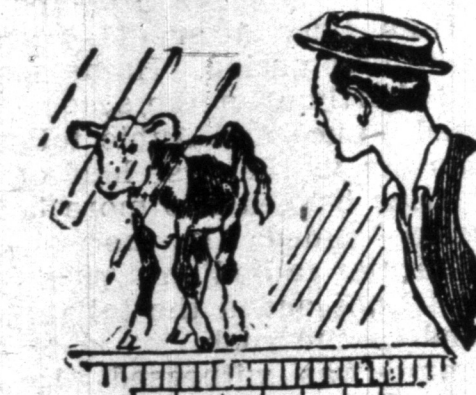

The public hails "Go West" as Buster Keaton's best comedy yet—and that means the funniest in the world. When Buster finds a pair of discarded chaps and spurs, and gets a job as nursemaid to a thousand wild cattle, the excitement gets off to a flying start.

Novel. Hilarious! Thrilling! It's the most riotous, round-up of roars you ever saw! You'll simply double up and scream! If you want to know how funny a picture can be, try this one!

What he didn't know about cows and horses would stagger you. But that didn't stop Buster from getting himself a job riding the range and playing nursemaid to a thousand cattle.

FUNNY? Nothing like this stampede of mirth has ever hit the screen!

Those eyes
Those legs (4)
That tail
Those ears

Wait till you see beautiful "Brown Eyes," the cow star appearing with

BUSTER KEATON
in his screaming hit
GO WEST

What Donald Says:

The following postscript was added to a letter recently received by the Imperial manager from Donald McDonald, of New York, formerly with the Canadian National Express Co. in Sussex:

"P.S.—If you get a chance be sure and have Buster Keaton in 'Go West'—it's a knockout. I laughed more than I have at a picture for a long time. It's equally as good as Harold Lloyd in 'The Freshman' and that's going some!"

Is your own Small Town Theatre very far behind New York in showing "Go West"?

SEE the g-n-a-t train robbery, the cattle stampede, the wide-open spaces where cows are cows—they're all here—every one of them—with Buster, the tenderest tenderfoot you ever saw, and his fascinating cow, Brown Eyes, in the most hilarious comedy ever made. You'll shriek! You'll howl! You're in for a big time! For never has Buster made a picture to equal this great comedy of the wide-open spaces!

YOU DON'T KNOW WHAT REAL LAUGHTER IS TILL YOU'VE SEEN THIS JOY-RIDE!

The butter-fat you leave in the skim-milk won't buy the baby any shoes

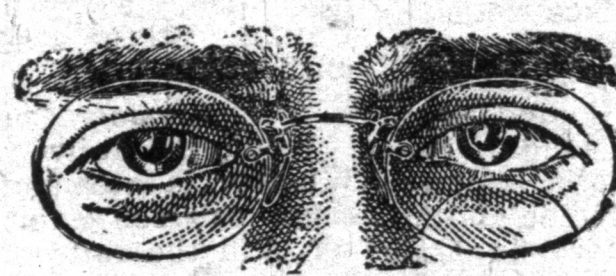

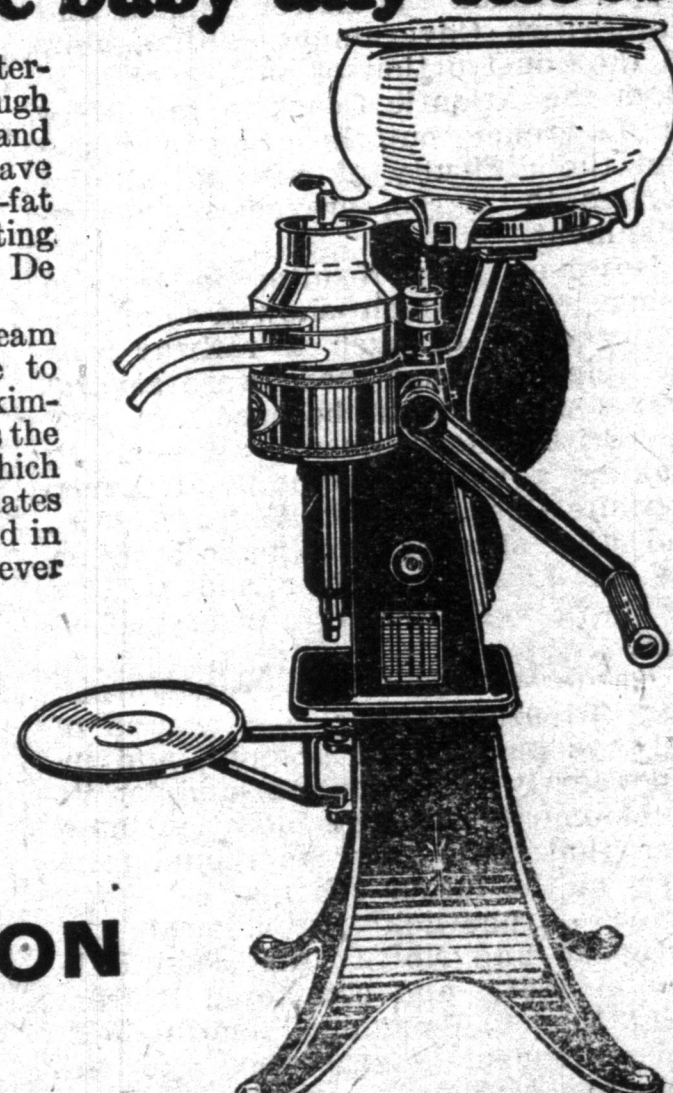

The loss of only 25 cents' worth of butter-fat a day costs you \$91.25 a year—enough to keep the whole family well shod, and then some. Thousands of farmers have stopped the waste of much more butter-fat than that by replacing their cream-wasting separators with new, clean-skimming De Laval.

Never in the history of centrifugal cream separators has there been a machine to equal the new De Laval—for clean skimming, easy turning or durability. It has the wonderful new self-centering bowl which runs smoother and easier, and eliminates vibration. It will give you a richer and in every way better cream than you have ever gotten before.

The new De Laval is the cheapest separator on the market, when you take into consideration the closer skimming and greater durability.
